Welcome from Char-Maine Ranching

Welcome to our 21st bull sale! I know this has been said a lot these last few years, but it is so obvious this year and maybe, by the sounds of it, even more relevant for years to come. Extra pounds and the premium you get from the market topping Charolais calves sure makes a big difference when you deposit that calf cheque.

Come and maximize your calf cheques with bulls that will do it all for you. We have bulls for everyone, from top performers to a few select heifer bulls. We are working on breeding top feed efficient cattle and doing some extensive testing to get there. If your interested in feed efficiency, give me a call and we will talk about how to get an even bigger premium out of your calves.

We would be happy to discuss our Bulls, our Bull guarantees and optimizing your calf marketing with you.

Steve & Darilyn Quinton

Welcome from Southern Alberta Livestock Exchange

There may not be such a thing as a perfect year in the ranching business, but this may be the closest thing to it that I have seen. Record setting prices, ample feed supplies and most importantly, a future that looks exciting for years to come. There has never been a better time to invest in superior genetics to take full advantage of these historic times in the cattle industry. Join us on December 5th for an outstanding set of bull from a proven program.

See you sale day,
Frank Jenkins

HWY Kobe 234K

In the spring of 2024, we found HWY Kobe 234K at the Highway 21 Group Bull Sale. With the focus we are putting on raising bulls for our customers that excel in calving ease, superior weaning weights with top feed efficiency built in, we could not pass on the opportunity to own ½ of this great bull. HWY Kobe boasts a Weaning Index of 119, Yearling Index of 109 and Lean Meat Yield of 68%. Kobe's feed efficiency data are the best I've ever seen at RFI at -2.58 and Feed to Gain of 4.26 lbs of feed per pound of gain. Kobe sons will sire you calves with all of these industry leading traits that will give you top weaning weights with efficiency, as well as being highly sought after by the top feedlot operators in the industry for top gains while being the most efficient which will greatly increase their bottom line.
