BULL SALE
& Ranch Horses

Saturday, FEBRUARY 19, 2022
1:00 PM – Innisfail Auction Market

Welcome to our 2022 Bull Sale

It is truly a pleasure to welcome you to the 12th annual P&H Ranching Charolais and Circle G Simmentals & Angus Bull sale. We would sincerely like to thank our loyal customers, friends and family for their continued support and trust in our breeding programs. Whether it is at our annual bull sale or purchases made off the farm your patronage is greatly appreciated.

The past few years have presented those of us in the agriculture industry with many challenges and I often think what a resilient group of people we are and no matter what this world seems to throw at us we just keep trying to move forward. Even with all the challenges we are faced with it is still our objective to raise great quality bulls that will help you increase your bottom line. We are continually adding new genetics to our herd bull line up and this year we are very excited to present offspring from four new sires as well as from some of our most trusted, proven herd sires. I am really excited about the new genetics as they have come from some of the top breeding herds in the Charolais industry.

Our focus remains the same; we are committed to producing quality, affordable genetics that will positively influence the profitability for the commercial cattleman. We don't follow trends or chase fads but attempt to raise solid functional cattle. We have put together a group of bulls that will get out and cover ground, breed cows and sire calves with loads of performance all without sacrificing calving ease. To assist you with the se-lection of your bulls we have provided up to date EPD numbers and ultrasound carcass data. These are effective tools to aid in the selection of your bull purchases but we must not forget the importance of structural soundness and phenotype.

Garth Cutler of Circle G Simmentals and Angus has once again put together an exceptional group of yearling bulls for this year's sale. His on-going commitment to select superior genetics to pass on to his customer base is second to none and it will certainly show in the group of bulls he has on offer.

It is a real pleasure to once again have a consignment of working ranch horses on offer. The consignors have put many hours into training their horses so they will fit into anyone's program. I encourage interested buyers to contact the owners and talk to them about their consignment.

There will be videos of the bulls posted on DLMS a few weeks prior to the sale. We welcome you to drop by our farms anytime or the Auction Market to view the bulls prior to the sale day. If you are unable to make it sale day please take advantage of online bidding with DLMS or contact any of the sales staff to bid on your behalf.

Sincerely

Corinne Parsonage
P&H Ranching Co. (NFAC)

Bull Delivery and Board

- Bring your trailer sale day and receive a $100/bull discount if you take your bull/s that day
- If needed arrangements can be made with the Seller and the Auction Market to pick-up your bull/s the following day and still receive the discount
- ***Note: Circle G bulls are transported back to the farm the night of the sale unless prior arrangements are made***
- Delivery of bulls is free of charge within 300 Km, beyond will be at cost
- Delivery will start within a reasonable time after the sale at the convenience of seller
- Bulls can be left at the farm free of charge until April 1st. A $4.00/day fee will apply thereafter

Can't make it to the sale? **Watch & Bid Online.**

With DLMS you can Watch, Listen & Bid on your computer just like you were there with online bidding over the internet

Instructions for Viewing And Bidding At the Sale

Visit www.dlms.ca, Fill out the registration form located under registration and sign-up for your free user account to select a username and password.

BIDDERS - To be approved as a bidder, Log in and click BUYER APPROVAL tab, select the sale you are interested in bidding at and click sign up.

EPDs - HOW TO USE THEM

Expected Progeny Differences…EPDs are a selection tool that provides estimates of the genetic value an animal will pass on to its progeny. They can be used to help ensure that you find the best bull for your needs and long term breeding goals.

EPD EXPLANATION

BW: Birth Weight - a prediction of sire's ability to transmit birth weight to his progeny…a lower value indicates lighter BW.
CE: Calving Ease - A higher value indicates increased calving ease.
WW: Weaning Weight – predictor of sire's ability to transmit weaning growth to his progeny.
YW: Yearling Weight – predictor of sire's ability to transmit yearling growth to his progeny.
MCE: Maternal Calving Ease - Indicates the ease which a sire's daughters calve…a higher value indicates higher calving ease.
MWT: Maternal Weaning Weight - Indicates the WW of a bulls daughter's calves when compared to other bull's daughters.
Milk: A predictor of sire's genetic merit for milk and mothers ability as expressed in her daughters.
API: All-Purpose $ Index - Evaluates sires for use on the entire cowherd. Includes daughters retained to maintain herd size and the remaining heifers and the steers put on feed with their carcass grade and quality.

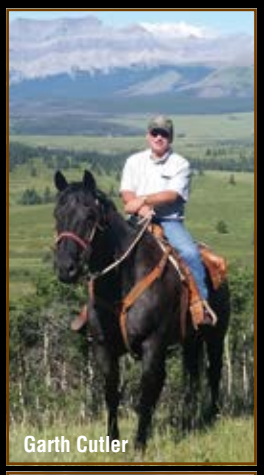
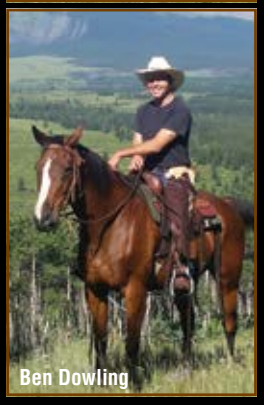
CIRCLE G SIMMENTALS & ANGUS



Garth Cutler



Ben Dowling

Welcome to the 2022 edition of our bull sale. First and foremost, we extend a huge thank you to all our buyers and bidders over the past year. Whether it be our many valued, long term customers or the first time buyers, the support shown Corinne and myself is very gratifying. We truly appreciate the loyalty and the trust shown in our breeding programs and look forward to working with you in the future.

This motivates me to make a good product even better! I've continued to make substantial investments to acquire new genetics to achieve that goal.

The past year has been challenging like no other in many ways. However, those of us in agriculture are accustomed to dealing with adversity and we will persevere! Market forecasts for 2022 and beyond are very good due to the low cattle inventories.

My Simmental and Angus cowherd numbers have grown to over 350 head. The cowherd has been built by selecting for moderate framed, easy fleshing, correct uddered females that are genetically stacked for moderate birth weights, calving ease and above average performance while aiming to improve feed efficiency and carcass quality. Every year 20% of the cow herd is removed and replaced…every cow must earn the right to stay. The cowherd is not pampered and is managed similar to those of many of my commercial customers. I take great pride in having visitors compliment me on the strength and udder quality of my cowherd.

A full time employee, Ben Dowling, was hired in 2014 to share the workload. Joe Faubion came on board last January and we value his assistance. This workforce has enabled me to expand the herd and to provide more bulls to select from and offer for sale.

The Circle G bulls were weaned on September 1 and ran on green feed swaths and banked grass for 2 weeks. They were then started on a silage based TMR ration that is balanced to grow them and allow them to express their genetic performance potential without impairing their future soundness. No creep feed is used through the summer and no feet are trimmed. I feel it is very important to have the weaning weights totally reflect the dam's milking ability. The bulls were left out in a 10 acre field until early December so are leaner, more athletic and sound.

All the bulls 12 months and older by sale time will be semen tested prior to selling. The bulls will return to the farm after the sale and those that haven't been tested, will be after the weather has warmed up and they have matured more. Delivery to your farm will follow.

I'm especially proud of my current herd sires. Each one brings different dimensions to my breeding program that allows me to provide seed stock to my customers that excel in various traits. I use herd bulls and AI sires, in both breeds, that have the stats, pedigrees and epds that indicate they'll provide calving ease, superior maternal and carcass merit with positive growth and performance as I want my bulls to sire "user friendly", profitable progeny. The Simmental bulls have homozygous polled genetics stacked in their pedigrees for many generations so the odds are high that the majority of the bulls selling are homozygous polled. A number of the bulls have been tested for both the polled and black color genes.

We hope our customers can be with us in Innisfail on sale day, but for those that are unable to attend, we are providing various options and ways for you to buy your bull/s. We have DLMS online bidding with video footage on every bull that's available to be viewed prior to the sale, our sight unseen buying program that has worked very well in the past and a very competent sales staff to assist you as well. See page 2 & 3 for more information.

I strongly encourage you to come and view the bulls and their mothers at the farm near Lacombe prior to the sale or call and visit about the bulls. Remember that no one knows the bulls better than Ben and I! The bulls will be available for viewing in Innisfail on Thursday and Friday.

I believe this may be the strongest set of bulls that I've had…the quality runs deep. Like Corinne at P&H, I aim to offer a quality product, with great customer service, and look forward to visiting with you at the sale on February 19th.

Sincerely, Garth Cutler 403.304.0896

CUSTOMER SERVICE

We are committed to providing top service to our customers by following up on the cattle we sell. Buyer feedback helps shape our breeding programs.

We keep a select group of bulls out of the sale for customers that may require a bull/s through the breeding season.

VIEW VIDEOS OF ALL THE BULLS ON DLMS.CA

Please note that the video footage was shot when we pictured the bulls January 1 & 2. Keep in mind that none of the bulls were a year of age and some were just 10 months old at that time.

CALVING EASE SCORES

Calving ease is a combination of a bull's actual birth weight, his genetics (epds) and the females a bull is bred to. 50% of the equation is the management and genetics of the female. The Calving Ease Score (CE) provided is my best estimation of calving ease after evaluating the actual BW, epds, genetics and body shape of each bull.

★★★★	Suitable for use on heifers - should produce minimal calving issues
★★★	Suitable for use on larger framed heifers
★★	Recommended for second calvers and cows
★	Recommended for mature cows

Circle G Simmentals/Angus Headquarters

Dam
615D

506C
Dam of 909G

Sire
909G

- Integrity is the first son to sell from the Aztec sire and he's been catching attention…he's dark red and hairy with ideal structure and shape; he has excelled at every stage of his development
- The Aztec 909G sire was a feature bull in the 2020 Sunny Valley sale and is an ET full brother to the $120,000 Betts bull that has sired so many popular, high selling progeny
- Aztec was dark red with great hoof and foot structure but was unfortunately lost to injury…this will be his only calf crop
- The 615D dam is a model female with near perfect udder structure and is a daughter of 76A, the dam of the $26,000 Circle G Cash…Venom sons have created quite a stir in the industry but his daughters are his greatest legacy
- Integrity is the #4 bull for ADJ WW and ranks in the top 2% of the breed for WW, top 3% for YW, top 10% for CW, top 20% for MCE & REA and top 30% for CE & BW epds

Dam 3E

Sire
Venom

- Excellent sire prospect with loads of potential…Venom was originally purchased by Circle G and Spring Creek Colony for $50,000 and used naturally for two years but after receiving multiple requests, he was priced and resold to MRL
- Venom progeny have been extremely popular and for good reason as he sires "his kind"…eye appealing, structurally sound progeny with sensible birthweights, curve bending epds and superior carcass merit
- Inertia indexed #7 with an ADJ WW of 853lbs with no creep feed…ranks in the top 5% of the breed for WW, top 20% for YW, top 30% for MWWT and top 40% for CE & BW epds
- Dam is a highly productive, correct uddered female that was purchased from Crowe Bros…a son has sold to Cathy & Tony Kamlah and a daughter ranks right near the top of the bred heifer group

ANNOUNCEMENT OF

Red Angus Herd Sale

Nicklason Stock Farms

Sunberry Valley Ranch

Calvin & Shannon Grabler & Family

A realization was made last February during the ten day stretch of brutally cold weather that there were too many cows here for the facilities and workforce. My cow addiction had gotten out of control!

I decided that reducing the cow numbers within each breed wouldn't solve the dilemma as the numbers would soon ramp up again. So, to make a lasting impact, the difficult decision was made to sell the Angus cattle as this would permanently reduce cow numbers as well as simplifying breeding groups and record keeping. I'm very proud of the herds of Red and Black Angus that I've developed. I remember a comment that Doug Henderson made while touring the herds just prior to his untimely death…"Garth, the quality of your Angus cows is deadly". That meant a lot to me.

The Red Angus cows, heifer calves and yearling heifers were sold last year without a sale or any advertising. Nicklason Stock Farms from Deadwood, AB selected 54 cows and CS Ranching, Calvin & Shannon Grabler & Family, selected 18 cows. Sunberry Valley Ranch, Darren Vancuren, and Jackie and Paul Dobinson purchased the yearling heifers.

Thanks to these progressive operations and I wish them every success with the cattle.

The Black Angus herd is for sale this year. As you can see in the sale catalog, the production of this very good cowherd is first rate. Call for more information @ 403.304.0896. Terms are available.

EPD'S	CE -6	BW 3.8	WW 63	YW 107	MCE 1	MILK 28

- For the third year in a row, a high quality Continental son leads off the Red Angus section…Justify is the just the type of bull I was hoping to create when I purchased Continental as he has his sire's presence, is wide based with plenty of rib shape and is easy fleshing
- Indexed 115 for ADJ WW in his dry northern Alberta pasture group…ranks in the top 1% of the breed for WW & YW, top 9% for CW, top 10% for Milk and top 15% for REA epds
- Dam is a square uddered, high volume female that ranks right near the top of the group that sold to Nicklason Stock Farms

NOTE: The Red Angus sale bulls were developed wherever their mothers were moved to in March and April. There were three different management groups as the pasture conditions here at Lacombe were much better than those in the northern Peace River country and perhaps Cherhill. The calves were all weaned in late August/early September and brought back to Circle G to be developed for the bull sale. The weaning weights are well below normal on the bigger group of calves that were summered at Nicklasons due to their severe drought but, once started on feed, the bulls are catching up with the rest.

This is a case where you need to evaluate the bulls and not place quite as much emphasis on weaning weight data…trust the epds!

This sale is your last opportunity to purchase a Circle G Red Angus Bull

Jubilation will be used by AI at Circle G,
an inherd breeding interest will be retained

- Power, performance and pedigree combined with an elite dam…I have great confidence in Jubilation's future as an impact sire
- Sired by Attractive, the great footed sire of the Showman bull that has been creating quite a stir within the breed
- Dam is flatout awesome with a world of volume, a near perfect udder, great feet and excellent production…she was the high selling black heifer calf in the Crowfoot dispersal and is a maternal sister to the $40,000 Crowfoot 0102X bull
- A maternal brother to 104J topped the 2019 sale at $12,000 to Marj Veno and Murray McArthur and has bred well there and here (a son sells as Lot 134)…plus a maternal sister is the best "G" BA female at CG
- #1 ADJ WW bull and ranks in the top 4% of the breed for Milk, top 8% for WW and top 10% for YW epds

Sold to Janzen Ranches for $13,000

29H (BLACK SIMMENTAL)
Sold to Robert Tolman for $10,750

19H (BLACK ANGUS)
Sold to Lobo Ranching for $9500

2022 P&H RANCH HORSE SALE

Consigned to our sale this year we have another outstanding group of broke ranch horses that are trained by some of the industry's finest horsemen, people who make their living on the back of a horse. It takes a huge investment in time with lots of knowledge and hard work to get a horse ready for ranch work. Countless hours have been put into the training of these horses to hone their skills. We are confident that with the quality of the horses selling, you will find one that will fit your needs.

Please feel free to contact any of the consignors prior to the sale with any questions and if possible go to their ranches to ride the sale horses.

There will be a demonstration of the ranch horses sale day morning at 10:30. The sale order will be determined by drawing the consignor's names out of a hat prior to the sale.

H-1 YELLER

GRADE 2011

CONSIGNOR: CLINT ANDERSON
For more information call: 403-593-4820

Yeller is a handsome 10 year old gelding that stands 15.1 HH. He has been rode in the mountains and used on pack trips. We have put extensive miles on him here at the ranch. Yeller is good to catch, good to shoe and a nice horse to be around. He is athletic, level headed and cowy. Yeller is always willing to go. For more information: Clint 403-593-4820

H-2 EARL

GRADE 2009

CONSIGNOR: JUSTIN POTTS
For more information call: 780-349-1494

Earl is a 12 year old ranch gelding. He is a gentle, no buck, come to the gate type of guy. He has been used to check, treat and gather cattle in the pasture, calve cows and check pens sorting. Earl has been lightly started on the head side of team roping and is showing a lot of promise. Earl can make your daily chores a little easier, just have fun on him or finish him off for team roping. Call or text for more information.

H-3 ONE SMOKEN LEO

AQHA # 5861342 June 29, 2017

SIRE: SMART LIL CABALLERO

DAM: LARKIN BREEZE MGS: BAVARIAN KING BREEZE

CONSIGNOR: WILL MACINAW
For more information call: 403-843-1055

Leo is a pretty Dun who has been rode both inside and out. He has a nice start and is ready to become someone's main mount. He will be used at the auction market penning cattle before the sale. For more information call Will.

H-4 CHICO

GRADE 2014

CONSIGNOR: KALE PETERSON
For more information call: 780-515-0715

Chico is a well put together 6 year old gelding that has been used at the ranch as well as in the sales yard and feedlot. He is easy to catch and nice to be around. He is 15 HH and weighs 1150 lbs. For more information feel free to call. Kale 780-515-0715

H-5 STEWART

GRADE 2011

CONSIGNOR: DREW SPENCER
For more information call: 403-963-8766

If you need a seasoned ranch horse who is darn sure safe and put together the right way, don't let Stewart pass you by. He is a 10 year old gelding that stands 14.3 HH. With four white socks and the buckskin colour Stewart will stand out wherever you take him. We've used him for all ranch chores from gathering pasture, pushing the shipping alley and treating yearlings on grass. Stewart is very keen on a cow and awesome to sort on. From the feedlot to the sale barn or the ranch you won't find anything Stewart hasn't seen. He has been used extensively in the mountains on pack and hunting trips. He will pack game and cross anything you point him at. Stewart is easy to catch, has a soft eye and is the same horse with time off. 100% sound and absolutely no buck or funny business. FMI please call 403-963-8766

BENEFITS OF THE P&H RANCHING & CIRCLE G BULL SALE

- One Stop Shopping... Quality Charolais, Red & Black Simmentals and Red & Black Angus Bulls
- No bulls have been sold prior to this sale

- Bulls are developed on high roughage rations to ensure their future soundness & fertility
- Sale hospitality at its finest...showing customers our appreciation for their continued support
- We strive to provide great customer service...buyer satisfaction guaranteed NFAC
- Quality bulls sell in all price ranges to fit any budget.

BENEFIT FROM CROSS BREEDING

IT ONLY MAKES SENSE AND DOLLARS

TERMS & CONDITIONS OF THIS SALE

1. TERMS – The terms of the sale are cash or cheque payable at par in Canadian funds to the sale clerk on sale day unless otherwise previously arranged with the sellers prior to the sale. No releases will be given until satisfactory settlement has been made.
2. BIDS – Each animal will be sold to the highest bidder.
3. DISPUTES – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter will be final.
4. ANNOUNCEMENTS – The information contained in this catalogue is believed to be true and accurate. Announcements at the sale by the owner, auctioneer or sales management will take precedence over the printed matter is this sale catalogue.
5. PURCHASERS RISK – Each animal becomes the risk of the purchasers as soon as sold.
6. CERTIFICATE OF REGISTRATION – The proper registration paper from the CCA, CAA and CSA will be duly transferred and furnished to the buyer for each animal after settlement has been made.
7. GUARANTEE – All bulls carry the standard breeding guarantee as specified by the applicable Canadian breed Associations. Bulls are guaranteed to be structurally sound and will have passed a semen test by a qualified Veterinarian prior to sale day or delivery. In the unlikely event of a dispute, the regular terms and conditions of the standard breed Associations will apply. At no time shall the sellers liability exceed the purchase price of the animal in question.
8. ACCIDENTS/LIABILITY– Every precaution will be made to protect the safety of those attending the sale. All persons attend the sale at their own risk. The seller, facility, owner & other persons involved with this sale assume no liability, legal or otherwise for any accidents that occur in, on or about the premises.
9. INSURANCE – Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available at the clerk's desk from the appointed representative sale day. It is mandatory that all bulls returning to the seller's premises be insured at the buyer's expense.
10. DELIVERY – The sellers will deliver bulls free of charge within a 300 mile radius. Delivery beyond will be at cost. All bulls will be delivered within 30 days after the sale date.
11. P&H Ranching & Circle G Simmentals & Angus reserve the right to collect semen on any bull sold for in herd use. This semen will be collected at the buyer's convenience and at the seller's expense.
12. SOLICITING - It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.
