

Featuring Bulls from:
J Bar B Polled Herefords
BJ Cattle Co.
McKenzie Herefords

SATURDAY
DECEMBER 6, 2025
1:00 PM
BALOG AUCTION,
LETHBRIDGE, AB

Welcome to: **The British Connection Bull Sale**

76 Lots *consisting of* Black Angus, Polled & Horned Herefords and Hereford Purebred Bred Heifers!

Welcome Cattle Producers!

This fall will present the most rewarding and optimistic anticipation that the industry has ever seen!!

Finally the feeling of being rewarded for every outfit's hard work is happening, however the planning for the future of your operation does not change.

Performance - Production and Profit still make your program work!

The breeding bulls in the British Connection sale give you this opportunity! British Connection sale sets the bar and the repeat buyers show the strength of this offering.

This sale presents the opportunity for both yearling Angus and Hereford bulls and for coming two year old horned and polled Hereford bulls! Also this year, a new opportunity of buying bred heifers from the McKenzie's. In all my years of selling we have never, ever seen more finished bulls come to town, so when you find the bull you want - BUY HIM!!!

British Connection checks all the boxes! Be part of a very successful program and get ready for the future!

Respectfully,

R.C. (Bob) Balog

Terms & Conditions

Terms – The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd. at Lethbridge, AB, on Sale Day. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

Bids – Every animal entering the ring will be sold to the highest bidder.

Disputes – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

Announcements – Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

Certificate Of Registry – A certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.

Health – All animals in the sale have met all necessary health requirements. All will be guaranteed eligible for US Export.

Semen Interest - We as breeders reserve the right to draw in herd semen use on any bulls sold in this sale at our expense and buyer's convenience.

Breeder's Guarantee – Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association and Canadian Hereford Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness. All Long Yearling Bulls will have been Semen Tested prior to the sale.

Accidents – Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

Liability – Balog Auction is acting as agent only and assumes no responsibility for representations made by seller. Purchaser must look to the seller for fulfillment of all guarantees and representations made hereunder.

Wintering, Export, Delivery or Sale Day Pick Up – All bulls can go back to the consignors for wintering with delivery starting March 1st. If the purchaser takes his bulls home from Balog's on sale day there will be a \$200.00 per head discount. Assistance will be given loading these purchases out after the sale is over. If you can take delivery of your bulls within a couple weeks following the sale there will be a \$50.00 per head discount. Delivery is free in Canada up to 300 miles, at cost after that. Bulls exported to the US will be taken back to the contributors for testing and delivered to the Sweetgrass Port of Entry. Any additional expenses including duty, brokerage fees, testing, transport from the Port of Entry, etc. are the responsibility of the buyer. Purchasers are requested to furnish shipping, wintering and delivery instructions when making settlement.

Insurance – We recommend insuring all of the Bulls purchased. All bulls being wintered by a contributor must be insured.

EPDs – EPDs recorded September 13, 2025.

As I am writing foot notes, this breed of cattle we all have brings to mind how great they really are. What a privilege to have been able to spend a lifetime of work producing food for the world and being able to work with the best breed of cattle and people in any business. You will see these calves are sired by 2 bulls, the Anchor bull from Hinderagers at Vaughn Montana, and the Rapid bull from Corey Lees in Saskatchewan. We feel that both bulls have done a great job. To ensure you are getting the most information available to make your purchasing decisions we had genetic testing done on all the lots in the sale, there are no surprises. All bulls are free from any known genetic abnormalities tested for. Hope to see you at the sale, have a great Christmas and May God bless till next time.

Take a really good look at these Rapid calves, they are the kind we believe will keep moving the Hereford business in the right direction. I believe this calf can do just that. This pedigree is stacked with maternal power. If your saving replacement heifers this is one to look at. Heterozygous Polled

Here are the results of another first calf heifer mating with Rapid. Something that has impressed us is the ability to breed him to heifers and cows, calving ease with performance is important to us here. We like him for his dark red color, ease of movement, and depth of body.

All bulls in sale have Genetic
Enhanced EPD'S and are all Sire &
Parent Verified!

We would like to welcome everyone to our 10th Annual British Connection Bull Sale. We sincerely thank all who supported our program in the past and value the relationships we have built.

Once again I feel there is a great set of calving ease and performance type bulls that will work out on the range and bounce back after they are done breeding. We value cows that have lots of longevity and check the boxes on being functional cattle that are sound and easy on the eyes. We have shifted more to using outstanding walking bulls that we have gone the extra mile to see the mom and granddams or sisters to evaluate the best foot structures we can find as well they need to be what we are looking for.

We are all enjoying fantastic times in the cattle industry. Record setting prices week after week no matter what we were selling. I feel inventory is key at times like this. Retaining heifers is a great way to maintain numbers and keep the cow herd youthful. Many bulls are suited for heifers in this sale!

As always all the bulls can come back to the farm after the sale to be wintered free of charge and will be delivered to you in breeding shape, once they have passed their semen test! We invite you all to view the bulls at the ranch before the sale. Their moms are never far away and would love to show you the cows that raised them. Videos will be up on DLMS mid Nov. Please contact us if you have any questions on the offering or to set up a time to come see the bulls beforehand. Look forward to seeing you at the sale Dec. 6th!

Power, muscle and performance with a modest birthweight. With his light birthweight and a weaning index of 110 you can't miss this guy. One of the heaviest muscled and longest bodied bulls in the pen. His moderate framed dam has an impeccable udder and always has a calf with a lower birthweight and one of the heaviest at weaning. She is a cow that you could sit and stare at for the whole day and never get tired of looking at her. He sure has his daddy's look with an outstanding mom behind him. He could be used on bigger heifers or cows!

	+0.0	+2.5	+66	+125	+6.0	+25

Size, substance and power this guy is a heavyweight. He had a 914lbs adj weaning weight and is in the top 8% for carcass weight, top 7% for REA, top 5% for mature weight and in the top 3% for foot epd. His sire Linebacker was also the highest indexing calf in 2023 and is patterned very much the same. This second calver really out did herself here but easy to say his grandmom was one of our favourite cows.

Foot improver here he comes! He is backed by many generations of perfect footed cows so it's no mistake that he is in the top 2% for foot angle and top 6% for claw. This guy is a true ranch bull with a ton of hair, meat and muscle that is going to stand up for years to come. His sire is a big power house and we feel this guy is going to follow right in his footsteps as years go on. If you want to improve your feet with some extra bonuses to go with it this is your guy.

If this guy don't stop you in your tracks his dam will. When I say this guy is as good as they get I mean it. He has been a fan favorite all summer and turned it up a notch once he was weaned. This beast is super thick, very bold and has Angus character written all over him. He looks just like his daddy did in the pen the day we saw him, just has that extra pop, power and dimension to keep you wanting to gravitate back to him all the time. His dam is as sweet as you can make her. Feminine, angular, moderate, with flawless feet and udder. When you lay your eyes on her you will want a whole herd like her and you will see where this dude gets his top 1% longevity EPD from. As Logan says this guy is like taking a BAZOOKA to a knife fight he is that good!

Muscle, top and a wicked head and neck. His mother was a very good cow in the show ring for Logan and hasn't backed down since he quit showing her. His grandmother is none other than 7091 Jilt cow that we don't even have to mention what she has done for our place. His half sister raised the high seller in our sale last year to Merrit Cattle Company and she has another sweet heifer calf this year. Then when you add Territory into the mix all you can think of is a great female maker. The guess work is done and there will be no doubt that you will want to retain every female out of this guy.

Dolcility, feet, and udder improver here. This calf is the youngest calf in the offering this year but that's nothing to take away from him. We finally let his dam go this year at 15 years old and has raised thumpers every year. The best part about this cow we're her feet. At 15 years old her feet and udder were as perfect as you could make them. She was as quiet as you can make her and always passed it down to her calves. That's why this guy is in the top 1% for dolcility. He is also in the top 2% for scrotal and 6% for claw. If you want to improve your longevity, feet, udders and dolcility be sure to see this rascal sale day!

Low birthweight and style to burn! His mom is a Lucy that is the ideal angus cow. His grandmom is one of Logan's picks of the herd. She is a moderate framed cow that has a wicked udder and very small teat size. Lights Out has tons of muscle and length packed into a low birth package out of a beautiful cow. His head and neck are flawless and bred very well for us. If you want some look and style added to your calves here is your guy.

His name "New Release" is no lie. This guy is a total outcross for our program that could work on bigger heifers or cows. His mom was one of our picks out of the Yarrow Creek dispersal sale and is picture perfect. His sire was one of Peak Dot Ranch's high sellers that year and we can see why with this guy. He has some added stretch and is built as smooth as you can make them. He is also in the top 8% for claw, 20% for milk and super gentle to handle. Make sure you check out this "new release" on sale day.

Big time calving ease bull with a different twist on his pedigree! Net worth has been at the front of the pack since he was born. His muscle, length, bone and huge scrotal ties together in a neat and tidy package. His dam was one of our picks at the Yarrow Creek Dispersal and sure did not disappoint here. Double bred calving ease with a mix of his popular sire Mindbender with a dash of South Point, it doesn't get any better than that on paper. Check out his EPD'S! Top 20% on YW, 20% REA, 10% WW, 4% CE, and top 1% longevity, it doesn't get much better than that. This is a HERDBULL in the making that we even considered keeping ourselves.

We would like to welcome everyone to our 10th Annual sale! Hard to believe its been 10 years already! We feel this is a powerhouse set of horned bulls that could be as good as we have ever brought to town. Once again you will see we have a couple feature calves as well as a set of top notch rugged ranch bulls that are super thick, easy doing that can get out and move! We had a big heifer crop two years ago so we are not as heavy on the numbers of 2 year olds but the quality is super high.

We would welcome visitors anytime to view our Hereford cow herd. Again we feel you will find fantastic uddered cows, with tons of volume and rib, yet super sound, and maybe the #1 thing we want is that they have to be able to wean a heavy calf and keep up with our Angus. We may not have a large number of Hereford cattle, but they have to be very high quality and produce to stay!

Please come see the bulls and their mothers at the ranch anytime!

- We bought Duke in the 2024 Calgary Bull Sale from YV Ranch where he seemed to be a fan favorite that day!
- Has tons of curly hair and lots of muscle
- Very good footed and big scrotal
- Very clean fronted
- Really looking forward to seeing his calves in the future.

Hair, pigment and looks backed by a wicked cow. This guy mother is a cow that we purchased from Jim and Terry Newton alongside her mother a few years ago. When we saw this pair we were instantly attracted to them. We thought so highly of this pair that Cody and Logan decided to take them to Bonanza. New Mexico was crowned Reserve Champion Bull Calf to start it all off, then to top it all off this pair was Supreme Champion Overall Horned Female. We feel that his mother could be a future donor cow for us and will definitely be a cornerstone hereford cow in our herd. This guy won't disappoint you on sale day!

One in a million opportunity here! This guy could be one of the best calves that has ever walked this place. His muscle, bone and top is out of this world and has been since day 1. His performance is unbelievable, he has a adj 205 wt of 968 lbs and a weaning index of 119. This first calf heifer was the calf inside when Cody had the pick of Jim and Terry's

breed's. She is an ideal size female that simply checks all the boxes of an ideal cow that will last forever. This guy's sire we purchased in the Calgary Bull Sale from YV Ranch and we think he is pretty special. When we were on the hunt for a Hereford bull we saw his picture and really liked him. When we saw him in real life we loved him. The boys were in love with him so they decided to campaign him last summer. They had a very successful run with him winning Supreme champion bull at the Alberta Junior Hereford Show then they were Champion 2 year old with him at Bonanza. We feel Napoleon is a very special calf that is following right in his daddy's footsteps! We took him to the Ranchmen's pen show in Swift Current where he was the only Hereford bull calf in the all breed show and made lots of friends both purebred and commercial. To top it off he was the first calf picked in the calcutta out of the top 6 bulls. This guy is big time!!

Red, muscle and hair, this guy has it all. This beast has been a standout since birth. With his dark red colour and 2 red eyes he catches your attention right away. When you analyze this guy you can't help but admire how much muscle and dimension he has from every angle. His mom has 2 red eyes and seems to stamp her calves with them every year. To look at his mom you wouldn't guess that she is 10 years old. Her udder has stayed fantastic and she holds her condition very well. He has been a fan favourite since he was a calf and I'm sure he will be on sale day too.

Here is a unique individual that has built a pretty good resume. When Cody and Logan were picking the show string this guy was the first one on it. His appearance and looks is one that you don't come across too often. Margarita first got a lot of compliments at the Medicine Hat pen show for his hair, muscle and smooth front end. Then they took him out to Bonanza and did very well with him. To start off the week he was Champion Bred and Owned bull for Logan and it didn't end there. In the open show he was Champion Horned Yearling Bull which went on to be Reserve Champion Overall Horned bull. His mom is on the next level. When Jim and Terry first told the boys that they were each getting a pick of the Purebred bred heifers, Logan's instant response was "I want 25J" and she has had a huge impact on his herd. Her feet and udder are flat out amazing and she has done a wicked job on her calves. Not only did she raise this stud she also raised our high selling Hereford Bull last year to Church Ranch. It will be hard to miss this beast on sale day.

He might be the youngest in our 2 year old offering but that's nothing to take away from him. His mother 2F and grandmother 56B have been foundation cows for our hereford herd. They have produced a good one every year and the females have all made fantastic cows. 2F has been a cow that has raised many high selling bulls in the sale. The boys showed a daughter out of this cow this summer and did well with her and her heifer calf is right near the top this year. Don't miss this standout on sale day!

We'd like to welcome everyone to the 2025 British Connection Sale and thank all our past buyers for your continued support. We've got a solid group of bulls again this year, and we're excited about how this pen has come together. These spring-born bulls were raised out on grass all summer and developed with longevity, structure, and real-world functionality in mind. As always, our cowherd is managed just like any commercial operation where cows are expected to perform on grass with no shortcuts. We continue to focus heavily on foot and udder quality and believe both the bulls and heifers on offer reflect that direction. We appreciate you taking the time this fall to look through the offering and the breeding behind it. Thanks again, and we look forward to catching up on sale day.

(PE)	+1.0	+4.3	+63	+110	+21	-	+5.5

This bull is as powerful as they come, yet maintain a soft, smooth-made build. Eye-appealing and athletic in his movement.

He is our of the legendary Churchill Lady 1162Y ET, a donor cow that truly needs no introduction. She's the dam of herd sires like SR Dominate 308F and Glenlees sire, Churchill Vanguard 360L.

Bred Heifer Offering

This year, we've made the decision to offer our entire group of bred heifers a rare opportunity, as we're typically very reluctant to part with many. However, with recent changes to our land base and several consecutive calf crops weighted on the female side, we felt this was the right time to make a significant group available.

These heifers represent the heart of our breeding philosophy, emphasizing longevity, structural soundness, and maternal functionality. These girls have been grassed all summer and raised as ranch cows.

The heifers were AI bred on June 20:

Horned heifers were bred to CHURCHILL ROUGHNECK 0280H ET

Polled heifers were bred to BAR JZ ON DEMAND

All heifers were then exposed to WVR ALLIANCE 4215, a high-quality, extremely docile Angus bull with exceptional structure and calving ease.

Service Sire: Churchill Roughneck 0280H
