Horse Project

The Equine project has had a great year! This year we enjoyed riding at the Calouri Pavilion in Olds, touring Moore Equine Veterinary Clinic and a few other learning functions throughout the year. Our five members were lucky to work with two awesome riding coaches, Sandy Loree and Lisa Wieben. The focus of the year was to learn how to communicate with our horses with respect and confidence while riding using our legs and body which keeps the horse in alignment and happy. We were sure to include fun games at every ride which is always a favourite! Every one of the girls have made big improvements in their riding skills and with that, their confidence. The skills our members learned prepared them to participate in the Mountain View District Horse Show as their Achievement Day. To finish out the year, the girls are looking forward to a trail ride in June together with their families.

Cleaver Members (8 and under)

We have been learning so much this year. These enthusiastic kids learn something new every 4-H meeting. They will have a chance to show off their projects on Achievement day.

Cleavers analyzing feed samples →

Outdoor Ed

Our Outdoor Ed group expanded a lot this year. We have 20 kids in the project, mostly Cleavers, Juniors and a couple Intermediates. We have had a great year meeting once a month to learn new skills try out some new activities. This year the kids had a lot of fun trying archery, snowshoeing, hiking and rock climbing. Some of the skills they learned were knot tying, avalanche safety, fire starting, shelter building, bear safety, using a compass, as well as learning all about the night sky and constellations.
