1PM - Second Round of Bull Futurity Judging

3PM - WISH LIST SALE

WELCOME

It's that time of year again.... Don't miss the event of the year, Wish List Weekend!

On behalf of the Gelbvieh Association of Alberta & BC, welcome to the 2025 Wish List weekend. This is the 18th Annual Wish List Sale, and although we have made some tweaks and changes over the years, this weekend has remained steadfast in its camaraderie and shared passion for our breed.

The board has worked hard to organize a spectacular event in conjunction with the Canadian People's Choice Bull Futurity. These two events working in unison continue to be mutually beneficial for all breeders and buyers. We would like to thank Aaron for his past several years of organizing the futurity and look forward to working with the succession team, who will continue this great program.

As we approach the holiday season, we take a moment to reflect on the year, and it's a great time to be in the beef industry. Cattle prices are holding steady, and we're seeing a return on the endless hard work that goes into getting these cattle to the auction block. Now is the time to invest in quality and new genetics. This sale provides the opportunity for just that from a wide variety of producers. We would like to thank returning consignors who continue to support this sale with top females year to year, and would like to welcome the new consignors! Our breed has made tremendous leaps over the past couple of years in gaining new members, and it's great to see them bringing ones to town.

Last but certainly not least, we would like to thank Twin View Livestock for their generous donation of the heifer this year. She is an absolute sweetheart and will make one lucky winner very happy! We first got to see her out at the Junior Gelbvieh show this summer, and we have become more excited each time we see her!

Please join us in person for a great weekend of bulls, females, socializing and a delicious lunch on Saturday, sponsored by Keriness Cattle Co.

*Olivia Koziaf
Gelbvieh Association of ABBC. President*

TERMS + CONDITIONS

♦ TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

♦ CERTIFICATE OF REGISTRATIONS

All registered animals will carry papers issued by the Gelbvieh Association of Canada. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

♦ HEALTH

All animals in the sale have met all necessary health requirements.

♦ GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. Each consignor will carry their own individual guarantee on the animal sold; this will be between the consignor and purchaser. For details, confirm with the consignors about their guarantee on animals being sold.

♦ PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be use only as a guideline to calving and is not a guarantee of actual service. Open heifers have been examined before the sale to be deemed open.

♦ LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale consultant assume no liability legal or otherwise, for any accidents that occur. It is understood that The Gelbvieh Association of AB/BC is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does The Gelbvieh Association of AB/BC assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. The Gelbvieh Association of AB/BC assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

♦ DELIVERY

Every assistance will be given in getting your purchases home between the consignor and purchaser. Each animal becomes the risk of the purchaser as soon as sold.

♦ PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

♦ INSURANCE

We strongly recommend that insurance is purchased for full value.

Newberry is a sweet made hetero black, homo polled heifer calf that is bred from consistency and quality. A heifer calf that comes from lines that have stood the test of time at BNH and we can confidently stand behind. Her dam, Kiwi, is a JRI Secretariat daughter. These females have proven to be moderate, productive and phenotypically correct. They are solid footed, beautiful uddered and deep ribbed. Newberry is the first female out of BNC National K2129 that we have offered for sale and we are proud of the genetic package that she has to offer. National is a bull that many breeders have appreciated from day one for his incredible growth, softness of rib and spread from birth to weaning. We have been thrilled to see these same traits being translated to his offspring. Newberry is a combination of consistency, docility, performance and maternal strength in one package. She is sure to fit any situation, whether that be your next foundation female line, junior project, donor cow or just being a front pasture cow.

SLC ROAD TRIP 95G

CK LARISSA 8L

CK GRACE 98G

CK Nakeeta 90N is an eye appealing, deep sided red heifer out of BNHC Krakatoa 11K. We all know Krakatoa from his Championships alongside his famous dam Jen Ty Hot Stuff 550H. Together Krakatoa and Hot Stuff won many banners throughout their show careers. Hot Stuff 550H was ORB Miss World 2023 and 2023 National Champion Female! Krakatoa's sire - JRI Secretariat 285E78 is also a well-known bull with some impressive offspring. Nakeeta's stacked pedigree along with her natural thickness and depth, would make her a great 4H heifer prospect who could go on to win many show banners just like her sire and Grandsire! Don't miss out on this rare opportunity to own one of Krakatoa's daughters and Hot Stuff's granddaughters. Make sure that you take a look at Nakeeta 90N on Sale Day!

Nancy is a very well minded, attractive female with sound structure and good bone. She is out of our proven Simmental sire, BPR Khaos 911K, whose calves are soft made and easy fleshing, wrapped in eye appeal. Her dam, FRSQ Foursquare Ms Bertha 98G, is a big broody female that completes this cross with the calving ease, solid foot structure, a great udder and exceptional milk production. If you are looking for a strong maternal addition to your herd or an outstanding junior project packed with easy fleshing, maternal soundness and eye appeal, Nancy is your heifer.

Here's an easy on the eyes heifer we're pleased to offer up. I may have made the mistake of picking a couple heifers right off the top of our pen this year but that's to your benefit! I had a lot of admiration for her grandsire, Heavy Metal at Sommerfelds and when Ryan brought Back in Black down to the futurity a couple of years ago I felt he would compliment our program ideally. This first crop of calves are proving that out, we are very impressed with the quality of them across the board and this is potentially the best heifer of the bunch. On the bottom side of her pedigree she comes from Dice and a very proven Buckaneer daughter like all our best ones seem to. She comes loaded with a useable set of EPDs and will produce some great calves in her career.

CK HILDA 20H
CK ECSTASY 62E

Lot 6

CK Nala 54N is a fancy, clean fronted, shiny black heifer out of BNC National K2129 and an SLC Swagger 195C daughter - CK Hilda 20H. Hilda 20H has produced three impressive females for us. We retained one that continues to do a great job in our herd and made the decision to part with another - CK Kala 71K at the Wishlist sale as a bred heifer two years ago. Nala 54N is equally as good, and we are excited to see what her future holds! Nala's sire - BNC National K2129 is a bull that you cannot help but be impressed by. Take a look at his top of the charts growth and milk EPDs. National has a WW EPD of 100 and YW of 148! His docile temperament, massive depth of rib and extreme thickness all carry through to his progeny. He is doing an amazing job both at Brittain Farms and BNH Livestock and continues to breed over 60 cows each season without losing a pound. If you want a piece of this impressive bull, Nala 54N is your chance to create another one just like National!

CLR MISS WIND
NGC AFTERSHOCK 15A
WGG CRICKET 8C
WGG ANTOINETTE 100A

Lot 7

I probably said this last year but it bares saying again; the quality of Knockouts dam was what sealed the deal for us to use him in our breeding program. So far we are seeing this to be true as this broody heifer patterns right along the lines we are seeing from the Knockout females. Her sisters make up over half of our bred pen this year and they are the most consistent group of replacements we have built to date. Unger Land and Livestock picked her sister up from the Wish List last year and have good reports on her development. Her mother, the Cricket cow is exactly the right size and shape I want to be building around, all the calves she has produced for us have gone to work with 3 bulls selling out of our yard, a powerhouse daughter making her own mark in our herd and another at a new breeder's down the road. I'm confident Nevada will work well no matter how you choose to breed her, she could produce some great selling heifer bulls with her calving ease profile or moderate a power bull, just a solid, easy-doing female, we all need more of those!

XCLUSIVE

Ledgerwood Nellie 548N embodies the great traits of the Gelbvieh breed. She is ultra-feminine, has a gorgeous head, super docile, huge ribbed, with plenty of growth and muscle. Her sire came from Covington Gelbvieh and while his first calf crop was small, they are sure standing tall in both the bull and replacement pens. Mr 382L is a son of the widely used Franchise bull and is backed by the Jo-Leen cow family that is showing up consistently in top-end pedigrees. On Nellie's dam side you will find the Hojer program. Mr Hojer 447B recorded 128 natural progeny over 6 breeding seasons and was one of the best female makers I have walked. His dam was a 4 time dam of distinction for the Hojer Ranch and Astro recorded over 1000 progeny. Longevity and productivity are breeding true with power in the blood.

KLC 37N has history threaded through her genes. Dam JNA 215G ET was purchased from the 2019 wish list sale. 215G has "knocked it out of the park" with two daughters in production and two bulls qualifying for our annual sale. This productive cow family has proven to work in multiple herds and maintain the ideal characteristics in replacement females and develop future herdsires. The top of the pedigree goes back to Olivia's first set of tattoo letters, ORM Excalibur 158N. Excalibur has proven to calf easily and permit rapid growth. We admire his daughters, who are low-maintenance, hard-working, and long-term cows. 37N has the added frame and stretch that will make her very easy to place in a breeding program. She has a solid food under her with a beautiful udder placement.

BREEDING | Al bred to HDG 16E on April 7.
2025 INFO | PE to SLF 2M from June 12 to Sept 20. Preg checked safe to Al.

Lot 15

Machine Made is a heifer that will outproduce herself. Her sire SLL Hagan is a strong production bull that throws length, rib and strong hip. Her dam is a very maternal cow with a high and tight udder and feminine head. This cross has struck twice for us as she had a full brother that made the bull pen this year that weaned at 754 pounds. Machine has been Biopryn preg tested in calf to her AI service of the incredible calving ease sire Hillsdown Earthquake expected January 13th. She was also pasture exposed to SLF 2M Silverline Moovin Money, a son of Hillsdown Earthquake.

BREEDING | Al bred to HDG I6E on April 7.
2025 INFO | PE to SLF 2M from June 12 to Sept 20. Preg checked safe to Al.

Moon Beam is a "scratches in the pasture" quiet kind of heifer. Her sire RTG Hustler is one of our strong production feature bulls and her dam is an easy calving cow with great maternal strength and a near perfect udder. Her dam has raised 5 heifers of which 4 are in our herd producing even more great heifers. This is your opportunity to acquire maternal strength that will outproduce expectations. Moon Beam was Biopryn preg tested in calf to her AI service of the incredible calving ease sire Hillsdown Earthquake expected to calve January 13th. She was also pasture exposed to SLF 2M Silverline Moovin Money, a son of Hillsdown Earthquake.

2025 INFO | Preg checked safe.

If there was one word we would use to describe Penelope, it would be "balanced." She might not grab your attention right away- but when you circle back and analyse her- she's one pretty hard to put a hole in. Is she going to be the biggest, most powerful bred you'll come across this fall? No. But she's certainly not small and frail either. Is she super fancy? Not overly. But she's still feminine and reeks of brood cow potential. Penelope is bred way along to our new herd sire- Livin the Dream- and appears to be a dropping a super neat, tidy udder. Just like her mom. We think her calf could be something special. We appreciate Livin the Dream for his foot quality and soundness on the move, his deep red colour, and impressive muscle pattern. His proven dam being a National Champion herself doesn't hurt either. We feel Penelope checks a lot boxes and hope you appreciate what a breeding piece she could be for your operation come sale day.

The decision to offer this year's GAA/BC donation heifer was an easy one for us. We are big fans of the work being done by the association! We applaud and support their efforts to bring people together, to support juniors and to host the only association run Gelbvieh sale. The hardworking team behind the Wishlist Weekend and Farmfair have our complete support. If we can further their efforts by offering AWB Twin View Savanna 63N, we are pleased to do so!

Savanna is from the first calf crop by Iconic. He sees walking duties here at Twin View and is a direct son of the great Sugar 26F. We said from the start he was bred to be an elite female maker and he has taken the task to heart. He sired a high percentage of females and they're an absolutely beautiful set of heifer calves. An Iconic daughter was Calf Champion at the CJGA show this summer and another was a feature in Function and Finesse. The few bull calves Iconic did sire will be very well accepted next spring too! The Savanna cow family has a track record built on honest, hard working mama cows. As an added bonus, Savanna has perhaps the sweetest disposition we've worked with and she was shown at the Junior Show this summer.

2024 WISHLIST WINNERS

My name is Brantley Horn, When I heard the breeders purse announced, I was ecstatic. I could not believe that I won after my sister won it twice in a row. At the sale, in the end, I came out with a nice Jen-Ty heifer. This heifer is going to be used as one of my show heifers. I can't say how thankful I am to the Gelbvieh breed and all the supporters that made this happen.

My name is Hannah McCracken. When I won my \$1625 sale credit I couldn't believe it and was quick to pick out my favorites in the catalogue! The 2024 Wishlist sale was the second time we went to the Wishlist sale in person, and we hope to make it a tradition to go every year. I ended up buying a heifer that caught my eye right away, JNA Spice Girl 83M from Pearson farms. I had seen this heifer before, at Farmfair, and fell in love with her right away. Without a doubt I'd like to thank the members of the AB/BC Gelbvieh association who sponsored the sale credit. Spice girl is fitting into our herd nicely and I'm so excited to show her in 4-H and any summer shows that come our way!

2024 BULL FUTURITY
Consignors

FUTURITY RULES

- ♦ Futurity Entries must be born on or after January 1st of the previous year.
- ♦ Bulls will only be allowed to enter the Futurity once.
- ♦ Futurity Member must be the registered owner of their Futurity Entries by August 1 of the current year.
- ♦ All Futurity Entries must be virgin bulls and not have had semen collected.
- ♦ All entries must have a minimum of complete SNP parent verification on file (both parents) with the CGA or AGA by Monday December 1st, 2025. 100K, polled and color DNA testing is up to the discretion of the Futurity Member but is recommended.
- ♦ All bulls will be tattoo checked, scrotal measured, foot scored and weighed at the event.
- ♦ All bulls must have videos taken before the Futurity that can be made available on-line.
- ♦ The Bull Futurity Entries may be cataloged in conjunction with the Wish List Sale catalog. Entry deadline to be included in the catalog is October 1st. Late entries and substitutions can be made up until December 2nd.
- ♦ The Bull Futurity will provide a stall card that must be displayed. All other promotional signage is at the discretion of the Futurity Members.
- ♦ On-Line voting will be available for Futurity Members who are unable to attend the event, there will be no proxy voting.
- ♦ The Futurity Entry that receives the most votes will be named the Bull Futurity Champion.
- ♦ The last name to be drawn will be the Draw Winner and have their choice of the Futurity Entries. This bull will be the Selected Futurity Bull.
- ♦ The Draw Winner is not eligible to choose their own bull.
- ♦ The Bull Futurity Committee has the discretion to assign pay out amounts to each of the winners and other prizes.
- ♦ Full ownership of the Selected Futurity Bull is assumed by the Draw Winner and the prize money paid to the owner of the Selected Futurity Bull when the bull passes a breeding soundness evaluation or if the Draw Winner chooses to take ownership before that. Until ownership is assumed the care of the Selected Futurity Bull is the responsibility of the owner.
- ♦ The owner of the Selected Futurity Bull Champion may draw in herd semen. They may not sell this semen or use it to breed cows they do not own.
- ♦ Purchase of insurance of the Selected Futurity Bull is up to the discretion and/or responsibility of either the owner of the Selected Futurity Bull or the Draw Winner.
- ♦ The Draw Winner has the option to sell the Selected Futurity Bull any time after they take ownership.

\$500 Membership

Provides the member with one voting card, the chance to win their choice of the Futurity Bulls and draw down prizes. Draw down prizes will include cash value vouchers to purchase animals or genetics from any Bull Futurity Member either privately or from a sale.

\$200 Bull Entry Fee

Only Bull Futurity Members are eligible to enter bulls. No limit on number of entries.

ZAL Diamond Z Nightcap 26N is out of our first calf crop by BNC Mr Hojer L335, a son of DDGR Baller 429G. We are pleased with the tremendous growth of the Hojer bred calves - Nightcap posted an adjusted weaning weight of 807 lb. The dam JLSL Ledgerwood Kaela 275K, sired by JLSL True Grit 9164G, was purchased at Function and Finesse 5.0. We appreciate Kaela for her gentle disposition, nice udder and excellent feet. Born mid-March, Nightcap is long bodied and well-muscled with plenty of testicle. He is polled by parentage and has a pedigree that will be a complete outcross to most breeders in Canada. Sit back and enjoy a Nightcap, life is short so let's enjoy it!

 RPS MISS BLACK SAMANTHA
 DLJEN-TY DICE
AKS HILDA 14H
 WGG ZIPS MAJIK LADY 91Z

Entry 103

When we were getting started with our breeding program, 14H was a heifer which caught our eye early on and stood out from her peers. As time went on I noticed a trend as our other two 91Z daughters also delivered top quality calves year after year, such as a black bull we brought to the futurity a couple of years ago or some outstanding heifers we have been building around in our herd. We lost 91Z before I could maximize her impact but the mark she left behind is noticeable, this bull's dam and her sisters are among our top cows, they're great moms, have the right balance of depth and stature for my liking and are probably the quietest cows in our herd. One goal with breeding to 44L was to bring 14H's EPDs a bit away from the extremes but 29N still packs some solid numbers to put pounds on calves and backed by generations of great cows, he'll leave an exceptional stamp on whichever breeding program he enters.

KLC LED ZEPPELIN 193L
 FLR JIGGLYPUFF 15J
 TWIN VIEW GROUND ZERO 65G
KLC KAMIL 145K
 KLC HAZEL SKY 76H

This homozygous polled, herd sire prospect, has been a standout right from birth with extended length, generous depth and eye-catching charisma. Nate has that natural, soggy-made muscling that has the potential matings calculating as soon as you see him out on the move. His dam is one of those cows that just goes out and does her job without any assistance, and man, did she work this year. Nate 1N is out of KLC Led Zeppelin 93L, one of our new herd sires, and we are very excited about his first calf crop. Led Zeppelin brings calving ease in spades, with rapid growth proven by Nate's 205-day weight of 850 pounds. Keep your eyes on this impressive bull for your next herd sire!

 KHR 703T
 AWB BIRCH'S BOJANGLES 24C
AWB TWIN VIEW WICKED 15E
 AWB BIRCH'S WICKED WITCH 179C

MD MADDOX 449M is an incredibly exciting young herd sire prospect who brings power, presence, and proven genetics to the forefront. He is especially impressive through his massive middle and exceptional length of spine. Sired by the well-known and highly respected KHR Grizzly Red 39F Bull, his calves have arrived easily and consistently exhibit outstanding growth, style, and eye appeal. On the maternal side, his dam AWB WICKED 15E is the undisputed matriarch of our WICKED cow family. A heavy-milking powerful female, she is admired for her structure—walking on an incredible foot and transmitting maternal strength across generations. With three generations of retained females at MacDonell Farms, this cow's family legacy is just getting started. MD MADDOX 449M is a bull you can look to for calving ease, performance, and an undeniable look. Whether you're building replacement females or bulls, he brings the kind of balance and style that moves any program forward.

Entry 112

The Marshal is in town and he is offered to you as a calving ease specialist. Ranked in the top 3% of the breed for CED, just think of the number of heifers you could breed with this extra aged bull. Once the calves are on the ground just watch them thicken up like their sire, retain the daughters that are sure to have top quality udders like Marshal's dam and his paternal sisters. His full brother was the high seller of our 2024 bull sale.

Lot 113

Looking for a herdsire prospect that stands out Medal Of Merit could be just what you are searching for. Along with his desirable phenotype comes an above average weaning weight, a milk EPD in the top 10% and double digit calving ease. His dam is a member of the maternal dynasty Temptress cow family. Top that off with "Merit" being sired by Royal Western's high selling bull for the 2021 Draft Picks sale Seminole Wind. Verified by DNA to be Homo Polled and Hetero Black.

Entry 114

It is a rare opportunity in the cattle industry to find that herdshire that is truly a breed changer and will take your program to the next level. We were able to find that in BNC National K2129, Marvel 10M's sire. This bull has been a show stopper since the moment we saw him and has continued to surpass any expectations, creating offspring that are flat out good. They are big ribbed, sound footed, thick made and smooth in their makeup. Marvel is a true display of these genetics and we are excited for what he has to offer to the industry. He comes from a sweet fronted little cow that puts it all into her calves. She is big hipped, moderate framed and incredibly productive. Marvel ranks in the top 1-3% of the breed for growth and milking ability, with an 86WW EPD, 123YW, 29Milk and 72TM. We truly think that he may be the next, up and coming, red version of his sire, National. Take a good look at Marvel as he may be the key to take your program to the next level.
