STAY REAL WITH MILK.

MILK IS A COMPLETE FOOD, PACKED WITH THE NUTRIENTS YOU NEED TO STAY HEALTHY AND PERFORM.

HYDRATE

Regular white milk has been shown to hydrate better than either sports drinks or water because it is a source of high quality protein, carbohydrates, calcium and electrolytes.

RECHARGE

Chocolate milk provides protein, calcium and vitamin D with an added punch of carbohydrates to stimulate performance and improve muscle recovery. Drinking 500ml of 1% chocolate milk immediately, and another 500ml one hour after exercise has been shown to improve damaged muscle fibre, outperforming comparable soy and carbohydrate recovery beverages.
