HF
HAMILTON FARMS
28th Annual
BULL SALE
& Select Female
Wednesday, March 29. 2023, Cochrane, AB

Welcome everyone to our 28th Annual Bull & Select Female Sale!!

Everyone here at Hamilton Farms invites you to join us at the ranch for our 28th annual sale on March 29, 2023. Anyone who would like to come and view sale cattle ahead of time is more than welcome, and even encouraged to do so, allowing you uninterrupted inspection of the sale offering, as well as our cowherd.

Our commitment to acquiring and supplying genetics that are no-nonsense, and cowboy friendly, is on-going. We put heavy emphasis on the basic economic traits such as feet and udders and extend our search for convenience traits like calving ease, and vigor, and endeavour to tie all these together with added performance with desirable carcasses. The buzz word in the Angus world these days has come full circle from years gone by... Maternal, maternal, maternal. This is very enlightening for us as this has been the backbone of our focus from our earliest beginnings! This is not new to us, as our cow herd has been supplying us with breed leading genetics for years, without help. No creep feed, no pampering! Just grass and milk. Although we are very proud of the genetic balance we have created in our cow herd, we are never done trying to improve and we always appreciate feedback from our customers… good or bad, so that we can continually strive to be the best we can be.

There is a lot of optimism out there that maybe we have come to the end of our cycle of limited moisture, and low water levels. They say it takes a tough winter to bring an end to a drought, and when you travel across the country, it looks promising, that there will be significant spring moisture and runoff, and hopefully a new start to a strong and vibrant beef industry. Cattlemen have endured a lot of hardships over the past few years with dry pastures and limited feed stocks. For all of you who have endured, and persevered, I believe your time has come!!

Our bulls are available in larger sire groups giving you the opportunity to add consistency to your programs. The bulls are raised on a high roughage diet designed for moderate weight gain and long-term health. A great indicator of how responsibly the cattle have been managed is to view their hair coat! Excess energy in a diet will deter hair growth and sheen. The bulls in this offering have extra hair coat and shine and you can be assured that their longevity is preserved.

Dawn Turner- Accounting

The open heifers we are selling are from the heart of our program with many of our cherished cow families represented. We are always excited to see these heifers go out and work for their new owners and it is very gratifying when they settle in and produce sale toppers and front-end replacements.

We could have never made this long journey without the help of many, and we would be remiss to not recognize these people. First, Thank You, to all our supporters of our program over the years. Whether you bought cattle, or bid on cattle, or came to observe and see our program...Thanks a lot! We very much appreciate you! Second, it takes great people to make an operation run smoothly and we have been blessed with quality people around us. Thanks to Brenda Silbernagel and Dawn Turner for keeping our office running smoothly. They are remarkable at doing what they do, (so Gail and I don't have too!). Dave Moon, Operations Manager/Foreman. Dave & Laura and family have been with us for the past seven and a half years and we are very fortunate to have them with us. Dave can do it all…whether he is on horseback healing calves at brandings, sorting cattle, or operating equipment, he is the best there is, plus… he's awesome to work with. Our son Joel, and his wife Taylor are steadily taking Hamilton Farms to the next level. Along with all the normal day to day jobs, they are very involved with all our new initiatives in beef marketing. Wyatt & Stacey Hamilton are integral in our beef marketing and are very invested in the success of Hamilton Farms and Hamilton Farms Premium Angus Beef. Wacey and Carlye Hamilton have been creating awareness of Hamilton Farms Premium Angus Beef in the Medicine Hat area. Special thanks to Kim Matthews for her expertise designing our ads and compiling our sale catalog for the past 19 years! It isn't uncommon for us to give Kim an hour's notice that the deadline for the ad is due, and she always comes through with flying colors! Thanks to Cole Giles for masterfully taking care of show and sale cattle preparations. Jordan Buba for her great cattle photography, video expertise, and ability to put up with me! Bruce Luyendyk for his care and attention feeding the herd. Thanks again everyone for all you do!

Our live auction will take place on Wednesday, March 29th 2023, and we will be hosting our annual open house on Tuesday, March 28th with food and refreshments available all day. Call anytime if you have questions or need help with your selections. If you can't make it in person on sale day, DLMS and DV Auctions will be available to handle your online bidding needs.

COW/CALF HEALTH & MANAGEMENT

Overview for Hamilton Farms

CHMS Cow/Calf Health and Management Solutions

HERDTRAX by TELUS Agriculture

Dr. Troy Drake, D.V.M.

Dr. Waylon Wise, D.V.M.

ALL BULLS WILL BE SEMEN TESTED BY DR. TROY DRAKE, DR. WAYLON WISE & Dr. Oliver Schunicht AND READY FOR DELIVERY.

Hamilton Farms have their entire cow herd on an integrated and comprehensive health and production management program. The program is based on the detailed collection of data on each individual animal at all key health and production points. This information is kept in a secure web-enabled database called Herdtrax® and it is continually monitored and audited by the managing veterinarians at Cow/Calf Health and Management Solutions (CCHMS).

The are 5 key components to the health and management program:

- Nutrition
- Animal Care and Welfare
- Disease Prevention
- Breeding Soundness
- Tracking Sale Bull Progeny Performance

Bull and Heifer Nutrition

All pre-weaned calves are raised on mamas milk and lush green grass. No supplemental creep is needed or provided. After weaning they are introduced to a fibrous total mixed ration comprised of chopped hay, silage, barley and an all-natural protein supplement. This diet is more than adequate for maintaining growth and performance and superior for rumen, hoof and reproductive health.

Animal Care and Welfare

All the animals (not just the cattle) at Hamilton Farms are managed and handled with the utmost of care. The cattle are comingled in small groups in large spacious paddocks that have 360 degree wind protection and a large amount of slope so that there is always a dry area to stand or lay down. Straw bedding is abundant and always fresh. Cattle are always handled with ease, but when necessary (in the event of an injury or lameness) an analgesic medication (Meloxican) is administered to help lessen the pain. Rob and Gail, as most producers, take great pride in insuring that all of their animals are managed, transported and cared for in the most humane manner possible.

Disease Prevention

Hamilton Farms follow a detailed vaccination program to help ensure that the cattle stay healthy and continue to thrive on the farm and carry this forward onto their new homes. Below is a list of the antigens vaccinated against and the associated product names used.

Calves are vaccinated within the first 10 days of life:

- IBR/PI3/BRSV (MLV) – Inforce 3® (intransal)

Calves are vaccinated in the spring prior to pasture turnout with the following:

- IBR/PI3/BRSV (MLV) – Inforce 3® (intransal)
- BVD (MLV) and Mannhaemia hemolytica – One Shot® BVD
- 7 way Clostridial and HIstophilus Somnus – Ultrabac® 7/Somnubac®

Calves are vaccinated at weaning with the following:

- IBR/PI3/BRSV/BVD (MLV) and Mannhaemia – Bovi-Shield® GOLD One Shot®
- 7 way Clostridial and HIstophilus Somnus – Ultrabac® 7/Somnubac®
- Parasite Control – Safe-Guard® initially, followed by Ivermectin in fall.

Cows, replacement heifers, bulls are annually vaccinated pre-breeding:

- IBR/PI3/BRSV/BVD – Bovi-Shield® GOLD FP®5 (Fetal Protection)

Bulls prior to the sale have been vaccinated and treated with the following:

- Fusobacterium Necrophorum – Fusoguard™ (footrot and liver abscess vaccine)
- Two doses given twice 60 days apart
- Lice Control – Permethrin

Bulls prior to the delivery will be boostered, and ready for turnout:

- IBR/PI3/BRSV/BVD – Bovi-Shield® GOLD FP®5

Breeding Soundness Examination

Every bull for sale will have been evaluated for the following criteria:

- Physical Examination
  - Soundness of structure and movement
  - Palpate testis, epididymis and internal sex glands
- Scrotal Circumference
  - Minimum requirements must be met or no further evaluation is performed
- Examination of the penis
  - Verify each bull can protrude and there are no warts or defects on the penis.
- Sperm motility and morphology
  - Verify sufficient gross and individual motility and sperm morphology

The bull must pass all the above criteria to be considered a satisfactory breeder. If the bull passes all of the above criteria but falls just below the minimum threshold for sperm morphology (70%), he is considered to be a “decision deferred” breeder. Approximately 40% of all bulls will fail to produce an adequate semen sample at 11 mo. of age, 30% at 12 mo., 15% at 14 mo., 5% at 16 mo. This classification of bulls means that they are either prepubertal or stressed, but are showing sufficient signs of improvement and will likely be satisfactory soon when the days get longer and the grass is greener. Any Decision Deferred bulls offered for sale will be announced at sale time and none of these bulls will be delivered until they achieve satisfactory semen status.

Tracking Sale Bull Progeny Performance

Over the past several years many of the bulls sold have gone to producers that are also enrolled on the Herdtrax cattle management network. This allows for the seamless transfer of the bulls record and history to the buyers Herdtrax account and also subsequently allows for the continual flow and ongoing access to each bulls progeny performance. Below is a sample of the data that is acquired passively and is fully accessible by Hamilton Farms. This is an extremely valuable resource that assists the commercial producer with their ongoing decisions regarding what type of bulls work best in their program, but it also provides the Hamiltons with feedback on how their bulls are working for each commercial producer in their respective environments. Take special note of the calves’ birth weights, weaning and yearling weight indexes and the quality grades. Who says you cannot have it all! FYI; this data is all from one sire.

CCHMS is proud to work with Hamilton Farms and if required will provide documentation and verification of all animal health processes and treatments. If there are any questions with respect to the health and production management program at Hamilton Farms, please contact myself or Dr. Troy Drake directly.

HF ALCATRAZ 60F

Dam

Alcatraz sold through our 2019 sale to Bar-E-L Angus and Cowtrax Cattle Co. for a Canadian record selling price of $200,000 for 1/2 interest.

Alcatraz set a new standard for the definition of what a fault free bovine should look like. His structure is pretty much flawless, and he is so impressive in every other way. If docility is important to you, he has that. If added muscle expression is your desire, he provides that. He proved himself as a calving ease sire after the data on his first calf crop was recorded. When we collected semen on Alcatraz at 13 months of age, he never missed a beat and produced semen consistently during his time at Alta Genetics. Alcatraz daughters are consistently moderate in frame with some added muscle shape and spring of rib. We are very proud to have raised such a bull and his impact on our program will have long lasting positive effects.

SCHIEFELBEIN SHOWMAN 338

Dam

We purchased Showman with Six Mile Angus in the 2019 Schiefelbein Sale where he was the high selling bull at $125,000 USD. We bought Showman to add a new pedigree to our program that would support our efforts to provide easy doing, easy calving, high performance cattle. Showman has exceeded all of our expectations after the first progeny have been weaned. Showman has unbelievable spread from birth to weaning, and he does all of this while still transmitting tremendous muscle shape, volume, and eye appeal. The Showman sons are super stout with a ton of angus character and the heifers exhibit an abundance of volume and capacity, while maintaining superior femininity. The first year of milking 2yr olds couldn't have been more exciting, with the resulting calf crop topping the contemporary groups with numerous features. Showman progeny have been in high demand and this will be our largest sire group on offer once again this year.

SITZ PROFOUND 680G

Profound was the high selling bull in Sitz's 2020 spring bull sale, selling to Hollow Top Ranch, Montana, for $70,000. We acquired semen exclusivity on Profound to add to our herd bull line up and provide some fresh genetics which are rich in maternal values. Profound is a high performing, calving ease sire with balanced EPD's, tremendous individual phenotype, and flawless structure. We now have numerous Profound daughters calved out and they are exceptional in their make up with beautiful udders. We anticipate the Profound daughters to be highly valued in our herd, based on what we have witnessed so far. Profound sired one of our high selling bulls in 2022, at $30,000. A Profound bred heifer sold through the 2022 Agribition All Star Sale to Knutson/Rideau for $37,000. Another Profound open heifer sold through the 2022 Falls View sale to Simone Ducharme, for $28,000.

HF ROPER 27F

Roper is one of our all-time favorite Cowboy Up sons who has curve bending performance coupled with superior calving ease. Roper was purchased by Semex Alliance for $42,000. He is extremely deep bodied with added muscle expression and structural correctness. His dam, HF Rosebud 246Z is a highly productive, beautiful uddered female who earned her way to the donor pen by raising some front end bulls which sold through past sales. HF Sold Out 179J sold to Compass Ranch & Remital Farms $40,000, HF Thrive 128D sold to Alta Genetics $35,000, HF Air Time 141J sold to Mark Daines $21,000, HF Walk Away Joe sold to Bar-E-L Angus $19,000...plus numerous other feature lots.

SQUARE B ATLANTIS 8060F

Atlantis was added to our AI sire lineup to complement our existing sires in providing fault free Angus cattle. Atlantis blends flawless structural soundness with stunning phenotype and genotype, combining superior early growth and reduced mature size. They are attractive patterned with true Angus breed character and tremendous herd sire presence. Atlantis is expressively muscled, deep-sided, great footed with unparalleled structural soundness, Atlantis tracks wide and true with a long, athletic reach and he is extremely fertile with superb testicular development. Atlantis is known as an efficient and aggressive breeder. His calves are born light and transform into solid functional cattle.

CAA Reg #2219702 AAA Reg #19203618

ELLINGSON THREE RIVERS 8062F

We used Three Rivers extensively as a new AI sire to again provide our long-term customers with fresh new genetics that will add some extra power and performance. Three Rivers' dam is a powerful cow with added rib depth and overall mass. She is a model Angus cow with a beautiful udder and an impressive production record. Count on the Three Rivers progeny to pass on extra performance resulting from their unmatched length of body.

BUBS SOUTHERN CHARM AA31

Southern Charm was selected as a choice sire to mate with our donor female HF Rosebud 246Z. Southern Charm is highly valued for his prolific breeding capabilities where structure, udder quality, easy fleshing ability, and high carcass traits are required. Count on his progeny to be highly versatile in providing all the basic economic traits we strive for.

KR SOUTHBOUND 0351

KR Southbound was the second high selling bull in the 2021 Krebs Ranch bull sale which we selected for his outcross pedigree and powerful lineage. He is an exciting herd sire candidate from the prestigious KR Lass 6207 donor cow, who is no stranger when it comes to herd bull production. Southbound's progeny possess added power and performance, and we expect his daughters to be highly maternal as well. His calves are noticeable with their extra body length and muscle shape and we look forward to seeing Southbound's impact on our herd.

HF STORM CENTER 26D

Storm Center originally sold through our 2017 bull sale, going to Sunrise Simmentals, Spyhill, Sk. and Darren Clifford, Provost, Ab. for $35,000.00. We continued using Storm Center through AI for a couple of years and as his daughters developed, we could see that they were the special type…moderate in size, structurally sound, with beautiful udders. We acquired a walking interest back on Storm Center and have appreciated his service back in our pastures. The Blackcap cow family has a long history here and the accomplishments are many. Maternal brothers to Storm Center have sold to Pahl Livestock, $37,500.00, Pleasant Valley Farm, $42,000.00, Hextall Livestock, $32,500.00, East & West Ranching, $19,000.00 plus many more too numerous to mention all.

Here would be one of the most popular Profound sons in the sale offering. Right from weaning he showed awesome potential, earning his way into our Agribition string. He provides +0.3 BW, Adj yearling weight of 1490lbs, and an average daily gain of 4.61/lbs day! Reverence packs a tremendous amount of power into a sleek and smooth package. He is well-balanced and good footed, which he comes by honestly when you see his mother, HF Echo 92Z. His mother is an 11yr old tanky cow with a perfect udder! A brother to Reverence, HF Hostage 170G, sold to Dwajo Angus for $12,500 and a recent text from Jesse expressed his excitement about his milking daughters and the udders they have dropped!

This might be one of the widest bulls in the offering. These Three Rivers calves pack a punch when it comes to performance, muscle shape, and length. Causeway has all of that. Take note of the power through his front end and crest, he just has that herd bull look. With a 1424lbs yearling weight and 800lb wean weight, he is sure to add pounds to your program. His dam, HF Tibbie 282A, is moderate framed with tremendous depth and volume. 282A is a full sister to HF Rebel 53Y who sold to Stevenson Angus, and TC Ranch for $95,000. To go along with that her last 4 progeny have averaged $18,250.

Dam, HF Tibbie 282A

Maternal Sister, HF Tibbie 3H, Sold to Pieschel Farms for $22,000

Calving ease, performance, phenotype, genotype…Ribcore has got it all. He has a 67lb birth weight, 856lb adj weaning weight that indexing 117, and a 1438 adj yearling weight…. and he's out of a first calf heifer! A Showman calf out of an Alcatraz heifer, the stars have aligned here. Ribcore might have one of the better EPD spreads you will find in the offering, this footnote will drag out too long if I list them all, so you'll just have to search him up!

We love the look of this Showman son, he's built right from the ground up! His thickness, spring of rib, and eye appealing profile make Stealth a bull surely to be marked in many catalogs. With a low birth of 78lbs and EPD of -0.9BW, Stealth can run with your heifers and you can sleep soundly when it comes to calving season. His dam, HF Erica 287C, is a beautifully made, moderate cow with a level tight udder and perfect feet!

Dam, HF Annie 193C

Maternal Sister, HF Annie 181J Sold to Ranch PJ for $15,000

Another Three Rivers son that adds length, shape, and stoutness to the equation. His athleticism and ability to move is second to none, with a phenotype you love to see. The udders in the Annie cow family are tough to beat. His dam, HF Annie 193C, is moderate framed with extra length. She a cow that you'll find in her work clothes getting the job done. Her first calf sold to Bull Pound Ranch for $10,000, another female sold to Anchorage Farms for $11,500, and her latest calf sold in 2022 for $15,000 to Ranch PJ.

Herdtrax Sire Alliance Program

As most of you are already aware; three years ago, Herdtrax initiated a Sire Alliance program for all the commercial producers enrolled on Herdtrax. The goal was to collect and share progeny data parameters from multiple commercial herds with varied breed types and management environments. HF Alcatraz 60F was the first bull offered and used in the Alliance program. Below is a summary of all the data collected to date which now includes fertility, pre-calving weight and calving interval data on Alcatraz daughters. It is important to reiterate; reproduction in beef cattle is 10X more economically important than growth traits and 20X more important than carcass traits. We need it all, but an extra calf, or more calves per cow herd, is the single largest factor in increasing lbs of beef.

DR. TROY DRAKE D.V.M

HERDTRAX by TELUS Agriculture

Progeny count: 703 (74% out of 1st calf heifers)
Heifers kept for replacements: 238 (67% of all Alcatraz heifers born)
Average BW: 79 lbs
Average gestation length: 280 days
Average WW: 632 lbs
Average Carcass Grid Premium: $5.41/cwt
Average Carcass Weight: 837 lbs
Quality Grade: 85% AAA or better

Average BW on calves from Alcatraz daughters: 81 lbs (96% unassisted)
Average weight of 2yr old Alcatraz daughters (pre calving) – 1230 lbs
Natural service calving interval – 88% 1st 21 days

"You will never find time for anything. If you want time, you must make it."

Maternal Grandsire, HF Rebel 53Y

If you're looking to add pounds to your calves, Devotion will do that. This stout stud weaned off mom at 818lbs, had an average daily gain of 4.17lbs/ day, and his adj yearling weight was an impressive 1484lbs! He ranks in the top 7% yearling weight, 15% weaning weight, 3% claw, and 10% angle. Devotion has tremendous muscle shape and spring of rib, a wide top and a big butt, but he moves freely and maintains nice breed character throughout his front end. His mother, HF Evening Tinge 77A, is a nice 10yr old cow with a level udder. His brother, HF Bullseye 278C, sold to Everblack Angus for $27,000. A sister, HF Evening Tinge 78J, was selected by Ranch Covey Hill as the pick of our heifer calves for $37,500.

"No pressure, no diamonds."

Another impressive Profound son that is worth looking up. Contractor is a bull that is very complete in terms of muscle, volume, and correctness. He's wide from his tail head to his ears and definitely catches your eye walking by. He weaned off mom just shy of 800lbs adjusted, and that's no surprise when you look her up. HF Tibbie 171Z, is a powerful cow with a nice udder that raises power bulls year after year. Some of her sons have sold to Leedale Farming Co. for $10,000, Spence Cattle Co. for $7,000, Don & Malinda Good $12,000, East & West Ranching for $13,500, and a heifer to Lewis Farms for $13,000. 171Z is a daughter of the famous, HF Tibbie 100M, that was known for her natural performance and perfect structure. 100M was no slouch in the show ring either, brining home a couple Supreme Champion banners as well. We can't say enough about the Tibbie cow family and what they have done for us over the years!

"All Hamilton Farms sale lots have been Angus GS tested and EPDs are genomically enhanced. Angus GS testing is an investment that we make to enhance the information available to our valued buyers. Over the last 10 years we have strived to provide more information and more data that will in turn provide our customers with verified parentage, and increased predictability of economically relevant traits. Buy with confidence knowing our investment is your reward!"

Firewater is another impressive Showman son! Describing bulls out of the Showman sire group can be very repetitive at times, but I guess that's a good thing because of how consistent they are and how many features there are! Firewater packs all the Showman like qualities into a very phenotypically appealing package, and to tie a bow on it, he is heifer approved. He posted a 70lb birth weight with a -1.2 BW EPD, a +54 WW, and a +112 YW. A brother, sold to East & West Ranching for $11,000, and another to Klassen Bros for $6,000.

Although the Three Rivers calves would be on the heavier end of the birth weight spectrum for us, they still calve easy. The small increase in birthweight is due to the extra length these calves possess. For the breeders that like that extra performance, you'll love these claves. Bow River has a weaning weight just shy of 800lbs, adjusted yearling weight of 1533lbs, and an average daily gain at 4.6lbs/day. Just stand behind him and see for yourself. Bow River was in our string of bulls at Agribition and was highly touted by many for his shear power. If you're looking to add pounds on the rail, or stock your replacement pen, this is your guy.

HF Show Biz 226J, Reserve Grand Champion Bull, owned by Roy Mac Angus & Daron Priest

Rob judging the Supreme Show- Agribition

We are proud to support the
Canadian Angus Foundation Future 15 Program

With **YOUR** help we will continue to further the Foundation's mission and the breed.

15% of a lot means a lot...

Since 2019 more than $180,000 has been INVESTED in member education, awards, bursaries and youth scholarships.

$230,000 invested in **ANGUS** research over the last three years leveraged an additional $360,000 in grant funding.

$65,000+ has been invested in history and archives, including the 2019 Canadian Angus history book.

If you are interested in giving back or learning more about this new initiative, please contact Belinda Wagner, Canadian Angus Foundation Executive Director at 306-537-1518 or email bwagner@cdnangus.ca. You can also visit the Canadian Angus Foundation website at www.cdnangus.ca/foundation/.

Canadian Angus Foundation Future 15

The Canadian Angus Foundation functions to preserve and expand the Angus breed for future generations through education, youth development, scientific and market research, and historical preservation and restoration. The Canadian Angus Foundation was incorporated in 1993 and is the charitable arm of the Canadian Angus Association. Donations are tax deductible.

Hamilton Farms is pleased to support the Canadian Angus Foundation with a donation of 15% of the average from their 28th Annual Bull Sale

"The road to success and the road to failure are almost exactly the same."

Salute is a low birth weight bull that has progressed nicely on feed since weaning gaining just under 4lbs/ day. If you are looking for a well balanced breeder that does many things really well, Salute will do that. While we are talking about 'balance', check out his EPD spread. A sister to his dam, HF Tibbie 86G, sold to 3G Cattle Ventures for $11,000 in the 2020 Angus Collection Sale.

Here is a calving ease bull sired by the popular Square B Atlantis sire which has bred really well for us. Zeus has an ideal angus phenotype and when you get behind him you will be pleased with the true muscle shape and squareness that he possesses. He is moderate in size with ideal structure, true angus character, and that real proud demeanor that is commonly found in great breeding bulls. Zeus's dam is a model angus cow with a level udder and notable past performance. A maternal sister to Zeus walks in our pastures and a maternal brother sold in last year's sale to Bull Pound Ranch for $10,000.

Just a note about our feeding program!

The entire bull offering has been developed on a high roughage Total Mixed Ration which has been formulated to maximize nutrition without adding excessive weight gain.

Our target for gain on our bulls is approximately 3 pounds/day and we like to see the bulls with moderate flesh, athletic, and ready to go to work for their new owners. We know it is very difficult to properly appraise cattle with excessive body condition and we feel it is very beneficial to you, the buyer, to view the cattle when they are fresh and with visual muscle definition.

We understand, and pay attention to the fact, that we are in a performance driven business and we strive to source genetics which will help add pounds to your calves, and leave you with desirable replacement females.

"We need to accept that we won't always make the right decisions, that we'll screw up royally sometimes – understanding that failure is not the opposite of success, it's part of success."

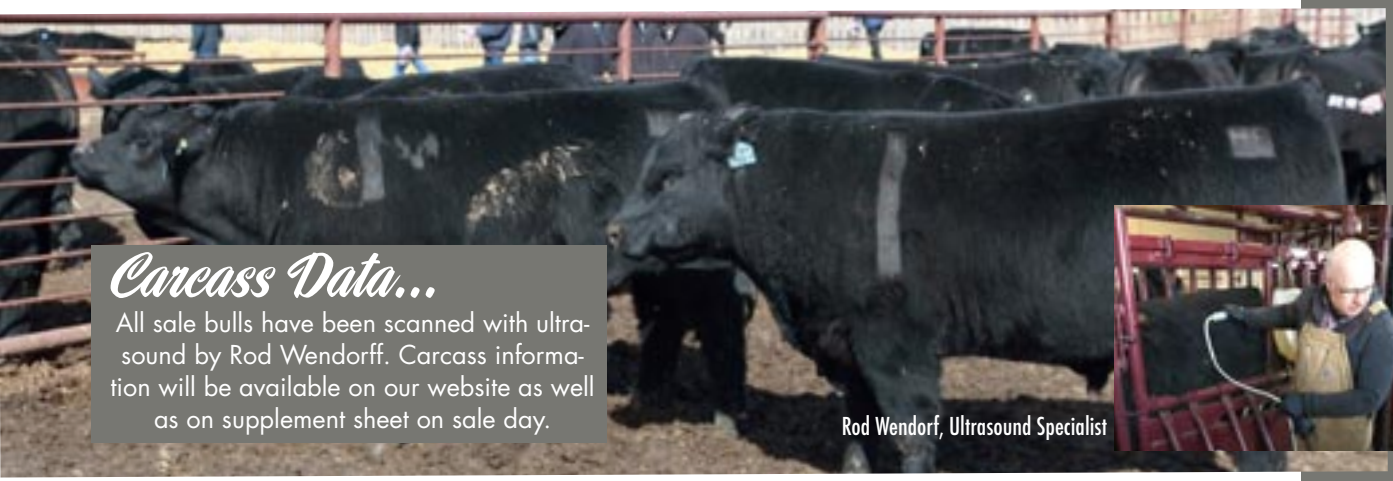
Well, Tiger has done it again. HF Tiger 5T has been an absolute icon as a breeding bull for many years. He has been recognized as an all-purpose sire that excels in multi trait functionality. A proven herd bull is not really proven until his daughters start milking, and it was at this point in Tiger's career when he became most popular. With now over 1700 progeny registered, he has achieved Elite & pathfinder sire status among the associations. This Tiger son is a definite favorite in the pens. He is wide from behind and down the spine, deep bodied, structurally correct, and athletic in his movement. He has such a cool look to him and presents himself with that herd bull look. The new owner of Tony will want to hold onto every female he sires, take it from us, there are never enough Tiger daughters in the herd!



Carcass Data...

All sale bulls have been scanned with ultrasound by Rod Wendorff. Carcass information will be available on our website as well as on supplement sheet on sale day.

Dam, HF Erica 207F

Maternal Sister, HF Erica 228J sold to Arrow Crown Angus for $19,500

Special Op will make you stop and look! His great hair, foot quality, and disposition are a common occurrence when you find Alcatraz on the top side. You'll be pleased to see his wide butt and width up over the pins when you get in behind him. With a modest 770lb adj wean weight and a 1422lb adj yearling weight it is evident that he has exploded since weaning at 4.08/lbs a day… another great Alcatraz attribute! His Dam, HF Erica 207F, is a beautiful cow that was purchased by JK Fraser for $17,000 and her daughter HF Erica 228J sold in our 2022 sale for $19,500 to Arrow Crown Angus.

Dam, HF Tibbie 14D

Maternal Sister, HF Tibbie 205F

In football, one interception can change the entire game, and when choosing a herd bull, Interception has the potential to do the same! This soggy made stud is big ribbed, and wide topped, and has an awesome foot under him. Our Profound females have been very impressive in their femininity, foot and udder quality, and overall disposition. His mother, HF Tibbie 14D, is another great Tibbie cow with her maternal granddam going back to the famous Tibbie 100M. Tibbie 14D is designated as an Elite/ Premier Dam in the CAA, and look at that udder attachment on her! A sister, HF Tibbie 205F, has established herself as a premier cow in the herd and has earned her way into the donor pen. A brother, HF Mastermind 98H, sold to Bar-E-L Angus and Cow-Trax Cattle Co. for $30,000.

This bull has been a fan favorite for many who have visited our bull pens since last fall. Hercules is wide based, square topped, with great expanse through his rib cage. The Atlantis bulls are more moderate in frame size, and performance, but you will sleep easy when your heifers start calving to him. His dam is a very productive Rebel daughter known for her body mass, correct structure, and ideal udder shape. Hercules has had five maternal brothers sell through this ring in past years to East & West Ranching (3), Tafika Angus, and Bryce Medin, for an average price of $13,500. Look this bull up on sale day and check him out.

Dam, HF Pride 40Z

Maternal Brother, HF Cowtown 32F, sold to Ricky Smith $17,000

Artillery will be a calving ease specialist with a low 75lb birth weight and a -2.5BW EPD! When it comes to the $200,000 herd sire, HF Alcatraz 60F, the consistency of his calves are incredible, you know you're going to get fault free cattle, with great skeletal structure, docility, calving ease, added muscle expression, and a great hair coat. Artillery checks all those boxes and deserves a close look! His mother, HF Pride 40Z, is a nice 11yr old cow with moderate frame and great docility, and obvious longevity! A brother, HF Cowtown 32F, sold to Salt Creek Ranch for $17,000 and many others selling to astute commercial cattlemen and women.

tomj.mcneely@bullseyefeeds.ca

Rob, Gail and family continue to raise the bar higher and higher each year, which is hard to believe considering they have one of the premier sales in Canada each year. Mark your calendar, it is an event you don't want to miss.

The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms on a strict mineral program. All the forages are sampled and analyzed to ensure quality forages are used. Once the calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. Matching suitable protein sources with proper starch is key to promoting lean muscle growth. Organic minerals are used to ensure proper immune function and overall health.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program. Good luck on sale day.

Dam, HF Miss Erica 141Z

Maternal Brother, HF Center Stage 126H, sold to Roy Mac Angus $17,000

Here is a low birth Profound son out of a herd bull producing cow! Ingenious packs lots of shape and mass into a phenotypically appealing look. He stands proud on a strong set of wheels and possesses great angus bull character. His dam is in our donor pen, HF Miss Erica 141Z, a nice Tiger daughter with good feet and a level tight udder. She has produced consistently year after year, her last 10 progeny have averaged $15,800. A full brother, HF True Grit 110J, sold in last years sale for $30,000. A full sister, HF Miss Erica 154J, will be a very nice feature heifer selling in the sale! Another daughter of 141Z, HF Miss Erica 206H, has her own featured Profound son in the sale, HF Halftime 173K.

Granddam, HF Rosebud 246Z

Maternal Brother to Dam, HF Shoot Out 179J

This is another feature bull with the Showman x Alcatraz mating…both studs out of first calf heifers! With a commendable 868 adj weaning weight that indexed 116, you can tell this young cow put everything she had into her calf. He also recorded a 1471lb adj yearling weight indexing 115. Booster is a bull that commands your attention with his thickness, depth of body, and overall eye appeal. His donor granddam, HF Rosebud 246Z, will be mentioned various times throughout these sale features as she is a big-time producer of herd bulls. Some include, HF Roper 27F sold to Semex $42,000, HF Sold Out 179J sold to Compass Ranch & Remital Farms $40,000, HF Thrive 128D sold to Alta Genetics $35,000, HF Air Time 141J sold to Mark Daines $21,000, HF Walk Away Joe sold to Bar-E-L Angus $19,000.

Dam, HF Tibbie 145A

Maternal Brother, HF Joker's Wild 198J, sold to Pieschel Farms for $17,000

Hades is another Atlantis son that you will definitely want to check out. Atlantis really stamps his progeny with awesome muscle shape and true Angus character. Hades fits the Atlantis mold perfectly and he rounds out his herd sire credentials with a dam who just happens to be a full sister to HF Rebel 53Y, which sold through one of our past sales for $95,000. Four maternal brothers to Hades have sold through previous sales to Pieschel Farms, East & West Ranching, Marty & Miriam Kjos, and Cross Bow Cattle Co for and average price of $10,500. Hades is a definite herd sire candidate who is nicely balanced, combining calving ease, performance, and eye appeal.

"You can be the ripest, juiciest peach in the world, and there's still going to be somebody who hates peaches."

Dam, HF Miss Erica 250A

Maternal Grandsire, HF Rebel 53Y

Cavalier will be a bull that will turns heads on sale morning when you see him get around the pen, he is easy to love in his style and correctness on all four corners. He would be a more moderate framed Showman son but balances his power and muscle expression into a soggy profile. With a low BW EPD of -0.2 Cavalier will be able to go to work on your heifers as an added bonus. His dam is a nice Rebel daughter that has proved her worth again at 10yrs of age.

Maternal Grandsire, KR Status 4267

Paternal Granddam, Frosty Elba 3745

Here is a bull with loads of shape and muscle expression right from his hind quarters and up through the shoulders. He stands square and is athletic in his movement. Find comfort in those qualities when you turn him out to cover ground and get breeding. Detention stat sheet combines performance and calving ease as well, +8.0 CE, +1.0 BW, +71 WW, and +125 YW. You won't find yourself in detention going home with this stud!

Dam, HF Tibbie 205F

Maternal Sister, HF Tibbie 224J

His name might be Alberta Bound but he will travel any pasture across the country with ease. He might be one of the most phenotypically appealing bulls in the offering, and he knows it, he likes to show-off and parade the pen. His muscle shape and herd bull style are packed into an impressive 1486lb adj yearling weight, and had a 847lb adj weaning weight! His dam, HF Tibbie 205F, is a beautiful young cow with exceptional depth of body, foot quality, and udder attachment. After showing what she can produce raising two high quality females and Alberta Bound she earned herself a spot in the donor pen. One daughter remains in the herd and the other daughter, sold in the 2021 Angus Collection sale for $36,500 to MWC Investments.

"My pain may be the reason for somebody's laugh. But my laugh must never be the reason for somebody's pain."

When I look at this bull, he just reminds me of Profound himself. So, if you are looking for calving ease, high performance, and beautiful replacement females Halftime will provide that. With a low 75lbs birth weight and an adjusted weaning of 797lbs, Halftime will provide that calving ease without robbing any performance! His dam, HF Miss Erica 206H, is a very nice Showman daughter that has outdone herself with this first calf. 206H is a daughter to our donor Miss Erica 141Z, who might be one of our most consistent producers, as her last 10 progeny have averaged $15,800.

Dam, HF Evening Tinge 118Z

Maternal Sister, HF Evening Tinge 38C

One of five tremendous ET flush brothers in this offering and the biggest attribute these bulls all carry is the true consistency in quality. Hambone has that herd bull look with great testicular development, a big wide top and expansive spring of rib. His donor dam is another one of those super Tiger daughters which keeps on bringing them in every fall. HF Evening Tinge 118Z made her way to the donor pen the old fashioned way…She just worked hard year in and year out and earned it!! She is an Elite/Premier Dam with the CAA, packs a level tight udder at 11 years of age, and gets around on solid feet. Don't miss these powerhouse bulls! Note the full sibs; 199K, 200K, 208K, 213K.

"Don't be distracted by criticism. Remember--the only taste of success some people get is to take a bite out of you."

Go ahead and put a star beside Bermuda, because he is easy to fall in love with. He will be a favorite to many come sale day. He has a tremendous amount of shape and muscle through the hind quarters and carries it up through the shoulder and into the his crest. He is a sure fire calving ease bull with low birth and a commendable 775lb adj weaning weight and a 1365lb adj yearling weight! Bermuda was derived from a long list of beautiful Echo cows that are fertile, maternal, and phenotypically flawless! His dam, HF Echo 216F, is powerful, angular, and has a picture perfect udder! His grand dam, HF Echo 110C, is also a very nice cow that has produced the type of females that you want to keep in the herd!

We love a scenic sunrise

A long bodied Showman son out of a beautiful Poss Maverick daughter has resulted in a very nice mating. He's got a 75lb birth weight, 805lb weaning, 1478lb yearling, and a 4.21lb/day average daily gain… and he's out of a first calf heifer! Don't be afraid to turn him out on heifers and watch him go to work. You'll be pleased when you look through his EPD profile and even more pleased when you see him in the flesh. Take note of the top 1% REA and add value to your calves. His dam is a nice heifer out of Alcatraz's mother, HF Mayflower 191Z, which stacks the pedigree nicely.

Granddam, HF Mayflower 191Z

Maternal Grandsire, Poss Maverick

Blue sky, green grass, and black cows

A quick rain delay

Dam, HF Rosebud 246Z

From behind

This feature bull has been catching eyes and impressing visitors for some time now. Northern Prince added to his fan base when we exhibited him at Agribition last fall. He has had some fairly lofty comparisons thrown his way in terms of significant bulls we have raised in the past. Northern Prince is ALL BULL and we believe he will be highly popular come sale day. He exhibits explosive growth, very sound structure, and comes from a productive donor dam who has been there and done that. A quick overview of the leading operations which have acquired herd bulls from Rosebud 246Z including: Box Elder Farming, Alta Genetics, T & B Harty, Semex, East & West Ranching, Bull Pound Ranch, Bar-E-L Angus, Oliver Schunicht, Tafika Angus, Daines Angus Ranch, Compass Ranch, Remital Farms…Eleven son's averaged over $21,000.

Thank You

to Core Ag Inputs for co-sponsoring our sale hospitality. It is greatly appreciated!

Dam, HF Miss Erica 56D

Maternal Grandsire, Connealy Consensus 7229

When you look at the sire on top side of this pedigree, I think you already know what to expect. Three Rivers is a potent breeder when it comes to adding muscle and bone density, length, pounds, and explosive growth. High Tide is sure to follow in his fathers' footsteps that way. He has an impressive adjusted yearling weight of 1520lbs, and an adjusted weaning weight of 889lbs, both of which being in the top 1% of the breed along with Carcass Weight, Heifer Pregnancy, and CBI. His Dam, HF Echo 59Z, is a Connealy Consensus daughter and they have been exceptional cows for us with good feet and udders! A brother, HF Comet 36C, sold to Cold Country Angus for $12,000. And a daughter, HF Echo 28H, has one of the top Showman feature bulls in the offering, Ribcore 31K

"The early bird gets the worm, but the second mouse gets the cheese"

Mercenary is definitely one of the favorites of the five flush brothers in this offering. He is wide based from front to back with a big butt and great structure. The power in these bulls is second to none and his donor dam is no stranger when it comes to spotlight sales. A maternal sister sold through this sale to Bar EL Angus for $20,000. That female has since gone on to the donor pen at Bar E-L Angus and is highly revered in their program. Other notable sons have sold through this sale to Alta Genetics, East & West Ranching, and Chico Ranches for an average price of $13,000. HF Evening Tinge 118Z is an Elite/Premier Dam with the CAA. Note the full sibs; 177K, 200K, 208K, 213K.

Another flush brother with added body depth and base width. We talk about this often and I'll mention again how beneficial it is to have a bull of this stature which can be used on heifers, yet provide superior performance and maternal traits. Refer to the footnotes on 199K for many of the accomplishments of this guy's productive dam. There isn't a lot of guess work in determining how these bulls will perform. Note the full sibs; 177K, 199K, 208K, 213K.

When you get these bulls together, it is a tall task to pick out a favorite because they are so alike. Idol is very expressive in his muscle shape and carries himself like a stud. When calving ease, phenotype, maternal greatness, and performance come together, it is very rare. This is a herd bull opportunity in the making. Note the full sibs; 177K, 199K, 200K, 208K.

Dam, HF Rosebud 246Z

Full Brother, HF Northern Prince 182K

This flush brother to Northern Prince is definitely a bull which could propel his new owner to the next level in terms of producing highly productive females and bulls with all the latest genetic features. Cinderella Man may have been a little short-changed on milk from his recipient momma but he has really made up for lost time since weaning. Check out his beautifully balanced set of EPD's which show him to be great on calving ease, performance, and carcass numbers that will throw a little icing on the cake. We really like this bull and we think you will see him the same way. As mentioned in his brothers' footnotes, here is a quick overview of the leading operations which have acquired herd bulls from Rosebud 246Z: Box Elder Farming, Alta Genetics, T & B Harty, Semex, East & West Ranching, Bull Pound Ranch, Bar-E-L Angus, Oliver Schunicht, Tafika Angus, Daines Angus Ranch, Compass Ranch, Remital Farms…Eleven son's averaged over $21,000.

Whether you put more stock into genotype, or into phenotype, it doesn't matter because Doc Holliday does both exceptionally well. This long bodied meat wagon checks all the boxes when looking for a new herd bull! He's got the length, he's got the depth of body and flank, he's got the added muscle and shape, he's got the table top back and bully crest…and on top of that he's a heifer bull. His stat sheet reads, 83lb birth weight +0.9BW, 849lb adj weaning weight +65WW, 1480lb adj yearling weight +109YW, top 1% on scrotal +1.97, top 1% Claw, and top 10% Angle. His mother, HF Tibbie 221E, is a nice moderate framed cow with a tight and level udder. Brothers to Doc Holliday's dam have sold in previous sales for $17,000 to Alta Genetics, $16,000 to East & West Ranching, and $14,000 to Klain Simmental Ranch.

Dam, HF Tibbie 221E

Maternal Brother, HF High Roller 26F

"I saw a study that said speaking in front of a crowd is considered the number one fear of the average person. Number two was death. This means to the average person, if you have to be at a funeral, you would rather be in the casket than doing the eulogy."

A hungry harvest crew!

Tay, Rob, Bruce, Dave, Will, and Joel

"I'm at a place in my life when errands are starting to count as going out."

Dam, HF Tibbie 22C

Maternal Brother, HF Showcase 176J sold to Ranch Covey Hill $40,000

Roughnecks sire, HF Roper 27F, has been one our all-time favorite Cowboy Up sons who has curve bending performance coupled with superior calving ease. Ropers dam, HF Rosebud 246Z, is one of the top producing females at the ranch and has raised many herd sires and feature bulls to date. Roughnecks dam has been a genetic treasure for Hamilton Farms and Greenwood Cattle having produced numerous top selling ET calves for both outfits. HF Tibbie 22C, is now deceased but she will always be remembered for her stunning profile…deep, angular, and feminine, with a flawless udder. Roughneck has a combination of stacked maternal cows on top and bottom, so you know you can buy with confidence.

Here is another powerful KR Southbound son that will push the scale down. He's deep bodied, with a wide top, and great hair. Boundless is a late February calf out of a young cow, he recorded a 888lb weaning weight, 1540lb adj yearling weight, and a 4.08lb average daily gain, on a feed ration designed for 3lbs/day. His dam is another nice HF Syndicate daughter that we look forward to her future. A paternal sister to his dam from W Sunrise recently sold in the 2023 Angus Collection sale for $40,000.

Maternal Grandsire, HF Syndicate 213Z

Maternal Sister to Dam, W Sunrise Tibbie 24J, sold for $40,000

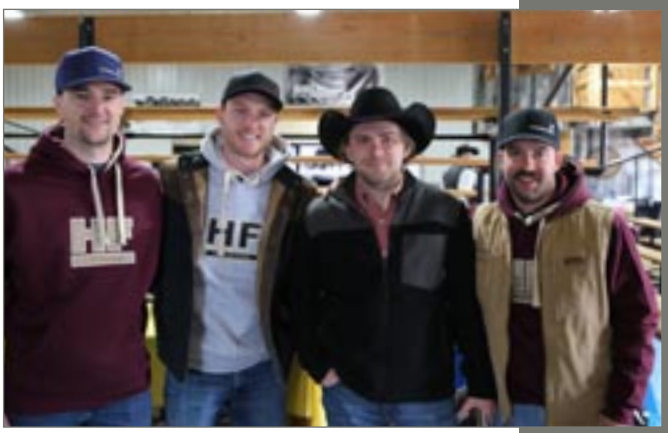
Okay, where do I start? Gravity is a late March born calf, one of the youngest bulls in the offering, but also one of the more impressive bulls in the offering. This moderate framed truck has a 82lb birth weight, weighed 876lb at weaning, and records a 1502lb adj yearling weight! The amount of power, muscle expression, and shape this young stud provides is unmatched for his age. He stands square and moves like a cat. He ranks in the top 1% for many traits including, WW +78, YW +139, Claw +0.25, Angle +0.27, and Mature Weight +127. This is an exciting calf that you should for sure make a note of!

Thank you for your sale help Carol & Patti!



Shuttle services crew- Curtis, James, & Ian

Cole Giles
403-862-1395

Taylor Giles
403-703-3026

Cochrane, AB

Cole Giles and his sister Taylor operate 3G Cattle Ventures and they have been consigning these extra age bulls to our offering for a number of years now. The Giles family are close neighbors and have been raising Black Angus for a number of years. Many of their genetics are related to HF breeding, so this provides a really 'good fit', to offer these aged bulls in our sale. We have a close working relationship with the Giles, and in particular Cole, who has taken care of show and sale cattle for us for a number of years. Their cattle operation consists of a large commercial cow herd and a smaller select herd of purebred cows. The purebreds cows thrive under the same management conditions as the commercial herd so you can be assured that the bulls offered here will be ranch ready and trouble free.

These 2-year-olds have been targeted for sale as aged bulls, and no bulls have been sold from this group previously. They are April, May, born bulls and have been raised strictly on a high forage-based ration through their first winter, and then pastured until they were 19 months old. From November 1, 2022, they were introduced to a high roughage TMR, and developed slowly up until sale time.

This Tibbie female is the first for Tibbie 262D who has filed her line up of progeny with bull calves. Tibbie 1K was born with a very moderate BW, but has not looked back. Presence, length and depth of body and extension through her front end gained her the opportunity to step into the feature ranking. Two maternal brothers have gone to the East & West Ranching Co for $9,500 and $10,000. There are only three females on offer from the new Herdsire "Ellingson Three Rivers" which is an outcross pedigree. He is a breed leader for weaning and yearling growth, $C (Combined) and high performing cattle. Here is an opportunity to acquire something a little different.

This Alcatraz daughter, like so many of them, is stacked full of superior maternal qualities. They have superior milking capabilities, strong maternal instincts, moderate in their make-up and what you would say is an ideal mother cow. Docility is also at the top of the scale when dealing with Alcatraz progeny, what a treat! A maternal brother to Betty 2K was purchased by Canadian Sires in 2018, HF Gold Buckle 92E (sired by Cowboy Up) for $34,000. Other maternal progeny have gone to Wayne Lillejord and to W Sunrise Angus, the Walgenbachs to name a few. A female made for a junior project is where she might fit nicely.

The Echo cow family is very proven, both in sales and production in our herd. Very long bodied, easy fleshing, strong topped and up headed. Echo indexed 103 and 110 for weaning and yearling respectively with very little added management! Syndicate, a proven pedigree known as a calving ease specialist which has really stood the test of time! Syndicate has been used extensively on heifers with virtually zero stress on them or us! Note worthy sons, daughters or siblings to Syndicate …. The Coalition bull sold to Spicklers for $32,000, another full brother (Temptation) sold to Freyburns for $47,500, maternal siblings to Syndicate, HF Swagger and HF Lifeline for $35,000 apiece. The consistency and quality of this pedigree is overwhelming both top and bottom, don't miss out on this opportunity to acquire a proven product.

Maternal Grandsire, KR Bullseye

Maternal Sister, HF Annie K 34F, sold to JC Dutchik $8,000

Annie K 17K definitely is a feature and possibly the lead off heifer or close to it! Showman progeny have once again risen to the top of the calf crop for 2022. What's even more encouraging and exciting is that the progeny from the first set of lactating 2-year-old Showman females have also ranked at the top of their contemporaries. Annie K 17K has that "one rib longer" appearance, attractive angus character through the front one third, tons of rib capacity and length and powerful muscle shape to compliment her unmatched femininity and style. Annie K 17K ranks in the top 1-2% for weaning, yearling, docility, ribeye, fat and mature weight. There have been six female maternal sibling sold averaging $11,550, going to Avos Farms, Jaycee Dutchik, Hard S Livestock, Ranch Covey Hill and Lynden Smith. This is a surefire female with loads of potential. A sterling pedigree tagged to a phenotypically sound female.

Annie 20K is a moderate framed, elegant but stout heifer with a powerful hip and great hair. Rest assured that her udder will be exactly what you want to see, as Profound females are calving out with level udders, small teats, and a good attachment. A nicely balanced set of numbers is what Annie also brings to the table.

Perfection is not attainable, but if we chase perfection we can catch excellence.

This young female has a classic pedigree, descending from the famous Ruby cow family that is so well know for producing the breed legend, HF Kodiak 5R. Ruby 955N is the maternal granddam of Ruby 25K who is very easy on the eyes, has great presence, massive rib shape and length of body and the potential for a near perfect udder development. Sitz Profound has really proven himself as the heifers grow into big ribbed females with tremendous width and overall dimension and amazing udders. We sold two Profound bred heifers last fall, one in the Canadian Western Agribition All Star Angus Sale, where HF Rosebud 121J topped the sale going to Knutson/Rideau for $37,000 and another bred heifer sold in the Angus Collection Sale, where Tibbie 54J sold to Circle 7 (Kelly Oberle) for $15,500. As well we sold another Profound heifer calf in the Falls View Sale in Ontario for $28,000 going to Ranch Ducharme in Quebec. The predictability of the Profound progeny definitely displays the consistency we all need in our herds, so feel confident in your choice.

When you combine the power and overall dimension of a Showman with the eye appeal and hairy, cool swagger appearance of a Rebel daughter, the result is HF Rosebud 30K! This gal will certainly demand your attention when you browse the catalog, watch the video, or see her in person, she is one unique specimen. She is not just another female from the famous Showman collection, Rosebud 30K has the quality, balance and presence to become a front pasture cow and she should also find her way to the donor pen in the future. Her maternal grandsire, HF Rebel 53Y was sold to Stevenson Angus, TC Ranch and Green Angus Ranch for $95,000 and also of notoriety is HF Prowler 43U, a maternal brother to Rosebud 255D who sold to Boss Angus for $30,000. We have retained a full sister in the herd that has calved already and she is definitely a gem! The proof is on the table!

Maternal Granddam, HF Evening Tinge 179Y

Maternal Great Grandsire, HF Swagger 75W

There are a few points that are unique to this female, Evening Tinge 56K is the only Square B Atlantis offering in the sale, and she belongs to our right hand man, Dave Moon. This female is very complete in her overall design, she has that extra pop of cow power from her dam and the unmatched look of the Atlantis progeny. Atlantis will improve type, kind, muscle expression, structural soundness and rib shape. The Atlantis cattle have been very well accepted in the fall sales and bull sales going forward. Evening Tinge 163B has placed bulls into Circle J Ranches for $6,500, East & West Ranches for $9,000 and Black Chrome Livestock for $10,000 just to name a few. A solid producing cow family, with an exciting new pedigree on this young female!

Maternal Brother, HF Show Biz 226J, sold to Roy Mac & Darron Priest $31,000

Tibbie 58K is sired by Sitz Profound, an exciting young sire in our herd. Profound is really starting to prove himself both as an outstanding female producer, a calving ease sire and a bull that can run with the big dogs for performance. Sitz Profound 680G was sold to Hollow Top Angus Ranch for $70,000 in 2020 and then we acquired the exclusive Canadian semen rights. His rich maternal traits are definitely shining through with his first set of replacement heifers freshening. Tibbie 58K oozes power when you analyze her pedigree, her dam Tibbie 73D is designated as Elite/Premier Dam with two full brothers sired by Showman rising to the top. HF Show Biz 226J was the lead off bull in our 2022 sale going to Roy Mac Angus and Daron Priest for $31,000 and then going on to be the Reserve Grand Champion Bull at the Canadian Western Agribition 2022. Her first Showman bull sold in 2021 to Bar-E-L Angus and South View Ranch for $43,000 just to mention a few. Here is a female that will work for you!

Sitz Profound, our new and upcoming herdsire stamps his females as being soggy made, strong topped, have nice muscle shape with great feet and legs and proud Angus demeanor. Profound's sire, Sitz Stellar has certainly impacted the Angus world with his outstanding foot quality, fertility and function, and to top it off, Stellar's dam has an impeccable udder! Miss Blackcap 101F is a flush sister to HF Cowboy Cadillac 128E, who sold through our 2018 sale to Hextall Livestock for $32,500. Other maternal brothers sold to East & West Ranching for $19,000, Parkview Farms for $14,000 and HF Miss Blackcap 101F herself sold to Kevin Nelson in 2019 sale for $18,000. A maternal brother to Miss Blackcap 62K was sold to East & West Ranching in 2022 for $11,000. She is complete, balanced, hairy and very docile …. maybe a junior project?

This Evening Tinge female has a little larger stature, length and overall dimension. She comes with plenty of performance as she posted a weaning index of 110 and yearling index of 117, with a very moderate 84 lb. birth weight. Evening Tinge 79K is sired by Showman who has a definite stamp to the phenotype of his progeny. For the extreme massiveness and muscle design he carries with him, his females are extremely feminine in the phenotype, elegant fronted yet stout made, big hipped with great hair and natural fleshing ability.

The Blacklady 62E cow family has been a steady producer, with two siblings to her maternal granddam selling to Bull Pound Ranch and Diamond 7 Ranch and a female to Ring Creek Farm. Blacklady 80K is a long-bodied female with a lot of mass and depth through her heart and width over her top. The Expansion bull was purchased from the very well respected Bar-E-L Angus program to tap into two highly regarded cow families, the Magnolia's and Bride's which are front and center in his pedigree. Expansion himself, is square made, super sound with an abundance of Angus character and tremendous good looks.

"Real friends don't get offended when you insult them. They smile and call you something even more offensive."

Erica 133K is truly a complete package female, loaded with a stellar pedigree both top and bottom. This was one of the most talked about heifers all summer when people toured, her overall design certainly calls for her having a feature picture. Erica was selected for this year's sale for her style, eye appeal, massive amount of rib shape, a classic Angus head with super feminine body style and lands square on all four corners. The Alcatraz females have done and exceeded all expectations as far as mothering ability and weaning a top calf in the fall regardless of the fact they were all out of two year olds. Erica 256D produced a female that was sold to JK Fraser for $17,000 as a bred heifer. The docility of Erica 133K may win the heart of some young junior for a project this spring and summer. A nicely balanced set of numbers completes her package.

Another Showman female up for grabs out of a Tiger female, a sound pedigree and a solid female. I know I am getting repetitious with footnotes, so I will just let you evaluate this fine female and make your own decisions! We have a maternal sister in the herd and note the weaning index of 107 on Evening Tinge 144K.

Wow, stop and analyze this heifer, she will certainly call for a second look. Another Miss Blackcap from the famous collection both in the sale and in our herd. Extremely deep bodied in her make up, sweet fronted, powerful muscle expression and great feet and legs. I think I may be repeating myself yet again! The Miss Blackcap cow family has been one of the most amazing families in terms of dollars sold at Hamilton Farms. Miss Blackcap 261E has had females go into herds like Bobcat Angus, MT, Rio Grande Angus, and her last year's heifer started the female sale and sold to Ranch Covey Hill for $29,000. See female lots 312K, 301K and 309K for more details on the cow family.

Miss Erica 141Z is a "Platinum" cow in our Herdtrax ranking and let me tell you that is not an easy feat. Of course 141Z has spent a fair bit of time in our donor program and it is like collecting eggs in a hen house, a no miss situation. Over the past 5 years, she hasn't had a sale animal that has sold for less than $10,000, actually averaging just a hair under $16,000. Miss Erica 154K, a Profound female is expected to ring the bell as well, as the first Profound heifers to freshen look amazing. This includes the high selling Profound bred heifer that sold to Knutson/Rideau at the Agribition Sale 2022 bringing $37,000. The Profound progeny in our sale this year, we feel will really impress you and there certainly are more than enough to select from. Don't miss out on this heifer, there is so much consistency and data to back what is up for grabs. Note of importance is that 141Z is a Tiger daughter and we cannot express enough the value of that in a pedigree.

"Family ties mean that no matter how much you might want to run from your family, you can't."

Dam, HF Tibbie 316B, sold to Grand River Angus $16,000

Tibbie 170K is sired by the breed leader for weaning and yearling growth that has taken the breed by storm! Ellingson Three Rivers is an outcross pedigree. They are high performing, big bodied, stout made cattle. The first Three Rivers females to calve surpassed expectations, breeding back and holding their condition while doing so. Tibbie 170K herself is ranked in the top 1% of the breed in nine categories including WW, YW, RADG, Claw, Carcass Wt, Ribeye, Fat, HPG and CBI …. Pretty impressive! Her dam Tibbie 316B was purchased by Grand River Angus in 2015 for $26,000. A maternal brother to Tibbie 316B sold to Krebs Ranch for $14,000, as well as other brothers to 5B Farms for $10,500, $19,000 to Section 7 Ranch, $26,000 to Grand River Angus and the list goes on! A maternal sister to 170K, a Showman daughter was purchased in 2022 for $25,000 by Grand River Angus. Tibbie 170K is the mirror image of her dam, deep ribbed, lovely fronted, awesome udder and good feet. I believe you can move forward with confidence with this powerfully structured individual and excel in all areas of profitability.

The Mistress cow family originally started at Hamilton Farms with HF Mistress 9481 when our son Wacey bought her from Express Ranches 20 years ago. When there are daughters, grand daughters and great grand daughters still functioning in the herd, it is a real testament to their ability to thrive and maintain their status within the herd, with the proven genetics of Kodiak, Tiger, Greens Premium and Consensus and then adding the new proven sire, Ellingson Three Rivers, this could certainly be an exciting new addition to any herd. Mistress 217K has three generations of Elite Dams on the bottom side of her pedigree! What a combination with the power and performance of Three Rivers on the top.

HF Tibbie 225K is an eye appealing, long bodied, strong topped female with very expressive muscle shape and an attractive front third. Her dam was purchased by the Pastink family (Henria Holsteins) in 2015 through the Angus Collections Sale for $20,000. Tibbie 36B has placed bulls into very reputable commercial herds like T&B Harty and Jenkins Lazy U for $9,000 and $9,500, respectively. KR Southbound is an exciting new herd sire from the prestigious KR Lass 6207 donor cow. Southbound's progeny possess added power and performance and we expect his daughters to be highly maternal as well.

The combination of the Erica family with our old reliable Crossfire bull and mated to HF Roper 27F has resulted in this very deep bodied, well balanced, stout female. The Crossfire females in the herd are moderate, easy fleshing, good footed pleasing herd builders with calving ease on their side. There are a number of top producing females scattered throughout this pedigree, the ingredients are certainly there.
An Alcatraz heifer out of Erica 306E was sold to Western Skies Angus, the Callisons from Idaho and a Showman bull last year went to T&B Harty for $10,000. A no nonsense female that should drop a perfect udder and tons of maternal traits to line the package!

Thank You..

to Nutrien Ag Solutions, Crossfield for co-sponsoring our sale hospitality it is greatly appreciated.

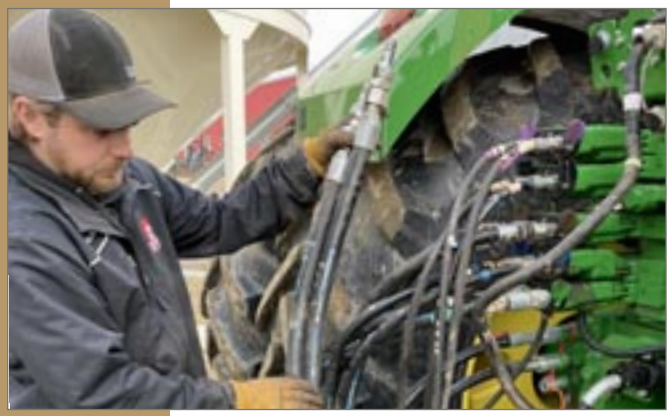
Maternal Sister, HF Miss Blackcap 240J, sold to 3G Cattle Ventures $8,000

Maternal Brother, HF Grandstand 17H, sold to Granum Colony $10,000

Here is a very complete, moderate framed, attractive female with a super solid pedigree. Miss Blackcap 75F sold in the 2019 sale going to Grand River Angus for $11,000 and her full sibling 107F to Compass Ranch & Golden Oak for $25,000. Another full brother HF Storm Center 26D, sold to Sun Rise Simmentals for $35,000 and yet another full brother to Granum Colony for $11,000.
Blackcap 264K has a tick less frame but she is deep and wide and structurally very correct with the Bride cow in her pedigree, she will certainly make a great cow. A maternal sister sold to 3G Cattle Ventures in 2022 for $8,000, sired by Showman and has an awesome bull calf at side.
Miss Blackcap 264K is sired by the Expansion bull we purchased from Bar-E-L Angus in 2020 and our first milking females look like they are the real deal!



That's what confusion looks like

If you analyze this pedigree, you will see that it is stacked full with the Miss Blackcap cow family, which we feel is a plus. Miss Blackcap 258B has without a doubt paid her way. Miss Blackcap 45D sold to Leslie Pelletier in 2017 for $11,000, Stewart Cattle Co purchased 261E in 2018 for $6,500, a bull to East & West Ranching for $7,500 and a feature heifer sired by Showman in 2022 went to Grand River Angus for $23,000. Miss Blackcap 301K is a feature and a poster girl as many of the Blackcap females would rank. It is hard to put into words what this cow family has done over the years to increase the value and quality of our herd. She is sired by HF Storm Center, who we feel did an excellent job building the right kind of females. They are good footed, great udders to add to the awesome presence and depth of body and a super hair coat.

Tibbie 86G was purchased from Hamilton Farms by 3G Cattle Ventures in the Angus Collection Sale for $22,000. Her first calf was a Showman, a true calving ease bull that was purchased by East & West Ranching for $10,000. Tibbie 86G's dam and maternal sibling have both spent time in the donor pen. Tibbie 307K's photo depicts her as a feature, but unfortunately, we ran out of catalogue room. A young female with loads of potential with Southbound anchoring the top side of the pedigree with loads of maternal power and performance. Take a good look at this young female in the offering!

Miss Blackcap 312K will certainly demand your attention when you walk through the heifer pen. This Showman female is exceptional both on paper and in person. Showman females all display such elegant angus characteristics combined with stoutness, length and depth of body and a powerful hip. The Showman progeny have topped the scales both in performance and dollars earned over the past three years in an uncanny fashion. The udders in this Blackcap cow family are tough to beat. Her granddam is Miss Blackcap 220C who sold through our sale for $35,000 to Grand River Angus and her great granddam is the iconic Miss Blackcap 27R who can brag about more high dollar cattle than almost any cow at Hamilton Farms. A full brother to 85G sold to Roe Livestock and 3G Cattle Ventures for $16,000 in 2020. You do not want to miss out on this one!

Youngest heifer in the sale, but don't let her age fool you as I think she has all the tools to mature into an attractive, deep bodied, sweet fronted female that will leave some of the deepest bodied cows around, which is common for a Cowboy Up. Her great granddam was certainly a producer with progeny bringing from $6,000 to $16,000 consistently. Southbound will pick up any slack in the pedigree, whether it is in the performance department or the high maternal value, it's there for the taking. Note the Weaning index of 119 and Yearling index of 115 ….. not too shabby!

BULL POUND RANCH

50 FIRST CUT COMMERCIAL REPLACEMENT OPEN HEIFERS

We are proud to host Brent and Kate Horner from Bull Pound Ranch with their offering of 50 high end, first cut open heifers. This will be a tremendous opportunity to acquire some of the fanciest breeding heifers you will come across. These heifers have not been pampered… coming to you straight from the Alberta Special Areas short grass country. When Brent and Kate visited with us about the potential to offer some commercial replacement heifers, they knew right from the beginning, that they wanted to offer the top sort. These heifers were hand selected from a group of 125 head. Brent and Kate have been purchasing high quality bulls from Hamilton Farms for over 12 years and these replacement heifers are 100% sired by HF bulls. The quality runs deep in this set of heifers and they will be sold in groups of five, with the high bidder having option to take as many groups as they want. These heifers are currently being developed at the Horner ranch and can be viewed anytime before March 29/2023. The heifers will NOT be present and available for viewing on sale day but there will be quality video of the heifers available. The heifers will sell by video auction.

For more information on these heifers give Brent or Kate a call.
Brent Horner 403-633-0581 • Kate Horner 403-501-8595

Terms & Conditions

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS: who attend the sale do so at their own risk, and the owners, and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by the announcements from the auction stand at sale time and such corrections will take precedence over the printed material in the catalogue.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of health of animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply. INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available on sale day, from the sale management at any time.

"Wrinkles should merely indicate where smiles have been"

IN MEMORY

Grace Hamilton 1925 – 2022

Gracie, Mom, Grandma Grace, Grandma Sweetie…Her patience, love, and understanding was very influential to all of us. Mom was very proud of her family, and she absolutely adored her grandchildren and in later years, her great-grandchildren. Mom dedicated endless amounts of time to her family, and we are all the beneficiaries of her kindness. Lovingly remembered.

Robert Prestage

1936 - 2022

We would classify Bob as a Legend in our beef industry. Bob was well known, not just in Canada, but around the world, for his past work exporting cattle, and promoting the Angus breed. He was a highly respected individual and was continually called on by so many for advice on many issues. Everyone who knew Bob understood that there was only Black… and White… with no chance of grey!! We will miss Bob's annual phone call the morning after our bull sale…He wouldn't say hello… just start off his call with, "I don't know why you're sitting around this morning; you've got a sale to get ready for!!" Yes Bob, we'll get back out there and start getting ready for next year!! Bob was one of a kind and will be greatly missed.

Brian Good

1953 – 2022

Brian had a great career working with Angus cattle…firstly with his family owned Black Browe Cattle Co. and then as a marketer, sale promoter, consultant, and lastly as the well-known 'Mr. Angus' with the Canadian Angus Association. Brian could easily visit with anybody, whether a good friend or a total stranger, and he dedicated his life to promoting Angus cattle. Brian will be greatly missed and forever remembered.

Rick Hagel 1981 – 2022

Rick was that guy known for dropping whatever it was he was doing, to go help someone else in need. Rick and Kathryn and daughter Paytin, although unrelated to us, are a cherished extension of our family. Watching Rick take on cancer with unrelentless determination was incredibly inspiring for us. I could only wish that I would have a fraction of the strength Rick had, should I be in a similar situation. Rest easy Rick…You battled hard.

As a sideline, Rick and Kathryn perfected the art of smoking meat and together they served unbelievable meals that people could not forget. Kathryn will carry on with this tradition and will be preparing the prime rib for our sale once again.

A VERY SPECIAL THANKYOU TO ALL THE BUYERS WHO SUPPORTED OUR PROGRAM EVEN WHEN MANY COULDN'T EVEN BE THERE!

"99 percent of failures come from people who make excuses."

THANK YOU TO OUR 2021 CUSTOMERS AND SUPPORTERS

"I've never been hurt by anything I didn't say."

FAM

THANKFUL FOR OUR FAMILY & FRIENDS
