

24th Annual
BULL & FEMALE SALE

SATURDAY APRIL 2, 2022

at the farm 1 mile East of

Goodeve, SK

& 3 miles North

LUNCH 12 NOON

SALE AT 1:00PM

Welcome....

Hello and welcome to the 24th edition of our annual Bull and Female Sale. Once again we offer to you a cross section of our breeding program. A selection of genetics bred for over 60 years with a philosophy of strong maternal traits and performance driven herd bull selection. We look forward to your appraisal of our offering. This sale is a year long culmination of our efforts here at Crescent Creek. We are truly grateful for the support of our repeat customer base who have become an integral part of our selection and management decisions for this offering. If this is your first time evaluating our offering, we value your comments as well.

Again this year we are very pleased to offer large sire groups of our resident walking bulls. Bulls that were bred here and selected for what they offer the beef industry. We know the cow families and sire lines so we can truly tell you what to expect when it comes to calving ease, udder quality and disposition. More than just a generated number. The selection of AI sired bulls and females come from bulls that were acquired for their outcross genetics that offer true alternatives for the breed. More importantly, they still have those strong Angus characteristics.

We look forward to showing you the offering and discussing the needs of your program. These selections will go a long way in determining the success of your program. We are also proud of our customer satisfaction policy. The fact that your purchase will leave the farm fully vaccinated for the upcoming breeding season and you will not be charged any extra feed costs after the sale. Your purchase will be delivered in a timely manner after the sale.

Stop by at anytime for a coffee or visit, It's something we really look forward to. Thank you for coming and to everyone who helps put this on. As anyone who has had a sale knows, it takes many people to make it happen!

-The Olynyks

Welcome from OBI

Welcome from OBI

I welcome you to the 24th Annual Crescent Creek Bull & Female Sale. This family run operation has continued to stay ahead in the business with the foundation being the cow herd. When we all visit about where to buy bulls from, I always emphasize to obtain herdbulls that have the best cow herds in the land. Crescent Creek is one of those herds. The consistency of the brood matrons are outstanding with cow families being the foundation for many years.

A very solid set of bulls are ready for your evaluation. They have so much natural muscle, length with longevity built in mind. Very athletic bulls that are ready to work for their new owners. The depth in the pens is what we all look for and this year is no different.

The females on offer are right from the heart of the program with the same sires as the bulls to show what that group can do. As I spoke before the cow families are here for you to obtain to elevate your own operation. Many, many females are done this for breeders across the nation.

I have been thru the offering and the herd many times and know the cow families; buy with confidence here. If you need any assistance, please do not hesitate to call myself or any of the sales staff.

Mark Holowaychuk, OBI

AVERAGE EPDS FOR ALL BLACK ANGUS CALVES BORN IN 2021

	Birth Weight	Weaning Weight	Yearling Weight	Milk	CalvingEase
EPD	+2	+51	+89	+22	+3.6

EPDS ARE UPDATED FREQUENTLY BY THE ASSOCIATION AND ARE CURRENT AS OF FEBRUARY 18, 2022
205 & 365 DAY WEIGHTS ARE ADJUSTED WEIGHTS

What do the numbers mean?

For most commercial cattlemen, there are really only four EPDs they need to look at: birth weight (BW); weaning weight (WW); yearling weight (YW); and milk. The others, with perhaps the exception of the carcass traits, are more useful for purebred breeders.

BIRTHWEIGHT - Calf weight at birth adjusted to a mature dam equivalent. Expected progeny difference is reported in pounds. The larger the EPD indicates a heavier average birth weight

WEANING WEIGHT - Calf weight taken between 160 and 250 days of age and adjusted to 205 days of age and a mature dam equivalent. Expected progeny difference is reported in pounds. The larger EPD indicates a heavier average weaning weight for calves sired by that bull.

YEARLING WEIGHT - Weight taken between 330 and 440 days of age and adjusted 365 days of age and a mature dam equivalent. Expected progeny difference is reported in pounds. The larger EPD indicates a heavier average yearling weight for calves sired by that bull

MILK - The milk EPD is a predictor of a sire's genetic merit for milk as expressed in his daughters, or in other words the part of weaning weight attributed to milk genes. The larger EPD indicates heavier average weaning weight due to daughters' greater maternal ability.

CALVING EASE

Bulls have been rated (in our opinion) on calving ease ability

* - recommended on cows

** - moderate birth

*** - indicates calving ease elite

Watch for the Calving Ease banner in the sale book.

*** Calving Ease

A Note About Birth Weights

ANGUS BULLS HAVE LONG BEEN KNOWN FOR THEIR CALVING EASE. IF YOU ARE BREEDING HEIFERS, ANGUS IS THE GO-TO BREED OF CHOICE. BUT WHERE DO THE "BIG" BIRTH WEIGHT BULLS FIT IN? MATURE COWS SHOULD BE ABLE TO CALVE OUT UP TO 7% OF THEIR BODY WEIGHT UNASSISTED. IT IS RARE FOR MATURE COWS TO REQUIRE ASSISTANCE, EXCEPT FOR ABNORMAL DELIVERIES SUCH AS BACKWARDS OR BREECH DELIVERIES. EPD'S CAN BE USEFUL BUT CONFUSING TO INTERPRET.

IF A BULL HAS A BIRTH WEIGHT EPD OF +5 HIS PROGENY WOULD BE ON AVERAGE 3 LBS HEAVIER THAN BREED AVERAGE (5- 2 LBS= 3 LBS). HOWEVER THERE ARE MANY OTHER FACTORS THAT CONTRIBUTE TO BIRTH WEIGHTS.

MORAL OF THE STORY: IF YOU ARE BREEDING MATURE COWS TO AN ANGUS BULL, DON'T MAKE BIRTH WEIGHT YOUR FOCUS.

Feeding Program

OUR PHILOSOPHY IS TO MAKE THESE YOUNG BULLS LAST AS LONG AS THEY CAN. AS WE TALK TO OUR CUSTOMER BASE WE THINK IT IS WORKING. MANY HERD BULLS LASTING MULTIPLE YEARS FOR THEIR OWNERS. WE NEVER FEED TO COMPROMISE BREEDING OR STRUCTURAL SOUNDNESS. AS IN THE PAST THE BULLS ARE HAND FED BROWN OAT AND PROTEIN PELLET RATION WITH FREE CHOICE HAY. WE STRIVE FOR A THREE POUND A DAY GAIN, AND THE BULLS ARE FED WITH THIS IN MIND. THE BULL CALVES WERE WEANED AUGUST 25 DUE TO DRY PASTURE CONDITIONS.

THE FEMALES WERE WEANED OCTOBER 5 AND PUT ON BANKED GRASS UNTIL MID NOVEMBER, THEN MOVED TO BALE GRAZING UNTIL MID DECEMBER, AT WHICH TIME THEY WERE SWITCHED TO A BROWN OAT AND PELLET RATION. IT IS AMAZING HOW WELL THESE YOUNG FEMALES DID ON EXTENDED GRAZING.

ACTUAL WEANING WEIGHTS ARE AVAILABLE UPON REQUEST.

Herd Health

THE VACCINATION PROGRAM CONSISTED OF EXPRESS 5 AND BLACKLEG SHOTS. ALL BREEDING FEMALES & BULLS WILL HAVE HAD THEIR PRE-BREEDING EXPRESS 5 VACCINE AND BLACKLEG BOOSTER PRIOR TO THE SALE. THE CATTLE HAVE HAD PLENTY OF EXERCISE IN LARGE PENS, AND ARE VERY FREE MOVING.

Sale Feature

Retaining 1/3 Interst No Possession

WOS 15J - Lot 1 for a reason, this bull is a tank. He is packed full of muscle yet still adds capacity and a deep side. Many who have seen him already have taken 2 or 3 looks at this bull and said "WOW". A Hot Lotto son that carries his size and style with a herd bull presence already. Mothered by one of the best cows to call Crescent Creek home. Up there with some of the greats like Rosebud 101T, Stumpie 9R, Stumpie 12N, and we could even mention the greatest one of all: Rosebud 115F. If you know our program, we don't mention to many cows in the same caliber as the great 115F. Mistress 188D is our current top Donor here and top natural producer as well. 1 Female has been retained for in herd use and is a spitting image of her mother. Clean feminine Angus front, big capacity, and a tight square udder that is the ideal udder. Hard not to forget the \$20,000 sale topping heifer calf last year to Tiny Angus Ranch. Another daughter that is clean fronted but has deep capacity and all the perfect Angus female features. 53H hit the show road this summer and fall and we heard many great remarks back from fellow producers who loved the shape and style of 53H. Just like her half sister and her mother, they will be short listed to the donor program. We feel that there is no such thing as to many high caliber females like them in a herd. The 014Z cow really was a female that was worth her weight in gold. From the females we retained to the trickle-down effect of 188D to 103G to 53H has been phenomenal. We cannot explain or write enough about how much we love this cow family and the quality of cattle 188D has produced. No less is said about 15J as well. A bull that is truly something to see. Checks every possible box for structure, soundness, and bull features. In a few years we will be sitting here and writing footnotes on the quality of bulls and females on offer in the sale. I know in those footnotes as well I'll mention 188D many times again as well as her progeny being so successful. The name of this bull should be Packing Meat not Packing Heat. Top 9% and 10% in weaning weight and yearling weight is no easy feat. This young bull has a promising future in the Angus breed and is a herd bull in the making. Come down and see this young lad and give us your opinion. I could write for days about this cow family, the sire, and of course the dam. I have mentioned a few times in later footnotes but will mention it again. The top producing, high caliber, phenotypically correct and stand out females in Crescent Creek go back to the Chapman Memento bull. Quality runs deep in every Memento female we have. If you want to own quality, then look no further here.

WOS 14J - A big time bull here. First bull in the pen to get your attention every single time. Built with a big foot, hard muscle, and an outcross pedigree to top it off. This guy made a lot of friends this fall at agribition and will fit any program. A 3-star calving ease bull that will add shape and quality females to your operation. This guys name is fitting, he will be a blueprint to a successful future.

DTZ 25J – Another blueprint calving ease bull. These bulls are stapled with smooth front, small angus heads, and exceptional feet. We are really pleased with how these bulls calved out and grew. These are ideal heifer bulls in their makeup and BW. With a pedigree backing to some rock-solid and maternal cows here in Memento and Dynasty.

- SITZ DASH 10277
- CRESCENT CREEK JOAN 48Y
- GDAR JOAN 9175

WOS 30J – Hard to put into words how powerful this bull is. Once you see him cross the pen you will understand. He has an immaculate presence in the pen with a big crest, wide top, and a huge hip. A moderate bull that has it put together perfectly and packed full of red meat and power. A square foot and excellent leg make up. He is a bull that has stood out all summer and fall. He made many friends at Agribition for stylish make up and Angus features. Mark this guy down if you are looking for a bull to add pounds at weaning as he sits in the top 10% in the breed for weaning weight. Backed by the great Joan cow family and once again note the Memento background. I would venture to say every top bull in the pen and female in the herd is mothered by the great Memento blood line. This guy has built in longevity with his great grandmother (9175) calving first cycle again with no signs of slowing down. I could write a novel on this bull, but it is just easier if you come see him!

WOS 84J – I do not think you could get a bull packed with more maternal power in a pedigree if you tried. Backed by 3 donor cows 101T, 48N, and 141Y as well as elite dam 67Y. Can also note the 56T cow who has been a building block in our herd and has not missed a beat with a \$17,500 bull to Chapman Cattle Co last year. With a pedigree backed by cow powerhouses like that and an impressive make up such a long body, extra muscle, and big foot its hard not to want this bull in your herd. Do not sleep on this guy, he will leave you females to build a herd with.

WMO 126J – A long made 54F son that packs extra length into a moderate frame. A bull we really feel will jump out and catch your eye in the pen. A potential sleeper in the 54F sire group that has big upside. Note the Duchess cow family who has sired some of the great bulls at Crescent Creek.

Crescent Creek Rito 133C

Bought by Doug & Marlene in our 2016 sale & bought back in 2021 after 5 years of service at Lyon's.

TESTIMONIAL FROM LONGTIME CUSTOMERS AND FRIENDS
DOUG & MARLENE LYON

We have been purchasing bulls from Crescent Creek Angus for 15 years and have always been happy with their bulls. We go above and beyond to help you select a bull for your needs. They are great people to deal with and we're privileged to know such great people in this industry.
Doug & Marlene Lyon

WOS 54J – Outrageous is right. Year after year the Outside cattle never stop impressing. Great foot structure, big tops, huge hip, and packed with muscle. Year after year these bulls rise to the top of the pen and top of the sale. These bulls offer calving ease with quick growth, exceptional shape, and extra muscle. This guy fits that mold. Clean front, good foot, and extra muscle to add extra value to your herd. Backed by the elite Dam 67Y to top it off. Last year the Outside cattle were very well accepted again and for good reason. They flat out work. Do not look past this guy as we feel he could be the best one come sale. Every day he keeps getting better.

WOS 105J – I could go on and on about this bull and the Outside group, but I think I will talk about his mother. 34T has quietly been one of the best cows to walk this place, an elite dam with 13 natural calves on the ground. Along with that she moved up her calving cycle this year and calved right at the being of it. I've yet to see cows of that age look that good and produce that good at the same time. The start to every great bull is the mother.

YOU'RE INVITED TO
OUR OPEN HOUSE
MARCH 19 & 20!

Connealy Lengendary 644L

WOS 22J – We are extremely excited about these Legendary calves. Stout calves made right and correct. Good foot and big nuts to add on as well. We have great luck calving out these guys last winter and they grew like weeds. Both 22J and 77J are something to see. On top of being one of the best heifer bulls in the pen, he is out of the \$15,000 pick of the herd that Dan Petheridge owns. When it came to bulls Dan never picked a bad one, so you know that this guy’s dam is top notch. Check this one off.

WOS 77J – Just like his half brother this guy stands out in the pen. I think the thing we can appreciate the most about this bull is he’s top 10% in Calving ease, Top 3% in BW, top 7% in weaning weight, and top 10% in yearling weight. That is a stat line that will make you money day in and day out. Not to bad for a heifers first calf to boot. This should be number 1 on your bull buying list.

WE RETAINED AN INTEREST IN "CF" FOR THE SIMPLE REASON WE THOUGHT THAT THE CATTLE IN HIS PEDIGREE WERE WHAT WE ARE TRYING TO EMULATE. HIS DAM IS ONE OF THE FINEST HERE, COMBINED WITH THE POWER OF THE SINCLAIR FORTUNATE SON THAT DID SUCH AN ENVIABLE JOB AT MCCUMBER ANGUS. 8B SHOWS NO SIGN OF QUITTING. HIS FOOT IS PROBABLY ONE OF THE BEST YOU WILL FIND ON ANY BULL. HIS TRUE TREASURE IS THE SET OF FEMALES AT BOTH CRESCENT CREEK AND PINE GROVE ANGUS.

KOS 111J - At 9 years old CF has no signs of slowing down. In the summer of 2020 this guy covered 43 cows with out skipping a beat or losing condition. The quality of cattle really shows up with this guy. 111J is no different, big framed, muscle, and awesome feet. Another bull short listed to the show pen. A 2-star calving ease bull that will go into a program and work and last for a long time.

Calves	Avg BW	Adj 205	Adj 365
Males	74 lbs	699 lbs	1152 lbs
Females	76 lbs	626 lbs	828 lbs

IN OUR QUEST FOR CALVING EASE WE AID TO BULLS THAT HAD LOW BIRTH NUMBERS AND CALVING EASE. RESULTS WERE ALWAYS MIXED AS CONSISTANCY NEVER SEEMED TO BE THERE. WE FELT WE HAD COWS AND WALKING BULLS THAT WOULD MORE THAN MEET OUR NEEDS. 25E WAS RETAINED AND USED EXCLUSIVELY ON HEIFERS - THE RESULTS WERE WHAT WE EXPECTED. HIS MOTHER BEING A ROSEBUD AND THE SIRE OFFERING OUTCROSS GENETICS. WE HAVE USED HIM FOR 3 YEARS ON HEIFERS VERY SUCCESSFULLY. MODERATE BIRTH WITH EXCELLENT MUSCLE PATTERN AND WEANING WEIGHTS. HE IS A HEIFER BULL CANDIDATE FOR EVERYONE.

WOS 148J - The Foreman sire group have slowly risen to the top of the heifer bull pen. Customers year after year gravitate towards these bulls for a lot of reasons. The same goes for this year's offering. The 148J bull is jammed packed with muscle, shape, and style. Yet these bulls offer extra length in a moderate frame. This guy checks all the boxes for ideal structure and make up but as well add on top the great Rosebud cow family. A sire group that is hard to miss.

WOS 12J - We always really admired the 1682 bull. From videos and pictures and then in real life, it was hard not to fall in love with him. A big, framed bull with muscle that could add capacity and frame. No different than this guy. A large topped, deep sided, large, muscled bull that we feel will sire some impressive and stout calves. Another bull that stands out in the pen for his deep sided capacity and stout presences. Don't miss this guy in the pen, off an Erica cow that has not missed a beat.

WMO 67J – A 3 star calving ease bull that has a perfect head and shoulder structure to help you sleep easy at night. Note the top 6% and 7% in the breed for BW and Calving ease. We feel that the 301D cow is one of the best uddered females here. A cow we bought out of the U2 dispersal and who has really fit in here nicely.

WOS 97J – A half-brother to our \$26,000 sale topper to Bandura Ranches in 2021. This bull checks all the boxes again like the 4H bull did. Big hip, muscle, and square foot. The Next Step bull really took the Nextstep for our program. We have calved out roughly 10 of the 889 daughters and we are simple amazed. Great mothering abilities with tight udders and sound structure. We wish we had a 150 of these females. A bull that will add muscle and weight to your bottom line with top 25% in weaning weight. The 179F is a female to see. Don't miss this bull in the pen!

HA Counsellor 5118

WMO 7J – The one and only 5118 bull in the sale but wow what a bull. Style, length, hair, and muscle. Out of first calf Ravenworth heifer who has really hit the ground running. One of my favorite bulls going through summer and now into winter. An ideal make up of a heifer bull and a bull that will no doubt make you take a second look. The 5118 calves have never disappointed, and they will go out and work in any program.

Crescent Creek HEIFERS

As the hype of the spring bull sale season approaches, we are no different than other seedstock producers. We try to put our best foot forward and present outstanding young herd bull prospects. More recently though, we have been very focused on presenting to you what we think are the backbones of many very successful operations. That, of course, is the mother cow. Year after year our heifer selection has been improving to the point that we are truly holding nothing back. We feel very fortunate in the fact that this selection is due to the many years of breeding sound Angus females with traits that make the breed so popular.

Last fall as we drove out and checked these young females as they chewed away on bales, you had to be impressed at how well they adapted. I called them my little cow herd. This was a true test of feed conversion. As you study the offering you can see it didn't hurt their development at all.

Each and every year we look forward to the sale offering of females with as much excitement as the bulls. Our sale group seems to get stronger every year as well. We attribute part of that to the fact of so many of our sale heifers coming from the youngest brood cows in the herd. The newest and freshest genetics from the time tested cow families. No better time to get into some of the best we have to offer. Be prepared to see truly one of the finest offerings.

Our 2021 sale represented some of the best value on open replacement females ever. Some very astute cattlemen saw their value and took them home in multiples. Remember 60% down sale day, 40% October 1, 2022. Value like that is hard to match! Footnotes will be few. The offering speaks for itself.

Regardless of your needs or price range, we will have heifers that you can depend on

YOU'RE INVITED TO
 OUR OPEN HOUSE
 MARCH 19 & 20!

WOS 8J – Every year we offer females from the heart of the herd. Side by side with females we retain and carry into our breeding program. And every year we add the great Rosebud cow family females. These females have been dams to sale high sellers, donor cows, and to the great females we sell every year. If I was a betting man (and I am some days when I'm between a mother cow and her calf and trying to determine if she is bluffing or not) that the pick of the herd flush, we sold in the Genetics on Ice sale this past December to Bircham Ranches. I bet they will pick one of these great Rosebud Females. Last year the flush brothers and Flush females on offer were highly sought after off the great Rosebud 101T. That cow family simply doesn't miss, and it has shown in other operations as well. With Rosebuds selling for over \$70,000 at the U2 dispersal as well as sons off those cows selling for big sums as well. The \$15,000 pick of herd heifer calves we sold a few years ago that was bought by Dan Petheridge was also a Rosebud female. So, when we offer a Rosebud female to start off the sale then you know she's good. We have had great success with the Connealy Legendary cattle. 2 outstanding sons in the sale that you will easily find in the pen and a group of outstanding young females and future mothers. The outside females have really come into their own and been hard working and consistent females that quietly produce top end females in the herd and sale. A heifer with depth, a very appealing profile, and clean front. Take an eye appealing female with many attractive features, add the Rosebud cow family to it and you have your next great mother cow.

OUR RANCH HAND LANE FRITZ JOINED US LAST FALL AND HAS SHOWN HE IS A JACK OF ALL TRADES. FROM RUNNING EQUIPMENT TO WORKING WITH CATTLE HE HAS BECOME A PART OF THE CCA FAMILY. HE AND HIS WIFE ARE EXPECTING THEIR FIRST CHILD RIGHT AROUND SALE TIME!

SALE DAY DONUTS PROVIDED BY:

STOCKMAN SELECT SALE

Next Sale: December 2022

We would like to thank all the producers who consigned their females to the STOCKMAN SELECT bred female sale held at WHITEWOOD AUCTION. The positive remarks of the quality of the offering bodes well to this becoming an excellent avenue to merchandising your product. Crescent Creek is proud to sponsor this sale of females that are either bred to or offspring of our genetics. The females must be bred by the owner. It is our goal to enhance the profitability of our dedicated customer base.
