NORRIS FAMILY
SIBBALD, AB

Rural communities are dependent on the life saving critical care and transport capacity that HALO Air Ambulance provides to our residents. Many of our 4-H families have their own personal stories of how HALO has improved the outcome for someone they love. HALO is a not for profit organization funded by community partners and donations.

The Oyen & District Food Bank has helped ensure the basic need of food is met for the residents of the Oyen area for 22 years. They provide food bank services as well as emergency hampers as needs arise. The Oyen & District Food Bank is a charitable organization and relies on the goodness of others to provide these essential services.

The East Sounding Creek 4-H Beef Club would like to show our support to these life-saving organizations by raising funds through the sale of our charity steer "Hot Shot". Proceeds from auction will be donated directly to HALO and beef donated to the Oyen Food Bank.

Charity Steer Auction will take place at our Hanna District Market Steer Auction on June 11, 2022 @ 7pm.

My name is Liam Paisley and I am a junior with the Dryland 4-H Club. This is my first year in 4-H and my calf's name is Ferdinand. He is very quiet and is out of our Fleckvieh milk cow and our Gelbvieh bull. I was able to give him a scratch the day we weaned him and he's been really easy to halter break. He weighed 770 lbs at our weigh in last November and I can't wait to see how much he weighs at Show and Sale.

Vance Laughlin

My name is Vance Laughlin. I am a senior member in my sixth year of 4-H, and I am the treasurer for the club this year. This year 4-H has presented me with countless opportunities to learn and grow, and I am learning how to be a leader. My only project this year is a market steer. Clara Beasley

My name is Clara Beasley. I am 10 years old and this is my third year in 4-H. I am a Junior in the Dryland Multi 4-H club. I have done sheep & horse 4-H and this is my first year with a steer project. Kevin, my 4-H calf was halter broke very easily and has lots of fat and is in good shape. He is a Black Angus. He eats evenly with my brother Jasper's 4-H calf and likes being scratched on the tail. Last time I checked he was a little over 1000 pounds. He is mostly clean and is ok with you around him. He behaves when I'm walking him although he does not like loud places. Kevin seems like he might go for a good price. I really like Kevin and I will miss him when he sells.

Jock Andrus

My name is Jock Andrus. I am part of the Dryland Multi 4-H Club. This is my fifth year in 4-H. I have a market steer and his name is Sparky. My steer is very quiet and can lead quite well. Jillayna MacMillan

This is my 2nd year in Market Steer and Pheasant 4-H. This year we are raising 750 pheasant chicks. My calf's name is Jozé, he is a home raised Simmental Angus Cross steer. I love Jozé because he is very friendly and loves scratches and bucking in the fresh straw. In the middle of November Jozé weighed 700 pounds, and currently on May 6th he weighs 1300 pounds. I like how Jozé is built because he is very big and has great muscle as my brothers say. I will be sad to sell Jozé this year because he is my friendliest calf I have ever had. I want to say thank you to my last year buyer R&L Farms for buying my steer.

Taylor Conners

My name is Taylor Conners and this is my 6th year having a market steer project. My steer, Olaf, is a home raised Limousin Angus cross. When choosing a 4-H steer, I try to look for a good combination of conformation and quiet behavior so that I will have a good looking finished animal that I can handle myself. On November 12th weigh in, Olaf weighed 670 lbs and on May 1st he weighed 1375 lbs. Thank you to Tim Andrew and the Limo Buyer group for purchasing my steer last year!

Kale MacMillan

This is my 6th year in 4-H. This year I have a steer and a heifer. My steer is a home-raised Simmental Angus and my heifer is a Charolais/ Simmental also a home-raised calf. My steer was born April 2, with a weaning weight of 730 lbs. He has been growing well and he will be at a good finish weight. I'm also in pheasant 4-H, we have 760 chicks. Last year we had 400 chicks. I would like to thank the Blair family with Plover Lake Ranches for buying my last year 4-H steer.

Jasper Beasley

My name is Jasper Beasley. I am 12 years old and I have been in 4-H for 5 years. I am a Junior in the Dryland Multi 4-H club. I have participated in beef, sheep, and horse 4-H and a small engine project. This is my third market steer project. He is a Black Angus and his name is Jamal. He likes to open gates and lick the saddle horses when they are tied at the corral. Jamal is a very friendly, halter broke and curious steer. I enjoy him and overall I like 4-H a lot.

Megan Conners

My name is Megan Conners and I have been in 4-H for 8 years now. This is my second year as a senior member and I am currently the secretary of the Dryland Multi 4-H Club. This year, I have a steer and heifer that I am very happy with. My steer is a Red Limousin steer named Albert. I chose this steer because of his large frame that has allowed him to gain very well throughout the year. As of May 1st my steer weighed 1355 lbs. This makes his average daily gain 3.97 lbs/day. My favorite part of 4-H is being able to show my animals. I am so excited for June to be able to do this again. I would also like to thank Devin and Shera Olsen for buying my steer last year. Your support is greatly appreciated. Please join us on June 11th, 2022 at the Hanna Arena to celebrate another successful year!

Rodney Laughlin

Hi, my name is Rodney Laughlin and I am 9 years old. This is my first year with a market steer. My steer's name is Elon, he is a Simmental Cross that I bought from Crossing Creek Cattle. He loves to be scratched on his head. My favorite thing about my steer is how long and deep he is. I really enjoy feeding and spending time grooming my steer. I last weighed my steer on April 25 and he weighed 1430 lbs I have learned a lot this year in 4-H and I am really looking forward to my first show and sale. Hope to see you there!

Mandy Conners

My name is Mandy Conners and this is my 5th year in 4-H. This year I have chosen a Limousin Angus cross steer. The reason I chose this steer is that he was long and had a good frame and he looked like he could hold a lot of meat. On May 1, he weighed 1310lbs. My steer has been gaining approximately 3.88 lbs/day. The reason I like 4H is that I am always learning new skills to help me in the future, like picking animals for the farm to use for breeding and selling. For me, the best part of the year of 4H is the show and sale because I get to see my friends. Thank you to Plover Lake Ranch for buying my calf last year. Please join us on June 11, 2022, for our show and sale.

Corbin MacMillan

My name is Corbin MacMillan, this is my steer George. I have been in 4-H for eight years now and still continue to see improvement amongst my animals, with George definitely being a stand out at the top. He is a well rounded, incredibly calm, well finished and holds great muscle definition throughout his body. He has stood out from day 1 as a stout and performance based calf, he weighed 730 pounds in the middle of November and has continued to impress as we lay the food to him. As of now (May 5) he is pushing 1300 pounds. As this is my last year in 4-H I feel he represents my career in 4-H with pride as he carries himself so well and I am proud to show him against any other steer! I would also like to say thank you to my last year buyer Nate Horner as he purchased my steer, I hope he tasted good!

Kennedi MacMillan

This is my 4th year in 4-H and I was a Cleaver for 3 years before that. I am also raising 750 pheasants with my brothers and sister in the 4H Pheasant Project this year which is very exciting! My calf is a home raised Simmental X Angus who weighed in at 720 pounds and is finishing well. He is easy to work with and was pretty stubborn in the beginning but has come a long way, he even enjoys walking now.

A big thanks you to Pine Ridge Supply for purchasing my last year calf "94".

Lane Andrus

My name is Lane Andrus. I am part of the Dryland Multi 4-H Club and this is my seventh year in 4-H. I have a market steer this year and his name is Bruce. I really like my steer this year because he is quiet and gentle and was easy to halter break. He likes being scratched so it was easy to catch him and work with him. As of April 20th, 2022 Bruce weighed 1245 pounds. I am pleased with the way my steer has turned out this year.

Kelly Laughlin

Hi, my name is Kelly Laughlin and I am 11 years old. This is my 3rd year with a market steer. This year I have a Simmental cross that I bought from Crossing Creek Cattle. He has been a real nice and easy steer to work with. My steer is wide and deep making him an excellent prospect to look at if you're wanting to fill your freezer or share with a friend. I last weighed him on April 25 and he tipped the scales at 1370 lbs. I really enjoyed being able to get back to regular 4-H activities this year and I am looking forward to seeing everyone at the show and sale this year! I'd like to send a big thank you to Chris Olsen from Westview Coop/Fox Lake Agro for buying my steer last year.

Keegan Conners

My name is Keegan Conners and this is my 7th year in market steer 4-H. This year I also have a heifer project. My steer, Frank, is a home raised Limousin Angus cross. When I saw this steer in November at weaning, I was impressed with his conformation. At November 12th weigh in he was 680 lbs and on May 1st he weighed 1460 lbs. By Show and Sale he will be nicely finished. I would like to thank Hanna Motor Products for purchasing my steer last year!

Cleaver Kids

Left to Right:

Zoey Sinclair, Lane Laughlin and Josh Paisley

This year the Dryland Multi Club has 3 cleaver members, they are Lane Laughlin, Zoey Sinclair and Josh Paisley. This is Lanes 2nd year as a cleaver and

the first year for both Zoey and Josh. All three participated at our club speak offs and all did such a wonderful job. So far this year they have been able to enjoy our club Christmas party, awards night, speak offs, skiing and our club's annual clipping clinic where they were able to learn more about grooming, showmanship and have some hands-on experiences grooming while being mentored by older club members. These cleavers are looking forward to the show and sale in June and showing off their calves!

Dryland Multi-Club Pheasant Project

This year we are raising 750 pheasant chicks with Pheasant 4H. Through an agreement with the ACA (Alberta Conservation Association) members get day old chicks from McFarlane Pheasants in Wisconsin. We raise them and market the mature birds at the end of the program in Sept/Oct - mostly for release and hunts. We had a very successful year last year being fortunate to sell most of the birds for hunts in the fall while keeping about 40 over winter for release this spring. The birds are very robust this year and we look forward to a great experience once again.
