29TH ANNUAL BULL SALE
TUESDAY . MARCH 10, 2020
 BALOG AUCTION . LETHBRIDGE, AB . 1:00PM

Welcome

In Appreciation

Once again, our thanks to Buck Thompson for coming out to fit the bulls before picturing, and Grant and Lauralee Rolston for their effort, picturing.

We'd like to thank Josh Pickett for his commitment and hard work. He shares our passion for cattle and farming, and has become very familiar with our operation. Thank for dedicating so much time and effort.

Thanks to BJ Scheirlink for helping us out with almost anything, at various times of the year. We appreciate the time you take out of your schedule to make ours less hectic.

Johnny, Charles, Willard, Jack & Dennis

Friends & Fellow Cattlemen,

A warm welcome to the 2020 edition of the Leeuwenburgh Angus Bull Sale. We along with many, are excited for what the New Year may bring, but might be more relieved to put 2019 in the rear-view mirror. Amidst all the challenges last year brought, we must thank and acknowledge our previous buyers and bidders for the loyal support and the fact they continue to have confidence in our program. We are more committed than ever in our quest to provide multi trait, real-world genetics for your herds. More than ever the cattlemen, or woman needs genetics that are both efficient and profitable. With cost management in mind, whether that be by retaining lower maintenance females or higher gaining steers in the feedlot with better yields, we feel our bulls will push your herd towards these targets. We encourage you to study our 2020 bull offering and compare. We are confident in the consistency and quality. We invite you to stop by to view the cows and bulls, to see if our program fits your requirements. Please do not hesitate to call. We love talking cattle and value all input in regards to what we can improve on in the future. We understand that your herd bull purchases are a huge part of your operations bottom line and we aim to give you all the information available to help with your selections. Thanks for considering our program and taking the time to view our offering. We look forward to seeing you all on March 10th!

Dennis Leeuwenburgh

Welcome Fellow Cattlemen!! To The Leeuwenburgh Angus 29th Annual Bull Sale. The trend setter sale, as I believe we can call it! Every year, the standard plus in the industry, seems to be set by the Leeuwenburgh offering! Again this year, a tremendous set of herd changing breeding bulls! The Leeuwenburgh Family lives the industry in all aspects. A commercial & purebred cow herd, feeder cattle, finished cattle and one of the top bull sales in the Nation. New exciting genetics backed up with powerful performances. Calving Ease to compliment easy doing and easy keeping cattle. Repeat customers who have shared the success of this proven program are a true testament to why you should use a Leeuwenburgh bulls.

Respectfully,

R.C. (Bob) Balog

ALL BULLS ARE FULLY TESTED AND 100% GUARANTEED NO BULLS SOLD PRIOR TO THE SALE!

Everything possible will be done to assure that every bull in this sale will be a breeder. Dr. Mitch Oviatt, (Ranch Docs, Lethbridge) will scrotal measure and physically evaluate every bull. Any animal that has not proven itself within 6 months of sale, (September 30, 2020 if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a 6-month period to prove the animal a breeder. The seller at his option may either return the purchase price or replace the animal with another of equal quality in full settlement and satisfaction of all claims. Any complaints regarding any animal in this sale shall be made to the breeder. All complaints must be reported in writing by the buyer to the seller within 6 months and any animal returned must be free of disease and in good health.

CATALOGUE INFORMATION

All information is up to date as of publication date. Pedigree's and EPD's are supplied by the Canadian Angus Association, and all other information has been supplied by the seller. Information in this catalogue is believed to be accurate, but any errors discovered in the catalogue, will be corrected by announcements, from the auction stand at sale time, and such corrections will take precedence over the printed matter in this document.

IN - HERD SEMEN INTEREST

Leeuwenburgh Angus reserves the right to draw semen on any bull sold at the buyer's convenience and our cost.

DELIVERY -\$100 CREDIT IF BULL IS TAKEN HOME SALE DAY

Assistance will be given in making delivery after the sale.

PRESALE LUNCH

Join us for lunch at 11:30am Sale Day

INSURANCE

Available at Balog Auction Services - Maureen- 403-320-1980
We strongly suggest you insure your bull purchases.

HOW MUCH CAN YOU AFFORD TO PAY FOR A TOP BULL?

COWMAN FORMULA

Increase in pounds per calf from a top-performance bull

X No. of cows bred to him per year

X No. of years to keep the bull

X Expected selling price of calves

= Additional dollars you can pay for a better bull

Example: A bull who will add 30 lbs to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for \$1.50 per pound.

$$30 \times 25 = 750 \times 4 = 3000 \times 1.50 = \$4,500$$

This bull is worth \$4,500 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving-ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

BULL SELECTION is more important now than it has ever been, in order to MAXIMIZE your cowherd's potential. Settling for just any bull, because he is a couple of hundred dollars cheaper, could deprive you of thousands later. Remember, pounds add up! Find the time to evaluate a bull's performance and EPD'S alike and consider if a breeder's program is similar to your ranch environment - you're buying a piece of the program!

TERMS & CONDITIONS

TERMS - The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd., Lethbridge, AB. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

BIDS - Every animal entering the sale ring will be sold to the highest bidder. A floor price will apply to each animal consigned.

DISPUTES - In case of disputes, bidding will be reopened between parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS - Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalog.

CERTIFICATE OF REGISTRY - A certificate of registry duly transferred will be furnished to the buyer for each animal after the settlement is made.

SHIPPING - Assistance will be given in making shipment after the sale; Balog Auction Services Ltd., or the seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement. Any additional expenses are the responsibility of the buyer, including duty, brokerage fees, etc.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor the owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

LIABILITY - Balog Auction Services Ltd. are acting as agents only and assume no responsibility for representations by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

- Our pick from the 2017 BAR-E-L sale that was the high seller that day to our friends at Dvorak Ranches that we were fortunate enough to partner up with
- Catches your eye immediately with his exceptional shape, muscle pattern and style- herd bull presence and design that has blown away high expectations
- First daughters are flat out awesome, with perfect udders and the style and forage efficiency and fertility a cow herd needs to stay relevant and profitable
- Our heaviest used herd bull in the 2019 breeding season with proven calving ease with calves averaging 78 lbs

- The very best and most complete son of First Down we have raised to date, a moderate BW, cow making herd bull
- Flawless, docile, loaded with red meat that will carry on the tradition of superior shape, fertility and soundness
- His maternal pedigree is loaded with 4 generations of impressive cows that will produce consistently at a high level with low inputs
- His dam is a big broody cow with length, width, and a great foot, grandam 129T had the same foot and ability to raise herd bulls
- Great grandam 57L has had a profound influence on our herd with 12 natural progeny
- Paternal grandam 87R is a donor cow herself producing for 14 years
- We feel On Demand possesses all the qualities necessary to take a breeding program to the next level WI: 107 YI: 108

- A muscle packed paternal brother to HARVESTOR 103C, that was selected by Scott's in 2018 and ended up being our high seller for \$50,000
- A dominant dark red herd bull with natural thickness, consistent bone and big dark foot
- Two full sisters are very impressive cows with impeccable udders, and front pasture design
- Pedigree that blends fresh outcross genetics, with proven maternal greatness of bulls like Rob Roy, New Trend and Masterplan

- A solid thick topped performance bull that is a personal favorite of mine
- Hard to put on a bigger hip and muscle in a moderate package
- Athletic bull, built to cover range country
- Foot quality runs deep in his pedigree
- Dam has three daughters retained, and has top of the breed milk and BW statistics
- Dam is a top 5 cow here at the ranch and will be entering the donor program
- Grandam had 12 natural calves and six daughters in the herd
- Due to late sire verification his Epd's are not accurate and will updated by sale day **RETAINING 1/3 SEMEN INTEREST**

- A massive performance bull with tons of muscle volume and length
- An early standout, who excelled at every measure with 107 wean index and a whopping 116 yearling ratio
- Dam does nothing but produce, with 2 daughters retained, and a son at Heins'
- 3 generations of cows in the top 1% of the breed for milk

23

- Massive in his makeup, loaded with muscle, huge topped, and great depth
- Awesome power bull, designed to push the scale down
- Big bodied dam, with loads of milk, that we purchased in the Bar 4A Dispersal

- A standout Fusion son that was an early standout with stellar phenotype
- Long, thick and muscular with loads of hair
- Herd bull presence and profile, with a moderate birth weight
- Dam is one of the best we own - she combines fertility, fleshing ease, top end milk, udder quality and will enter our donor program
- Two stunning daughters, along with two grand daughters, working in the herd that are front pasture kind, with the same qualities as 92B
- The Fusion x Peacemaker mating has never let us down and will fill our replacement pen in a hurry with stout, docile, easy fleshing heifers
- **RETAINING A 1/3 IN HERD SEMEN INTEREST**

- One of the most complete bulls we've ever raised
- Great footed, fault free structure, long spined in a very smooth package
- Raises the bar to maternal excellence in his pedigree, featuring 5 of the very best cows to ever walk on our ranch, with his stunning dam rocking a 110 weaning ratio and a premier grandam 101M has a ratio of 108 on 10 natural calves

- His incredible sire LWNBGR RESERVE 163C resides at Scott Stock Farms and does an incredible job at adding real meat and muscle in the most efficient way possible
- 163's dam and grandam are both designated premier with ratios at 107 on weaned calves

- Very excited about the future of this bull, and the influence he will have on our breeding program in the future
- Sire and grandsire have done an outstanding job here, and at Scotts', siring bulls with shape, and females that are already producing at a high rate
- Side Track has as much cow making potential as any we've produced
- Dam has a 106 wean ratio on three calves, and top of the breed milk and maternal, but best of all she has perfect feet, along with an impeccable udder

RETAINING 1/2 SEMEN INTEREST

- The paternal side of his pedigree is stacked with our most influential black cows ever in 16W, 14X, 113P and 101M
- A herd sire prospect, with outstanding individual performance and cow power backing him up WI: 102 YI: 114

- Bigger framed bull, with cow family going back to herd favorite 50Y, and the CAA Premiere 16W •WI: 109 YI: 104

- A big time Payraise son that combines calving ease, pedigree, performance in a really attractive package
- # 1 ranked yearling bull with a yearling ratio of 131
- The Payraise cattle are larger framed, and have very good ability to gain
- Dam is a front pasture daughter of Resource
- She has had 3 bull calves averaging 77 lbs at birth

GRANDAM BISMARCK 50Y

- Premium sons with awesome power and sound structure
- Big power bulls that will no doubt sire pay weight
- Athletic, easy moving, this is a rugged group of bulls that are built for ranch country

- All 3 of the cows represented are good footed, and have heavy milk flow
- The Premium daughters we will be breeding in the spring look great, and to be big broody mama cows

FUSOGARD VACCINE

All sale bulls have been vaccinated with Fusogard as an aid in the reduction of footrot, and given an oral dewormer. Fusogard is an alternative for natural and organic beef producers because it's not an antibiotic. It is recommended to revaccinate annually as a preventative against signs of foot rot. All bulls are on the Pfizer Gold Program.

CANADIAN AngusONE EVALUATION

Please note that the EPDs listed in this sale catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus, and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize your selves with the new Breed Average and with the new threshold number for traits of importance to you. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association, at 1-888-571-3580, and for more information about the genetics offered in this catalogue and what might best suit your breeding needs please contact the seller.

AVERAGE EPD'S FOR ALL RED CALVES BORN IN 2019

| BW | WW | YW | M | TM | MARB | REA | CWT |
|-----|----|----|----|----|------|------|-----|
| 1.2 | 35 | 60 | 22 | 39 | 0.25 | 0.34 | 23 |

AVERAGE EPD'S FOR ALL BLACK CALVES BORN IN 2019

| BW | WW | YW | M | TM | MARB | REA | CWT |
|-----|----|----|----|----|------|------|-----|
| 2.0 | 47 | 83 | 22 | 45 | 0.39 | 0.45 | 36 |

EPD: Expected Progeny Difference is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPD's can shift accordingly.

BW: Birth weight is related to calving ease. Lower birth weights tend to reduce the incidence of calving difficulties. Lower birth weight EPD is more desirable for heifers.

WW: Weaning Weight is an indicator of growth from birth to weaning(205 days of age). During this period, the calf's growth is influenced by it's mother's ability to produce milk and it's own ability to grow.

YW: Yearling Weight is an indicator of growth from birth to yearling (365 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities. It is the best estimate for total growth.

MILK: Milk EPD reflects the milking ability of a sire's daughters expressed in pounds of calf weaned.

TM: The Total Maternal EPD predicts the difference in weaning weight of the sire's daughter's progeny due to the combination of growth genetics and milking ability. It is equal to one-half of the weaning weight EPD plus the milk EPD.

CARCASS EPD

MARB:(%IMF) Marbling EPD is a predictor of the level of intramuscular fat and is derived using CUP ultrasound data and actual carcass data. Marbling determines quality grade.

REA: (Ribeye Area) Ribeye area is expressed in inches² and is a predictor of the area of ribeye muscle at the 12th/13th rib.

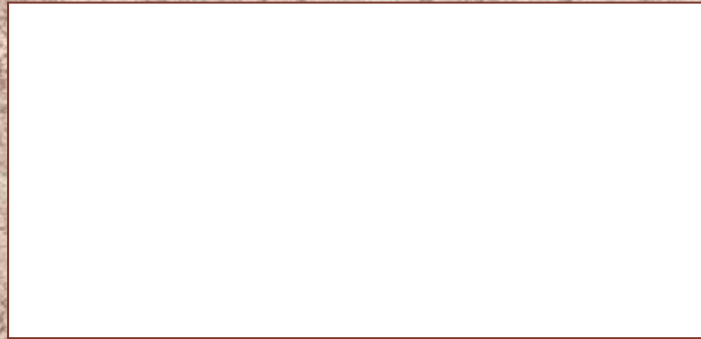

CWT: Is a predictor of transmitting ability for hot carcass weight.

Actual weights to be taken March 10, 2020. These will be available, along with scrotal measurements and carcass data, as a supplementary sheet on sale day.
