Sale of Commercial Bred Heifers will start at 1:00 PM

Farmfair Commercial Bred Heifer Show & Sale Class 3 - Alberta Educational Research Herds

Welcome to the Farmfair Bred Heifer sale & the Education Herd lots section of the Sale. This year we will be selling 1 pen of bred heifers and displaying and showing 3 others of the educational research herds in Alberta. The Lacombe Research Station, University of Alberta Kinsella Ranch, Lakeland College, and Olds College will be displaying heifers that have been developed through the intensive selection and cross breeding programs at each research station. The purpose of displaying & selling these heifers are to show producers what is happening at the research herds and how we use selection tools, such as genomics or DNA testing, in combination with observable traits, to help select the best breeding animals for productivity, fertility, low maintenance, feed efficiency, survivability, and profitability. For more information, come by the "Genomics Showcase" in Hall B.
