

A close-up, artistic photograph of a horse's head, focusing on its eye and the texture of its coat. The lighting is warm and soft, creating a gentle glow on the horse's face. The horse's eye is large and expressive, looking slightly to the side. The coat appears to be a mix of brown and white, with some darker patches visible.

Classy black gelding that is easy going, broke, and very easy to get along with. Rick was used by Sam Morrison at the community pasture all summer - hauled to brandings, used checking cattle and fences, and one-man doctoring cows and calves. This colt stays calm and relaxed even in tight situations and is an in-your-pocket type of horse. Rick would make an outstanding trail, show, or all-around horse, and based on his disposition, will likely make an excellent youth/kids horse with a couple years of riding. Loads and hauls well, UTD on dental, farrier, etc.

Trooper is a quiet, reliable 10-year-old ranch gelding. He has been used extensively for all aspects of ranch work: sorting, branding, and doctoring. Nice, solid-boned horse that is willing and loves to work and will give you his all. He is very cowy, tracks cattle very well, and isn't afraid to get right in there. He is also a quiet ride, honest as the day is long. He is used to ranch life, machinery, quads, dogs, kids, and cattle. Not much fazes this boy! Loads and trailers well. Good with foot handling. Rides out alone well, moves smooth. Trooper has two Prophet's Thumb Prints on his neck which, according to folklore, means he is a descendent of one of the 5 broodmares treasured by the Prophet Mohammed and is a sign of luck, speed, and wisdom. For more information, contact Dave Matechuk (owner) at 306-542-7434 or Riley Penner (trainer) at 306-547-8460.

SAM MORRISON

Slim is a beautiful bay gelding, ready for any rider, from novice to experienced, while having the mind and athleticism to perform at any level. At the young age of 8, he has lots of years of use left, but is old enough to have the experiences of being used in PFRA and community pastures. As well as being used to doctor cattle in a one-man show, he has been used as a head horse and heel horse in the team roping pen. Standing at 15.3 hh, he has the size to drag and handle bulls. When you're not dragging bulls and doctoring sick cattle, you can take your family out for a Sunday drive if you have a wagon. It doesn't need to be said on a horse with this kind of experience, but he loads and trailers well, stands tied, and is good for the farrier. I'd love to tell you everything he's good at, but I've run out of room. I can't wait to hear about him in your operation and how well he fits in.
