Logan Miller

Hello my name is Logan and this is my 8th year in 4-H. This year I have my steer Diesel and he is a Speckle Park x Black Angus. Diesel is out of my cow and an AI bull who was the 2015 Agribition Grand Champion bull. On April 2nd he weighed 1060 lbs and is gaining 4.1 lbs per day. By show day he will be finished for sure. He is very quiet and friendly, he is good to lead and likes to be around people.

Taigan Miller

My name is Taigan Miller. I want you to meet my steer, Clifford. He is home raised and is a Simmental. He got his name from Clifford, the Big Red Dog. He is like a big puppy! Friendly, calm with a little spunk. He has been an exciting and fun project to work with. This big boy is well muscled, with a nice frame and sure to taste delicious on the BBQ! As of May, Clifford is weighing 1420lbs. This is my first year in 4-H, so I have had to learn everything from picking a steer out, feeding, leading and grooming. It has been a lot of fun and I cannot wait to show him off at the Show & Sale.

Kate Brady

My name is Kate Brady and I am in Grade 7 at J.C Charyk School in Hanna, AB. I spent 2 years as a clever member and this is my first year as an intermediate member. Keegan Connors

My name is Keegan Connors and this is my 8th year in market steer 4-H. I also have a heifer project and a two-year old project. My steer, Jerome, is a home-raised Limousin Angus cross. I noticed my steer in the summertime when we were checking cows and I was impressed with his conformation. On November 13th at weigh-in, he was 740 lbs and on April 30th he weighed 1400 lbs. By Show and Sale he will be nicely finished at about 1550 lbs. I would like to thank the Limousin Buyer group for purchasing my steer last year!

Brady Bignell

Hi, my name is Brady Bignell. This is my first year in 4-H and so far it has been super fun! My calf's name is Buddy. Buddy stood out from day one. He is super quiet and likes to have his head and brisket scratched. He is Simmental X Red Angus out of our own herd. At weigh-in he weighed 780lbs and on April 28 he weighed 1300lbs! Buddy is a very calm calf and I can't wait to show him at Show and Sale!

The reason I like 4-H is that I am always learning new things and skills to help me in the future. For me, the best part of the 4-H year is the show and sale because I get to see my friends. Thank you to Venture Fabrication for buying my steer last year. Please join us on June 10, 2023 at 7:00 PM for the sale!

I chose this steer because of his natural muscling and large frame that has allowed him to gain very well throughout the year. As of April 30th my steer weighed 1340 lbs. This makes his average daily gain 3.71 lbs/day. My favorite part of 4-H is being able to show my animals as well as see how they grow and change throughout the year! Kiptyn Conners

My name is Kiptyn Conners and I have been in 4-H for years. This year is my first year as an Intermediate. I have a market steer project named Bud this year. Bud is a home raised Limo-cross steer. At the November 13th weigh-in he weighed 740 lbs and weighs 1420 lbs as of April 30th. Last year my calf didn't have a big hip so when we were picking calves this year, I wanted to make sure I picked a calf with a bigger hip and I feel like I achieved this. I like 4-H because I can gain knowledge about cattle. My favorite thing about 4-H is the clipping clinic and Show and Sale day. Thank you to James Madge for supporting my last year's 4-H steer project!

Cleaver Kids

This year the Dryland Multi club has three very enthusiastic cleaver members. They are Lane Laughlin (8), Brandt Grover (6) and Brooklyn Laughlin (6).

The three Dryland cleaver members enjoyed taking part in meetings and many activities like the Dryland Christmas party, volunteer work and always a highlight the Dryland Clipping clinic weekend. During the Dryland Clipping clinic the cleaver members were excited to learn about fitting cattle for show day and even got to try their hand at grooming by helping some of the older members. They are looking forward to showing off their cleaver calves on June 10th in Hanna.

Pheasant Project

This year we are raising 600 pheasant chicks with Pheasant 4-H. Through an agreement with the ACA (Alberta Conservation Association) members are able to purchase day old chicks from McFarlane Pheasants in Wisconsin. We raise them and market the mature birds at the end of the program in Sept/Oct - mostly for release and hunts. We had a very successful year last year as we sold 80 to a local dog trainer where we released them at his farm for training bird dogs and marketed another 600 to a hunt club for hunting purposes. This year we plan to raise 300 females for a hatchery and have a market for the remaining for hunting purposes. We have had the birds for nearly three weeks now and they are very healthy and active. We look forward to another wonderful experience and are learning more each year! We welcome everyone to come and see our program.

Kale, Kennedi & Jillayna MacMillan
