November 2016

To All Sale Consignors and Potential Buyers;

On behalf of the Canadian Bison Association National Show and Sale committee, I would like to announce some exciting changes to this year's show & sale. These changes are being made in response feedback from consignors and industry trends. The changes will offer consignors and buyers more opportunities by expanding the markets while reducing the stress and the risks to both the bison and their handlers through minimal handling.

This year, all bison entered in the show will be videoed prior to the sale. On sale day, the animals will remain in the pens and presented in the sale ring on a video screen. The video will be available online, prior to the Tuesday November 22 sale.

The Online Sale Broadcast is being handled by Direct Livestock Marketing System (DLMS), and will include live audio/video and live bidding for anyone interested, via www.dlms.ca. DLMS is an internet based online auction that provides a link between producers to buyers across North America. DLMS auctions are broadcast over the internet and therefore have the power to bring together buyers and sellers that would otherwise not be able to conduct business.

We will assist in any way we can to provide transportation and temporary accommodation for animals to those buyers from greater distances. In addition to the ability to begin loading out animals one hour after the sale, we have added the option to allow load out prior to 9:00 AM Wednesday morning.

The changes made promise to make this year's Canadian National Bison Show & Sale, one of the best ways to promote our industry, and market the finest bison breeding stock available to those interested in improving their bison herd genetics.

Yours truly,

Nolan Miller
Chair
Show & Sale Committee

JUDGES

Brian Olfert, Bezanson, AB

Brian got involved with bison in 2000 when he started at the Adam Ranch near Bezanson, AB. He managed the ranch for 11 yrs, along with his wife Shelley and family. Brian is currently self-employed as an independent sales representative for Pioneer Seeds, along with starting a small equipment sales dealership in the Debolt area. Brian still stays involved with the bison industry on a consulting basis, and helping out during weaning and pregnancy checking season.

John Cammack, Cammack Buffalo Ranch, Stoneville, SD

John, his dad Mike and Uncle Lane bought their first buffalo in 1998. He grew up on the ranch in Stoneville, learning the ways of agriculture from the 4 generations before him. He runs a cow/calf operation of 350 buffalo cows and 300 angus cows selling calves at weaning, as well as selling private treaty breeding bulls. Over the past 10 years he has entered buffalo in shows and brought home awards and trophies attesting to his passion for the buffalo. He is always looking to better the herds through top quality genetics. John has been involved in many conferences speaking, judging, and serving on boards. Along with his Uncle Lane, John works with his wife Melanie and their 4 kids on the ranch daily hoping to pass it down to the next generations.

Judges Comments-November 22, 2016 John Deere Sale Arena

Judges **Olfert & Cammack** will share their comments on the sale animals prior to the sale. It is an great opportunity to access the opinions of respected and knowledgeable bison producers. All producers can benefit from this session. This year they it will be held down at the grounds just outside the sales ring at 9:30 AM

Thank you sponsors KLB Bison Ranch Inc

BISON HANDLERS

Les Kroeger will once again be lead handler for this years CNSS.

Les has been dedicated to the humane handling of the bison for many years. Along with Les handling the bison will be Brett Kot, Jim, Jamie & Corey Lowes (The Buff-A-Lowes) and Chance Kroeger.

CANADIAN NATIONAL SHOW & SALE

2016 CONSIGNOR PROFILES

BELL CREEK BISON

Glenn & Rod Herzog

Mayview, SK

PH: 306-747-2909

Bell Creek Bison is situated by Mayview, Saskatchewan along the southern edge of the Prince Albert National Park. The original herd consisted of 20 thick heifers and a bull purchased from Matt Boake back in 1991. Since then the herd has undergone continued growth, and now consists of three herds totalling 220 head. We enjoy the challenge of improving the quality of our animals and the opportunity to do so.

Our herd is culled annually, using our own top end yearling heifers as replacements. We are striving for optimum weight gain, form and fertility, and so far this strategy is serving us well and has resulted in early finishing animals with high carcass weights and a uniform, productive cow herd.

We are very thankful for having the opportunity to participate in the 2014/15 and 2015/16 bull draft. What a success it has turned out to be!

BIG COUNTRY BISON

Garry, Derek, Chris Shankowsky

Pelly SK

PH: 1-306-595-4627

Our bison herd was started in 1996 with the purchase of ten heifer calves from the Schwitzers. The herd has now grown to 180 females in four separate herds. We are continuously improving the quality of our herd by making select purchases of top quality breeding stock and meticulously selecting females out of our own herd. We are both proud and excited to be involved in the bison industry and see a very bright future for this industry in the upcoming years.

BISON SPIRIT RANCH

Trevor & Jodie Gompf

Oak Lake, MB

PH: 204-855-2707

Bison Spirit Ranch is owned and operated by Trevor and Jodie Gompf of Oak Lake, MB. This year we ran 4 different breeding herds consisting of plains, woods, and woods/plains cross genetics.

We are very fortunate to have the bull power we have and when crossed onto our performance tested females the resulting offspring do very well. We believe that in order to have great genetics a ranch should set up a program where they are consistently seeing positive results. Culling sub-par animals or adding new bulls/females in is essential to a successful operation. This strict program has proven itself at Bison Spirit Ranch allowing us to consistently place at the provincial, national and international level. In addition, we are proud to have placed in the top 5 at the Canadian Bison Bull Draft (2015 - 2nd, 2016 - 1st and 5th).

Be sure to check out the Bison Spirit Ranch Page on Facebook or stop by for a tour.

BORDERLAND AGRICULTURE

Brooks, Jen & Ron White

Pierson, MB

PH: 204-634-2372

Borderland Agriculture is proud to be a 5th generation family farm located in southwest Manitoba. Our name represents the boundaries of our farmland with the southern edge resting on the US border and the western side creeping into Saskatchewan where some of our bison pasture is located. We have transitioned our name from Antler River Ranches over the last couple of years to streamline our enterprises. We have taken an approach towards regenerative agriculture and are focusing on integrating our bison herd more with our crop land in an attempt to improve our soil health while at the same time growing better crops and healthier, more productive bison. We have progressively integrated bison into our operation since 1999 and have been proud to bring many high quality animals to the Canadian National Show as well as the Great Spirit Show and Sale. Our recent showing in Regina in 2015 resulted in the Reserve Grand Champion Female. Thank you to Bison Spirit Ranch for giving her a good home! Our yearling bull "SHOWTIME" recently placed in the top 5 at the very successful Canadian Bison Bull Draft. We have made a lot of good friends in this industry over the years and look forward to making some more. Like us at facebook.com/borderlandagriculture.

CANADIAN NATIONAL SHOW & SALE

2016 CONSIGNOR PROFILES

IRISH CREEK BISON

Jaret & Karissa Dorey

Vermilion, AB

PH: 780-709-4090

Irish Creek Bison Ranch has been raising quality stock since 1992. The ranch has grown to have three distinct herds: Woods, Plains, and Wood Cross. Irish Creek Bison has continued to emphasize the importance of genetics as excellent bloodlines still run strong. (i.e. Bothwell, Ace, Hanging Ice, Durham Ranch) Our ranch aims to raise a long, wide quality animal that will stand out from the rest and perform well.

K1 BISON RANCH

Bernie & Brett Kot

Weyburn, SK

PH: 306-861-2060, 306-861-1526

K-1 Bison Ranch started in the Bison industry in 1996. It is located north of Weyburn, Sk. The ranch is owned and operated by Bernie and Brett Kot. We currently run 600 head, it is a cow/calf operation right through to a finishing program. We believe in raising top quality stock and have bought many champions in the past from various producers to get the quality genetics and best rate of gain from our herd. If you are in the area, tours are always welcomed.

LONE SPRUCE BISON

Shane Fielding

Amaranth, MB

PH: 204. 872.5312

Gary & Ruby Fielding started Hidden Acres Buffalo Ranch at Cold Lake Alberta in 1985 with 25 six month old calves. They could not have a "few" buffalo so expanded to Lone Spruce Bison Ranch in Amaranth Manitoba in 2000. Both ranches are managed on native grass, and have a basic cow herd of Plains females.

Their son Shane has been involved in the operation from the beginning, but he decided to make the move permanent in 2009. In 2011, Shane introduced pure Woods Bulls and Woods X Bulls from top producers to the herd in Manitoba, adding about 100 pounds to the weaning weights of the calves. We are just beginning to see the results of his breeding program. He plans to better the cow herd by selectively adding these females into the breeding program. Shane is enthusiastic about the bison industry and sees a great future.

Last year at CNSS Shane won Rookie of the Year, which he thought was pretty cool. He also won 4th place Yearling Heifer, a great launch to future opportunities. Since introducing Woods Bulls and Woods X Bulls in 2011, the selective heifer

calves born in 2012 from these bulls have had their first calves this year. Although the calves have not been processed yet, viewing them in the field they seem longer and deeper and taller than previous years. Sorting and weighing season is going to be very exciting. Shane has an open invitation to stop in for a visit and he will gladly show you around.

PRAIRIELAND BISON

Cole & Shelby Haubrich

Hodgeville, SK

PH: 306-677-7151

Prairieland Bison is located south west of Hodgeville, Sk, and is owned and managed by Cole & Shelby Haubrich. We have been raising bison since 2011 and presently have a herd that consist of 100 Wood X cows. We have purchased bulls from Elk Valley Ranches, Beaver Creek, and Silver Creek Bison. We also use some of our select home raised bulls. Our operation is a cow/calf, we select the top 10% of our heifers for replacements, and the top 5% of our bulls for breeding prospects. We are very pleased to have the opportunity to participate in the CNSS for the first time.

ROCKY MEADOW BISON

Ryan Yacyshen

Rama, SK

PH: 306-593-2297

Rocky Meadow Bison is the direct result of a childhood fascination for bison. That fascination grew after receiving a copy of Smoke Signals while in grade 7(1994). Soon after that, the plans were in the making for hopefully someday owning bison. Those plans came closer to reality when the opportunity to purchase a small group of heifers presented itself while working in Drayton Valley, AB, at the age of 21 (2003). Since then, the herd has grown to include 70 very docile, thick, productive Plains cows. The majority of the foundation herd consisted of heifers from Buffalo Hill Ranch (Orcheski) and the original bulls from Orvall Enge and Cyndy Donally (XY Bison). A good portion of the current herd consists of our own home raised females— retained only from cows that have been consistently highly productive— and introduced them to Garden River and Hanson bulls. These bison are my pride and joy! And they live an extremely low stress life and are rotationally grazed in 3 separate breeding groups through out the summer. After paying closer attention to pasture management and feed quality, I have noticed a steady improvement of overall productivity. Raising bison is my passion and I am very enthusiastic and optimistic about the industry, and am excited to attend the convention and participate in the CNSS.

CANADIAN NATIONAL SHOW & SALE

2016 CONSIGNOR PROFILES

ROUGH BARK BISON

Rob & Ethan Byrns
Yellow Grass, SK
PH: 306-465-2780

Rough Bark Bison Company was established in 1999 by David & Carol Byrns, and is located West of Yellow Grass, Saskatchewan on the Rough Bark Creek. Rob, Robyn & family plan to continue the ranching operation, focusing on raising quality breeding stock and finishing feeders for market. The breeding herd of 145 cows and 10 bulls is predominantly Wood X with many of them being purchased at Provincial and National Shows Sales, as well as retaining our own top ranch raised replacements. Our family is looking forward to our future in the bison industry.

RUSTIC HILLS BISON

Blair & Sheri Welter
Plunkett, SK
PH: 306-231-9980

We have been in the bison industry since 2001 when we bought our first heifers. We have always used Wolverine bulls, with our latest purchase from them tag #104, sire to Reserve Grand Champion Yearling Bull in Denver 2016. One of our bulls was used to breed our 87 two year old heifers. Our ranch is located at Plunkett, Sk, where we grain farm and raise three kids. The large group of heifers are for sale, so if interested please call.

SHALE CREEK BISON RANCH

Jamie ,Debbie, Danielle & Tara Moran
Russell, MB
PH: 204-773-2674

Shale Creek Bison Ranch is located just outside of Russell, Manitoba and is owned and managed by Jamie and Debbie and our two daughters Danielle and Tara. Our herd is 80% breeding stock which was selected from shows and sales across Canada. We have been very successful at many shows and sales and are very proud of what we have accomplished. We were very successful in 2010 with our animals being awarded the Grand Champion Male, Female, and Reserved Champion Female at the Great Spirit Show and Sale that is in Brandon, Manitoba. At the 2012 Canadian National Show and Sale in Regina, Saskatchewan, our yearling heifers won Gold and Silver trophies and our Gold Trophy heifer went on to win the Grand Champion Female. In 2015 we went to the National Bison Association Gold Trophy Show in Denver, Colorado for our first time. We took a yearling heifer and she won Gold. Also in 2015 at the Great Spirit Show and Sale in Brandon, Manitoba, we won the Yearling Heifer Class, as well as the Grand Champion Yearling Heifer. We welcome anyone to come and visit our ranch so we can show you our animals.

SILVER CREEK BISON

Nolan & Nicole Miller (The Miller Family)
Binscarth, MB
PH: 204-532-2174

Silver Creek Bison first purchased bison in 1988 and currently run 1800 head. We run a cow calf through to finishing program and keep close records throughout to select for our breeding program. Over the years we have moved the majority of the breeding to Wood X bulls on Wood X cows to improve conformation, carcass yield and other carcass traits. We run a herd of pure Wood and a herd of pure Plains to supply seed stock to other producers. If you are in our area please stop in; we would be glad to show you around.

XY BISON RANCH

Bill & Faye Bouffieux & Family
Cyndy Donally
Fort St. John, BC
PH: 250-785-4183, 250-262-9736

XY Bison Ranch operated by Bill & Fay Bouffieux with daughters Cyndy, Sandy & their families is located along the Peace River near Fort St. John, BC. The cow herd (mainly dark) was started 27 years ago with Plains heifers originating from the Merv Staggs herd. The breeding herd has been carefully selected for self reliance, consistent calving with the meat animals producing high yielding carcasses. The bull battery includes: Briggs-1/2 Woods, Dorey-1/2 Woods, Davy-100% Woods, Taylor-1/2 Woods, Elk Valley-1/2 Woods Patterson-100%Woods. We are proud of our outstanding herd and truly appreciate the many repeat buyers and the champions we have raised.

Traceability- Premise Registration

Traceability is becoming ever increasingly demanded by domestic and global customers.

The Canadian Bison Association has historically been leaders in traceability. For many years the industry has required animal identification with specific approved tags. Initially with bar coded dangles then progression to RFID. Full Traceability is comprised of three pillars, animal identification, premise registration and recording animal movement. As such the CBA's focus is to assist producers in moving towards full traceability by providing information on registering their premise.

Premise registration is governed by the provinces and territories as deemed by the federal government. Several provinces such as Alberta, Ontario and Manitoba require mandatory registration. The remaining province and territories at this time are requesting on a voluntary basis. Regardless of area there is no fee for registering a premise and the information is kept confidential. Both the CBA and the provinces and territories will provide support to producers in registering their premise.

Contact the CBA for more information 1.306.522.4766 cba1@sasktel.net

TERMS & CONDITIONS

TERMS

Accepted payment methods Cash, Cashier's Cheque, Personal Cheque with picture identification, Bank Letter of Guarantee with Cheque or Wire Transfer. Payment must be made before the livestock will be released from the sale barn.

CONDITIONS

Heartland Livestock Services (HLS), the Canadian Bison Association and its associates act as agents only on all sales and are not responsible for Buyer/Seller error or misunderstanding. All guarantees are strictly between the buyer and seller. Data provided in this catalogue is generally correct, but occasionally errors do occur due to incorrect data received from others, processing mistakes and other unforeseen reasons. We disclaim liability for such errors, but appreciate them being called to our attention.

In the case that two bidders believe that they are the winning bidder at the time that the hammer falls, at that time the auctioneer may open the bidding between those two parties and those two only and the bidding may continue. This is at the total discretion of the auctioneer.

Title passes to buyer at the fall of the hammer. All risk of injury to the livestock becomes buyer's risk at the passing of the title. Buyer agrees to release, defend, indemnify and hold owners, managers, office staff, sale committee and employees harmless for all losses, expenses and claims related to the possession, care, custody, control or maintenance after the fall of the hammer of any livestock on which he or she is the successful bidder, whether resulting in whole or in part from their own negligence, including but not limited to any claims arising out of injuries or damages caused by the livestock after the fall of the hammer. The livestock will be held for the buyer until the buyer has made full settlement as provided in the terms of the sale. Buyer shall immediately present him/herself to make settlement if requested by the auctioneer, but in any case shall present him/herself within (30) minutes of the conclusion of the sale. Buyers are asked to check all required paperwork at the time of settlement, as all paperwork except for record of movement will be mailed directly to the successful bidder the following Monday. Please leave a correct mailing address.

INSURANCE

Optional insurance coverage will be available to buyers. Buyers can obtain information on insurance and purchase insurance through Hartford Insurance when registering with Heartland Livestock Services for a buyer number.

NOTES

US rates will be announced at sale time

Load – Up: November 22, 2016– 1 Hour after Sale, no later than 6:00 p.m.

The following are conditions and requirements for entry into

the Canadian National Show & Sale. Consignor documentation and information to the best of the Canadian Bison Association's knowledge is true and accurate. However the Canadian Bison Association nor Heartland Livestock Services guarantees the accuracy and assumes no responsibility in the event of a dispute.

Certificate of Veterinary Inspection: This is required for each animal and must be signed by an accredited veterinarian. All animals must be treated for internal & external parasites within 30 days of the sale.

Tuberculosis: - Bison must originate from herds of Negative Status as of December 31, 2003 as outlined by the Canadian Food Inspection Agency's Captive Ungulate Program which is administered by the Canadian Bison Association. Bison originating from or which have been in the Riding Mountain Eradication Area (RMEA) must be tested and be accompanied by the required CFIA Movement Permit

Brucellosis: - No testing required.

Import and export: Farmed bison are considered to be bovine and follow cattle regulations.

Pregnancy tests: An acceptable test performed by a veterinarian. All Bred 2 year olds must be verified as bred and safe with calf prior to the sale. All Yearling heifers must be verified as being open.

Semen Test: All yearling and 2-year-old bulls must be accompanied by a semen evaluation signed by an accredited veterinarian stating the animal is a satisfactory breeder. A standard Semen evaluation form will be accepted.

Age: All bison ages must be verified by an accredited veterinarian and indicated on the Health Certificate.

Hormones: The consignor warrants that there has been no use of growth hormones.

Liabilities:

The consignor assumes all responsibilities in regard to the above-mentioned terms and conditions of this show and sale including but not limited to, proper health testing and documentation, proper documentation of a positive pregnancy test (where applicable) and the documentation of age. The Canadian Bison Association acts only as agent and will assume NO responsibility in the event of injury or death or of a discrepancy between the buyer and consignor.

The Canadian Bison Association, its officers, agents or employees, assume no responsibility for any animal before, during, or after the Canadian National Bison Show and Sale.
