'Scarlet' has been raised around cattle and shows an aptitude towards a career as a ranch horse, team penner, Rainier, Highschool rodeo or working cow horse. This is an extremely special filly to us, as she is the first "Hank" baby we are riding & out of Tressie's first reining mare. "Annie" is everything like her sire. She has a big presence, an incredible mind, she's cowy, with a HUGE stop, loads of natural ability and things just come easy for her. She's had about 60 days on her throughout the year and though she is behind we believe she has what it takes to be a top contender in next year's cowhorse futurities. We would love the opportunity to keep this one in the barn, only reason she is being offered for sale is because we are expecting and trying to downsize.

He is very good minded strong, smooth moving colt with a ton of try & desire to please. His sire "boonlit" has proven himself as a producer, with offspring earning close to \$60k with his oldest foals only 6 years old! With the heart and talent this colt has he is sure to go on to do amazing things whether as a cowhorse, rope horse, or barrel horse. Again we would love to keep this colt in training for next years cowhorse futurities.

Romeo is a 3 year old gelding that has taking to his training program with ease.

Started

this spring, Romeo was called to the front line early on where he began his career at the auction market, having no problem moving cattle up and down the alleys with all the crazy market commotion. His calm, laid back and gentle nature also allowed him to be a chosen parade horse. Romeo carried his first flagthroug the Ponoka parade after only 30 days of riding. After being exposed to almost anything possible, Romeo spent most of his summer holidays out on pasture allowing him time to develop and grow up. Romeo is great for the farrier, deworming and vaccinating. He is easy to catch, haul and be around. Anyone can get along with this trusty steed. He is ready to go in any direction. Romeo will be spending his time prior to sale day gathering pairs from pastures, penning cattle at both Rimbey and Ponoka auction markets and visiting the arena.

HONEYBEE SMOKIN, this gorgeous buckskin filly will turn heads everywhere you go! Not only is she a looker but she has everything you need to go with it, excellent conformation, a pedigree, color, and that professional start that sets you up for success. Her sire EYEM STILL SMOKIN is consistently producing offspring that can perform, with his oldest foals just six, you should be seeing more of them up and coming as there is quite a few now in professional programs. One has already been a money earner here in the Team Roping Futurity. Her dam still has LEO and KING FRITZ on her papers, so with that good old foundation blood in there, you can count on longevity. This filly has been started right, pasture checked cows, and started on the Hot Heels. She has excellent ground and saddling manners, teeth are done, and she has been hauled. She is confident, talented, and has a big soft eye to match her disposition. This filly is the very definition of versatility and would suit any level of program. Buying from this sale would qualify her for \$10,000 added in the Futurities here.

"Ruby" is a very balanced, feely mare that really knows how to use herself. Being an OWN dtr of ASOF (#3 leading barrel sire) and out of a NRCHA, NRHA, NCHA \$\$ producing mare, this filly has the proven pedigree to back up all of her talent. Show her, rope on her, run her on the barrels and then breed her later this mare is HUGE asset to anyone's program! Toni is a 11yr old gelding by Meltonian. He is not registered but I have attached parentage document and veterinary age verification. He has been barrel raced and is consistently at the top of 2D. He has also been out on the trails lots and by himself. Selling because just not enough time to ride. He has had lots of time off, but not worried about hopping on him out in the field back and riding him. Good to load, good with farrier, clipping, easy to pony other horses and has been around cows, likes to work them but can get a little hot...
