Recommendation For Calving Ease & Performance

Please consider our recommendations as breeders when shopping for a bull. We have spent years calving these cows and have been tracking their traits and genetics. Calving ease should not be biased on only BW, we also consider calving records of dam and sire. Body frame and bone structure of each bull, and genetic consistency. This is our first trial using this system, we want to make purchases more simplistic for our clients.

Recommended

Drive East and road bends South, keep driving... Turn East (LEFT) TWP 704A. On Right hand side is the farm, Large red buildings.

WELCOME

Blazin' J Simmentals

We welcome you to our second annual bull and female sale! As young producers, we are incredibly grateful for everyone's support. Our first sale in 2024 was successful because of the buyers and their faith in our program. Raising quality bulls takes time, patience, and much support from our community. We thank our sponsors for their contributions. Thank you VJV marketing team for giving us much-needed support and advice, your help is crucial to our growth and understanding of the market. We also want to thank our guest consignors Alan and Shelley Landaker for joining our sale again. We admire their program and love to showcase their cattle.

The cattle industry is a blessing but also a sacrifice, this is an ongoing lifestyle we have chosen to raise our family in, through good and bad. In this current market there is a dramatic catch-up in motion for all cattle producers. Calf prices have held strong, farmers are re-building herds and spending money on capital. There is a demand for females again. The cattle industry is prospering, and we pray this surge is only the beginning. As young progressive producers, a refreshing perspective is lingering, and we see a bright future.

Darcy and I have spent our fair share of money on good bulls, OK bulls, and waste of investment bulls. We have lost opportunity and growth from poor purchase decisions and never want our clients to feel the same. Therefore, our focus is to produce hardy cattle that can carry themselves through any environment. Our program promotes healthy, conditioned bulls without sacrificing their feet, stomach health, and breeding longevity. Our bull nutrition program is of utmost importance to us. We need our cattle to exceed and thrive on pasture. We aim to feed for optimal Average Daily Gain without compromising performance or confirmation. We strive to produce cattle that gain the most in the shortest period. Pounds equals money right now. During this economic time of growth, we want our customers to feel confident in every bull or female purchased. The more fruitful our cattle are, the more profitable our clients become. The cattle industry will only prosper and grow with good genetic decisions.

Looking through our catalogue, you will notice two age groups of bulls: Fall added-age bulls, and Winter born yearling bulls. We are overparticular when choosing our herd sires, using genetic screening we have selectively bred homo black bulls to Full Fleckvieh cows. This breeding produces black 31/32 bulls, the closest to black Full Fleckviehs you can propagate. This cross improves structure, performance, milk production, and calving abilities. We have successfully developed dominant "The Money Stripe" progeny.

Last year we were overwhelmed with the interest in our commercial females. This year we have decided to sell 4 Lots of our very best commercial open heifers, and only one registered heifer. As 'Caitlyn' has said many times, "Darcy" is a heifer hoarder!" This will be the only opportunity in 2025 to buy commercial heifers from Blazin' J breeding stock. These females have been managed like our own replacements; these are the top commercial heifers we have to offer. Like most producers, we love our cattle and only want to provide the best husbandry and health protocols. If our cattle are healthy, they will perform at their best. Our health records are always available on request. Bull and heifer protocols are posted on page 6 under HEALTH.

Since 2016 we have resided 25 minutes East of Valleyview, Alberta on the South end of beautiful Snipe Lake. Blazin' J was built from the ground up, both Darcy and I were born and raised in the Peace Country on 4th and 5th-generation mixed cattle and grain farms. Our 3-year-old son Dwayne is now a 6th generation farmer, we are very excited to raise him and watch him grow on our farm! Again we are very excited about this new lineup of cataloged animals, we hope you enjoy the meal and stop by for a visit. Thank you for your ongoing support and see you at the sale.

Darcy, Caitlyn & Dwayne Lind
Blazin' J Simmentals

WELCOME

VJV Livestock Marketing Group

The VJV Livestock Marketing Group would like to invite everyone out to the 2nd annual Blazin J Bull Sale. The Linds have done a wonderful job selecting genetics that are proven, have natural growth, and are also willing to look outside the box to help both purebred and commercial cattlemen in the Peace Country with selecting herd sires. Darcy's focus on growing out these bulls and Catlyn's tireless efforts on the breeding program make this year's offering of 30 yearling and long yearling bulls a tremendous offering of bulls that would compliment anyone's herd.

The cattle market in 2025 looks to be even higher than 2024 and in the cattle business, pounds translate into money so if performance and growth is your focus this is a sale you need to attend.

This year's bull offering includes a few powerful lead-off embryo bulls, red and red blaze bulls, and the addition of 6 solid blacks and 13 black baldie bulls to complete their bull offering.

This year's sale will also include 1 black blaze purebred heifer, and 4 lots of 3 commercial heifers (2 lots of red/rbf) and (2 lots of BBF). Blazin J is also excited to have Landaker Charolais back to the sale again this year with 4 red commercial bred heifers and 4 papered Charolais bred heifers.

Come on over to the sale and see the updated sales facility at Blazin J, walk through the bulls and females, and enjoy the great sale day hospitality. If you can not make it to the sale the sale will be broadcasted live on VJV Online and DLMS.

Look forward to seeing you at the sale!

TERMS & CONDITIONS

Sire Verified

All bulls consigned have 100K DNA SNP on file through the CSA, and are sire verified.

Sales Day Management

All sale day management from the block and ring will be supplied by VJV Marketing and associated staff. Neither the Sales Management, auctioneer, consignors, or CSA assumes any responsibility in the event of accident or loss of property.

Viewing

All sale animals will be available for viewing on or before sale day.

Block Announcements

All announcements made from the auction block on sale day will take precedence over printed material. Errors discovered in the catalogue will be corrected and supplied in supplement sheets at time of sale, and such corrections will take precedence over the printed material in catalogue.

Bidding

In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final. Bidders unable to attend the sale may phone their bid instructions to sale manager, auctioneer, or to sellers.

All Risks/Insurance

All animals remaining at Blazin J must be insured by the buyer and are left at the buyers risk. Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

Purchaser's Risk

Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

Cattle Pictures

Photo credited to Morgan Lamontagne, Black Rose Photography

Health

Seller makes priority to take birth weights and process calves with 24 hours of birth. Advertised weaning weights are adjusted weaning weights. All bulls are semen tested, palpated, scrotal measured and health inspected by our local veterinary team. Seller vaccinated following health program, Calf-Guard, Nasalgen 3 PMH and injectable ADE + selenium within 24 hours of birth. Spring, pre-shipping Vision 8 and Express FP 5-VL5. Fall, Cattlemaster 4+VL5 with Vision 8.

Should any bull fail to be a satisfactory breeder, (confirmed by a veterinarian) he will be replaced with a bull of equal value and quality at sellers' discretion. In no event shall sellers be responsible for reimbursing more than the purchase price. Seller nor VJV Marketing is responsible for animals that have been residing with purchaser longer than one year after purchase date.

Sales Taxes

Applicable sales taxes will be charged on semen, embryos, and trucking fees, respective to the home province of the buyer, not the seller.

USA Buyers

There is an additional charge (approximately \$400.00 US dollars) that will be applied to each animal. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

Embryo & Semen

Full settlement must be made before release is done and shipping arrangements should be done within 60 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

Secondary Sales

The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties are not covered by the terms and conditions of this sale.

SIRE **FGAF MAGNUM 901Z**

ALLM COLOSSAL 25U
VIRGINIAS UPTOWNGAL
PSE ACHILLIES FF
LAZY RS MISS YOURS FF

DAM **LAZY RS MISS DELORES FF**

Without a doubt, these embryos have been the most talked about bulls in our offering. Cookie cutter brothers, it will be difficult to say who is the best of the two. We purchased FGAF Magnum 901Z semen from Stefon and Rebecca Beechinor during the Fleckvieh Equation hoping to flush from the perfect FF cow someday. When we bought LRS Miss Deloris we knew she was the ideal female for this cross. Flushing LRS Deloris has proven to work time and time again, but this specific breeding worked exactly as we hoped. Deloris is the most ideal 100% Full Fleckvieh we own, we only wish to own 200 cows like her. Super strong footed, long-bodied, wide pelvis, and loads of muscle definition. Crossing her with the famous FGAF Magnum 901Z, added long dark pigmented hair, deep barrel, and muscle! There is nothing I can compare more powerful than these bulls in our sale.

2 BLAZIN MASTER MIND 079M

DAM **TSF HAVEN 49H**

TSF FAWCETT 55F
TSF EVEY 30E

Here is the exact representation of our black program. Our goal is to cross Fullblood cows with Homo Black Bulls and create the best black-white faced cattle. We believe in producing bulls with length and muscle, we are especially picky when selecting our herd Sires for these traits. Purchasing TSF Jennings 28J has given us the whole package and made our bulls very consistent and incredibly desirable, our heavy milking fleck females cross incredibly well with TSF producing heavy weaned calves. There is a need and want for black-influenced fleck cross cattle, we will continue our goal and provide this style of 31/30 progeny.

4 BLAZIN MAIN MAN 093M

HOMO POLLED - BLZN 093M - 1473048 - FEBRUARY 03, 2024 - PUREBRED

DAM **BEE CHORUS GIRL 730E**

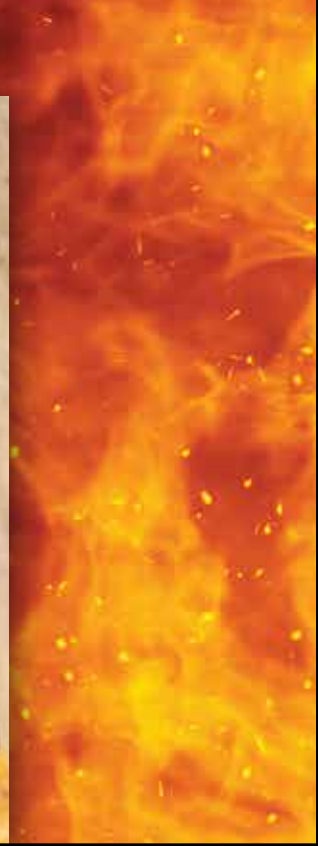

NGDB STRUCTURE 34D
RF JOY'S ELEGANCE 747E
IPU RED DEPUTY 25C
BEE SHOW GIRL 544C

We are quite fond of this bull and perhaps a bit biased due to his mother's track record. 76 would be a bull I would recommend someone to take to the next level and show. He has eye appeal, incredibly fancy stretched top line, and is super friendly. We retained his 1/2 brother as a walking sire. If you are looking for consistent deep powerful heifers, really have a look at this bull. His sire, Trailblazer,

SIRE - WJS TRAILBLAZER 108H

is known for outstanding female genetics. We flushed Trailblazer to our own BEE 730 cow, this combination will be an influential addition to our female program. Darcy has always said, "It's about the females that make our herd, we are not only focused on the bulls".

DAM - VIRGINIA IRIS 929G

8 BLAZIN MURPHY'S LAW 074L

POLLED - BLZN 074L - 1483571 - SEPTEMBER 16, 2023 - PUREBRED

BW	Act. WW	EPD'S	CE	BW	WW	YW	Milk	MCE	API	TI
84	765		9.5	1.9	67.4	99.2	27.2	2.2	107.34	67.26

SIRE **BLAZIN GUNNER 728G**

DAM **VIRGINIA IRIS 929G**

GSC ALL IN 72A
 BLI STAR 728E
 VIRGINIA MARQUEE 423D
 VIRGINIA DREAMWEST 50D

Very balanced conformation bull. If you are looking for a potential long-aged heifer bull prospect, keep your eye on this guy. On the top side BLZN Gunner was our heifer bull for many years, used in our fall and winter programs on heifers. We were confident breeding him to Iris 929G, another calving-ease dam. Throughout this bull's pedigree, the lineage shows heifer prospect.

9 BLAZIN LEISURE SUIT LARRY 070L

HOMO POLLED - BLZN 070L - 1483567 - OCTOBER 08, 2023 - PUREBRED

BW	Act. WW	EPDS	CE	BW	WW	YW	Milk	MCE	API	TI

DAM SIMMENTAL/SIMMENTAL

This bull is a photocopy version of his sire, long made, and exceptional top line. On the CSA EPD charts, 86 Mad Max is ranking #2! His EPD show strong attributes and is above breed average. In addition to stellar EPD's his personality and demeanor is ideal for any quiet, easy-working herd.

This bull is the icing on the cake, a powerful Red Bull with a hint of chrome. If you are looking to add some flesh to your calf crops do it with Marco. You get this kind of breeding using a powerful Fallen Timber cow crossed with Nug Stockman, two parents that we cannot find any flaws. This bull is breed-leading, not too many come more powerful and balanced than this guy.

Another pen favorite but again this bull is out of our top herd matriarch BEE 730E. She has been the Dam of many high-selling bulls. A 2024 sibling sold as the high seller to Codesa Colony. Magic Mike is ribbed with lots of softness, he has that extra wide top line and not short of any capacity. 90 has that presence that is common with sons of our BLZN Kryptonite. When you are looking for a herd sire be sure to look at this bull's EPDs, he is stacked and will surely improve any herd progeny!

WOLFES DYNAMITE FF19D
WOLFE DORIAN 974D

The breeding of this bull is as solid as they come. We purchased his sire from John Beechinor for use as a heifer bull. BEE Mountaineer was the coolest heifer bull, a small mighty package with unbelievable growth abilities. His calves were born the perfect size for heifers but in a day or two they boxed out and looked like little deep freezers. We loved that sire and retained all the females he ever produced.

By crossing TWWW 419H cow to BEE 605F our thoughts were to add height and performance, and we believe we accomplished that goal

We really like this bull for his growth and frame. Strong straight top, long body, and plenty of style. A stacked pedigree with consistent production from his sire BLZN 728G. This bull is the product of a very successful breeding. This bull's dam & grand dam always produced replacement heifers or sale bulls. They are long-bodied super feminine females with some of the best feet. His dam has a picture-perfect udder and produces lots of milk. If you didn't get Lot 88 you can buy all the same genetics through this black bull.

BLI STAR 728E

We are honest breeders and want our customers to trust us and openly know what they buy. With any bull sale, Beauty is in the Eye of the Beholder! When you notice this bull's pedigree you might question the lineage. As Caitlyn has said in the past "It's like the movie 'Twins' with Arnold Schwarzenegger and Danny DeVito. When you play with genetics and have created Danny DeVito it's an oops,

when you create perfection, it is considered Arnold Schwarzenegger." One glance at this bull and you know without a doubt this line breeding worked out completely in our favor. This bull will be the most consistent producing sire in any pasture, all calves will be cookie-cutter perfect.

Another featured black bull you can really admire. Powerful thick and no lack of capacity or style. He has that clean make and extra presence that proves impossible to miss. Lightyear's sire BLZN 728G was an incredible walking sire we will miss dearly. Used first as a heifer bull we knew after 2 crops he was something special. Calves were born moderate BW but outgained and developed muscle far faster than all our other black bulls. We owned a unicorn sire, and now BLZN 728G is gone we want to share those genetics as much as possible.

If you admire Bull 76M, this is a full-flush sister. Again, we cannot describe our love enough for BEE 730E. She has always been the top-producing purebred cow in our herd. After we experimented with WJS Trailblazer, we quickly realized he was a female-producing bull and made the decision to flush him with BEE 730E. The combination has been some of our favorite heifer calves. This heifer is stunning, long, and smooth with a full flank. Longevity and consistency will be in this heifer's future.

SIRE - WJS TRAILBLAZER I08H

COUNTRY JUNCTION FEEDS

COMMERCIAL HEIFERS

Commercial Heifers

These pens of open heifers were very difficult to give up. Sired by our best walking sires these groups all come from our strongest top-end commercial cows. All born 2023, Late December to February you have full confidence that these heifers are ready to breed any day. Many of these females are sired by Homo Black bulls or 100% Fleckvieh sires. We express how proud and confident we are to show off any of our papered or commercial cows. We raise our commercial and papered females all the same with no exceptions towards bad traits. We believe in working cattle with proven longevity. Thank you to our 2024 heifer Buyers, Alan & Shelley Landaker @ 'Landaker Charolais' and Ryan & Jenna Cox. These are great references to find out how our 2024 females performed.

Blazin J open heifer health protocol consists of Inj. ADE, Selenium, Calf Guard, Nasalgen 3 PMP at birth. Vision 8 Somnus and Vista 5 VL5 at pasture kick out and boosted post-weaning. All heifers have received 2 shots of Estrumate prior to the sale. All birthweights and growth information have been documented.

WELCOME

Landaker Charolais

Welcome to the 2nd Annual Blazing J Bull & Female Sale!

We would like to thank the Lind Family for the opportunity to consign Females to the sale again. And a big thank you for all the help they provide us. These Charolais heifers are easy doing, quiet girls that are from 4 different sire groups, Jackpot, Visa, Pandemic, and Circle Cee Spike. The dams are all good cows with good feet and udders. The Commercial heifers are the top picks out of 51 head, this was a tough decision to let them go. They are bred to 2 easy calving Charolais bulls. Bred heifer health program includes Bovi-Shield Gold FB VL5 with Vista Spur, pregnancy confirmed by a licensed veterinarian.
