

52ND ANNUAL

PRODUCTION — SALE —

DECEMBER 4, 2025 · 1 PM AT THE RANCH · WARNER, AB

Welcome to Doenz Ranches

As cattle producers, we know firsthand the ups and downs this industry has handed us. It hasn't always been easy—but it's the challenges that sharpen us, remind us why we do what we do, and prove the grit of true cattlemen. Today, we're proud to say this is one of the strongest sets of bulls and females we've ever offered. They represent years of breeding decisions, long days, and a shared belief that better cattle build a better future.

This business requires every one of us to be at the top of our game. It takes persistence, dedication, and the kind of work ethic that doesn't back down when things get tough. We've pushed hard to raise cattle that can go out and work for you—functional, profitable, and backed by cow families that stand the test of time.

We invite you to join us here at the ranch in Warner, AB on December 4th, 2025 at 1:00 p.m. Come early, have lunch with us, and take some time to walk through the pens. We're excited to visit with you, to talk cattle, and to keep building this business alongside people who share the same passion for progress.

Videos of the offering will be available online through CattleVids, with bidding available on DLMS for those unable to attend in person. We're also offering a payment option of half cash on sale day and the balance due June 1, 2026.

Hope to see you then!

Brad, Veronica, Jordy & Branson Doenz

TERMS Cash or half cash – balance due June 1, 2026, interest free. If half cash terms are desired, we request that the buyer leave a post-dated cheque. US buyers please note – US funds will be accepted at par, exchange will be calculated per bank exchange rates as of sale day morning.

GUARANTEE The cattle will carry the guarantee as recommended by the Canadian Hereford and Angus Associations. Doenz Ranches stands behind all animals sold in the sale.

VOLUME DISCOUNT Purchase 5 to 9 bulls take 5% off the total price. OR Purchase 10 or more bulls then take off 10% of the total price.

DELIVERY If the buyer wishes, free fall delivery up to 300 miles to central points. \$200 will be deducted off the purchase of a two-year-old bull if you pick up the bull(s) up to 3 days after the sale.

WINTERING Bull calves can be wintered for free. Two-year-old bulls can be wintered until April 1 for \$400 each. All bulls must be picked up by April 1, 2026. All bulls must be insured and this service will be offered sale day.

USA Animals going to the USA will be delivered through the Coutts/Sweetgrass border with federal health papers. Buyer assumes transportation costs from Sweetgrass, Montana. Again, animals need to be insured sale day.

LIABILITY Mishaps at cattle sales are very rare and every precaution will be taken for the safety of visitors; however, the owners and management assume no liability should an accident occur.

INSURANCE The purchase of insurance will be available sale day through Canadian Farm Insurance Corporation representative Maureen Balog.

ERRORS If errors are noted in the catalogue, corrections announced from the stand take precedence over printed material.

DIRECTIONS TO RANCH

3.2 km (2 miles) east of Warner on #504, then 3.2 km (2 miles) North on Rg Rd 170, down into the coulee to the sale barn.

SOUTHLAND ERICA 1T

We were introduced to 12K's sire- Bear Creek Stoney himself and his progeny at a field tour in Saskatchewan and felt that he could offer so much good to the angus breed. We found 12K is one that we are happy with here. He's marked each of his calves just like him with a moderate frame that packs on the muscle with exceptional hoof structure and is very easy fleshing. Every one of 12K's sons you can pick out a mile away. They have big, round, smooth, well muscled hind quarters with a great sized hoof. I know you'll like the look of these guys here. We also have our own home raised son to 12K that will have progeny in next year's sale.

Badger progeny are built wide and thick as they come in the breed. 169N is extremely wide and hind quartered with lots of depth of body and you'll appreciate his muscle expression. Look at 169N's weaning weight of 910 lbs. on September 30. His EPD's put him at the top 4% in weaning a yearling weight.

LCI DOLLY 139F

The power shines through on this guy! He's got muscle on muscle with a great depth of rib and length of spine and carries it deep in his hind quarter and he's got good solid locomotion to him. But what's really cool too is his personal performance along with is EPDs- He's put in the top 5% for weaning weight EPD and top 3% yearling weight for the breed. That'll make a big impact on his calf crop!
