National Simmental Show
Canadian Western Agribition
Regina, SK
9 AM | November 22, 2017

Saskatchewan is a source of world-class genetics.

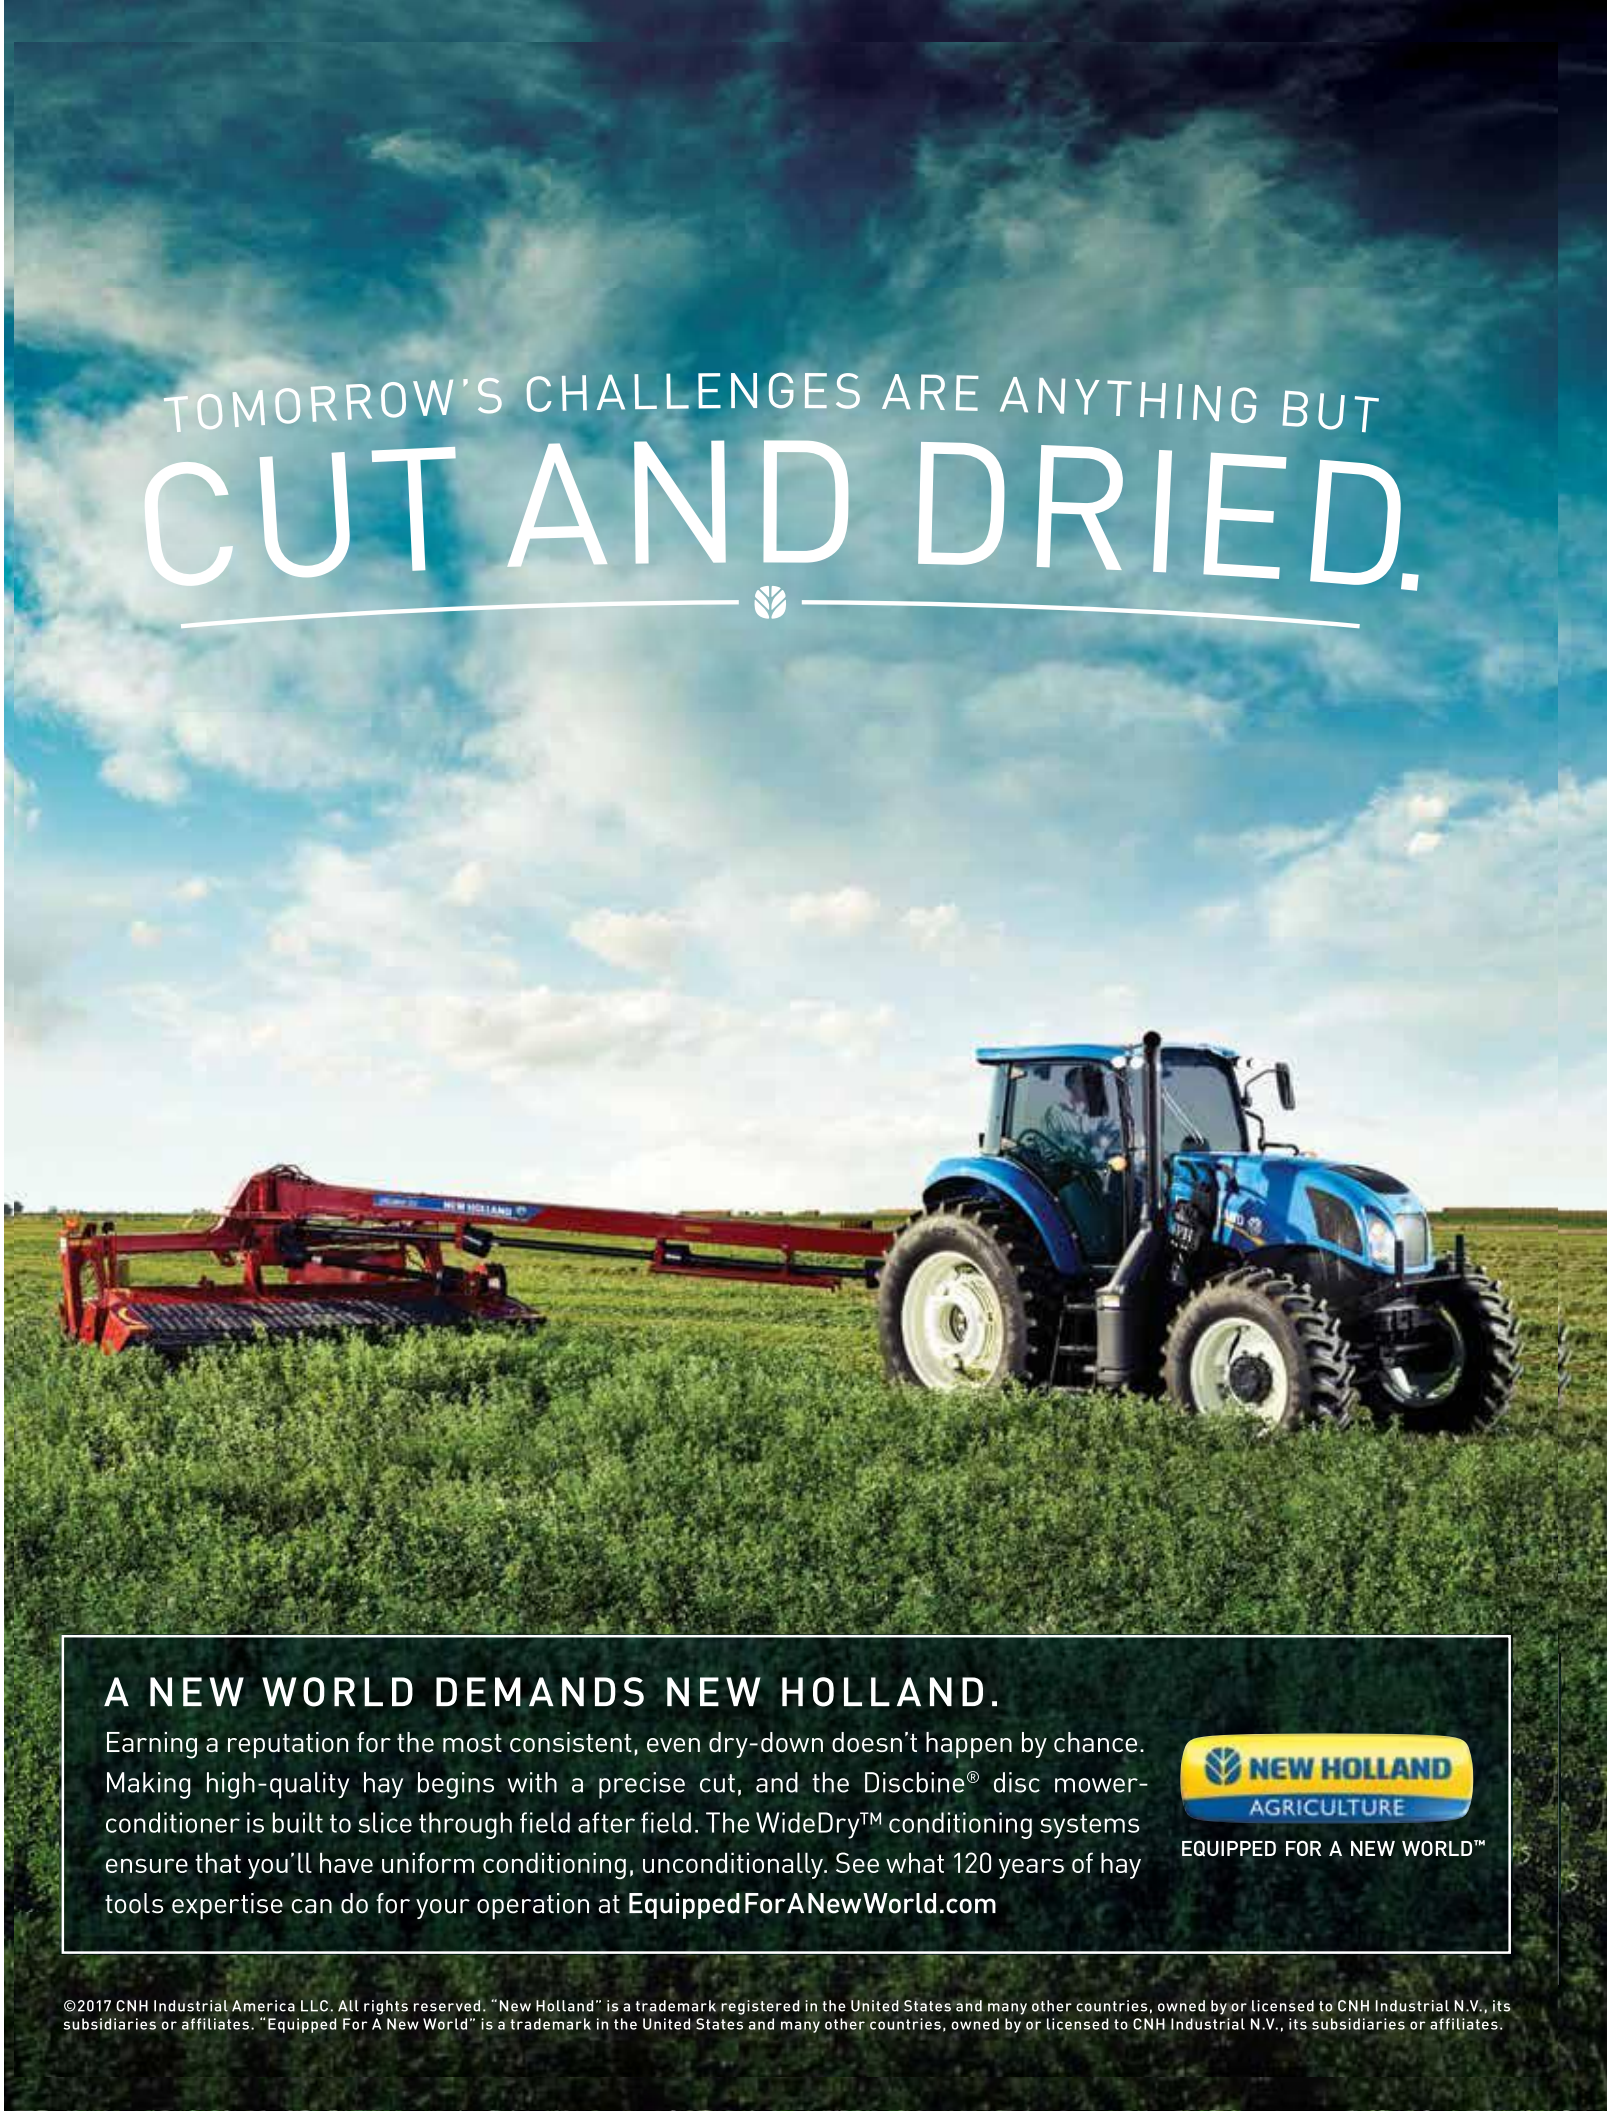
Saskatchewan's beef herds continue to rank among the finest in the world thanks to our high-quality cattle, which start with renowned beef genetics.

Our ranchers are dedicated to consistently producing nutritious, safe beef using practices that sustain the health and productivity of grasslands and preserve the environment. At the same time, researchers across the province dedicate time and resources to projects that help improve everything from yield to herd health while improving or maintaining the environment. The success of both sectors has helped to build Saskatchewan's reputation as a world-class supplier of beef genetics.

By showing your support for Saskatchewan's producers by attending shows like Canadian Western Agribition and investing in our agribusinesses, you're helping ensure that dedication to research and sound practices continues into the future. Thank you.

Saskatchewan.ca

Saskatchewan



A NEW WORLD DEMANDS NEW HOLLAND.

Earning a reputation for the most consistent, even dry-down doesn't happen by chance. Making high-quality hay begins with a precise cut, and the Discbine® disc mower-conditioner is built to slice through field after field. The WideDry™ conditioning systems ensure that you'll have uniform conditioning, unconditionally. See what 120 years of hay tools expertise can do for your operation at **EquippedForANewWorld.com**
