WELCOME

SUNDRE & BERGEN 4-H MULTI CLUBS SHOW & SALE

On behalf of the Bergen/Sundre Show & Sale Committee, I would like to welcome you to our 66th Annual Sale. I would like to thank all our previous buyers. We have incredible local business that show up every year to support the kids. We would also like to acknowledge the support we receive from further away.

The last few years have been a challenge and for the first time in three years we will all have the chance to get together and have a live sale along with the option for online bidding. It will be great to have Rosehill Auction Services as our auctioneers and working alongside them will be DLMS for your online purchasing needs.

Join us 10 minutes east of Sundre at Timber River Station. We have held our show there the last 2 years. This year, for the first time ever, members will be hosting a two-day show, with the sale concluding events on Monday, May 29 at 6:30pm. We invite you to join us for dinner prior to the show at 5:15pm. This should make for a wonderful experience for the members.

The members have been working hard to get their projects ready for Achievement Day and are excited to share their accomplishments with everyone! We look forward to seeing you May 28th and 29th at Timber River Station.

Thank you once again for supporting the 4-H program.
Sincerely, Linus Clark • Show & Sale Committee Chairman

In Support of **NUTRITION FOR LEARNING**

The Sundre and District Nutrition for Learning Society is a not-for-profit registered charity that delivers a universal mid-morning snack program 4 days per week to all elementary students and a breakfast program 5 days per week to the high school students in Sundre, Alberta at no charge to the students or parents and/or caregivers. In 2001, our organization was formed and incorporated as a result of a need identified by staff and parents that 30% of the elementary students and 60% of the high school students were coming to school with little or insufficient nutrition.

Our vision is to provide children with the fundamental nutritional building blocks which will sustain their quality of life now and in the future. Through our program we are able to promote and enhance the well-being of students, their families and our community at the earliest opportunity and, in doing so, achieve positive outcomes that extend far beyond our goal of providing much needed nutrition.

Our program has grown significantly over the past 22 years and we are committed in the continuance of this beneficial program. The success of our organization is due to the passion, commitment and broad collaboration of partners who all share in our commitment to investing in the nutritional health and academic achievements of our children and youth that one day will become our future leaders, contributing community members and care providers.

Thank you to our community, our sponsors, our grant holders and each and everyone that has contributed and continues to contribute to this amazing program.
