Our horse girls have had a fantastic year! Our eight members range from 9 to 18 years old and have a ton of fun together with their horses. We kicked the year off with a trail ride at the Lutz Farm and then dove into horsemanship lessons under the guidance and expertise of Sandy Loree. Kim Thom then took 'the reins' and was fabulous working with the girls on control and balance. We were fortunate enough to bring in expert Kashley Seitz to teach all things goat tying and roping and have a little gymkhana fun as well. Pat Ross and Hal Schiffner fine tuned the girls' show skills going into the Mountain View District Horse Show, which we treat as our Achievement Day. The girls enjoyed time together with a private tour of Century Downs (complete with a group photo in the winners circle!), doing trivia, learning how to administer medications by IV, sticking a horse properly, creating the most unique Christmas tree ornament, soaking in knowledge at Horse Expo and more!

## SMALL ENGINES PROJECT

Our Small Engine Project is in its second year. We have seven members with projects ranging from quad and mini-bike engines, lawn mower and small tractor engines, even antique pump engines. We started the project learning safety and engine basics, we dismantled our engines, diagnosed any issues, researched and ordered replacement parts. Some key components of our projects are learning how engines work, compression checks, cleaning and degreasing, cooling systems, air filters, fuel systems, spark plugs and carburetor checks. We wash and prepare the engines for the rebuild. The rebuild is the best part. The final step is making sure the engine is back in working order. We are learning to do by doing and getting hands-on experience.

## CLEAVER MEMBERS

### Cleaver Kids introduces youth ages 6-8 to 4-H Alberta

- ◆ Cleavers develop new friendships, a sense of belonging to the club ◆  
and their community, listening skills, the ability to express themselves,  
set goals, track progress and celebrate their achievements!

The Eagle Beef and Multi Club has six eager Cleaver members this year who are all excitedly waiting to become full fledged 4-H members in the next few years. The Cleavers have spent time during meetings this year building teamwork skills, developing communication skills and learning about what 4-H has to offer. We have Cleaver members showing calendar year calves and lambs at this year's Achievement Day. We also have Cleavers participating in Small Engines activities and the Outdoor Project adventures .
