

12th Annual

Premier Hereford & Angus Bull Sale

February 5th, 2024

**Northern Livestock Sales
Lloydminster, Sk - 1:00 PM MST**

Lock Farms ~ Ace Herefords ~ Ayrey Hereford Farms

Terms and Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of dispute the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the applicable breed association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the applicable breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

EPDs:

Accurate at time of printing.

Liabilities:

All persons attend the sale at their own risk. The sellers, facility owner, auctioneer and sale manager assume no liability, legal or otherwise, for any accidents that occur.

Delivery:

Every assistance will be given in getting your purchases home. **FREE DELIVERY.** Each animal becomes the risk of the purchaser as soon as sold. Bulls and females will be delivered as soon as possible after the sale. Unless other arrangements have been made.

Internet, Phone, Wire, Mail Bids:

Real-time bidding with live audio and video will be available via the Internet for this sale. Buyers must create an account at least 2 days prior to the sale.

Please visit www.dlms.ca to get started.

Bidders unable to attend the sale may also phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

Agents will be in attendance to insure your purchases. Bulls returning to the consignor's farm must be insured.

Errors:

All announcements at sales time, written or oral, supersede any written material in the catalogue.

All Bulls will be semen tested. Free Delivery.

Auctioneer:

 www.lockfarms.com

We extend our warmest welcome to all our friends neighbours and fellow cattlemen to our 12th Annual Bull Sale.

This year's bull offering has some middle, shape and we are confident they will go out and do the job for you. The 7G bull has left us very productive females with beautiful udders. On the polled side the 955G sons are what we expected them to be, full of muscle, meat and lots of shape.

The sale heifer is the first polled female we have offered. She was a class winner at the Hereford Showcase in Red Deer this past November. I believe she will turn out as good as her mother.

If you wish to take a look at the sale cattle prior to sale day, we welcome your visit and encourage you to do so. Just give us a call, someone is always around the yard to show you the bulls.

If you are unable to attend the sale, videos will be available on DLMS and on our website – www.lockfarms.com.

Sale day will be live online bidding with DLMS or contact one of us via phone.

We work hard to produce a product that we believe in and that will work in the real world.

Thank you for your interest and please reach out with any questions you may have. See you sale day.

Stan

Polled/Horned Inheritance

Unfortunately, one of the biggest misunderstandings regarding the proper fit for Hereford bulls is horned/polled inheritance. When understood, it can provide more flexibility to use horned or heterozygous polled bulls on many commercial cows than might be expected-if avoiding horns is the intention. For this example, heterozygous polled cows might be a set of F1 black baldy females out of Angus and Horned Hereford. Consider homozygous polled cows as a set of long time straightbred Angus.

USING A HORNED BULL

- Mated to horned cows:
100% of calves are horned
- Mated to heterozygous polled cows:
50% of calves are horned and 50% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

USING A HETEROZYGOUS POLLED BULL

- (50% horned, 50% polled)
- Mated to horned cows:
50% of calves are horned, 50% of calves are polled
- Mated to heterozygous polled cows:
25% of calves are horned and 75% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

USING A HOMOZYGOUS POLLED BULL

- (100% polled)
- Mated to horned cows:
100% of calves are polled
- Mated to heterozygous polled cows:
100% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

FEATURE BRED HEIFER This is the first polled heifer we have offered from the herd. 606K comes from our Peg cow family. She goes back to Powerball 27A. 89D is a copy of her mother 76W. This is the consistency we look for in our females and 606K is displaying these traits. She is bred to LBH 6103 Advance 82H and preg checked to calve first half of March. If she does not fit into repurchasers calving time, we could calve her and deliver at a later time. talk to Stan about this option.

Service Sire: LBH 6103 ADVANCE 82H

We would like to welcome everyone to come to the sale this year! We are excited to show you this years line up of bulls and the kind of animals we strive to breed for. We believe this is a very consistent set of bulls this year. They are all very similar in style, shape, pigment and temperament. The bulls were on pasture graze until Oct 27 when we brought them home. With grazing this late into the fall our bulls are carrying less condition and more natural muscle. Since they have been home they are being fed barley green feed and are on rolled oats and barley chop. The weaning weights in the foot notes are actual weights taken Nov 15, 2022.

We showed three head at the Alberta Hereford show case this fall in Red Deer. We had a great showing bringing home banners and ribbons with junior horned heifer calf champion, junior horned bull calf champion and reserve yearling horned bull. Our daughter Kaydee also made her first appearance in the junior show, it was great to watch her have fun and we believe she is hooked on showing cattle now.

As we do every year, the bulls have been semen tested, they are tie broke and have been clipped to get them looking sharp for pictures. As always we will bring them home from the sale and deliver them to your farm or arrangements will be made to get them to you. Please feel free to call or text anytime as we are always willing to accommodate if you would like to come look at our program.

Thank you Brady & Chantel

This bull we were planning on showing at the Alberta Hereford Showcase but with help hard to find we made the hard decision to leave him at home, he would have been very competitive in the show ring. He is a son off of the most docile cow we have ever owned and she definitely passed her temperament on to him. He is fully pigmented with a larger frame but still carries lots of length and muscle.

This is another purebred bull that sells without papers as we missed registering his dam. Sire is our Ace Red Stan 33E and his dam is Ace 15G. This bull is smooth shouldered with a moderate frame that still carries lots of muscle and eye appeal.

This June born Evaluator son is out of one of our favorite cows, Ace 11U. This dam put lots of calves in our show strings over the years but sadly this was the old girls last calf. He is fully pigmented with the big Evaluator hip, long body and great feet.

This is my pick of the bulls. I showed this June 10th bull at the Alberta Hereford showcase in Red Deer this fall. He was a class winner and went on to be reserve yearling horned bull. He carries a lot of natural muscle with extra thickness in the hind quarters and on top of his ribs. He is smooth fronted with very correct feet and legs. He has eye pigment and a very gentle nature. The terms of sale for this bull will be announced at the sale.

Bull & heifer sale videos are available for viewing on ayreyherefords.com.

Feel free to contact us if you would like any additional videos or photos of the sale cattle.

Videos of the individual heifer pens will be posted to our facebook page the day before the sale.

Also offering 50 purebred horned Hereford heifers!

We hope everyone has had a great fall. We were blessed with some warm weather which made it easier to get all our fall chores done. Cattle prices have been strong and are continuing to trend upwards. It is a great time to be expanding and upgrading your herd whether it is with some top-quality replacement heifers or a new high performance herd sire. We always appreciate our loyal customers for standing behind us and believing in our program.

We continue to strive at bringing you the best genetics to better the breed. We stand behind each of our sale animals 100% so we hope that give you a sense of comfort when purchasing. Calves are weaned without any creep feed and yearlings have been pastured on grass through the summer. Our cattle have not been pushed because we believe that in order to sustain longevity, they need to be developed at a natural rate. Our cattle perform well under these natural conditions and therefore will smoothly transition to their new environment after they are sold.

We are excited about this years offering and feel that it is one of our best yet. The year the bulls were born we found that all of our birth weights were unexpectedly higher than normal. However, we don't feel that will be a reflection of what they will throw for birth weights on their calves. Note that we listed the actual weaning and yearling weights on our sale cattle. We believe that these weights are a more accurate representation than an adjusted weight that also factors the cows age into the equation. Weaning weights were taken November 11, 2022 & yearling weights were taken March 27, 2023. All sale bulls have already passed their semen checks. All heifers are on the Ivomec Gold program & have been given Ivomec. Heifer calves are born in March & April. All heifers have had their horns removed and were banded if they still had some. Most heifers can be registered at the buyers expense.

Feel free to come for a tour of the sale cattle anytime!

lockfarmsangus@gmail.com

Welcome to the 12th annual Premier Hereford and Angus Bull Sale from us here at Lock Farms. This year we have an exciting group of Angus bulls to select from. Whether you need a heifer bull or a power bull the two different sire groups on offer have it all.

The sires we used this year are Climate Change, a bull that we found while touring the yards at the Denver Stock Show from Bush Angus from Britton South Dakota. His dam could very well be the best angus cow we have seen. The addition of Climate Change to our herd is exciting with how the heifers and young bulls are growing. If you're looking to boost the material part of your herd with some replacement female, look for his son's sale day. Along with the second calf crop of our Country Lane Stunner sire. Stunner was brought into the herd to add some calving ease to our program and boy did he do that for us. As an added bonus he added a ton of rib shape and muscle mass to his sons and crossed very well with the "Intuition and Bush" daughters. Another addition to this year's bull crop is 3 red carrier bulls. Three red angus cows were bred black after missing on the AI round, and it worked out pretty well for us, they are outstanding in their own ways.

When it comes to purchasing a Lock Farms bulls, we want to make sure your cows are covered. If a bull goes down prior to or mid breeding season, make us your first call. We can work with you to get another semen tested bull to your yard to cover the cows.

Like previous year we brought Shane Castle and Mark Forsyth with Castlerock Marketing in to help assist with any questions about our bulls. Feel free to reach out to either Shane or Mark about any of the Hereford or Angus bulls we have on offer here at Lock Farms.

We deliver the bulls free of charge and will do our best to get them to their new homes as soon as possible. Videos of sale bulls are available at www.lockfarms.com.

Be sure to stop in for a tour of the bull pen and dams of the bulls prior to sale day! Coffee is always on!

– HEIFER BULL. Big middled bull with calving ease and heavy muscle. 321H is a personal favorite of mine. Easy doing females with a big top and great udder are what we are trying to make and 321H is that. If you are looking a calving ease bull that is going to add some middle and muscle to his calves this the guy for you, he'll even put a high number of daughters in the replacement pen as well.

Heavy muscled moderate framed bull with outstanding width and depth. His dam 268G is a fantastic young cow that is deep and square made. We have been trying to add as much depth to our cow herd as possible and adding Minburn Intuition a few years ago as paid off in spades. The added bonus of him outstanding daughters with extra milk. 110K is going to add milk to his daughters along with hip width and rib shape. This is a very complete bull and one of the favorites of the pen.

RED CARRIER. Will produce 50% red calves on red cows. 123K is an absolute powerhouse of a bull. loaded with muscle shape and excellent footed 123K could very well be the best red carrier bull on offer this spring. I know he is the best one we have produced to date. His Dam 126F is a truck of a red cow, I guarantee if you come for a tour no matter the time of year 126F is a standout here. Built low to the ground with loads of length and top like a sheet of plywood 126F is the kind of female we love and want more of around here. She will find her way into a flush program at some point that's for sure. On 123K top side, "Bush" is going to add even more maternal strength to an already loaded cow.
