Preparing to Buy a Quarter of Beef

How much meat is a quarter of a beef?

Meat from a typical quarter of a beef with a live weight of 1300 lbs:

Did you know...

- By purchasing a 4-H steer you could save up to 25% on meat cost instead of buying from the store
- Splitting the cost of the Steer & processing between 2 or 4 parties is a great way to buy the perfect amount of meat for your freezer.
- You can request unwanted parts for your dogs from the butcher

Are you wanting to buy a steer but don't know how?

Give us a call and we can Help!

Interclub Show & Sale

WEDNESDAY MAY 31, 2023

KITSCOTY ARENA

SHOW: 12:00PM

SUPPER & AWARDS: 4:30PM

SALE: 7:00PM

4-H Beef: *Did you know?*

A **1300 LB** animal will yield approximately 62% carcass weight, which is further processed to equal **580 LBS** of take-home beef.

Cost of beef at grocery store*:

Ground beef & stew meat: 160 LB @ \$8.39/LB = \$1342

Roasts & steaks: 420 LB @ \$12.30/LB = \$5166

TOTAL cost at grocery store = \$6508

*Based on 2022 grocery store prices & estimated average 4-H sale price

Cost of local 4-H steer*:

\$3/LB x 1300 LB = \$3900

Cutting & wrapping = \$900

TOTAL cost of 4-H steer = \$4800

By purchasing a 4-H steer, you can fill your freezer with premium beef for **\$1708 LESS** than the grocery store, while also supporting local **4-H members** and local butchers!

Splitting the cost of the steer & processing between 2 or 4 parties is a great way to buy the perfect amount of meat for your family!
