BRANDON, MANITOBA

Manitoba Magic

We would like to welcome everyone to our annual Manitoba Magic Red Angus female and Genetics sale.

We most certainly have an amazing offering here in Brandon - something for absolutely everyone in the cattle industry.... and what a glorious time to be involved in raising this wonderful product called BEEF!! We have never experienced a more wonderful time in the cattle sector and all factors point to a prolonged period of time that this type of market is going to continue to bless us with good fortune!! We as cattle producers must be very thankful to our consumers for their continued support of our product. However, I for one strongly believes that we, the beef producers, Do Not Ever have to apologize at all for the current cost of meat. We all certainly remember the "not so good times" in our business not so very long ago! So, let's enjoy this lucrative phase of our occupation and continue to encourage our population to keep on enjoying our good Canadian raised beef.

This group of Magic consignors along with the sale organizers have made a fair number of changes to this year's format for the sales event on December 5th and 6th in Brandon.

Consider this your personal invite to come and help us celebrate this extraordinary group of Red Angus cattle assembled for your buying pleasure. On the Friday night we will be having a little fun in the barn with a Hospitality evening and cattle kids' fundraiser to support our youth. It will feature a DLMS timed auction style fundraiser to put some money in the young up and coming Red Angus breeder's hands. Don't consider this a "hand out" to the kids but rather a "hand up". Everyone can surely remember a time when you were first starting out in the breed that it would have been nice for a little financial support from somewhere!!! All the money raised on this night on some terrific, donated items, by the way, will go directly to the participating young boys and girls in the form of some sale credits.

I travelled all over eastern Saskatchewan and Manitoba in mid-September to personally hand select each and every one of the lots in this sale. I can say in all honesty that each of these consignors "played ball" with me on their consignments. It's very gratifying to me here at M S M that all these good cattle folks have the same supportive view to make this event a resounding success. I don't want them to agree too easily to let one go to town to the sale....

I want to make it HURT to let that one go!! My good friend Dennis Ericson taught me a long time ago this lesson in the cow business -The kind to keep is the kind to buy is the kind to sell. It's a very powerful and thought-provoking statement, isn't it???

Along with a riveting set of heifer calves we have assembled a powerful set of bred heifers -both purebred ones and some very high quality "pens of three" commercial ones too! AND it's not every day that one can walk into an entire herd and have your pick of the lot..... But on Saturday afternoon the 6th of December in Brandon, Manitoba you will have that option on the Karli Kattle Co. herd!! Think about this ----- What would you need out of a choice such as this deal-dollar wise-to let someone come in and take the pick of your herd? One other very exciting new feature is the Magic Showcase Junior Heifer show on Saturday morning. Bring your kids down here and purchase (Calcutta style bidding) the right to show one of these consignor's heifer calves they have in the sale - show it later in the morning and have a chance at some enormous sale vouchers for the actual auction in the afternoon. If it sounds a little confusing on paper... Don't worry about it... you'll catch on quick as to how it all works. Trust me and all the magic people in the sale today - your junior person will have a ball and will benefit financially towards helping get a Red Angus female bought to start their herd or add to their already existing one.

Hope to see you in the stands at the Magic sale but if you cannot attend don't hesitate to reach out to me or anyone of my very capable staff or consignors.

Yours faithfully in the Red Angus breed,

Bryan and Sherry Mackenzie

Welcome

FROM

MAGIC SHOWCASE JUNIOR FUND RAISER
BIDDING CLOSSES AT 8PM

SATURDAY, DECEMBER 6TH
10 AM

THE MAGIC SHOWCASE HEIFER CALF PARADE

Any aged junior cattle person and their families are NOT going to want to miss this event to evaluate the heifer calves! Juniors make their selection on which heifer they would like to buy the right to show in the Magic Showcase Junior Heifer Show.

11 AM

THE MAGIC SHOWCASE CALCUTTA

Juniors will bid in the calcutta styled auction of the heifer calves to determine which Junior gets to show which heifer.

NOON

THE MAGIC SHOWCASE JUNIOR HEIFER SHOW

Juniors will now show the heifer calf they purchased show rights on for a chance to win some fantastic show vouchers for the Manitoba Magic Female Sale.

We are proud to offer you the opportunity to be involved in a unique fund raising initiative to support Manitoba's future cattle men and women. The Manitoba Magic Sales Management and it's consignors are sincerely hoping you will consider helping with funding on our new Junior Event happening in conjunction with our sale in Brandon on December 6, 2025, at the Keystone Livestock Events Centre. This year we would like to amp it up and introduce a Magic Showcase Junior Event!

100% of the funds raised in our Timed Auction being held the evening of Friday, December 5th will be allocated to several junior cattlemen, 21 years of age or under, in the form of bursaries to be used for the purchase of a heifer in the Magic Sale the following day!

Please feel free to contact one of us if you have any queries regarding our organization, our fund management policy, or the project itself!

Bryan Mackenzie - 403-627-8266 - brylor@platinum.ca

4th - \$3000 Sale Voucher

All sale vouchers must be used towards a lot in the 2025 Manitoba Magic Sale

DONATIONS

LOT 100A, 100B, 100C

3 PACKAGE OF 2 STRAWS OF MOON PIE 680K SEMEN
Donated by Wraz Red Angus, Brylor Ranch & Camo Cattle Co.
Reg #2271897

The 3 of us own the dam to this great young and now deceased powerful phenom called Moon Pie. So in turn at one time we too owned the bull before he sold to Rohrich Cutting Edge Red Angus of North Dakota and Cockburn for \$95,000. So we have a limited amount of owner's semen on him qualified only for CDN use (unless a USA buyer has cows at a CDN flushing center). If not for this great Junior Incentive program for the kids at the Magic Sale to use on a female we have not sold any other semen on the bull from our own personal inventory. This was our agreement before the bull sold and we have honored that fact!! Could we have sold some ? Absolutely !! The demand is certainly there as a few straws have been released in the states for up to \$4200 USD per dose! His first sons topped all bull sales they were in and a couple daughters last fall sold for \$47,000 USD and one at TOC for \$45,000. Incredible. THIS OFFERING MAY NOT HAPPEN AGAIN SO BE IN THE ACTION ONLINE ON FRIDAY NIGHT ON DLMS DECEMBER 5TH.

Looking for a show heifer or a female to build a program around, here she is! Here is the opportunity to purchase the first Cockburn Advance to sell. We purchased Advance along with Moose Creek Red Angus. Boy what a strong set of calves he has left this first year. The Advance bulls will be features in our Bull Sale March 11th.
A feature heifer calf who has been Melissa's favorite all summer went on to win **Senior Heifer Calf Champion at Ag Ex 2025**. This stout big ribbed female has that dark cherry red beautiful hair coat.
Backed by the Bonita Cow family this heifer has feature donor written all over her, as her grand mother and mother working in our donor program.

CONSIGNED BY KENRAY RANCH

Deep cherry red hair coat on this February born stunner of a heifer calf. Callie traces back to the 145Y female that was purchased out of the Gemvale dispersal in BC. We added the Prestigious sire to our herd bull battery based on the maternal merit of his dam. Linett 41Z who at age 13 was still a standout this summer when we toured the outstanding cowherd at Flying K Ranch. It is rumored that she made the short list of potential picks when Flying K sold pick of their females for \$42,500 earlier this fall. The Prestigious 199K daughters are developing into some of our absolute best replacement heifers and we have high expectations for their future production. Drop a show halter on this fancy-built heifer and have some fun next year then turn her into a herd builder for your program. She checks off a lot of boxes!!

Clean cut, ultra feminine and style to burn... Queen has the presence of royalty. Her pedigree is a who's who from Kenray Ranch blending some of the most prolific cow families within the industry. Her sire is a deep dark red breeding machine that stands on a large square dark foot with added heel. Her paternal grand dam Missey 314A is a flagship cow for our good friend Brennan at Eye Hill Stock Farms. The old Queen 53R was one of our original cows purchased from Kuntz Farms, and what a positive impact those females have had on our program over the years. We are on the edge of our seats as the first Seneca 18K daughters will enter production in 2026. It will almost be as exciting as game 7 of the World Series but hopefully with a better result.

Here's a rare opportunity to get your hands on a high-performance, powerfully constructed female with exceptional length of body, dimension, and structural correctness. She is extended through her front one-third, exhibiting tremendous sweep through her lower body. She stands on a solid foot, with natural muscle expression, and the look of a herd-bull producer. Posting 83 lbs at birth and an impressive weaning weight of 856 lbs on September 25th. She is backed by the elite Red Jensen Rock 13K whose first calf crop has already exceeded expectations. Her dam is a massive, never-miss brood cow who stamps every calf with performance and quality. We have four paternal siblings exhibiting as part of our Agribition string. 6N would be a great addition to any herd and would make a fun project for a junior.

HEIFER CALVES

CONSIGNED BY SPRINGVILLE FARMS

Here's a heifer that's been catching our eye since early this summer, sired by Red Bar MM Convoy 127K she shares his looks. She's stout and packing pounds! Out of a cow we have raised on our farm and she catches the eye of those that have toured our farm. Nice udder, feminine looks, and has a great temperament.

We are excited to be a newcomer to the Manitoba Magic Sale and excited to offer RED SPRINGVILLE PRIDE 110N. It's tough letting go of the cream of the crop, our loss, your gain!

Brown Ms Abigrace L7730 a National Spotlight Sale topper at \$15,000 USD, was one of the most beautiful 2 yr olds I have ever seen. That founding cow of this line in the Red Angus industry has direct progeny sales of well over 2 MILLION USD!! Camo picked up this pair at OTM Dispersal in June the 103H daughter of Z7989 and her stunning heifer calf in 103N were the lead off at the sale. Backed by a strong set of bulls in Abigrace's blood you have Tatic 651D was a \$120,000 bull and Pasquale was a high seller to Getalong.

The first calf to sell off the Hollinger red total out cross bull with two black parents. This sexy Red Grit female has been a standout since birth up sucking faster than Secretariat. Dark red smooth made performance driven heifer with a beautiful hair coat. Maternal brother walked the pastures at CAMO this summer. This one is very hard to part with!!

GRAND DAM - RED BRYLOR 27X BAYBERRY 4H

ECR 517N is a deep sided heifer with tons of thickness. She has been an eye catcher all summer and we are excited for her future. She had a maternal sister sell in last year's Magic Sale to Moose Creek Red Angus. Her dam consistently raises top calves every year. 517's sire came in dam through the Wraz dispersal and he has left an exciting first set of calves for us. This would be a great female for someone looking to start a cow family.

DAM - RED WRAZ ANN 16F

What a Completely Magical opportunity to be in on the ground floor of new genetics in Canada. This is the only female we got out of a flush on Ann 16F and Berwald Completely. Completely offers outcross genetics backed by impressive females. Ann 16F was one of the many feature cows in the Wraz dispersal and she has not missed a beat for us. 507N is a long made eye catcher sure to make friends sale day.

63N has been an eyecatcher all summer. She is a beautifully complete female that impresses with her overall balance and design. She combines depth, length and femininity into a very eye-appealing, functional package. Her dam is a Good Time Charlie daughter that came to us through the Red Roundup sale from W Sunrise Angus. We loved that heifer on sale day for the same reason we love her very first calf. If this is what she can do her first time round, wow is this cow going to pivot our program. Once again Stark on the bottom side is what really floats this heifer to the top, giving her that bit more muscle over her dam. All our consignments are halter broke, but this girl is truly a quiet natured, pleasant heifer to work with. Juniors take a look – here's your next project!

65N is a smaller framed package but packs a lot of punch. This heifer is boxy in style and thick across the top. This female goes back to some older breeding on the bottom side with her dam being a descendant to the original Red Angus cow herd that we started with – High Caliber Red Angus. This female comes from a very unassuming cow that has year after year knocked out solid, productive calves. We have three working females in our herd from this cow, and all are doing a bang up job. The Reckoning bull on the top side is a home raised bull that came in a dark featured Rockpoint female out of the Touch of Class sale. We absolutely love that cow and so far his females come similar phenotype to Red Rockpoint Isla 38G.

Red Fraser Momma 570N is Redboss daughter that exudes pure elegance. She checks all our boxes, the right shape, profile, top, structure, look and colour. Her Dam is an Eliminator daughter out of a black red carrier cow we bought from Haynes at the touch of class. Our Eliminator daughters have been consistently dropping beautiful udders and when combined with Red boss, the genetic potential for quality is unmatched. She is bound to make a good cow prospect for your herd.

RETAINING A 1/2 EMBRYO INTEREST AT OUR COST AND BUYERS CONVENIENCE.

This sweetheart of a heifer has been a favorite since day one. She is gentle as a kitten and loves a good scratch. She has been popular on our social media. Her dam originated from RRUP as our pick of the heifer calf line up. Pathy 261L was shown by Crue Garnier at MYBR as a yearling. Her outcross pedigree is loaded with breed greats yet offers so much freshness to the Red Angus gene pool. If you enjoy working with quiet cattle that have a traditional Angus look yet offer up some do ability then put Pathy on top of your list. We had to think long and hard about offering this heifer calf this fall as she was a carefully planned mating that we had planned upon keeping exclusive to ourselves. The last time we offered a 'purple' female of this caliber for sale we created a few waves that are still being talked about.

BRED HEIFERS

CONSIGNED BY KENRAY RANCH

A newer cow family to our herd but one that is making a positive lasting impression. Oliver has previously shown a sister to this heifer as a 4-H and Junior project. The Essence females have a mild-mannered disposition and are typically larger framed individuals. As beef producers we are selling by the pound and there appears to be fewer cattle in the countryside everywhere so the question needs to be asked, "how will fewer smaller framed cattle continue to produce enough beef to meet a growing demand for beef?" – SIZE MATTERS!! 107M is a powerhouse of a bred heifer, she is a bit larger in all dimensions yet does not give up that correct design and eye appeal. Her AI service to the up and comer KER 9M will only compliment her stature. We expect big things to happen in this female's future, get in on the excitement!

The Aster cow family is known to be highly productive and one that you want to build around. Aster is soft made, easy fleshing and structurally correct. We hold these Aster females close and very seldomly release any from our herd. People who have been fortunate enough to acquire one from us rave about their adaptability and production. Aster 56M uniquely blends two of our favorite cow families, her pedigree stacks Rosa on top of Aster to create a maternal masterpiece. When you consider her early AI service to KER 9M, our high selling bull this spring will inject the goodness of the Baroness family you are in for a genetic marvel. The exposure bull, the second high seller at the H70 Quantock bull sale combines calving ease with real world growth. A very solid made heifer that has been developed and bred for the long haul in this exciting beef industry.

AI – Red Kenray EW Midas 9M (KER 9M) – April 26, 2025

Exposed – Red H70 Quantock 406L (PMY 406L) – May 9 – June 16

Here's your chance to own a Lady Trooper granddaughter! This late March female is the complete package of potential, pedigree, and phenotype. Sired by our calving ease sire, Simplify. Her dam is a Mulberry x Lady Trooper and has earned Elite Premier Dam status in the CAA. She's a structurally sound, good-footed, heavy-milking female in our ET Program (embryos selling as Lot 43). 2E has produced several high-performing, heavy-weight bulls that have gone on to work in both Purebred and Commercial herds. Safe in calf to Lincoln, if you haven't been following Lincoln, you should be. His progeny is excelling across the Red Angus industry for calving ease, structure, and beautifully uddered females

She was the Reserve Junior Champion Yearling Female at Ag Ex 2025!

Bred April 18 to Red Mar Mac Lincoln 106H, exposed May 18-July 3 to Red Mar Mac DM Locomotion 32L
Preg tested safe to April 18 date.

A daughter of the Master himself — Mulberry. We have always been extremely impressed with Mulberry and the incredible influence he has had on the Red Angus breed.

When Nancy Howatt dispersed her herd, Meranda was our pick — and along with her bull calf, they topped the sale that day. She has since done an outstanding job here at Mar Mac.

This powerful, easy-keeping, thick heifer is backed by proven maternal genetics. With her presence, structure, and cow-making potential, she's one that deserves an extra look. A true front-pasture female who has turned heads all summer during pasture tours.

Exposed to Red Cockburn Simplify 1104 April 18 – July 15, 2025.

Preg Tested Safe to calve end of January to early February.

24M is a deep-sided, maternally driven female who combines softness of body, ideal teat and udder design, and impressive skeletal extension. She's sound at the ground with a feminine front end, and is bred with the kind of longevity our cow families are built on. Sired by Tex 4K an influential U2 Township son known for transmitting muscle shape and mass, 24M mirrors the production value of her granddam, the powerful E.T. donor Atlantica 12C. The maternal lineage traces back to the legendary Rock bull, renowned for stamping progeny with natural stoutness, and soggy made sons and daughters, with breed-leading productivity. 24M is the kind of power cow in the making; that will generate elite sons and daughters. Exciting AI service to the \$39,000 Red Ter-Ron Laredo 55L. 24M is a true future power cow prospect

AI'd May 12th to Red Ter-Ron Laredo 55L. safe to AI.

IN 2024, THE HIGH SELLING HEIFER CALF AT MANITOBA MAGIC WAS RED MAR MAC FAVORITE 16M, THIS LINCOLN DAUGHTER HAS GONE ON FOR SWAYZIE BOOTSMAN AND WAS RESERVE GRAND CHAMPION FEMALE AT THE RAPID CITY 4-H SHOW.

Here's a bred heifer that we really struggle to part with. 823M is a tanky, soft-made female that combines performance with real-world practicality. She is out of a Seneca daughter we bought from B-elle Red Angus via Red Roundup in 2022. Jeff talks highly of his Seneca females and now I see why! This was 206K's first kick at the can and wow, what an awesome job she did. This powerful female stands on structure she gets from both sides, big boned and solid footed. Her sire is our walking Wheeler Stark son, who continues to impress us with consistency in stamping out these easy doing, functional calves that rise to the top of the pen. Bred to our newest calving ease addition Maple Lake Respect – there's something special coming in this heifer in February! To boot this heifer is show broke and strides in the ring with presence.

Exposure – Mar. 26th – June 2nd Red Maple Lake Respect 4061

41 *Pick of*

Karli Kattle Co. Pick of the Herd

LMP 408C

LMP 501G

WRAZ 199E

WRAZ 43A

Selling the pick of any female in the entire Karli Kattle Co program - Choice needs to be made before calving begins again in 2026 Approximately Feb 20th, 2026

This pick Lot will consist of any female born between the current 2025 born "N" heifer calves all the way through the bred heifers "M's" to the oldest cow on the place an "A" cow

Nothing held back - Nothing hidden out behind the barn when you come to select your choice of this fantastic cow herd!! Karli and her father Murray Crawford will assist you in your selection process with all the necessary information you require to make an informed decision. They will be more than willing to ensure the fact that you are extremely happy with your selection to add a female to your herd from them.

Karli's main herd began with a purchase of 20 females from the incredible Wraz Final Chapter Dispersal in 2022. She then stepped out in a huge way when the opportunity arose to buy the majority of the winter calving Red Angus cowherd from the Brylor Ranch in Alberta. (This purchase was for roughly 80 head of females) This past spring Karli hosted their first formal bull sale on the ranch, and it was an awesome day averaging over \$9000 on their first attempt!! Plans are to continue this format of selling bulls off the ranch in a private / silent auction method until Karli completes her education dreams in Saskatoon. Further plans for this spring's bull sale is to include some pens of commercial Red Angus heifer calves.

The Karli cowherd is sound and youthful and right with an extensive AI program happening and an amazing herd bull battery already assembled for cleanup.

AI sires used the last couple years include Copenhagen 9K, Berwald Completely 2056, Mulberry 26P, Crimson Jewels 102U, Poker Face 613D, and Wraz Sniper (a \$17,000 Assassin son)

Herd bulls for cleanup are Jacobson Mechanic 1035, a 15,000 USD ET bull from Minnesota that's packed full of red meat!

Game Boy 30J, a \$30,000 son of Howe Head Games 56G and a Franchise 6305 Daughter from the Crowfoot Blackbird cow family.

Respect 11K, an ET son of MRLA Respect 42G and the Reba 49D cow at Brylor and On The Mark. He was on display at RRUP 50 in 2022 in the same pen when Jeff chose the Copenhagen and South Point bulls that year.

A South Point 3K son that was Karli and Murray's pick from Fraser's 2025 Bull Sale this spring for use on the "M" heifers.

The reason for this pick lot is simple - Karli wished to support the Magic sale with a consignment of some sort, but a live lot was not in the cards with her being in Saskatoon full time for her education.

Some famous Red Angus cow families can be found at Karli Kattle Co. in Rocanville, Sask such as Lady Trooper, Essence, Reba, Olivia, Lakme, Nikita, Vidalia, and Kuruba.

This is a very exciting choice lot from a very ambitious young lady that is extremely passionate about this breed of cattle and her future involvement in its success moving forward!!

Plan on being in Brandon on Dec 6th to take a run at this amazing chance to tap into this beautiful young cowherd.

CONSIGNED BY KARLI KATTLE CO.

CONSIGNED BY BRYLOR RANCH

By now I'm positive that most Red Angus breeders in Canada and the USA are well aware that Brylor Ranch is not big on brushing a live one at these consignment sales!! I'm also certain that they are familiar with our amazing old Flush cow Vidalia 24Y. She has had an awesome career in the frozen section of all the sales we consign to and usually highlighting her production with a package or two from her. She has been collected now over the years a time or two as Adam and Cathy at DRI put it!! Just recently an ET daughter of hers was the 2nd lot in the ring at the Reno Bet on Red Sale and commanded 16,000 USD for the Cox family of Washington. Also of note is the fact that there is a full ET brother born this past spring to these embryo's that is an absolute stud that will be used in our operation in 2026 breeding season.

CONSIGNED BY MAR MAC FARMS AND BRYLOR RANCH

This is quite the "waiting to become legendary" mating here folks! One of the HOTTEST bulls going right now is the \$95,000 Moon Pie bull that Rohrich and Cockburn bought and have done remarkably well with. Each sold a daughter last fall at \$47,000 USD and \$45,000 CDN. Moon Pie progeny also topped their bull sales. Moon Pie is now deceased, that only increased his popularity, his semen sold for \$4200 USD/unit at a sale in OKC last January!! The grand-dam Lady Trooper 114Z was the RRUP high selling lot back in 2013 at 16,000 to Brylor. She also went on to win the Show Female of the year that fall. Brylor flushed her to Mulberry and produced the heifer calf 2E which then sold to Mar Mac and Dale McKay at the Mulberry Mayhem Sale. 2E is an unreal cow in person and so is her production record. Her first bull calf went to Lauron at \$20,000. Her daughter sells as lot 32. This will be the only package to sell in Canada by this mating.

EMBRYO SIRE - MOON PIE 680K

It's not a secret anymore that the Reba 49D cow is a herd bull producing machine!! She is the fabulous dam to 9 current bulls being used in herds all over Canada and the US. Some of her kids are: Franchise 149F - \$27,000 to Wraz and now at Turtle River Reds, Red Resource 66H - \$19,000 to Camo, Mulberry 21K to Karli at \$31,000, Mulberry 13K to Dykshoorn at \$16,000. And another son, Copenhagen 9K at \$26,000 to Frasers. 9K is a full ET sibling to these embryos! Anyone recall the 30 plus daughters of Copenhagen 3Y that sold for an unreal average of \$14,000 in the U2 Dispersal? I sure do!! That was an amazing sire group The only package of embryos by this mating to be let go of in this country.

This cow is a beautiful Ghost rider daughter. In fact, I do believe that if Phil would have shown this cow's picture to the cab driver in Saskatoon that night so many years ago that he very likely would have purchased some Ghost rider semen from Wraz! 140E was the high selling cow in the 2022 Wraz Dispersal Sale at \$16,000 to the IFFG syndicate. Her daughter 97G sold for \$16,000 as well and her granddaughter went to Camo at \$16,250. Not all bad for a trio of Kuruba's (one of the original families of Red Angus back in the late 60's and 70's. The first of the Completely sons to sell in Canada will be this spring and after seeing a bunch of them this summer it will be worth the wait. the very first of them sold this spring at Berwald's and were very well received

Here is a great frozen lot of eggs from Wraz on one of the greatest mulberry cows there ever was! 27X was born in 2010 and had a great career at both Brylor and at Wraz and then was sold to Scott's at Eastend. Her beautiful 2 yr old daughter was the lead off female in the Wraz Dispersal in 2022 to Matt Wushke. Brylor also has a great daughter in their herd (11G). The Bayberry family has been highly recognized wherever they have landed! Two of the heavyweights of the breed were used here on her flushes in New Trend and Copenhagen. Put these embryos in your best recipis and hope for some females as they will be top shelf!!

EMBRYO SIRE - NEW TREND 22D

After Phil's Historic Dispersal sale was completed in 2022 at Whitewood auction market he had one beautiful old Donor cow left that he elected to not put in the sale due to her age.

This older female was such a big part of his herd's success that Phil flushed her a few more times just to keep her genetic valuability alive and present the opportunity to share her with other Red Angus breeder's. She started her career as a feature bred heifer in the 2011 Mb Magic sale at \$6500 to Brylor and then traded later to Wraz at \$10,000 in a TWAV sale.

30X was a very good daughter of the old cherished female making legend called New Trend 22Dborn and bred by Doc Hamilton at Hamco. She had several progeny that highlighted the Wraz final sale.

Her most noted son was an assassin sired bull to Murray Crawford called Red Wraz Sniper at a \$17,000 value.

The choices for the sires used on her flushes were all all-star quality bulls!!

I'm going to describe the job this young outcross sire to Canada is accomplishing in his first year of work with the words of a very popular country song by an unusual artist named Shaboozey, OH MY Good Lord!! That is the reaction people are having as they are experiencing his calves in real time. They are very easy calving and have a great muscle pattern and shape to them as well. I do believe that he is the real deal and will be very much appreciated moving forward. I'm going to include a picture of his dam - the Stony Cow 001 and a picture of his first daughter to sell at \$20,000 USD last fall. The last two years we have had a "Completely" online event in the spring this year that won't happen so take advantage of this offering here today.

There are two reasons why a breeder circles back and uses an older more proven bull such as this grand old man in Final Deal.
One : For his daughters because you love the job that they are doing for you
Two : For his Daughters!!
This bull can offer you calving ease as well as his great outcross pedigree thru SAV Final Answer.

We wanted to share a couple old bulls that Phil and Brylor own together and old Assassin is one of them.
You never quite know when spending big dollars on a bull is the right thing to do or not..... UNTIL you know!! This bull was quite the investment at \$77,500 that day in March in Moose Jaw. He was certainly paid for in semen packs on the way home that night I'll admit now but you still don't know how he'll breed moving forward until about 5 yrs later when you decide if you like his daughters or not!!
I'll just say this about the bull - I Like his females he has left behind A LOT! He did his job very well.

Here is a very unicorn -like "Purple" bull (black/Red carrier if you will) that does so much more than just being an outcross option!! This awesome young sire was first a \$20,000 selection by Jeff and family in the 50th RRUP sale in 2022. He is an ET son of the only Black bull in History to win both Agribition AND Denver in the same show season!! His dam Reba 49W is well known in the industry as being the ONLY red cow to have a theme-based sale entirely about her!! It was called the Reba "Fancy Gathering" event a few yrs back. One of his first daughters last fall captured the hearts of a lot of cattlemen at the Magic sale at 8750 to Camo. One of his first sons to sell this spring brought an even 10 privately at Karli's first bull sale. This sire has unmatched calving ease in relation to the amount of explosive growth his progeny display. One of the best features I have personally noticed about his calves are their appetites when presented with feed. He himself had an extraordinary feed bunk appetite when he was being prepared for RRUP as a calf to be on display that fall in Olds. He was consistently last at the feeder licking it clean. If you don't think that is a relevant trait that's okay but I'm willing to bet that a feedlot guy buying 6 wt. calves this fall at 6 and a half bucks sure as hell does!!!

BWT of 73 lbs Actual WWT on August 30th of 2022 was 835 lbs SC at 1 year was 39.5 cm

I've stated before that this bull was one of the 3 best young bulls I saw sell that season as a yearling in the entire country. After now witnessing how he is breeding I'm going to amend that statement to assess him up into the top 2!! In Copenhagen 9K's first calf crop -His first two sons to sell at two different bull sales both topped the events!! one at \$15,500 at Fraser's sale and one at \$14,000 at Karli's sale. A daughter of his bred by Duralta was shown successfully at Olds recently too. 9K does our breed a lot of good especially in the foot dept. He is also very heifer friendly and has a great disposition as well. With a pedigree like this behind him (Minburn Copenhagen 3Y x Reba 49D) you just know his daughters are going to be "Real and Spectacular" (to quote an episode of Seinfeld!) Due to Copenhagen not producing anymore freezable semen, and his owners cherishment of his genetics, availability of him on the open market is going to be drastically limited in the future. We are offering 3 packs of ten straws for this sale in Manitoba. It will be the only opportunity on him for the upcoming breeding season in Canada. See lot 44 for a pkg of full sib embryos to this powerful breed impacting young sire.
