BOW SLOPE SHIPPING ASSOCIATION . BROOKS, AB

Welcome

Welcome to the 13th Annual Hard Grass Bull Sale. Working with a ranching family that the programs adhere to the same conditions that their commercial customers raise their cattle in is exciting as they parallel each other. A relatively low input system of letting the cattle do their thing in the environment they're raised is a great template to what their progeny will do. There is little fuss with these bulls as they are born in the spring on grass and letting cows be cows. Breeding cattle doesn't have to be a difficult proposition if you let them sort it for themselves. A continuous cull on these bulls takes place in offering you a product that will propel you forward in your breeding goals.

Check the bulls out at their respective ranches or Sunday after in Brooks. It is a worthwhile trip to witness the passion the two outfits have for breeding good Angus cattle. Any questions feel welcome to reach out and we'd be happy to assist you.

On behalf of the Hardgrass bull sale team, welcome to our 13th annual sale. This strong group of long yearlings was intentionally developed for our customers and the short-grass prairie environment. Born on pasture, they were fed a development ration through the winter and returned to pasture for the summer. Selected for sound feet and docility, they are ready to go to work. Every bull offered will have passed a recent semen evaluation.

We sincerely thank our customers for their continued support.

We are pleased to offer this select group of bulls. With heifer calves making up 65% of last spring's calf crop, fewer bulls made the cut for sale day. They had an excellent summer on grass and are ready to go to work for you. The cows follow a comprehensive herd health protocol developed with our veterinarian, Dr. Jan Currah. The bulls are current on all vaccinations and have received two doses of Fusogard. Please contact us with any questions or to arrange a viewing before sale day.

-Steven and Martina Wade

There have been some exciting new changes here at Peake Ranching. I would like to thank my father Stratton Peake with Flying U Cattle Co for giving me the opportunity to take over management of his purebred Red Angus cow herd. Moving forward the cows may be running under a different herd name, but the cows will stay the same. I hope to carry on with the goals dad established of raising highly functional, hands off cattle that suit our shortgrass prairie.

My goal is to produce quiet, easy doing cattle that thrive in their environment and I feel that this year's offering are great examples. The herd undergoes strict culling for temperament, udders and foot quality. I have always felt that your cows should work for you, not you for them. Feel free to reach out any time if you have any questions and cow tours are always welcome!

-Michelle Peake
