The British Connection Bull Sale December 4, 2021

Featuring Bulls from:

- J Bar B Polled Herefords
- BJ Cattle Co.
- Newton Herefords
- McKenzie Herefords/
  WildBear Herefords

Saturday
December 4, 2021
1:00 PM

Balog Auction,
Lethbridge, AB
Welcome to: The British Connection Bull Sale

69 Lots consisting of
Black Angus, Polled & Horned Herefords!

Fellow Cattlemen!
Welcome to the trend setting sale of the year!
The British Connection Sale has become the standard that the industry uses to establish a market.
Both purebred and commercial ranches have been able to select for top genetics and breeding to
enhance their operations.
Once again, the offering is second to none and the guarantee from these four breeders is
impeccable. Whether you want a yearling or two year old, they can accommodate you.
Don’t miss an opportunity, see you at the sale.
Respectfully,
R.C. (Bob) Balog

Sale order will be by breeds in order of the catalogue!
Terms & Conditions

Terms – The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd. at Lethbridge, AB, on Sale Day. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

Bids – Every animal entering the ring will be sold to the highest bidder.

Disputes – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer’s decision in such matters will be final.

Announcements – Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

Certificate Of Registry – A certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.

Health – All animals in the sale have met all necessary health requirements. All will be guaranteed eligible for US Export.

Semen Interest - We as breeders reserve the right to draw in herd semen use on any bulls sold in this sale at our expense and buyer’s convenience.

Breeder’s Guarantee – Each animal becomes the purchaser’s risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association and Canadian Hereford Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness. All Long Yearling Bulls will have been Semen Tested prior to the sale.

Accidents – Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

Liability – Balog Auction is acting as agent only and assumes no responsibility for representations made by seller. Purchaser must look to the seller for fulfillment of all guarantees and representations made hereunder.

Wintering, Export, Delivery or Sale Day Pick Up – All bulls can go back to the consignors for wintering with delivery starting March 1st. If the purchaser takes his bulls home from Balog’s on sale day there will be a $200.00 per head discount. Assistance will be given loading these purchases out after the sale is over. If you can take delivery of your bulls within a couple weeks following the sale there will be a $50.00 per head discount. Delivery is free in Canada up to 300 miles, at cost after that. Bulls exported to the US will be taken back to the contributors for testing and delivered to the Sweetgrass Port of Entry. Any additional expenses including duty, brokerage fees, testing, transport from the Port of Entry, etc. are the responsibility of the buyer. Purchasers are requested to furnish shipping, wintering and delivery instructions when making settlement.

Insurance – We recommend insuring all of the Bulls purchased. All bulls being wintered by a contributor must be insured.

The British Connection Bull Sale December 4, 2021
Hello Everyone! It is good to be back again. You will notice our birth dates have moved ahead some and the calves are a wee bit younger. As we get older we need to make things a little easier. With younger calves we will try to keep them a bit longer before delivery if you need us to. Having said that though, most of the calves were born in the first 2 weeks of March. If you turn bulls out June 1 that will make these bulls at least 15 months of age. We have 4 new sires represented in the sale calves this year. Enough about the cattle - isn’t it great to be involved in an industry that is so ‘no nonsense’? The 4 of us British Connection people went to the Hardisty Field Day together. It was so refreshing to see everyone at ease doing the things we love to do. Yes, this year has been a challenge for all of us, some more than other, but I for one am ready to move forward optimistically. I will end here with a spin on a favorite country song of mine - God is great, Herefords are Good, and the Federal Liberals are crazy! Maybe by press time the third one will be cured. We wish you all an enjoyable, healthy, safe Christmas and all the very best for 2022!

Look at the stretch and size in this red necked, red eyed guy. If you sell by the pound like we do I think we need this kind of genetics to raise calves that will perform in the feed lots.

This good, big strong, long, red eyed bull comes out of one of my favorite cows. This guy will add pounds to your calves. His heifers should be a great bonus.
We would like to welcome everyone to the 6th Annual British Connection Bull Sale! We sincerely thank all who supported our program in the past and value the relationships we have built.

We feel that this set of bulls is a very uniform set of bulls, that have great heifer and rugged cow bulls on offer. We have a few embryo calves as well as more AI calves this year, which we feel helps us strive towards high quality cattle that have fresh pedigrees. We are super proud of our cow herd as a whole. We feel they have a lot to offer whether it is fantastic udder quality or super sound feet and legs. We focus on raising bulls that are very high performance, adaptable to all geographic areas and various operations in the beef industry.

As always, all bulls can come back to our farm after the sale to be wintered free of charge and will be delivered to you in breeding shape, once they have passed their semen test! We invite anyone interested to come view the bulls and cow herd prior to the sale. Once again we will be videoing all the sale bulls and have the videos up on DLMS towards mid November for you to see. Please contact us for further information on any of the bulls or to set up a time to view the bulls at the farm. Look forward to seeing you all at the sale December 4!

**COLEMAN BRAVO 6313**
- Bravo is a physical and genetic masterpiece that checks all the boxes.
- Physically he is tanky, powerful and well balanced; genetically he combines two of the best animals ever raised at Coleman Angus – Charlo and Donna 714.
- Bravo was the $450,000 top seller at the 2018 Coleman Sale.
- We have watched his progeny at a few other places and knew we needed to incorporate such a powerful breeding piece. His unreal muscle, soft rib, great hair and overall balance has us excited about the whole sire group in this sale!

**PAINTROCK TRAPPER**
- Trapper has quickly risen to the ranks of Genex elite and for good reason
- He offers an outcross pedigree, moderate BW, adequate growth and maternal function
- Look to Trapper to produce beautiful daughters with extra body capacity and fleshing ability
- A bonus his PAP score of 40 at 7280 feet is one of a kind, Trapper is the high altitude sire the breed has been searching for!

- Wisdom was our pick of the heifer bulls at Poplar Meadow Angus a few years back
- He had a 76 lbs birth weight and had a weaning index of 107
- He is a total outcross to most programs and are very happy with both the bulls and the females off him
- You sure have to admire his bold muscle pattern, and amazing clean frontend
- Right Time is the genetic gem we have been waiting for, for a long time! His foot quality is as good as we have ever seen in a bull. The fertility and longevity that is built into this guy is truly amazing.
- He froze high quality semen at 11 months old and his 14 year old dam is bred again, ready to calve in January.
- There are very few breeders out there that don’t love all the right Time daughters in their herd, and we look forward to having lots of them in the future. With the combination of Right Time and the Merit Jilt cow, we knew we had something the day this guy was born!

- Length, frame, and great performance sums up this low birth weight rascal. His dam just does it year after year. Always throws low birth, and that added frame, and length that gives all her calves the weight they need. She is an ideal Angus cow to look at with great feet, and udder that will last forever. If you like your heifer bull to have some size and stretch you will like this Bravo son!

Here is a calf that is sure to grab your attention sale day. He is bold in his makeup. Tons of muscle, power and performance. Bravo sure stamped this set of calves and trust me, you will love what you see when you see the sire group. The dam of this calf has produced lots of very good bulls over the years that have all stood up well and lasted a long time. They have always been very thick made cattle with easy doing ability and this guy is sure to do the same!

A fan favorite since a young age here! This guy started out small but has sure impressed us with his depth, muscle and overall balance as he has grew. His dam has been our cornerstone, low birth weight, donor cow. She consistently moderates bw, and is always short gestation. When you add in Bravos calving ease, you really have to admire that this calf is double bred low birth weight and will be in the top end of the calves come sale day! No doubt he will be one of your favorites for your heifer pen!

Herd Bull ALERT! Jamaica is the bull that your program has been waiting for! His amazing top and muscle pattern is one of a kind. He is soft made, great scrotal, and moves like a cat! Has those fluffy ears that we all know come with having great hair! When you talk about pedigree, let’s say it doesn’t get any better than his. A direct ET calf by our old faithful Merit Jilt 7091T cow that is still going strong at 14 years old. Not too many cows are still active at 14 let alone great uddered and perfect footed. She gained a month in calving interval this year as well. She is also the dam of both our Bulldozer, and Right Time bull that have both bred so well for us! Bravo is a bull we have watched for a couple years now, and have loved how well he has worked in most programs and felt we needed to use him. He sires as much thickness and rib as I have seen in a long time. This guy truly needs to be seen with your own eyes to get you as excited as we are about his future! Style, muscle, width, and hair sums up this genetic gem!

Here is the first of two ET full brothers that we feel are super high quality. This calf is super gentle and always wants a scratch. He has a ton of muscle, and has that huge rib, and easy doing look to him just like his dam. The dam of this guy was also the dam of both ET sale high sellers in last year’s sale! Now you add Bravo to the mix and you will be super excited to own one of these guys!

If you are looking for uniformity check out these two ET brothers. They are so similar in type and kind; imagine running both of them with a group of 50 cows! Their dam has an amazing udder, massive rib, yet such a nice head neck and shoulder! Her daughters have been a valuable coupon to our program, and have produced very well for us. The guess work is taking out of these two powerhouses! Buy with confidence here!

Here is a calf that we feel will live up to his name! This is Cody's calf and we all know how basketball crazy he is! Well "Jalen Suggs" could be one of the best basketball prospects there is. He hit the buzzer beater from just over half court in the final four NCAA basketball tournament last year that sent all of us off our chairs. We feel this calf could do the same! His amazing muscle, top, and performance is one of a kind. His rib shape is super unique that comes from his fantastic first calf heifer dam that is so easy keeping its crazy. You combine 2 of the newest bulls there is being Dually and Trapper, we feel this guy is not only a genetic gem, but a herd bull in the making! To top it off this calf and his dam were Supreme Champion Female at the Regional 4-H Female show!

Here is a powerhouse that is sure to grab your attention. He has the highest 205 weight in the whole sale! His length, muscle, and overall balance makes him easy on the eyes. Jasper is one of the gentlest bulls there is. Since he was a few months old he always wanted the kids to scratch him on the weekends when they were able to come feed with us! Disposition is a big thing on our place but this guy takes it to another level. His dam always brings in a calf with length and frame and she sure did not disappoint us here!
Rancher’s take a look here! I love the muscle, length and overall, ruggedness that this guy has. Every day at feeding he always catches your eye. His dam is super good footed and has a nice tidy udder. Right Time has done an amazing job on his calves and this is one of my favorites.

This guy has style to burn! So well balanced lots of muscle and has a herd bull look to him already! His dam had a bull just like him in the bull sale last year that made lots of friends. The Right Time sire group is one that is going to give you an unreal set of steers to sell, yet you will want to retain all his females!

- If you like bulls to be backed up by a power cow, this guy is for you. His dam is a big cow that has a lot of depth, thickness and overall substance that you can tell she injected those elements into this guy! Her sons have always been in demand at the sale. This guy will be no different, he is long, thick, and has a ton of eye appeal!

Power and performance sums up this guy! Here is a tremendously wide based muscle calf that has great rib and balance. His dam was my pick of the entire K lazy T cow herd when I toured it. It took some arm wrestling but Kody decided to sell her that day! She is a model Angus cow that we are very high on. Her foot is amazing, and we feel the combination of her and Right Time hit a home run here! This calf will be an outcross to most of our repeat customers and feel you will mark him very high on sale day!

Here is another low bw Right Time calf that is sure to catch your eye on sale day. It’s always nice when your heifer bulls calve easy but yet you can keep some heifer calves out of them because they have enough performance to make the cut! We feel this guy’s offspring will do that and he is backed by a great producing female that again has had lots of great calves in the past bull sales!
Classy, classy, classy! This guy will be sure to catch your eye on sale day! He is moderate in size, but man is he put together well. He is super thick, has great rib, and clean frontend. He is sired by our new heifer bull we bought in BC. They are very thick made cattle and this guy is no different. His first calf heifer dam is a super young female that you are sure to see more out of in the future. Here is a bull you can use on your heifers for 3 or 4 years that won’t get too big and knock them down!

Here is a red eyed, red necked meat wagon! Heavy Hitter to me checks all the boxes. He has lots of muscle, great spring of rib, length and moves very well. He is backed by an outstanding 1098Y daughter that produces very well every year. His sire is a Ridder bull we were able to lease from Lillybrook, and let’s say every time I toured there he was my pick of the herd bulls. He was moderate frame, had explosive muscle, was long bodied, and had curly hair. I judged Medicine Hat Bull sale a few years back and the Reserve Champion Bull that day was sired by him! He was built the same way as his daddy! Be sure to see him on sale day!

Again here is a very complete made bull sired by the Ridder bull we were able to lease. He is moderate in frame, very thick and well balanced. He is very attractive through his front end and has such a great head neck and shoulder! With the way this guy is built and his birth weight, he will calve very easy for the new owner! His dam again is another great milking 1098Y daughter, that did a great job raising this guy. Be sure to check him out on sale day!

Here is a powerhouse here! You look at his 205 weight and his 365 weight, no matter if you sell yearlings or finish your own cattle, this guy is sure to inject some major pounds into his offspring and take you to the pay window! Homerun is long, super thick, and great haired. His mother is an older cow, but for her age still has a great udder, and weaned another nice bull calf off this year. If you are wanting one more traditionally marked that is super hairy and full of meat Homerun is for you!

Chief is an ET calf we retained for our own use. He is such an impressive bull everyone that sees him stops and asks about him. He is so stylish in his make up smooth in his front end, big ribbed, long and marked up so well. Not many bulls with this size style and athleticism.

We purchased a share in 599E from Parkview Farms after the Calgary Bull Sale. 599E is the type we are looking for well muscled, added length, big boned, easy fleshing and extremely docile. Extremely pleased with the heifer pen from 599E big barrelled easy keeping females. 599E calves weaned off as high as any sire we have used in the past.

Ranger is such a cool polled bull, so sharp looking, smooth made and deep cherry red. Weaned off at over 700 lbs. Heterozygous Polled

Great polled bull here. Muscled up, great foot and athletic stride. Big beautiful dam behind this guy.
Welcome to the 2021 edition of the British Connection Bull Sale. We are proud to be a partner of this sale. The four of us are like minded ensuring quality runs all through the offering.
The management and policy has stayed much the same here at our place. No creep, no irrigation pastures and bulls run on grass during the summer. We lean towards older proven blood lines when selecting herd sires. We maybe bypass being on the cutting edge of new genetics but feel we have a very proven base with a little less risk. Wintering and delivery of bulls stays the same as always. Your bull will be wintered and delivered after March 1 at the price you bid. There is no extra cost to you.
We look forward to seeing you at Balog Auction on Saturday, December 4. Feel free to call us if you have any questions or come to our place and have a look at the bulls. We always enjoy a visit.

When we decided we wanted a 15Z son, we chose to go to the people that had the most of them. 15Z was the top sire group at Hill 70. We chose 589E, the high seller of the Hereford Division of the sale. He is a long, deep, thick bull on a moderate frame. His feet are very good and we look forward to calving his daughters. These are the first sons we have offered for sale. Six sons are on offer at the sale.

</table>

Purchased this bull from Lillybrook Herefords at the 2018 Calgary Bull Sale. Good performance bull. One of the reasons we were interested in this bull was the longevity of his sire. Andy used Sterling until he was 10 or 11 years old. We are pleased with the cattle sired by 107D. They are easy doing with good performance. His first heifers crop calved this year and are doing a good job on their calves. Five of his sons will sell in the sale.
