EMBRYO GUARANTEES

Guaranteeing 90 day pregnancies if done by an accredited veterinarian within one year of the sale date

2-3 EMBRYOS

Guaranteeing 1 pregnancy

4-5 EMBRYOS

Guaranteeing 2 pregnancies

SHIPPING

All transfer of embryos/semen/ and paperwork is between the buyer and seller! Shipping costs of embryos/semen is the responsibility of the buyer. Please contact any of the sales staff about shipment details of USA lots into Canada.

FLUSH LOTS

All flush lots that sell will be a guarantee of 6 embryos with an open top and have the buyer paying for the expenses of the flush plus semen, unless otherwise stated on a specific lot. If stated differently on a specific lot in the catalogue or announced differently during the auction or presented differently on the DLMS Racehorse, that will take precedence for the correct information on how it will be offered.

SEXED FEMALE EMBRYOS

These embryos have been sexed for females, 90-95% accurate.

Welcome FROM BOHRSON MARKETING SERVICES

Welcome to this year's edition of the New Years Resolution Sale. We are extremely proud and humbled by this set of live and frozen genetics and are grateful to everyone that gets behind this sale to offer some of the real untouchable opportunities their programs have to offer. The amount of success stories that have been past purchases through this very sale is staggering and impressive and we confidently say we are going to see the most depth in quality through this sale as ever before. The frozen genetics, picks and live cattle are as good as it gets. Embryos backed by some of the real leading donor cows in the breed of each respective breed are well represented with matings by some of the real exclusive bulls. The semen portion in many cases is the only chance you can get to acquire it and is highlight by some of this past spring high sellers and sought after bulls. The pick of the herds up for grabs in this years NYR is the backbone to the whole sale and is anchored by not only breed leaders, but industry influencers. The live portion features the reigning, defending Champion Simmental bull at Canadian Western Agribition and is only made available for a special occasion like NYR. Please make plans to join us in Calgary, AB for a special evening of hospitality and livestock fellowship. We are very excited to ring in the new year with you. If the calving barn or any prior commitments keep you from joining us live or online, don't hesitate to give us a shout as we would be happy to help out where we can.

See you in Calgary - Go Oilers!

Best Regards,
Bohrson Marketing Services

TERMS & CONDITIONS

All lots will sell under the standard terms and conditions put forward by their Canadian breed association. These are available upon request.

US EXCHANGE

U.S. Money will be accepted at the current rate of exchange sale day and will be announced prior to the sale.

CATALOGUE

Catalogue design by Compass Creative & Bohrsen Marketing. The information in this catalogue has been supplied by the seller and we believe it to be accurate. Updated supplement sheets and announcements from the block will take precedence over any incorrect printed material.

ONLINE VIEWING & BIDDING

The New Year's Resolution Sale will be available for viewing and bidding through DLMS Farmgate with a timed Racehorse Style Timed Sale at www.farmgatetimedauctions.ca. If you are new to the program make sure to create an account prior to sale day. For assistance with DLMS, contact Mark Shologan at 780-699-5082

50K

50K FOR THE UTURE

A panel of 5 judges have scored 50+ applicants that submitted essays in the first round of the For the Future program. The topic was 'Write a letter to your younger self about the importance of agriculture and what it has taught you?'. The quality of essays that were received were amazing and the finalists' essays will be found in the 2026 Spring Edition of Buyers Agenda.

Thank you **TO ALL THAT SUBMITTED ESSAYS!**

The second part of the 50K program will be an in-person interview with our 5 judges to determine the final breakdown of the winners which will be presented during dinner the evening of the New Year's Resolution Sale. The panel of the 2025 Judges are: **DEBBIE SNIDER, KIRSTIN VOICE, KIRSTEN FORNWALD, RACHEL RICHARDS AND REBECCA BOHRSON**

The **50K FOR THE FUTURE PROGRAM** will award

\$50,000

in youth funding and prizes to **8** lucky cattle enthusiasts between the ages of 15 - 25.

When starting this program we really put a lot of thought into making the funding available to as many youth in Agriculture as possible. **WE WANTED THE SAME OPPORTUNITY FOR THOSE PURSUING SECONDARY EDUCATION, TO THOSE PURSUING THEIR OWN BREEDING PROGRAMS AT HOME** and that is how these 2 categories developed:

4th Place - \$2,500 Sale Credit

Sale Credit to be used at the following 2025/2026 sales:
New Year's Resolution & March Madness.

THE ALTA GENETICS SCHOLARSHIP TOP 4 FINALISTS

RAYELL HAUSTEIN Erskine, AB

I grew up on a mixed operation near Erskine. Growing up I was surrounded by a commercial beef herd, a dairy herd, and crops. I took a liking especially to the beef industry, and while I didn't grow up with purebred cattle I found an appreciation for them and desire to be a part of that side of the beef industry in some way. I am currently a third year student in a Bachelor of Biological Sciences and in May I start the DVM program at St. Matthew's University. My goal is to practice as a large animal practitioner, further specializing in advanced reproduction upon obtaining my DVM license. I look forward to working alongside fellow cattle producers in all aspects, especially those looking to achieve their genetic dream herd through ET and IVF services.

JACK RAYMOND Waterford, NB

My name is Jack Raymond, and first off I'd like to thank the sponsors of this scholarship and the team at Bohrsen's for the great work they do! I was born and raised on my family's cow calf operation in Waterford, NB, where we raise polled Hereford cattle. Agriculture has been my base for success, and it has always been a big part of my life. Beef genetics were a big part of what inspired me to enroll in a Bachelor of Science in Biology at the University of New Brunswick.

INDY FOWLER Bashaw, AB

Hi! My name is Indy Fowler, I'm in my last year of high school, and I will be attending the University of Saskatchewan next year, where I will earn a degree in Ag Business. I live in Bashaw, Alberta, where my family owns and operates Prairie Cove Charolais. I can't wait to continue my career in agriculture. Thank you to Bohrsen Marketing for the opportunity!

KASEY ADAMS Forestburg, AB

Hello! My name is Kasey Adams, and I am currently attending Red Deer Polytechnic for a Bachelor of Kinesiology Degree. I grew up just outside of Forestburg, Alberta and I am a 4th generation farmer at Ter-Ron Farms. Ter-Ron Farms is a purebred red and black Angus herd, where we operate around 230 head. I would like to thank Bohrsen Marketing Services and Sponsors for providing this scholarship opportunity!

THE DAVIS-RAIRDAN BUILD YOUR HERD TOP 4 FINALISTS

KEELY ADAMS Forestburg, AB

Hi! My name is Keely Adams, and I was raised on a fourth-generation purebred Red and Black Angus cattle operation, Ter-Ron Farms. I am currently finishing my final year in the Doctor of Pharmacy program at the University of Alberta. Alongside my studies, I'm also focusing on growing my own small cattle herd at home, and I'm extremely excited and grateful to Bohrsen Marketing Services for helping me continue to advance my herd with this program!

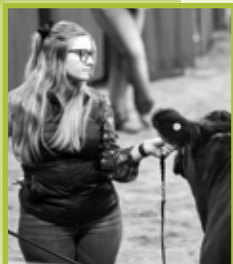

GARREN SKEELS Rimbey, AB

Me and my fiancé Trinity Martin help operate our family farm of Anchor D Ranch Simmental, where we have over 50 head of registered Simmental females. I have participated in many Jr programs throughout the years including being on both the National YCS board and the Alberta YCS board, where I was vice president the past two years. I have also followed in my father's footsteps heading into the Auction side of the industry where I now work ring at over 20 cattle sales throughout the year. I am very thankful for this opportunity from the Bohrsen family!

CLARA BLATZ Priddis, AB

My name is Clara Blatz, and I am in my third year of a Bachelor of Communications degree with a major in Public Relations at Mount Royal University. I grew up on a small commercial cattle operation in Priddis, Alberta, where my family's herd is mainly utilized for show stock. I am growing my own herd and remain active in my local 4-H club as a mentor. I would like to thank the Bohrsen crew and sponsors for this incredible opportunity and for their continued commitment to youth in agriculture.

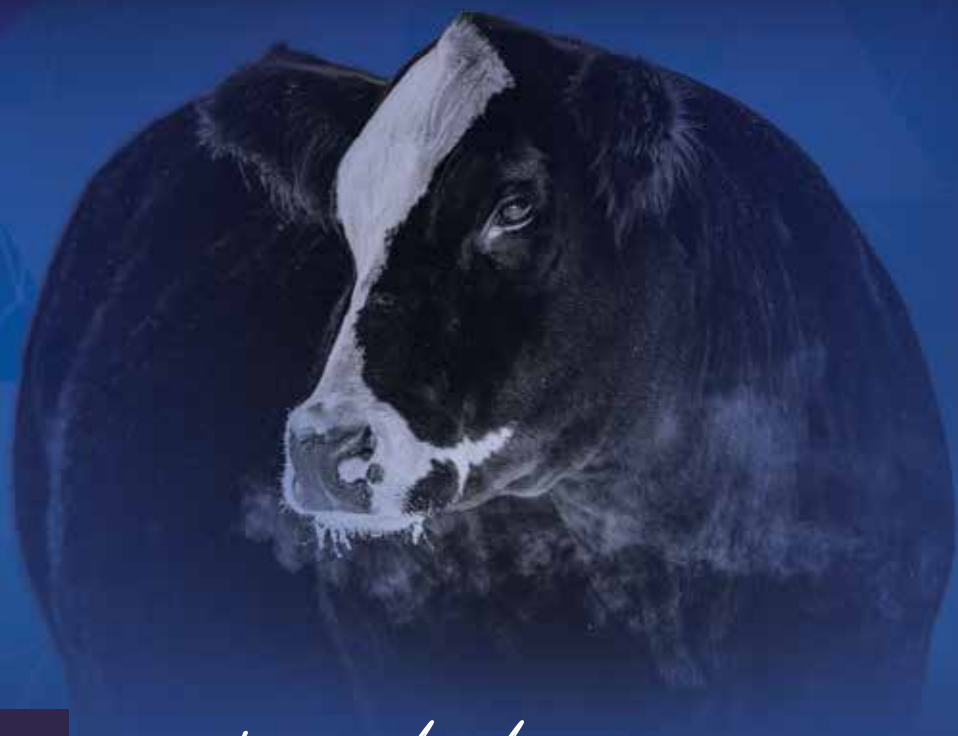

BOBBI-JO FOSTER Rosburn, MB

My name is Bobbi-Jo Foster and I am from Rosburn, Manitoba. I own and operate New Beginnings Black Angus alongside my fiancé Cody Carson. We also are very actively involved in his family's operation, Northern Light Simmentals. Thank you to the Bohrsen Crew and all the sponsors involved in this incredible opportunity!

ONLINE WITH DLMS FARM GATE TIMED AUCTIONS

Sale Starts

DECEMBER 29 9:00AM MST

Sale Closes

DECEMBER 31 7:00PM MST

Timed Auctions Made Easy

How to Bid

OPTION 1 - Utilize the BMS industry-leading order buying services.

Contact a Bohrsen Marketing member and we will bid for you in a professional and confidential manner.

OPTION 2 - Bid online with www.DLMS.ca

FIRST TIME FARMGATE USERS:

- First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)
- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.
- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favourite lots.

HOW TO BID IN A TIMED AUCTION

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- **Place Next Bid** – to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.

- **Max Bid Amount** – to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

WATCH LIST FEATURE

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

WHAT IS RACEHORSE STYLE CLOSE?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORKS? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

BIDDING CLOSE & FOLLOW-UP

After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

PICK OF THE 2026 BORN SIMMENTAL AND SIMANGUS HEIFER CALVES

Rancier Farms :: Killam, AB :: 780-385-5313

Pick to be made by **September 1, 2026**
Calves solely owned by Rancier Farms qualify

Never before have we offered an opportunity to select any heifer calf in our calf crop with nothing being "untouchable". 2026 marks 25 years since we started in the Simmental breed and our goal has always been the same; build the best cow herd we can around superior cow families with a focus on beautiful uddered, good footed, easy doing cows that have the ability to produce soggy bulls with performance. These cows are responsible for numerous Friday Night Lights high sellers, bulls that have had an impact on the breed, heifer

calves that have consistently won division banners and bred and cows that have won shows and supremes for over 2 decades. We've never bred one for the show ring but showed the ones that are bred to be bull producing cows. We are excited to work with the lucky bidder to sort through some of the newest and most exciting genetic opportunities we've ever had born. Give us a call to discuss the matings and opportunities that will be available. This is an exclusive opportunity and we have confidence that we can help you find a future donor to help you reach your goals.

GRANDDAM OF PLATINUM

MAF Noremec 14F
DAM OF PLATINUM

DK Land & Cattle :: Lampman, SK :: 306-487-7514

BUILT FOR THE SPOTLIGHT

Not every day do you get the chance to acquire the newly crowned Canadian Western Agribition Grand Champion Simmental Bull and a CN Supreme Top Ten Finalist. When the Bohrsen team approached us, it was immediately clear that this was a perfect fit for a special sale. Platinum is a bull built for the spotlight and destined to elevate any program fortunate enough to use him.

From a young age, we had high expectations for Platinum with his outstanding structure, balance, and eye-catching phenotype. He has always been a bull with the right pieces: exceptional foot quality, genuine muscle, and strong breed character. He has developed into the powerful, fluid-moving, dark red herdsire we envisioned from the start. For his mass, he gets out and travels with remarkable freedom, flexibility, and confidence — the kind of movement cattlemen appreciate and notice instantly.

This Rancher son carries forward all the attributes that made his sire so influential, and those strengths continue to shine through consistently in his progeny. Platinum's dam stems from a long line of proven donor females of the Noremac cow family back to the original 16M cow and is a donor dam herself. 14F has been a consistent producer year after year, we have a nice set of embryo calves in the replacement pen and another bull calf in the bull pen. His granddam was one of our all-time favourite donors — broody, tanky, and perfect-uddered — the kind you build cow families around and equally important, buy your bulls from. Platinum represents a truly unique opportunity: a bull that brings power, presence, colour, structural integrity, maternal strength, and pedigree-backed consistency together in one package. We are incredibly proud to offer him in NYR! DK Land & Cattle retains the right to in-herd semen use.

Brooking Emmy 3101 has exceeded all expectations in her first year of production and we are excited to offer a flush on this exceptional female. Emmy's story maybe just beginning, but it has been a wild ride the last twelve months! Her production on a pair of full sibs that are about to highlight Friday Night Lights are proof of what this young female can do. Westbrook Emmy 36N & DK Tactical 9N, both sired by Rancher and the only two of that mating born in 2025 have been commanding attention everywhere they go, with multiple all-breed show wins, division and champion banners. 3101 has matured into a powerhouse with an exceptional udder, foot quality with incredible depth and rib shape. An opportunity like this doesn't come around everyday...don't miss out on having your chapter in this legendary story. The flush will take place no later than May 10th, 2026 and guaranteeing 6 embryos.

One of the most proven and productive Black Blaze donors in recent memories is the great Scream 974G. Mother to the \$100,000 RF Intensity and \$70,000 RF Intense her bulls as well as recently dam to the 2025 FarmFair Supreme female Scream 3121. 974G is a real world female with an abundance of mass and power with a real attractive look. Her udder quality is second to none and she annually transmits her centre body shape and sound structure. Her undefeated division daughter Scream 5117 is an FNL highlight for 2025 and is a perfect representation of her breeding ability. She has an exciting array of different breed leader both Simmental and Angus available. Tokyo Rose is an exciting calving ease option with explosive growth backed by the Molly Dooker cow family. KWA Holyfield 96J is most famously the sire of Tangleflags and adds frame and stature with impeccable feet. SVS Tycoon 841F is a red breed legend that certainly needs no introduction and is still as exciting now as ever before. Five Star Shooter M29 is a unique, outcross, red calving ease option that has added size and dimension. Sexed Female by the \$210,000 Tangleflags is exclusive and very exciting and a mating we feel has a tonne of upswing. Brooking TW 4022, the \$270,000 phenom is a sight to behold and is the best we feel we can do to incorporate the greatest Angus genetics into the Simmental breed.

LOT 8C 5 IVF embryos | Black Gold Tangleflags 31L x KDP Miss Hoya Hayleigh

Once again we are offering direct embryos off the great Hoya Hayleigh donor. We can't really put into words what Hayleigh has done for our program. Not only is she approaching \$1 Million in direct progeny sales, but the daughters we have retained in our herd are amongst our very best and multiple of them have turned into donors themselves. For 2025 we decided to offer three new and exciting matings to some of the most elite red bulls available. The \$210 000 Tangleflags (a $\frac{3}{4}$ sister to these embryos was our high selling heifer calf in the Evolution), the \$170 000 new and exciting Legacy, and the tried and proven maternal maker SVS Betts. We feel these eggs have as much excitement as any Hayleigh matings we have sold.

LOT 9 3 IVF embryos | Black Gold Tangleflags 31L x KT Hayleigh 4137

KT Hayleigh 4137M was our selection from an exceptional group of heifers offered in the KT Ranches Female Production Sale. She is a big, stout, deep-bodied female, while still maintaining the femininity and front-end refinement we look for. KT Ranches took her on the show road where she won her class at Farmfair and Agribition. Her dam, Black Gold MS Hayleigh 220K, captured a lot of attention throughout the 2022 fall show season. Hayleigh 220K combines show-ring success with proven maternal performance. Her production record includes five consistent, high-quality heifer calves averaging \$24,000 in the KT Ranches Production Sale, including Hayleigh 4137M, as well as several strong bull calves for KT Ranches. Hayleigh 4137M's sire, RF Caliber 014G, continues to make a big impact both in and out of the show ring. After viewing Black Gold Tangle Flags in person, we knew his genetics would be an exceptional addition to our program. We are excited to share embryos of this mating with the industry.

LOT 10B 3 or 5 embryos | KWA Holyfield 96J x RF Sheila 023H

LOT 10C 3 or 5 embryos | RF Lit Up 357 x RF Sheila 023H

Sheila is hands down the most valuable and potent donor in our entire lineup. She sets the bar high with any mating she is lined up with. She's the type to raise you standouts sons in the bullpen and will leave you an extremely nice set of replacement heifers. She's a cow that really ticks all the boxes off when it comes to production. The last 2 years her son and daughter have led off the whole sale at Friday Night Lights and were high sellers. Her last 10 sons that have sold in auction have averaged 38,500! I think you can't go wrong with any of these matings here. The El Dorado mating is a no brainer in my opinion as he was one of the better red bulls I've seen to date. The Holyfield matchup is very exciting to say the least as it has potential to make a big time red, hetero black or homo black calf, and would be paternal sibs to Black Gold Tangleflags. The Lit Up cross might be some of the very best halfblood genetics on the market right now as lit up semen was very hard to get ahold of last year, ROI on this mating is bound to come quick. Some big time matings on offer from a big time donor!

A member of the historic Caliber x Emmy G930 flush that averaged \$57,000 at FNL in 2023 and our pick was the impressive 574L! Emmy 574 is as soft made as you could make one while remaining square and level throughout her entire skeleton. She casts an elegant silhouette with an udder that is hard to make any better. Her mating to the great blaze No Limits 1112J is exciting as her progeny of either sex are very high quality and always in high demand as they are very practical and functional with elite look. RFS Heavy Hitter is an outcross baldy option whose progeny have extra muscle expression and base width. MRL Cool Hand Luke 113M is the red Simmental bull we are extremely fired up about backed by the #1 income cow family at the powerful McMillen Ranching operation. We appreciate 574L in all aspects from phenotype to pedigree and feel these matings all will be very complimentary.

Good quality cattle that are built like 2655 with flawless udder quality, angularity, rib shape, good feet and proven production are the profitable kind no matter what colour they are painted. Norm wisely selected 2655 the year we sold her mother for a \$220,000 evaluation and he flushed her as a virgin heifer. Her first set of embryos was purchased by Grass Roots where they went 3/3 and got an exceptional trio of daughters, one of which that was campaigned successfully and will be a true feature at FNL 2025. Emmy 2655 has the pedigree and the build and the already proven production capabilities to make a great impact. Mated to the reigning 2025 Agribition Champion Percentage Bull, Lionheart, we think will be an incredible combination. His pedigree and his sheer volume and power will be a welcoming addition to this beautiful female.

- LOT 19E** 5 IVF sexed female embryos | Black Gold Tangleflags 31L x BRAMLETS/DBLG Emmy G930

This could be the coolest thing we have ever offered on behalf of Canadian Donors and we just know the built in profitability for the successful buyers is endless. One of the best acquisitions we ever made was the day we secured Emmy G930! We sold 1/2 interest in Emmy in 2023 for \$110,000, just months before we sold a big time flush of her daughters at FNL where 5 of them topped at \$115,000 and averaged \$57,000!! She has since settled into the role of donor grand dam already as many of her daughters have entered donor settings for their new homes. She is a cow that never takes a day off from looking the part and is one we confidently believe can be mated to any bull. As you can see here with the 5 different options to choose from on embryos. This female is so diverse we truly threw everything at her from industry leading Angus bulls and performance red Simmental bulls. Take your pick. Literally throw a dart and whichever ones you end up with we can confidently say it will result in something to be proud of. We think each of these bulls offers something a little different to cross with the phenotypically stunning Emmy. We really believe in all the bulls we chose to mate her to and expect great things no matter the direction you choose. Natural Law is a household name in the Angus breed and has truly done it all from raising high selling progeny to pinnacle show career progeny. Dignity is a bull we think could cross incredible with Emmy as this Angus stud has raised many sale toppers and show ring winners. The \$210,000 Tangleflags continues to grab gears as he is overwhelming to analyze and his progeny are gauged to make a big impact come the spring of 2026.

LOT 21C 3 IVF embryos | MRC Supremacy 260B x Westbrook Princess 5K

Princess 5K has quickly risen to the top of our young donors. She has made the adjustment to successful show heifer to production cow very easily. She dropped a gorgeous udder with square level teats and has maintained her large rib shape, depth and power with a long attractive front end. We love this young cow and believe we have some exciting matings here to perfectly compliment her. LFE Cabaret 847J is an exciting herd bull that is exclusive and has bred on extremely well. His added mass and shear power is recognized across all his progeny and his sons look like men and his daughters look like females. Cool Hand Luke is an incredible footed, dark red, hairy herd bull out of the 4440B donor at MRL and we feel CHL will play a pivotal role in the industry going forward. Supremacy's offspring in both bull and female sales have been successful with one of his most notable being Crossroad Frankie 68F. Buy with confidence here knowing the calves will be extremely powerful and honest cattle that will make it into production regardless of the offspring gender.

Carrying the name of her grand-mother, X-T Red Utopia 60U, this daughter of the powerful CDI Trustee 387F has been on a roll! Keystone Black Utopia 81M went undefeated in eastern Canada and came away with National Jr Yearling Champion and Toronto Royal Jr Yearling Champion Female titles. Her power, width of base, beautiful rib, sound structure and overall presence made her a favorite to be around! More than any female we have had, there have been many astute and respected cattle people admire and comment on her potential to be a valuable breeding piece! The maternal side is proven and fertile, with her dam being a favorite of all who view her with a recent flush bringing \$22,000 to Ranch Covey Hill. Quite simply, we want to continue the legacy of her family with Keystone Black Utopia 81M. We have always been drawn to progeny of ES Right Time FA110-4 and feel that with his different twist in pedigree, balanced number profile, and his ability to produce power with eye appeal and marketability. Bred to be different and developed to impress, we are confident in the potential of this outcross mating!

LOT 25A 3 embryos | Ultra/Barlee Lethal Weapon 63L x MRL Miss Agent 1424J

LOT 25B 3 embryos | Ultra/Barlee Lethal Weapon 63L x MRL Miss Agent 1424J

Here is an opportunity to acquire some embryos from one of our top producing Blaze faced donors! A high selling female from the prominent MRL outfit. She has put two bulls through our sale that lead off they're contemporary groups and TC 12M a female that lead off our black females in our 35th anniversary female sale this past summer selling to my good friends at S4 Ranch. These embryos are sired by the \$120,000 Lethal Weapon, a Sage x Rancher combination that is quickly making a name for himself! Two time Simmental breed champion at Olds Fall Classic and Farmfair International. Sure the success in the show ring is great, but where we feel his greatest success has been in the progeny. Lethal Weapon sired bulls will lead the charge in our 2026 Bull Sale with absolute standout sons! His daughters are gorgeous, we kept every single one of them and don't plan to let any go! Dive in on this neat mating and get some Baldie Weapons of your own!

LOT 26B 3 IVF embryos | OMF Journeyman J24 x RUST Linda 9563G

LOT 26C 3 IVF embryos | C-D Lionheart 3746 x RUST Linda 9563G

A big time Structure daughter that does so much right. Linda is stunning from every angle completed with a gorgeous udder, strong feet and great look. She is the donor dam to the popular half blood females, C-D Linda 4200, 4259, 4262 and 4229 that highlight the 2025 MotherLode Sale. They have been admired by many astute cattle folks for their real world characteristics and overall added quality. Her mating to WHF/JS/CCS Woodford 001 is one we like a bunch and feel will leave a very exciting set of progeny that can be shown if that's the angle your gunning for, but ultimately will make highly marketable cattle. C-D Lionheart 3746 is a bull we are very proud of and he was recently awarded the Champion Percentage Simmental bull at CWA '25 and we feel he brings loads of quality to the table.

LOT 27 4 IVF embryos | ES Right Time FA 110-4 x C-D Linda 1416

1416 is a very unique female. To stand back and analyze her, you love her added length of body without sacrificing depth and shape. She is sound structured and fluent traveling with an erect, up headed look while being easy to handle. She is a special daughter of our beloved 9563 donor and has matured into a near image of her from a maternal characteristics standpoint. Mated with ES Right Time FA 110-4, a special individual with added look and dimension while offering calving ease, we feel will be a genetic explosion and one you will hear more from going forward.

Embryos are qualified for CAN

LOT 28 3 embryos | SVS Betts 808F x NGDB Cream Soda 344J

Where do we start with NGDB 344J. Bought from FNL in 2021 alongside her flush sisters, 344J has become a cornerstone female in production for us ever since. She has grown into an extremely deep bodied and powerful female with a beautiful udder. The best way to describe her is she combines beauty with beast. Being sired out of the female-making RF Capacity 742E and the outcross HPF Cream Soda 248D, she has only exceeded out expectations. Her first year in production saw her daughters bring \$37500 and \$17000 out of the same sale ring she came through. The next year another daughter sold for \$15000. She is stamping her daughters with the same femininity, power, and performance she possesses. Having sold the bulls off her privately, they have gone to carry her same front pasture-kind and presence. This mating to SVS Betts 808F is an exciting one. We have a full sib coming into production shortly that we are looking forward to building off of. Combining 344J's power with Betts' stoutness and muscle, these embryos will be sure to get a quick ROI. We have only sold a limited number of embryos from 344J, so when the opportunity arises to invest in this female, it's one you don't want to miss.

LOT 31C 3 or 5 embryos | Harvie JDF Wallbanger 111X x Miss R Plus 5345C

R Plus 5345C was a clear standout when we toured the R Plus herd. Phenotypically, she is beautifully fronted and carries a flawless udder even at eight years old. Her R Plus 5015C matings are full siblings to the \$48,000 high-selling heifer calf from the dispersal, and we used the same combination to produce our 2025 high-selling bull calf. We now have 14 direct daughters in the herd, all of them impressive, and we're excited to see them enter production this spring. We'll have full siblings to all of these combinations and are confident they will rise to the forefront of any program. Additional exciting matings with this elite cow include RF Capacity 742E and Harvie JDF Wallbanger 111X—both influential bulls within the Simmental breed.

Embryos are qualified for CAN & USA

LOT 32 3 or 5 sexed female embryos | RF Caliber 014G x Muirheads 5439 Crocus 125G

Homozygous Polled. The best bleeping cow ever to grace the pastures north east of Shellbrook SK at Muirhead Cattle Co. If you ever venture up in that northern SK ranch country, you need to go for a tour at Muirheads as I guarantee it will be interesting, informative, and absolutely entertaining. You will find some of the best looking, no nonsense, practical, functional cows and with more style than you might expect from captain camouflage. 125G is a special cow and one that has been about impossible to pry anything out of Justin's hands on, but here we are with the first opportunity! This Capacity daughter is simply incredible - tanky, beautiful headed, perfect feet, great udder - she really does put it all together. Justin hates his own stuff as much as anyone else's and he actually loves this cow, which is quite the statement. Mated to sexed female Caliber to make more great females. Production wise, her daughter 38K is a young cow being flushed as well, 125G had an RF Intense heifer calf in 2025 that looks just like her, and you might just need to go on a road trip and check out the full brother to these eggs in the pen up there. Get in the ground floor of this cow - she's just damn good!

Embryos are qualified for CAN & USA

LOT 33 3 IVF embryos | KT Disco 4065 x Sun Rise Tara 7L

Sun Rise Tara 7L is the kind of female that demands attention the moment she steps into view, combining an elegant, feminine front with depth, power, and an exceptional udder. Her dam, Sun Rise Tara 11F, purchased by Scissors Creek Simmentals at our dispersal, has long been a favourite in our program and was a standout flush cow continuing to leave her mark with influential progeny. A full sibling to 11F, Sun Rise Black 12E, is currently in the KT Ranches flush program, purchased as a high seller at the Spring Creek Dispersal for \$44,000. Tara 7L is sired by RF Caliber 014G, who needs no introduction. The embryos are sired by KT Disco 4065, a highlight of the KT 2025 Bull Sale, and we are confident he will sire functional, attractive calves that carry forward the strength and consistency of the Tara cow family with a balanced set of EPDs.

LOT 35B 4 IVF sexed female embryos | C-D Lionheart 3746 x Miss R Plus 9236G

An awesome pedigree in itself then mated to the unique beast, 9236G who is one of the most asked about cows in the Canadian Donors line up. She is one of the most up headed, cocky traveling cows you'll find and still has a tonne of natural rib shape and muscle expression. She is a cow you can literally breed to anything and it works. She has produced multiple progeny by different bulls for folks that have purchased genetics and they are always happy and impressed with them. We think these mating's have a lot to offer. Woodford is a unique, outcross option whose progeny have been highly regarded for having extra hair, body shape and look. She is also mated to the reigning Champion Simmental bull in the Percentage show at Canadian Western Agribition, Lionheart 3746, who is one stylish, balanced and dense individual with a very cool maternal pedigree.

LOT 37A 4 embryos | Woonallee Nobel Prize Q368 x VC Lucy T054

LOT 37B 4 embryos | Woonallee Nobel Prize Q368 x VC Lucy T054

We selected Lucy T054 from the Valley Creek Simmentals program in Australia in the fall of 2023. At the Sydney Royal Eastern Show in 2024 she went on to be the Junior Champion Female in the competitive Simmental Show and also won the extremely competitive all breeds jackpot show that same week. She has been praised for her eye appealing build, being very feminine yet very stout and powerful in her design. Her mating to the unique and little twist on pedigree to Canadian genetics is very intriguing. Noble Prize Q368 has been used very successfully in the Valley Creek herd for siring low birth, high performing offspring. This is a neat opportunity to blend some proven and predictable genetics that are still different from most mainstream genetics representing some of the very best of both Canadian and Australian genetics.

LOT 39A Offering one IVF or conventional flush to the bull of buyer's choice with a guarantee of 6 embryos, no cap

LOT 39B 3 embryos | Ultra/Barlee Lethal Weapon 63L x Double Bar D Onyx 902K

This genetic opportunity is as fresh as it gets! These embryos are sired by the 2025 Farmfair grand champion Simmental bull Ultra/Barlee Lethal Weapon. Lethal weapons first calf crop has impressed us right from the very start with the ease in which his calves came and the extra gear they displayed right away. The best way I can describe Lethal Weapon is as a moderate, easy fleshing meat machine with surprising calving ease! The dam of these embryos is quite possibly the most intriguing red cow that we've raised. She's been described as "one of a kind" because of her undeniable presence and robust thickness and rib shape. Tie that all together with a show quality udder and wicked front end and we deemed her more than worthy of entering the donor program. We bred her to Lethal weapon as a heifer and it really clicked. That calf is a part of our show string and stands out for her outstanding depth of body. We view this mating as "can't miss" due to the long list of donors on both sides of the pedigree and plan to build around this cow moving forward. Open and ready to flush. This flush represents an opportunity to infuse genetics that are rarely seen in Canada into your herd. Mate her however you please, the opportunities are endless with a young cow such as this.

LOT 40B 5 IVF embryos | MRL Cool Hand Luke 113M x NUG Reba 469L

LOT 40C 5 IVF embryos | Crossroad Ultimate 74M x NUG Reba 469L

Reba 469L was the lead off female from Maxwells great program in the fall of '24 where she had been on our watch list for quite sometime. True Simmental breed character being powerful and feminine in an eye appealing package. She stands square and true on awesome feet and dropped an awesome udder. She raised a very exciting red blaze calving ease bull on her first crack at production that is a real highlight for the Motherlode sale. We feel the user friendly pedigree that is outcross to most used red genetics coupled with all the positive donor attributes makes Reba 469L a female that can contribute for years to come. Cool Hand Luke is an exciting individual that was the natural calf off MRL's #1 red donor female, 4440B, speaking to the maternal quality he brings to the table. Factor in CHL's hair and colour, foot quality, depth of body and overall power, we think it is a win/win cross with two high quality individuals. Ultimate is the dark red, outcross pedigreed herd bull that is an exciting blend of calving ease and performance. He has big, dark feet and loads of hair. **Due to calve January 3, 2026 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

LOT 43B 4 IVF embryos | RF Intensity 3142 x KT Sage 4132

In the fall of 2024 we came across one of the most consistent flushes we have ever seen out at KT Ranches. Walk The Line 92J crossed so well with SVS Red Sage 49J as their was 7 full sisters all so similar in type and kind. We selected Sage 4132 as our first pick (only 4 offered) as the \$45,000 high seller. 4132 resembles her dam and grand dam to a tee. Rib shape, muscle expression and eye appeal all wrapped up into one stunning package. 4132's dam was selected as the 50th Anniversary Champion female at Farm Fair International and capped off her year as a top 10 finalist in the 2024 CN Supreme at Agribition. If you're looking to add one more great cow family to the mix look no further via the potent Scream 974G through her undeniable son RF Intensity 3142. **Calved on December 5, 2025 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

LOT 44B 5 IVF embryos | Black Gold Tangleflags 31L x SVS Sage 49J

The National Champion female at the 50th Anniversary show at Farm Fair International and a CN Beef Supreme Top 10 Finalist in 2024 is the beautiful SVS Sage 49J! A pedigree we don't think you can write any better being an own daughter and mirroring her legendary dam 506c in so many ways, and sired by the breeding giant, Tycoon 841F! This big ribbed, near perfect uddered female is absolutely flawless and knows how to get it done in production. The fall of 2024, KT sold pick of 4 out of 7 flush mates at the KT production sale as well as her natural calf at FNL where the 5 heifer calves averaged \$28,500. This is a proven donor female that can not only get it done in the show ring, but in production as well. Her mating to the exclusive, red baldy, \$210,000 Tangleflags 31L is truly exciting as his first calf crop is nothing short of exceptional. This is as good as an opportunity available.

LOT 45D 5 IVF embryos | RF Intensity 3142 x SVS Red Sage 932G

A couple exciting matings on the \$70,000 (2/3 interest) Sage 932G female that has been an absolute production giant early in her life with her sons averaging over \$20,000. 932G is a carbon copy to her mother 506C and checks all the important fundamental boxes. Matings to the likes of the \$100,000 black baldy Intensity brings the great Scream 974G into the equation and we are fired right up on his first calf crop. His full sister was recently crowned Supreme Female at FarmFair 2025 and only adds excitement and value to these embryos. The \$210,000 Tangleflags 31L is a true beef bull with an abundance of muscle, shape and power and the possibility of a blaze face with this mating creates a fun feeling in your stomach. His first calf crop has smashed through expectations and his exclusive service is truly valuable. Five Star Shooter is a new bull brought up into Canada that has real world traits with calving ease, growth and performance bred into him with impeccable foot quality. He is a very impressive individual to analyze and one we think will cross very well with 932G.

When opportunity knocks, you answer. The question we were asked most frequently last fall was simple: How can we invest in Lady 50K? After careful consideration and planning, we are pleased to present a solution. We consider ourselves extremely fortunate to have acquired Lady 50K from Border City in 2023. At every stage during her time with us, she has surpassed even our highest expectations. Phenotypically, Lady 50K is as close to flawless as we have seen in many years. Her udder quality is exceptional—regardless of breed, it would be difficult to design one better. She stands on an outstanding foot, combines angularity with strong maternal character, and carries the stretch and extension she consistently passes to both her sons and daughters. Simply put, she is an elite breeding individual. Cattlemen and cattlemen across the country have taken note, and her accomplishments in the ring reflect this admiration. Lady 50K has earned titles including Manitoba Field Day Supreme Champion, Ag Ex Champion Female, Reserve National Champion at Farmfair International, a top-10 finish in the CWA Supreme, and CSA Runner-Up Show Female of the Year. Our first ET calf crop has fully met—and in many cases exceeded—our expectations. Her daughters mirror her structural balance and femininity, while her sons exhibit added mass, volume, dimension, and an attractive dark red colour, along with a touch more frame. During our visit to Crossroad last spring to view Ultimate, we had one specific flush in mind. Ultimate impressed us with his tremendous volume, dark red woolly hair coat, and remarkable foot quality. We believe this mating represents one of the most unique and exciting opportunities available this fall.

LOT 47A 3 IVF embryos | Black Gold Tangleflags 31L x Erixon Darlin 2.0

LOT 47B 4 IVF embryos | Five Star Shooter M29 x Erixon Darlin 2.0

We knew months before Darlin 613D sold that she was special and going to go on to do great things. The day Erixon and Mader teamed up to own her, we anxiously awaited her first daughters to sell and along came 2.0. We teamed up with IRCC, Dunc, Abby Hill and Destiny to get her bought and she has taken us on an extremely fun ride. She has won many banners and big shows, including Grand Champion Female at the 100th Royal Agricultural Winter Fair, but by far her greatest accomplishments have been her progeny. The \$60,000 son, Legit has bred extremely well in his first go and looks to be very exciting. In the summer of 2024 at the World Sale she raised an \$80,000 heifer calf to the good Havencrest program in Quebec. All that have had progeny from 2.0 constantly brag on the quality of the cattle and that is something we are very proud of. The mating to the \$210,000 Tangleflags 31L gets us really fired up imagining the possibility of a blaze faced calf that possesses his dense bone, muscle shape and power to perfectly compliment her refined look. Shooter is a bull we feel has a tonne to offer the industry as he is a calving ease sire with curve bending growth and performance with big strong feet.

LOT 48C 5 IVF embryos | RF No Limits 1112J x IRCC/CD/DS/AH/DC Darlin 3.0

Here is a donor that we truly believe puts all the right pieces together for us in our program and one we are so proud to own. When we had the chance to purchase 3.0 in the World Sale last year, we made sure not to miss it. The Darlin legacy is a great one and delivers time after time but there's no denying that 3.0's stacked pedigree kicks things up a notch and her potential has us very excited. When you stand back and analyze 3.0 you can't help but love her. Stout made, big ribbed and powerful with that added length and an exceptional udder setting up. She is exactly the type of cattle we like to breed and want to be known for. Her dam Erixon Darlin 2.0 is one we find hard to fault from any angle and is one of our favorite red donors. Her sire the \$110,000 Rancher 42H is a bull we hold in high regard, and we plan on using him more in our program going forward as we think the breed could use more Rancher daughters. When it came time to flush 3.0, we chose bulls that we thought could really complement 3.0's breeding and create that possibility for greatness. The first bull is the \$140,000 Ultra/Hval Tommy Gunn 32L this dark red bull with tons of depth and capacity is sure to deliver. Next up we chose the \$100,000 RF Intensity 3142 a Caliber son out of the great RF Scream 974G. With his added muscle and performance this was one we knew we had to try. The last bull we selected was the \$90,000 RF No Limits 1112J. No Limits progeny need no introduction and with a different twist in his pedigree we thought it could be an interesting mating. The potential in these matings we feel is endless and we are excited to have the opportunity to offer them for the first time at NYR.

- LOT 51D** 5 IVF embryos | Crossroad Ultimate 74M x HLTS Sammie

A fan favourite amongst many visitors and for good reason, Sammie is one of the most youthful and attractive donors in our lineup. Best known as the dam to one of the best breeding bulls we have seen in the breed, Rancher 42H, Sammie is a producing dream as Rancher was a natural calf as a 3-year old. The following year she raised a \$40,000 heifer calf that sold to KT Ranches that has now successfully entered their donor program and been a staple in their strong program. BlackGold had a daughter sell in 2023 for \$46,000 through the Evolution to Jorgenson that caused huge excitement. In the fall of 2024 we offered a fall born daughter that we sold half to to Rafter 4T for \$33,000. Two days later at FNL 2024 a daughter was one of the lead females for Black Gold/Foresee at \$92,500. The amount of sons she has produced for \$20,000+ for producers is staggering. Sammie herself is super long spined, up headed and balanced from nose to tail. Big footed, strong uddered and different on paper. This female herself looks the exact same now as she did the summer she memorably had Rancher milking on her. Her embryos here by the most exciting red bulls to surface in recent memory are tough to sort in order how we would personally buy them and we feel you truly can't go wrong. All of these red bulls have so much to offer the industry and we feel they all have a little something different to offer the potent Sammie!

This female has been special since she was a week old and has been popular with everyone who has seen her at anytime over the last year. She was named Junior Champion female at the 50th Farm Fair International competing against females a year older than her! This female has always been and remains striking from every angle. Wide based, with a smooth transition from hip, to rib, to shoulder, to front end. This female just doesn't have bad days or give any off looks. Her feet are big and square, her teat placement is ideal, her combination of power and elegance is commendable and her overall presence is hard to deny. Everywhere we have shown Sammie 3171, she has won her class and been very popular for all the right reasons, cattle like this are hard to breed and even harder to sell. We feel no matter the direction or objective you have with your breeding program, Sammie 3171 can move you in the right way. Her pedigree is new and exciting and gives a double shot of two of the most influential red donors in recent years with Darlin' 613D and HLTS Sammie being her first two immediate cows. LOT 53B 3 IVF sexed female embryos | SVS Betts 808F x RVR Miss Sheila 21M

The undefeated 2024 Senior Heifer Calf and lead off female at FNL was Sheila 21M as she was highly sought after for her very complete and balanced build, blending power and performance with angularity and eye appeal. She is a maternal sister to the \$240,000 WF Capital herd bull for Double Bar D and sired by the most exciting red breeding bull in the business, Rancher 42H. This blazed faced sweetheart has since grown into a very impressive yearling due to calve in January with an exceptional udder and strong feet. She has added size and stature while remaining deep ribbed and easy doing. Mated to the hottest black bull in the industry, Caliber, resulting in closely related progeny to the great Capital himself is truly exciting. Betts 808F was an easy choice to go back and utilize as his progeny are frankly, hard to beat. The males are highly sought after in all aspects of the industry and his daughters are the kind you can never have enough of. We feel the breeding potential with Sheila 21M is endless and we have utilized two of the most proven breeding bulls of each colour on her here for loads of predictability.

Carefree is the cow that started our Simmental division and shes been leading the way ever since. She is a maternal masterpiece. Her rib shape, flawless structure, stunning profile, disposition and longevity are what shes known for and shes always the first to be admired on tours. Her show career was outstanding, including winning her class all 4 times she was shown at The Royal Winter Fair. The Caliber mating produced a beautiful black baldie heifer that has started her own banner haul, including Reserve National Champion Female, and runner up Canadian Show Female Of the Year, an honour her dam also won twice! The Mountainview progeny are outstanding and we believe this cross may be the best yet. We are also offering a cross with our new herdsire we selected at Westway in 2025, Mr.Banks. His pedigree is stacked with amazing females and his phenotype is so unique. We used him heavily in our program and we expect this cross to produce something special! If you are looking for females and bulls with the look, and proven show ring success that also work in the real world, look no further! ***Owned with Gerald and Keitha Donovan***

Every once and awhile you come across an animal who makes your jaw drop! After looking over the Family Matters catalog I had a few different animals marked down. After arriving at the sale, I started looking through the females and that's when I found Luna, so complete in every way. Capacity, length, colour, temperament, pedigree and structure!! Needless to say she had that 'look at me' thing going on. We were lucky enough to pair up with Agland Farms and brought her home. After being away flushing, we are excited to have her home again and preparing to see her first natural calf. Its hard to believe that in a group of over 530 cows she somehow has the ability to stand out and catch your eye! We believe the crossing with WFL Mountain View 4J should result in dark red offspring that will hopefully carry that exciting chrome.

LOT 58A 3 IVF embryos | NUG Eclipse 302K x Crossroad Frankie 68F

LOT 58B 3 IVF embryos | Ultra/HVAL Tommy Gunn 32L x Crossroad Frankie 68F

There are a lot of fun terms that come to mind when you think of Frankie 68F. When folks tour through and see her they always immediately notice this absolute powerhouse. She is all that and more when you think of a brood cow. Frankie 68F is as dense from front to back from top to bottom as any cow we have had around all while remaining ultra feminine and attractive. The mating to Eclipse really has us envisioning super powerful, dense bodied cattle that are sound and practical with loads of do-ability. Eclipse has remained very exclusive and his offspring carry his big sound structure and being backed by the great Brooke 68Z sure doesn't hurt either. The mating to the dark red Tommy Gunn has us excited as his first calf crop is flat out awesome and include the popular Erixon 44N bull who made lots of friends in and out of the showing at CWA '25. Tommy Gunn sires cattle that are soft made, long bodied and sound made. Frankie 68F is sure to cross exceptionally well here with a couple of exciting red herd bulls.

Ms Kris 173K came to us from the reputable Lazy C Diamond Ranch in North Dakota. A daughter of the proven and popular American Red 99E herd bull at Crossroad Farms, she is a calving ease donor with shape, maternal quality and look. Mated to the \$120,000 Ultimate, who we feel is a very interesting breeding piece with a very usable pedigree, calving ease and performance, unique EPDS and the body shape and style to back it up. The mating to the Five Star Shooter herd bull is very exciting and offers a total twist on pedigree with awesome feet, great growth and loads of performance. Both of these matings offer tonnes of calving ease without sacrificing Simmental growth and power.

LOT 60 3 embryos | Five Star Shooter M29 x RJY Signature Red 7C

This is an opportunity to purchase embryos from our RJY Signature Red 7C cow. Purchased from the Meadow Acres Dispersal sale, 7C has been a dependable and productive donor in our herd, contributing consistent quality to her calves. Structurally correct with solid feet and an ideal udder, 7C is long-bodied and built to last—traits that continue to show up in her progeny. Year after year, her calf crop continues to impress, no matter how she is bred. Her bull calves are standouts in the pen, consistently showcasing her length of body and sound feet, while her heifer calves have mirrored her in udder quality and overall maternal strength. One of her daughters sold for \$25,000 in The World Simmental Sale to Ranch Covey Hill- an exciting time for our program. The embryos on offer are sired by Five Star Shooter M29, a powerful, performance-driven young sire with excellent structure and eye appeal, backed by a proven cow family. If you're looking to add proven maternal strength, sound structure, and forward-thinking genetics to your program, this mating is a solid option and one that we are excited about.

LOT 62D 4 IVF embryos | KSR Legacy 51L x Miss R Plus 6168D

6168D was selected through the R Plus Dispersal. We were already very familiar with her after selecting her son, Reddington 0143H along side KT Ranches and Black Gold Simmental. 6168D is unmatched for rib shape and depth. We like these female a lot as she is the easy doing, productive kind that can get it done. Eggs by the outcross, exclusive Legacy herd sire at BGS is unique not only because they are hard to obtain genetics but because we feel these two quality individuals will truly click. Legacy is a soft made, deep sided bull whose dark, thick hair coat is very admirable. Tangleflags on 6168D will result in very easy doing, high performing offspring and we confidently say you are going to want to surround yourself with as much T.Flags as you possibly can because he is about to make a huge splash as his sons become available in 2026.

We credit Norm 100% for this really neat piece. In the days leading up to the great R Plus dispersal, Riley found this cow and kept going back to her over and over again amongst the hundreds of other females in the sale. Mated here to some very high quality, proven, household names make the decision on what mating to select, not that easy! SVS Rancher has truly done it all from raising high selling sons and daughters to champion progeny including back to back years, champion Simmental Bulls at CWA! He will go down as one of the most decorated red breeding bulls in history and we truly believe that. LFE Cabaret 847J is an exclusive sire who has bred as true to his own type and kind as any bull we have seen as they are consistently stout made with tonnes of practicality and marketability in them. Big Energy 97J is a past undefeated show bull turned elite breeding piece whose progeny are always easily identifiable with the trademark Darlin' stamp through their heads and necks with sweeping rib cages and big square hips.

Our pick of the historic R Plus Dispersal. Satin 1377J is a wedge shaped, deep sided beauty that is easy on the eyes all day everyday. We love these Betts cows and think 1377 can rival the best of them. Mated to the breeding sensation Justified, we feel this is a big time mating as Justified is one of our favourite bulls to show people as he is near perfect in every aspect. He brings the great Rancher and potent Soda Pop cow family to the mix and annually injects style and presence into his cattle with impeccable feet, hip shape and body depth. MRL Cool Hand Luke 13M is a red bull we feel will take programs to new heights as he is everything we seek out when selecting a herd bull. Donor dam, strong feet, colour, hair and sound structure. His blend of performance and power with balanced numbers are the cherry on top at this point as CHL has style and substance to burn.

LOT 65B 3 embryos | LFE Loyalty 836H x WLB 18D SOFIE 497F

The talk of the 2023 bull sale season was the pair of ET Sofie 497F brothers at Deeg's. They were high sellers that day with Eldorado 81K claiming a \$110,000 price tag to Anchor D Ranch and his full brother selling for \$26,000 to Clifford and Wallgren. Sofie herself is big bodied, easy doing with a real maternal look to her. She is soft made, hairy and really good on her feet and legs with an exceptional udder. Mated her to the exciting Boomer herd bull, his pedigree, phenotype and breeding influence makes this a very intriguing mating. Boomer is a big time power bull with big maternal upswing. Boomer has bred extremely well and famously is the sire to the undefeated Intermediate heifer calf that will highlight FNL 2025 for Rancier in RF Scream 5117.

28F has been a herdbull factory with son selling to top commercial and purebred outfits alike. She is a daughter of the great 14X donor at Ashworth and a full sibling to the popular breeding bull, Law Maker 59C for Dimlers. Her angularity, power, udder quality and overall presentation are very ideal. Her mating to the legendary SVS Tycoon 841F is very predictable as with every use, you know exactly what you are getting with Tycoon. Colour, hair, feet, shape and overall structural integrity are some of Tycoons greatest attributes and he has had numerous sons and daughters go on to make huge impacts within the industry. Tommy Gunn 32L has been held as an exclusive sire whose first calf crop is very exciting. They have proven to be well accepted in a show ring setting and will no doubt be well accepted come spring sale season by all as they are very well geared for today industry. Dark, hairy, sound and high performing with very attractive, maternal daughters as well.

No trading or selling the semen. For any more questions contact BMS or MAVV.

LOT 69 1 lifetime breeding share on Black Gold Lindgren Cabaret 7M

Going into the 2025 breeding season we knew that we were going to purchase a few new yearling bulls to be the future of our breeding program for the next few years. We had seen "Cabaret 7M" at Farmfair in the fall and where obviously very impressed with him at that young age. His fleshing ability, depth of body, softness and pure performance made it very easy to take a long hard look again come spring time when we seen him in Black Gold's catalog. On sale day he was everything I was hoping he would be four months after initially seeing him. Being the lead off bull in the sale he was definitely a standout that day, as he has been his entire life. And now the only thing in the way of us owing him was the actual sale. Well when the hammer fell \$110,000 dollars later we couldn't have been more excited and proud to own a bull of this stature. We had a number of requests for semen, but we really wanted to keep this bull as exclusive as possible, which has brought us to this day. We have decided to sell one lifetime breeding share, as I believe this is the best way to keep it exclusive with ourselves and only one other great program out there. This will be the one and only chance to own a piece of this potential program changing black bull in the near future. If you are having any sort of doubts, check back to the evolution sale results in 2024 to see three full sisters average \$44,000 with a high seller of \$82,500. All of the guess work has been taken out for the program that wants to join us on this promising journey.

LOT 71A-J100 doses | 10 dose packages of semen on RF Intensity 3142

Homozygous polled, heterozygous black. Its an interesting concept or comment when you say a bull that is as impressive on the eye as 3142's greatest attribute is arguably his donor dam behind him, but that very well may be true! Intensity is a big framed, long bodied power bull with immense look and eye appeal and awesome feet. He is a baldy faced Caliber son out of the stunning RF Scream 974G!! 974G is as close to ideal as you can make and she absolutely gets it down in production. A bulls greatest legacy is through his daughters and we feel sexed Intensity is as exciting as it gets. The thought of the Caliber and Scream 974G influence being passed down through a white faced son with as much quality as 3142 possesses is exciting and here is your opportunity. Scream 974G has a highlight daughter selling at FNL 2025 that was an undefeated Intermediate calf all fall and gives us a great look into what the females Intensity will have to offer. We believe in this bull a pile and do think his females will go on to do incredible things and be cornerstones to the breed going forward.

LOT 72A-J 100 doses | 10 dose packages of semen on RF Intense 3144

Homozygous polled, homozygous black. I'd love to include a bunch of Justin Muirhead quotes about how good this bull is, but let's spare everyone the profanities and just say he is one incredible breeding piece! We ponied up \$70,000 to acquire him from Rancier's bull sale last spring and it has proven to be the best decision we have ever made. When you combine RF Caliber with the great RF Scream 974G cow, it is proven to work over and over again. Even being invested in these genetics it is hard to keep up with the litany of amazing full sisters that Ranciers have brought out the last few years, including RF Scream 3121 who had a great 2025 and ended up winning Supreme at Farmfair International. Intense is a performance bull with frame, length, bone, and muscle and we are seeing him pass that onto his sons in the bull pens. And the daughters look just like you would expect based on his incredible mother and all those sisters. Reliable, proven genetics and an exciting future - this is Intense!

The result of stacking elite cow families on top of elite cow families with some of the most influential sires in the breed is SVS Justified 62K. He has not become what he is by accident as his planned, strategic lining of the powerful Soda Pop 410B with Rancher backed by the elite donor, Sammie is a recipe for absolute greatness. Justified is extra long spined, stout hipped and still sweeping ribbed with extra boldness to his cage. He is super wide pinned, broad topped and strong footed with a proud, erect presence. His hairy, cocky look make him an elite sire with big time potential to sire high quality females. Justified is a personal favourite by many that tour through the bulls and he just has the look. His daughters have as much maternal merit and cow power to be some of the greatest cows in the breed. Sexed semen by bulls like Justified is what makes this industry so fun as your imagination can certainly take over as you plan what females you want to use it on. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

LOT 78A-F 30 doses | 5 dose packages of sexed female semen on Ultra Tokyo Rose 17M

Here is the Homo Polled and Homo Black Slider son we had been waiting for when we secured him with Rancier Farms as the \$75,000 high seller from Ultra in 2025. Tokyo Rose is a calving ease option with muscle shape, rib depth and great look and character. He is backed by the Molly Dooker cow family and as if that wasn't enough, his dam is a Betts female. The Betts cows have worked their way to the top as some of the most beautiful and productive red cows in the breed. They are flat out awesome and so closely resemble Betts world renowned Sage 506C dam. The opportunity to step into sexed female semen by Tokyo Rose with cows like Sage, Molly Dooker and Goldie 3F up in his pedigree, it is truly exciting! **Semen will be ready late - January 2026. This is the only sexed female semen that will be offered for the 2026 breeding season.**

LOT 79A-E 50 doses | 10 dose packages of semen on KWA Holyfield 96J

Holyfield has become a staple in both the W2 and Black Gold programs the last couple of years. He consistently breeds cattle with extra length of body, lots of hair, awesome feet, and overall quality while moderating birth weight, and has been sampled on heifers with success. The daughters we have now calved out may be proving to be his strongest attribute, as they appear to be very tidy in their teet and udder size and placement, with lots of maternal strength. Holyfield sons to date have averaged over \$20,000, with the highlight being the \$210,000 Black Gold Tangleflags 31L.

Semen is qualified for CAN & USA

LOT 80A-E 50 doses | 10 dose packages of semen on SMRT Gunslinger 20L

Homozygous Polled. Hetero Black. Until now, semen has been kept exclusive but we are excited to now provide a very special opportunity in SMRT Gunslinger 20L. He gained a lot of attention throughout the fall of 2024 where he was campaigned as a yearling and claimed the Junior Champion Bull at Olds Fall Classic and Reserve Champion Junior Bull at Agribition. Unfortunately a breeding injury stopped him from being shown this fall as a mature bull but we knew his true value wasn't in the show ring. A bull that has matured into having as much presence as any; extra body length, frame and heavy muscle. He was heavily used in both our herds this spring. If you're looking to add hair, length and foot quality, this is your man. The calves we have seen are hairy, long-bodied with performance and tons of eye-appeal. Sired by the proven RF Caliber 014G and out of the legendary WFL Red Sage 506C, who both need no introduction to the industry, Gunslinger has been a genetic feat from the beginning by combining two of the best cow families of the industry in one package. Expect to see a lot more calves in our programs this upcoming year. We are excited to see his sons highlight our bull pens and his daughters in production this next year.

Semen is stored at Alta Genetics
Semen is qualified for CAN, USA & AUS

LOT 82A-F 30 doses | 5 dose packages of sexed female semen on C-D Lionheart 3746

CD Lionheart 3746 is an exciting, unique and proven yet slightly different pedigreed bull whose strong genotype, elite phenotype and growing list of credentials make him a standout individual we are truly proud to offer to the industry. Lionheart comes by his power and presence honestly being sired by the influential NGDB Structure 34D, best known as the sire of the great RF Caliber 014G. His dam, BBRS Exactly 761E, needs no introduction either; she was a dominant show female and a \$65,000 high seller before earning her spot in the donor pen at Double Bar D, where her production record continues to turn heads. When you study this combination on paper and in the flesh, it's clear that Lionheart is the kind of bull built to strengthen cow families and leave a lasting imprint. He is a bull that captures your attention immediately by offering a big, bold outline with extra length of spine, added look, and that commanding herd-bull presence that separates the good ones from the great ones. At the ground, he stands on a large, correct foot with impressive heel depth, and the way he tracks being soft, fluid, and cat-like speaks volumes about his long-term structural integrity. He combines base width, muscle, and true performance with a smooth shoulder and attractive front third, highlighted by a cocky, erect head carriage that gives him that extra punch of style. Backed by a pedigree proven and built with the kind of phenotype that translates into real-world demand, we believe Lionheart has a bright future as a special breeding piece. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

The Black Blaze, outcross herd sire you say you can't find is the \$75,000 high seller from Crossroad Farms 2024 bull sale. Dateline 59L has so much to offer in all aspects. Firstly, he is an impressive individual in the flesh, awesome haired, soft made, free moving, attractive and very complete. Secondly, his pedigree is both fresh and proven being apart of the rookie calf crop from the new imported sire, RFS Heavy Hitter H45. His gorgeous donor dam is one of the most attractive and proven donors in the breed and is one of ACC1 Hustler 2N's most stunning daughters. Last and certainly not least, Dateline is a true curve bender. An actual 85lbs bw and a sale day weight of 1565lbs that also rank him in the top 20% of the breed for both Weaning Weight and Yearling Weight. Dateline is also in the top 15% for both Calving Ease and Birthweight. Dateline already has so much to offer and we feel he is the type of sire whose breeding possibilities are endless and with the quality of his dam, the sexed female semen make him a must use in the pursuit of making blaze females of immense quality. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

LOT 85A-F 30 doses | 5 dose packages of sexed female semen on W2 Southside 2K

There is a lot of value to be utilized when you can step into sexed female semen by proven calving ease sires such as Southside. The predictable calving ease and guarantee to get females makes him a perfect option to breed sale heifers to, or just to make some high quality females yourself out of you first calvers. Southside was the heifer bull we had been searching for and was a high selling, \$48,000 purchase in the spring of 2023. His rich and deep maternal side is as proven and predictable as any bull in the business. His mother is a full sib to the legendary great, RF Certainly Flirtin 202Z making his bottom side one of the most sought after cow lines in the industry. His dam herself is an ideal beef cow checking all the important boxes and is a production powerhouse herself. On the top side, Top Tier 456G has been a proven heifer bull that has been used with huge success across Canada, so when a black blaze son out of a cow as high quality at Southside came along, we knew he was one more piece to the puzzle. Southside's data and EPD's speak for themselves and to visualize him is to love him. Smooth made, extended, soft, hairy with excellent feet and scrotal. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

Semen is qualified for CAN & USA

LOT 86A-F 30 doses | 5 dose packages of semen on Drake Poker Face 2X

A bull that certainly needs no introduction as he has played a huge, influential role on the Simmental industry the last decade. Pokerface has been notorious for creating big volume, high quality daughters that flat out get it done from a production standpoint, but also get it done from a phenotype perspective. They are annually great uddered, strong footed females that you wish you had more of. The Pokerface sons are always easy to market as they are made right, are attractive and great haired. More times than not, Pokerface always puts the strong blaze into his offspring also. Pokerface's influence is far to wide and impressive to start listing off all of his sale topping and show winning accolades from his progeny, but we would be remiss to not mention the legendary flush on top of the 10Y donor that created the "Soda Pops" and how influential those daughters have been for their new owners. It would be interesting to tally up how those specific daughters of Pokerface have generated income the last half a dozen years as I guarantee you it would be in the million dollar range. Again, that is just one example of hundreds of Pokerface's strong influence and we believe he is a bull that has endless breeding possibilities. These 30 doses represent the last of available and US qualified semen from Drake Poker Face!

LOT 87 75 straws | [Selling an exclusive semen package on Oakview Hershey 722H](#)

Homozygous Polled. Hershey was the highlight of last fall's Rendezvous dispersal where he fetched \$43,000. It is pretty cool when a proven mature herdsire outpaces his original high selling price of \$37,000! Hershey and his progeny were in high demand for their color, consistency, quality, and his unique pedigree. On top of that he is a bull that will lower birth and an ideal option to use on all of your second calvers and even some heifers. Hershey's progeny topped every single division of that sale with a \$40,000 bull calf, \$37,000 bred heifer, and \$15,000 open heifer calf. Labatte and Oberle are proud to have him walk their pastures and have sold 3 exclusive semen packages to date and here is the 4th package and the only one to sell for the 2026 breeding season. This package consists of 75 straws on Canadian qualified semen. We all love them dark red, proven high quality and in a little different genetic package - well here is Hershey at just the right time.

LOT 88A-B 2 Breeding shares on LCDR Clockwork 167L

3/4 SimAngus. If you're looking for a red calving-ease sire that does everything right, Clockwork needs to be at the top of your list. We went searching for a bull that combined calving ease, eye appeal, and performance—and Clockwork has over delivered on every front. His first calf crop averaged 73 lbs, came 100% unassisted, and hit the ground with exceptional vigour. These calves grow, they thrive, and they're flat-out enjoyable to calve. The bull calves headed to the Harvie Crest Bull Sale speak for themselves. Clockwork is the kind of herd bull you notice the moment he walks out—massive foot, stout build, real muscle shape, and a bulletproof disposition. He stamps his calves with that same look and attitude, making them standouts from day one. For the numbers crowd, Clockwork is a breed leader across the board. He ranks in the top 1% for Calving Ease (21.2), Birthweight (-3.8), Maternal Calving Ease (13.4), Stayability (21.6), Docility (17.1), API (191.8), TI (93.4), and Marbling (0.68). These aren't just strong numbers—they're elite. And the kicker? He's a complete outcross to most Canadian pedigrees, giving you the freedom to use him widely and confidently in any program. Clockwork isn't just a good option—he's a bull that moves your herd forward.

LOT 94D-F 9 doses | 3 dose packages of sexed female semen on Six Mile Grindstone 89M

Here is an opportunity to be a part of one of the most talked-about bulls in the Six Mile Bull Sale this past spring! We are highly anticipating our first set of calves off the \$70,000 Grindstone and are excited to offer the first and only opportunity to acquire semen on him for the 2026 breeding season in NYR. The Simmental percentage program has long been a cornerstone of breed improvement, traditionally focused on black genetics. Grindstone represents a strategic opportunity to introduce highly marketable and respected Red Angus influence into that mix. His genetic profile makes him an excellent choice for moderating birth weights, improving calving ease, and adding fresh, proven bloodlines to your herd. His pedigree is equally impressive. Sired by Six Mile John Wick 882E, a bull whose reputation needs no introduction, Grindstone carries forward a lineage known for producing offspring with superior phenotype, sound structure, and desirable maternal qualities. Grindstone has stood out for his exceptional balance, structural correctness, performance and a great combination of overall thickness and depth of body. He wraps it all up with a commanding presence. Grindstone is poised to be a versatile option for breeders seeking to enhance a balance of calving ease without sacrificing thickness and performance, outstanding phenotype, or simply to bring genetic diversity to their program. Grindstone delivers on all fronts.

LOT 95A-E 50 doses | 10 dose packages of semen on Wepplers Eight Ball 168M

Eight Ball is the kind you can bet on. A true calving ease specialist, smooth as they come and stout where it counts. He was one of the most talked about hieffer bulls to sell last year and we are sure glad we teamed up to get him bought as we all have big plans ahead for him. Eight Ball sets the bar high for calving ease in the Simmental breed. Smooth shouldered, clean made, outcross pedigree, and backed by a rock solid cow family, he delivers the predictability breeders demand without giving up performance or style. Elite epd profile, breed leading phenotype, with stoutness and softness that is hard to find when on the hunt for a calving ease bull. We think Eight ball is just getting rolling as you will hear lots more about him after his first calves hit the ground. Only a few exclusive packs were sold last spring and we are only offering 50 doses for 2026. Get in on the excitement early on this unique breeding piece.

Legacy is the new and exciting dark red stud that we purchased exclusively from the Kathol family last December. His blood red colour, extremely soft and easy fleshing body type, awesome foot and flexible structure, and still up-headed presence was intriguing to say the least. Once you combine his rather outcross pedigree, moderate birthweight, and very balanced genetic script, it's not hard to see how he became the \$170 000 high seller. Legacy will sire the largest sire group we have ever had born here in 2025, and was used everywhere from heifers to our top end donors. Here is an exclusive chance to get in on the only Legacy semen to sell for the 2026 breeding program, and only ourselves and three semen interest shareholders had access to his semen in 2025. We feel Legacy's impact could be as influential as any bull we have ever used.

Homo Polled. Non Diluter. Anytime you purchase a new herd sire it comes with a mix of emotions, the excitement of getting that bull you wanted that you feel will take your program to the next level. Then the nerves of will he produce like you envisioned or mix with your cowherd. Well in this case, Dunlop has surpassed all the expectations we had for him. We have been blown away by the consistency he has added in both his females and bulls with his stamp which included added length, style, structural integrity, and the sought after hairy, dark red color. Maybe the biggest surprise with Dunlop is the incredible amount of length he has added to his calf crop. We feel the impact of Dunlop is only just scratching the surface as I think his biggest attribute may be his females as they mature. Dunlop's beautiful mother just keeps adding to her resume as her son this year has been one of the most dominant bulls to show in Alberta claiming numerous show and class wins. Dunlop's first calf crop has been nothing short of impressive and includes the Farmfair Ultimate Legends Champion Simmental Bull and Top 5 Finalist. Also, at the recent Ladies of the Peace sale a trio of daughters lead off the sale and caused quite a stir where they averaged \$16,000. As we have stated Dunlop's impact on the breed is only getting started, his totally outcross pedigree, ability to add that pay weight in his incredible length and dimension while keeping the dark red color makes him all that more attractive. Don't let this opportunity pass you by to get in on one of the most outcross and exclusive pedigrees in the breed.

Semen is stored at Alta Genetics
Semen is qualified for CAN & AUS

LOT 98A-E 50 doses | 10 dose packages of semen on WFL Mountain View 4J

Mountain View is no question the best and most consistent red bull we have ever used, and one we feel fortunate to use in every aspect of our breeding program. He consistently sires, the blood red, stout made, hairy, big footed kind, all while reading exceptional on his EPD profile. Mountain View sons are consistently the easiest sire group for us to sell each year, and to date our 17 sons have averaged just shy of \$27 000. These bulls are often big scrotalled and early maturing, and perform at the top of the pen. The maternal side behind Mountain View is what made him a must own sire for us, and now that his first daughters are in production, we cannot wait to build around their kind. Short teets and lots of spacing are consistent amongst his daughters, with the same kind of colour and power that his sons carry. Use Mountain View with lots of confidence whether it's in the AI or Donor pen, and watch him darken up even the lightest of red females.

Homo Polled. We are excited to once again offer the \$55,000 **Black Gold Mountain View 15L** at New Year's Resolution. He is one of the many **WFL Mountain View 4J** sons we shopped when on the hunt for a red herdsire but in our opinion the one that mostly reflected the traits his sire carried. He is the same dark cherry red in colour, has the same deep rib shape and attractive yet still masculine head and crest. He is so overwhelmingly powerful coming off a first calf female. We are excited for his sons to hit our sale ring this spring in our upcoming Annual Bull Sale, **Pheasantdale Paddy Wagon 158N** is the perfect example of his progeny. This will be the only semen on the open market for 2026.

LOT 100A-F 30 doses | 5 dose packages of sexed female semen on SVS Betts 808F

One of the great red breeding bulls in recent memory is the incredible Betts 808F. His daughters have been his legacy as well as they are showing up in so many current day pedigrees as the dams and grand dams to high selling and productive progeny. This comes as no surprise as his legendary dam, WFL Red Sage 506C is the #1 cow in the entire breed for registrations and if you added up the value of all those said progeny and again on what they have produced, it would be staggering. Betts puts an udder on his daughters as good as any one and they are consistently big bodied, easy doing and very attractive. His sexed semen is very exciting in our eyes as he can work on an array of females to produce the highest of quality. Don't miss out on this incredible opportunity. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

PICK OF THE 2026 HEIFER CALVES

MAVV Farms :: Okotoks, AB :: 403-888-1928

Pick to be made by November 1, 2026

A royal opportunity to slide into one of the premier Fullblood heifer calf pens in the Country awaits in this special lot from the great MAVV Farms operation. Mike Imler & family have established themselves as one of the real great breeders of Simmental cattle and their Fullblood division would rival the very best. Their acquisition of some of the most sought after and exciting herd bulls within the breed makes this pick opportunity extremely exciting and exclusive. The never ending search for elite herd bulls to elevate their program is very evident as they never spare any expense to select the ones they want. The MAVV cowherd is one that is built around strong foot and udder quality and when you think of a MAVV female, you quickly envision a good marked, good coloured female that is easy doing, big ribbed and productive in a super attractive package. Each and every year, the MAVV program hosts a very well attended bull and female sale and the bred heifers always lead the way and are fought over by operations across North America. This special pick opportunity gives you the chance to go in and select any Fullblood female born in 2026 before they ever get a chance to be sorted into the sale heifer pen or keeper pen. This task will not be an easy one as the depth of pedigree and quality in this set of 2026 born females will be incredible with the first calf crop born at MAVV from the \$100,000 Jackson will be represented in 2026. The donors and sires represented in this group is overwhelming with potential, and we can confidently say this is one of the greatest opportunities of the year. What an exciting way to kick off a new year with the chance to walk through the MAVV Farms replacement pen and select the female of your dreams.

LOT 102A Offering an IVF flush to the bull of your choice with a guarantee of 6 embryos

Kim 261Y stands among the most influential Fleckvieh females in the World. She brings together power, longevity, and an unmistakable elegance that has defined her as a cornerstone cow. Even today, her structure, udder quality, and ease of movement reflect the kind of female we all hope to build a program around - but rarely find. Her production only deepens her impact. As the dam of the \$110,000 Milsap - whose semen averages \$3,200 a straw and whose daughters are averaging just shy of \$20,000-along with a proven donor daughter at Double Bar D and several other high-performing progeny, she has earned her reputation honestly. Kim 261Y is writing her own story in the Simmental breed, blending power with elegance in a way few ever have. Her record, her consistency, and her legacy position this lot as a uniquely impactful opportunity. We are excited to offer her influence!

LOT 104E 5 embryos | JNR Barbarian x Anchor D Lexi 573L

This female is already climbing the list of some of our favourites. Selected at the world Simmental sale, this homozygous polled female is what we consider ideal. Beautiful udder, wedge shaped, attractive with power. We really like this female. She is always easy to find. We really like the mating to Malone here, as his dark complexion, and extra muscle shape always transmits to his progeny. Malone's sire, Motown has done an incredible job breeding. Modano's first calf crop is incredible and we feel he is shaping himself up to be one of the most exciting Fullblood sires in some time. He seems to be producing cattle exactly like himself with added dimension and substance. JNR Barbarian is a popular herd bull who was a past \$165,000 high seller and his first calf crop marketed in 2025 was very well received in all aspects of the industry. This Lexi donor is exciting and one we feel is going to have a large impact going forward. Due to calve December 26, 2025 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.

LOT 106F 4 IVF embryos | SBV Modano 518L x NGDB Lady A 500L

Lady A 500L has matured into a beautiful female that represents just why fullblood cattle work so well in all aspects of the industry. She is a big ribbed, deep sided female that is strong uddered, big footed and very nice to look at. Her donor dam has been super productive so 500L is certainly no mistake. Her progeny we have seen thus far are the right kind and we believe she will be impactful going forward. Modano is a fullblood bull built for the times with his sheer mass and power with style and appeal. His first set of calves look the part and we can't wait to start marketing them. Advantage is a true breeding bull who sires progeny of both sexes that rise to the top of their contemporaries. He has stood the test of time and each year his offspring become more popular. The PRL Houston bull is a legendary female maker that we think is a real cool throw back to utilize on females of 500L's quality. Electric Avenue has worked extremely well by many that have used him. **Due to calve December 26, 2025 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

LOT 107C 5 embryos | SBV Madano 518L x NGDB Lady A 905G

When I saw "Lady A" at the Family Matters sale a few years back, my first thought was that we could really use a cow like her to bolster our Fleckvieh program. Her pedigree was something totally different than any other fullblood female we had on the farm at the time, and I thought she would fit right in and be a great addition. Well, \$26,000 dollars later and she was coming home with us. She has a very dark complexion, super good feet and udder structure. She is big ribbed and very square made. We started flushing her this past summer with a calf at foot and she never changed body type or condition whatsoever. We feel the matings of the embryos are to some of the most prolific bulls in the Fullblood world today. The Malone and Modano embryos both carry the chance of producing some homo polled progeny, while the Jackson embryos I believe will be packed with performance. We are very excited to be offering these embryos, knowing they could do big things for whoever's program they end up in.

LOT 110B 3 IVF embryos | **Logland Double Dare 233K x Ultra Ms Janis 72K**

Ultra Miss Janis 72K is a female that has had us extremely excited ever since we acquired her at Friday Night Lights in 2023. She was a \$30,000 investment that quickly proved to pay off. The calf she was carrying, a polled heifer calf, was a favourite amongst tourists at the 2024 World Simmental Congress where she commanded \$18,000 to the good Northern Light Simmental operation and we also sold a flush on 72K herself that day which had a \$21,000 sale price to the industry leading Mark Land & Cattle program. Janis 72K is big bodied, with a gorgeous udder. She is attractive, balanced and one we consider extremely complete. We have sets of embryos here that we are awfully proud to offer for the first time. BLL Creed 950G was purchased by Anchor D where they sold some exclusive packs of semen where we were able to obtain some through public auction. Creed progeny have been very well received and commended for their colour and pigmentation, muscle shape and overall quality. Creed 950G offspring would include the \$110,000 evaluated BLL Crimson Tide 335L, \$100,000 Anchor D Garren's Krush 524K, \$50,000 Anchor D Cartel 459K and \$30,000 Anchor D Lexi 573L, just to name a few. Logland Double Dare is an imported bull from Oklahoma that is homozygous polled with unmatched power, performance, style and substance. His look and overall quality had us very intrigued and we feel he will be a welcoming addition to Janis 72K.

LOT 111C 4 IVF embryos | NUG Advantage 104J x NGDB Helena 264K

You should see how this female has matured and developed. In the fall of 2022 Helena 264K caused a large stir as she was successfully campaigned and admired by many breeders and out of breed folks before she commanded a \$55,000 price tag. Unique for a polled fullblood female with the amount of substance and power as she has with a big time look and extension. She dropped a strong udder, possesses big square feet and is impressive to analyze from every angle. Embryos by Advantage are in our mind as sound of an investment as you can make. e has proven time and time again why he himself was a past \$100,000+ high seller as both sexes of progeny from him are highly sought after. His females are incredible and his sons are powerful with a great look. The basket with the \$355,000 Rumble and Sugar Ray is exciting as both these bulls have proven to sire functional, high quality fullblood cattle.

LOT 112C 5 IVF embryos | Sibelle Dirty Harry 25Z x Black Gold Ms Maddy 101J

Maddy 101J is an absolute sight to behold, we love everything about this female. Big fluffy ears, awesome skull, beautiful colour and pigment, strong dark feet, perfect udder, rib shape base width. She is an ideal female. Her natural son sold through the CSD production sale in 2024 for \$20,000 to Roach Ranching. She is mated here to the incredible breeding, homo polled Dewalt herd bull whose first sons in 2025 averaged well over \$20,000. Mr Adonis 96Z has been so popular and so well received for the last decade or more siring desirable cattle that perform and are always easy to market. Dirty Harry as well has been so popular and well used the last 10 years and continues to pop up in many current day pedigrees as the grand sire to many sale toppers. Do not pass up anything ever offered by Maddy 101J because you will regret it.

Precious Thing 402T has been one of the most dominate production cows within the Fullblood industry. When the opportunity arose to acquire a direct daughter that resembled her so closely, we jumped at the opportunity. She was a \$33,000 high selling female that people raved about for her fleshing ability, pigment, length and depth while remaining feminine with a great look. She has 3 really exciting matings on offer by the likes of the \$355,000 Rumble breeding powerhouse, The new and exciting, dark, maternal brother to Reputation, Starwest Prime 346L and as well our new favourite, Modano 518L. All 3 of these sires are big league status herd bulls with all the credentials to continue making a positive impact on the industry.

Here's a beautiful polled female that is built as good as you can make one. She looks just like her picture and is a sight to behold. Body shape, udder quality, attractiveness is all wrapped up here in this peak headed beauty. She has a feature son from the Crossroad program seeing herddbull duty at Double Bar D and he is one impressive individual to analyze. Her mating to dark red, big footed, muscular maternal brother to Reputation, Prime 346L will click perfectly and be a welcoming compliment to one another. Sugar Ray is a bull that has seen wide use and been regarded as a special herd bull siring cattle with added look, presence and extension while keeping all the important fundamentals in check.

Much like your nieces or nephews, or even your own kids for that matter, you should never pick favorites. But if you had us at gunpoint and asked many of the people around BMS who their favorite donor in the sale is, Dakota Dream's odds would be fairly high. From the moment she was a bred heifer to lead off the Stars of the Valley sale, she gave everyone a real good gut feeling. She was and still is so unique for a homo polled, full fleck female to carry her kind of mass and power with an unmatched look with an udder you likely couldn't draw on any better. She is dark red, big goggle eyed, strong footed and so easy to be around. She hurts as much as any cow in the sale to see find a new home, but we are confident she will go on to make her new owners proud. All that have purchased embryos out of Dakota Dream comment on the quality of the offspring and whether they are bulls or females are always super marketable. She has sold many herd bulls and commercial bulls into top programs around the country. Her daughters are sought after and have averaged near \$20,000 all time. Mated here to the Dirty Harry bull is sure to excite as he is a bull that has proven his worth time and time again.

Here is a very exciting opportunity from one of the most beautiful Homo Polled fullblood cows in the breed, Erica 748E. Her wedge shape, front end and skull are absolutely beautiful and it is hard to make an udder any better than hers. She is an ideal female in so many ways and we feel the matings available are exceptional. Anchor D Motown is backed by the great Precious Thing female that is a sight to behold. Motown has been one of the true great breeding bulls and his lengthy list of progeny include the \$110,000 Milsap and \$100,000 Malone. NUG Advantage is a homo polled breeding sensation that quickly turned back his \$110,000 investment to Johnson Ranching in short order. He is truly a dual purpose sire whose sons and daughters alike are always in high demand. His daughters all time have averaged near \$20,000 as they are certainly the righty kind with body shape, udder quality and eye appeal. Advantage sons include the \$83,000 Powerplay and \$175,000 Manfredi amongst multiple other \$20,000+ sons to top operations.

Atomic is the newest edition to our fullblood sire group we purchased alongside Lindgren Simmentals, and we couldn't be more excited for his first calf crop. We currently have around twenty sons gearing up for our annual sale in March, with several of them being amongst the top of the pen. We think the top end of our Atomic sons are as good of bulls that we have raised the last few years. Atomic breeds with lots of muscling, body shape, and overall power without sacrificing that dark red colour, good hair coats, and the polled/scurred gene. As a mature bull he is big and square footed, large testicled, and sound structured. There's no question we will be turning to Atomic to replace the shoes of bulls like Adonis, Battle Cry, and Reputation.

LOT 119D-E 10 doses | 5 dose packages of semen on Double Bar D Landman 49M

Polled. Non-Dilutor. Landman 49M was the lead off and high selling bull from Double Bar D at their Best of Both Worlds sale in 2025. We selected him for his very outcross/user friendly pedigree combined with structural correctness and powerful, attractive dam behind him. Landman stands on big, dark and square feet and travels around with a tonne of ease for an individual with as much ripped muscle and power as he possesses. His dark red, heavy hair coat is eye catching and his masculine, attractive polled head really draws you in. His beautiful mother is a gorgeous uddered, powerhouse that had a standout heifer calf at side of her this past summer proving her production value. We are very excited to start receiving these Landman calves and feel he is the type of individual to make a serious impact. We have been so impressed with Landman at every stage and of everything we have asked him to do, aggressive and efficient breeder and froze a pile of semen on two quick jumps. We look forward to utilizing him heavily going forward and to sharing a piece of him to the industry.

LOT 121A-H 40 doses | 5 dose packages of sexed female semen on SBV Modano 518L

SBV Modano 518L is the \$170,000 feature polled fullblood bull of the spring of 2024 that created so much interest for a wide array of reasons. Firstly, his phenotype is exceptional with dark red, strong hair coat with ideal pigmentation that attracts you to him from every angle. This awesome footed bull is extremely sound in his design and is built for longevity as his sons will be very marketable and daughters are sure to evolve into incredible cows with the udder strength and true production capabilities. Modano himself is built like an ideal horned fullblood bull but in a polled package - he is heavy muscled, long spined, big bodied, level topped, attractive headed and has a herd bull presence through his front 1/3 that is to be commended. He is a truly unique herd bull that has the pedigree to back him as well with his dams full sister bringing \$60,000 and then producing a \$70,000 daughter. His dams daughter commanded \$85,000 in FNL and is one of the very best fullblood females ever offered at auction. Modano is a special breeding piece that we are confident that will leave a long last impression on the fullblood industry. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

Jackson made history this summer at the World Simmental Congress Sale when he sold for \$100,000 as a mature bull, we are thrilled to see the kind of impact he will have for the MAVV program. His presence, structure and mass demand attention. His foot is big and very correct. We are just getting ready to welcome his third calf crop and calve his first set of daughters, so he is still young in the impact he is going to have in the breed. His first set of sons to sell last spring was lead of by Modano commanding \$170,000 to Labatte, Oberle and Canadian Sires. We retained all his 2023 spring born female progeny but the fall born and 2024 calves this summer sure have provided some insight on what kind of female maker Jackson is as well, SBV 171L was a high seller in the World sale to Troy Lorensen, she went on to win her class at the National YCS. Two more daughters were sold to the Moore's of Indiana after their champion sweep in the heifer calf division of the YCSA show, one of them then went on to win both the junior and open Fullblood shows of the NAILE held in Louisville, KY.

Kilipso is our go to homozygous polled calving ease sire, that we purchased alongside Labatte and Oberle. For two years now Kilipso has bred the majority of our fullblood heifers, and 2025 featured the first sons to sell off him. His first sire group at Black Gold averaged just over \$16 000, all being born off first calf heifers, with Rafter 4T also selling a \$45 000 son and \$20 000 daughter. Kilipso consistently breeds lots of hair and pigment, powerful body shapes, large scrotals, and dark feet. He is a moderate framed sire who's impressive in the flesh, and the type of bull that can breed heifers for his entire life.

LOT 128A-F 30 doses | 5 dose packages of semen on Westgold Standout 42Z

For a fullblood bull that really needs no introduction, we can always find something more to say about Standout. He's been timeless in his legacy left on the industry, we feel, and has seemed to have 'done it all.' His value will never waver to us as part of our breeding battery as he was an extremely impressive herdbull with outstanding structural integrity. Even as age became a factor, he never did have a foot problem and that gave us a sense of confidence in his sons working for other programs. His ability to add performance, doability, thickness, length, and shear power is almost unrivaled. Standout is consistent in the pattern he stamps his progeny with, where they all boast that 'Standout look' with heavy pigmentation. Opportunity lies in today's market for his genetics to cross with polled females as he always adds that extra substance and stoutness with added muscle shape. His progeny always come to the top with many sons and daughters becoming high sellers within each sale they've been offered. Just recently this fall another daughter commanded \$40,000! Standout daughters have become some of our most productive cows here at Red Willow Ranch Ltd. Don't miss this opportunity to own exclusive semen on one of the most proven herd sires this industry had the pleasure to know.

LOT 129C-D 10 doses | 5 dose packages of semen on RWR Cash 30K

Non-Dilutor. Cash came out of the Red Willow Bull sale where he was a leader in the impressive Mogul group of bulls that day. He is super soggy built with loads of capacity, bone and walks on a very big strong foot. We were glad we got him that day and his first calf crop has reinforced that. With Cash you can expect that cherry red colour and hair to be locked in. His different twist in pedigree is welcome to fullblood streams in Canada. The sire to Cash, Mogul is a bull that impressed many as a yearling and the consistency he has bred for Red Willow is truly impressive. My bull sale pen will be highlighted by a good group of Cash sons this spring in March. They are an exciting group and I look forward to seeing the daughters reach production as they are an impressive set too. We feel Cash has a lot to offer the breed and this is your chance to get in on him.

Homo Polled, Full Fleckvieh and a non-dilutor. Nitro is a captivating dark cherry red smooth polled bull with such presence and muscle shape. His length of spine, balanced confirmation and ample muscle shape is exceptional. Cherry red right down to his feet with very little white, and heavy perfect pigment makes Nitro an eye-catching bull. He carries himself on top of a perfect big round foot with depth and symmetrical circumference. Backed by one of the most noted Fullblood dams in the industry Lady A needs no introduction as she has created many high selling males and females for the good folks of Hoegl Livestock. One of the most influential polled bulls we have had walk the pastures of KSL, Nitro will be leaving a lasting impact for us for years. The bulls continue to be pen favourites, and the females are starting to make their marks with stunning udders. The shape and dimension Nitro continues to pass on to his offspring makes him a homo polled bull for the times and should pair well with many females throughout the industry.

PICK OF THE 2026 BORN HEIFER CALVES

Brooking Angus Ranch :: Radville, SK :: 306-536-4590

Pick to be made by September 1, 2026- 50% due at sale and 50% at selection
Only calves solely owned by Brooking qualify

An unparalleled opportunity to select from the complete 2026 heifer calf crop at Brooking. While Brooking has historically sold some of its top heifers, there are always the untouchables that are never sold. This unique opportunity provides unparalleled access to everything. Approximately 130 heifer calves will be available for selection, with approximately one-third being ET. Purchase this pick with confidence, knowing that you will receive the full support of Justin and the Bohrsen team in assisting you in selecting the very best.

INTRIGUING. OUTCROSS. ARGENTINE

These feature flush brothers are the result of embryos imported directly from Cabana La Rubeta in Argentina. They go back to the Hummel family's first trip to Argentina. Many ranch visits were made, and the La Rubeta cattle left an impression stronger than any other genetics that were examined. The donor dam, Rubeta 7653 Forjadora, was one of the favourites in all of Argentina, and when she was made available, Hummel Livestock purchased half interest. The storied La Rubeta program also supplied the embryos that resulted in producing Argentine, South America, and Palermo. These are examples of the type of cattle that some of the most progressive Angus breeders across North America sought to implement into their programs.

The strength of cow families has always been paramount at La Rubeta. "The Forjadora family, along with the Fontana family, are the two oldest Black Angus cow families on our ranch. A full sister to the dam of these flush brothers, Rubeta 7627 Pommery, was Grand Champion Female at the 2018 Palermo Expo and is now an elite donor in our operation along with her dam, Rubeta 6564 Forjadora, and the legendary Rubeta 4625 Forjadora, founder of this great cow family." -Martin Fernandez of Cabana La Rubeta

These cattle are built for longevity with an easy-fleshing and muscular shape, along with having strong maternal quality and real-world performance; it is evident that the successful Argentine cattlemen have stayed true to these breeding philosophies. These intriguing full brothers come from genetics that are tried and true- and from a program that holds strong, without exception, to what works in the real world. Look deep into these pedigrees and you will find genetics that you will recognize, but the difference is simple: the selection pressure that La Rubeta has had the luxury to implement, strictly focused on the long-term game, is what sets their program and these bulls apart.

4339 is an incredible female that we are planning to heavily build around going forward. She is a full sister to the \$305,000 Coleman Chloe 412 female that was a real highlight in 2024 and out of the big time pathfinder dam, 9275 an the outcross sire South America. 4339 is a favourite and is a female we guarantee you will continue to hear a lot about. Her breeding possibilities excite us as she is huge bodied while remaining maternal looking and sharp outlined. She boasts a near perfect silhouette from the side and is developing a perfect udder. This is a special opportunity that we think could pay for itself over and over again. **Due to calve February 16, 2026 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

A big time female with production out the wazoo and a part of a cow family that annually cranks results. Pride 528 is a beautiful female with angus breed character, udder quality and look. In the spring 2025 she raised a \$380,000 granddaughter for Conley and also just recently this fall had a direct \$204,000 daughter sell in their production sale. She is a maternal sib to the international grand champion, Conley South Point 8362 as well as a maternal sib to the \$113,500, 2014 American Royal Champion female. Talk about power in the blood here with pride 528, this special flush opportunity is not only exciting but guaranteed to be profitable. **Due to calve January 30, 2026 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

BJSC Karat Lady 301M stands out with a commanding presence. She's sired by the influential SCC SCH 24 Karat 838 and paired with Johnson Show Cattle's Lady A6 donor, whose dam is the impressive Duff BI 62 Lady 031 of Duff's famed Power Plus program. Karat Lady is bold ribbed, huge bodied, and incredibly true and flexible with her dense foot and bone, all while remaining elegant in her front 1/3. She blends modern eye appeal backed by a pedigree of consistency and predictability. Karat Lady has an impeccable resume in the showing, including Division Champion at three Spring Jackpots, Reserve Supreme at Youth Forum, Champion Commercial Angus Female at OJA Blackout, and Reserve Champion Angus of the National Junior Beef Heifer Show at the Royal Winter Fair in Toronto. Plus holding her own among the toughest in Louisville at NAILE. These are the kind of genetics that elevate a program. We are proud to offer The Right to Flush this exceptional female.

LOT 141B 3 IVF embryos | RF Lit Up 357 x PVF Missie 3156

LOT 141C 5 IVF embryos | Brooking Emerald 9179 x PVF Missie 3156

In the Spring of 2024 we came across this exciting fall born female from the well respected Prairie View Farms operation in Illinois. Missie 3156 is an own daughter of the popular show sire, PVF Marvel 9185 and she is mothered by 6228 who herself is a past NWSS Reserve Champion Female. Missie 3156 also has a full sister that was a \$100,000 show female that went onto to be a reserve division female at Angus Junior Nationals. PVF Missie 3156 was shown this past summer by Riley Bohrsen at Angus Junior Nationals in Madison, Wisconsin where she was second in a tough class to the Division Champion female. 3156 is soft made, elegant built and still stout and powerful where she needs to be. We feel her type and kind will nicely cross with the likes of the phenotypic outlier, the \$190,000 RF Lit Up 357 as well as the incredible Brooking Emerald 9179 AND the elite Simmental breeding sire, RF Caliber 014G. What an incredible array of embryos. **Calved on December 5, 2025 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.**

A true sale feature and always has been! The lead off and high seller from the 2024 KT Production Sale was 3342 at \$105,000. She is one of the most incredible daughters of Emerald 9179 and is backed by the big time production cow, Countless 9026 who is also the dam of the \$270,000 Brooking TW 4022! 3342 is a unique blend of power and depth of body with a long, refined front end. Her neck to body ratio is truly admirable and her udder quality is second to none and exactly as expected by the pedigree. We think the world of this donor female and just know she is set to have a large impact. These 3 special matings are some of the very best available and include Erica 74A's most exciting son, External Law to inject some of her potent breeding capabilities, the legendary Density 4336 as a popular throw back bull that continues to leave his mark and as well as Mendoza 271 who is out of our favourite cow at Colemans all time, the great 5247.

KT Countess 3048 is one of those females; the instant you see her, you know you need to own her. Brooking Angus and Black Gold Simmentals paired up to purchase her as the co-top selling female at KT's production sale for \$105,000. KT Countess 3048 is moderately framed, square-hipped, excellent-uddered, good-footed, and attractive-fronted. She spells femininity and maternal function all over. The Emerald daughters are incredible in production and set a new standard for what a cow should look like and do. The Countess cow family is making waves for everyone involved with them. The grandam, Brooking Dusty's Countess 9026, is an absolutely incredible female. Massive rib, stout, docile, extra substance, feminine, and most importantly productive. Remember, Brooking purchased embryos out of Countess 9026 in this exact sale for \$4200 per embryo and in turn sold Brooking TW 4022 for \$270,000. Only at NYR are these embryos available.

Brooking Countess 7077 is a female that needs no introduction. The many times Supreme Champion female, she is the anchor to what is currently one of the most dominant cow families in Angus circles. She is the dam, granddam and great granddam to a line of cattle that have the ability to be dominant in the pasture, showing and salering with a handful bringing \$100,000. Countess 7077 is still an incredible looking cow with lots of gas in the tank. The matings to New Heights, Lit Up and Casino are some of the most exciting matings ever made at KT, with huge upside potential and big time ROI opportunity.

LOT 146 3 embryos | **Coleman Mendoza 271 x Brooking Beauty 8187**

Brooking Beauty 8187 sold half interest in the 12th Brooking Open Book sale for \$80,000 to KT Ranches. She is visually impressive and one of the unique donor cows you will find anywhere. She has an overwhelming amount of mass, power, volume, and is combined with an attentive, attractive look. Moreover, she has a world-class quality udder and maternal appearance. I consider her to be one of the best Natural Law daughters I have ever seen. It's a big statement when you consider Bar-E-L Erica 74A, Bar-E-L Bride 28C, and Brooking Countess 7077 are all daughters of Natural Law. This cow family is fertile and productive. Her dam, Brooking Beauty 333, has over \$1.5 million in revenue, and Brooking Beauty 8187 is forecasted to follow suit. Her most noted son, Rust Forged of Fire, was the Supreme Champion bull at Farmfair International for KT Ranches. Another son, Brooking Chosen One, was a feature in our 2024 bull sale, selling for \$45,000. A daughter was a \$50,000 feature in last year's Brooking female sale and went on to get the "glitter slap" at Farmfair's junior show. Not to mention many others. Coleman Mendoza semen is fetching \$7500 for a package of 10 straws these days. This mating could be the calf we all dream of.

LOT 147D 3 embryos | Duff Eco Boost 22208 x Brooking Beauty 3068

Brooking Beauty 3068 had an incredible amount of admirers while she was campaigned for two years. She started off as an \$80,000 heifer calf to Lindskov's LT Ranch and Duff Cattle Co. in Brooking's 11th Annual Female sale. She went on to win many championships over the following two years, highlighted by First Lady Classic champion female overall breeds, Reserve Grand Champion Angus female at Agribition, Lady Elaine Bracket Champions and many others. Brooking Beauty 3068 is powerfully constructed as she is very wide-made, has massive rib, is good-looking, and moves soundly with an excellent udder. She is the best of the best, combining Emerald and Beauty 333. Again, offering elite sire matings that you can only acquire at NYR. We always hold nothing back, and these embryos will put you in the driver's seat.

LOT 148D 5 IVF embryos | BNWZ Dignity 8017 x Brooking Beauty 1036

A crowd favourite from the great Brooking Invitational 10th anniversary sale was this stunning maternal sister to the breeding giant, Brooking Emerald 9179. Beauty 1036 is such a great mix of both sides of her pedigree. She is so similar to 6051 in terms of depth of body, udder quality and an overall great look, and has the classic power and dimension the America cattle are known for. It was easy to make sire selections to use on a female like 1036. She is the kind you can utilize any bull with and it will be a good one. Sexed Density is big time and you can just envision the females this pedigree will create. Sexed Radville is a big time mating as you add in the legendary Bismarck and the million dollar producing Beauty 333 to the mix, his daughters have topped the show and sale ring for a couple of years now. Dignity 8017 has become a very proven sire south of the border, he has raised many show champions and his daughters continue to top sales all across the states. Brooking TW 4022 is the past \$270,000 herd bull to ZWT and CSD where he too has been kept close to the chest and one of the only ways to enjoy his use is through exciting embryos such as this. We also have embryos by one of the hottest new bulls in the SIMMENTAL breed, Intensity 3142, whose full sister was the 2025 Farm Fair Supreme Champion female.

We think it's harder to write a better pedigree than Beauty 1197. A full sister to the breeding phenom, Brooking Emerald 9179. Beauty has that undeniable, easy to identify Beauty look, being awesome skulled, angular made with a tonne of dimension. She has a classic Renovation udder with perfect sized teats and a satchel that goes from her twist to her navel. Beauty 1197 is a female we are extremely excited to watch get progeny into the industry. Embryos by the \$190,000 RF Lit Up 357 are very exciting as his first calf reports have been extremely encouraging with folks saying they have the extra presence and style with added mass and substance of power and bone. Lit Up has been kept very exclusive and this is a great opportunity to get in on his genetics as well as the beautiful 1197.

LOT 150C 3 embryos | S A V Courage 3003 x Greenwood Beauty JJP 58H

58H is a powerhouse female that commanded a \$160,000 valuation to Blue Hills in Evolution Volume III, before going on to become a many-time champion, including the 2023 Farmfair International Supreme Champion Female, earning a perfect scorecard. Although we have only begun to tap into what she can do in production, her first three daughters have already averaged over \$26,000. The sexed Mendoza embryos are as exciting as it gets in terms of potential return on investment. The Courage calves were among the favourites of nearly everyone who toured SAV this summer, and the sexed Dignity embryos are almost certain to result in a very fun and competitive show heifer. These matings offer serious value and upside to any progressive operation; the Beauty 6R cow family is the real deal.

LOT 151B 5 IVF embryos | BRDG Mahogany Prime 904B x Coleman Beauty 058

A direct daughter of Beauty 5R! A legendary female best known as the dam to the great Soo Line Motive 9016 who left a huge mark on the breed as a highly maternal, calving ease sire. 058 is packed full of maternal greatness, she has a real sharp look to her front end, with a deep, full rib shape, awesome udder and is the epitome of the Coleman type and kind we all appreciate so much. Mated here to a pair of exciting bulls that will positively impact the industry going forward with the popular BC Robust 0807 who continues to impress as his offspring possess added denseness of body, muscle shape and power. Mahogany Prime is a past decorated show bull himself in the US and has gone on to sire offspring that continue that same tradition. His progeny consistently have a unique build with extra neck extension, hair and bone.

Beauty 912G is all that and more. She is an own daughter of the great Beauty 6R and of Bank Note 4040. She is exactly what you would expect her to be when you read her on paper. Big bodied, deep ribbed, strong footed with an exceptional udder. She is proud and up headed with a beautiful skull carriage. Emerald 9179 is the most popular bull in the breed at the moment and it is because of the multiple \$50,000+ sons and daughters he has produced that are not only dominating in the show ring but are tee'ing themselves up to be the next great generation of Angus genetics. External Law is an exciting son of the legendary Erica 74A who is adds one more big time cow family to the recipe.

LOT 153C 3 IVF embryos | Ellingson Prosper x Coleman Donna 0153

Donna 0153 is an outstanding young producer for the Coleman Angus Program. She is a model female with an exceptional udder attachment. Rib shape, mass and power. She has been a production phenom early in her life as her first natural calf was the \$300,000 valued, Coleman Below Zero 2106. In the fall of 2025, her son Coleman Avalanche 487 highlighted the Coleman production sale when he became the \$500,000 valued herd bull to Montana Ranch and Canadian Sires + Donors. The matings to Glacier 041 would make these full sib embryos to the great Avalanche 487, who is going to be a very impactful sire going forward. Ellingson Prosper topped the 2024 Ellingson Bull Sale at \$295,000. He is a bull that is built extremely well balanced standing on exceptional feet with a great claw and angle score. His stout built phenotype also brings forth an exciting set of epds ranking him high in all growth and performance categories while maintaining a high level of maternal backing as his dam is a stunning member of the famed Emblynette cow family.

Donna 720 is our exciting donor that's a full sib to Glacier 041. She is angular and the definition of wedge shaped. 720 has a flawless udder design and is extremely attractive. In the spring of 2024, a son of 720, KT Free & Easy 3054 was a high seller to Ferme Leblond in Quebec. Her embryo matings by the likes of the breeding phenom Emerald 9179, well recognized show sire, KR Casino 6243, high seller at \$220,000 Greenwood Revenue 175M and exciting UDE New Heights 62/87 are a very intriguing array of sires to be utilized on a cow of this magnitude. All these bulls are backed by incredible donor cows. Emerald needs no introduction as his influence continues to be felt with each passing year. Casino has been there, done that and annually rises to the top of one of the most decorated show sire of all time that still leaves incredibly productive females behind once they leave the show ring. Revenue is a new pedigreed calving ease sire out of a lethal weapon of a cow from the great Greenwood program. New Heights is the new show bull that has left his mark again as the sire to multiple \$100,000+ sale cattle and show champions across North America.

LOT 161B 3 embryos | Ellingson Progressive x Greenwood Tibbie JJP 75G

75G is a phenotypic favourite in our herd for her overwhelming body mass and power, all while being structurally ideal and exceptionally feminine through her head and neck. When I walk through the front pasture, I catch myself stopping to look at her almost every time; she has that rare ability to make you pause and stare with her presence and perfect stance. In natural production, she has exceeded every expectation. Her most notable daughter sold to Double RN Ranching for \$90,000 in the Evolution, and her four natural-born daughters have averaged \$40,000 earning her a top spot on a donor lineup we are extremely proud of. Our first ET calves are on the way, so this is a chance to get in near the ground floor on one of our favourite daughters of 28Z. 75G was the 2025 Canadian Western Agribition Grand Champion Angus Female. The matings offered are as fresh, relevant, and marketable as we believe you can make.

LOT 162E 3 or 5 embryos | Black Gold Tangleflags 31L x RRD Tibbie 28Z

28Z has become a household name in the Canadian Angus herd book, with multiple sons already working by AI and daughters establishing the next generation of elite Angus cattle. She has surpassed \$600,000 in direct progeny sales, with more than 95 percent of those being bulls, and she is set to headline our 2026 bull sale once again with another powerful group of sons. This is the first true opportunity to put your prefix on a direct 28Z daughter, and if your embryos result in bulls, you can be confident they will be highly marketable. The guesswork is eliminated with this proven matriarch; 28Z simply works, no matter how she is mated. Take your pick between full siblings to the 75G female who won Agribition this fall, the new and exciting Mendoza or Courage matings, or some of the most elite Sim/Angus embryos you will find. Opportunities from a cow of 28Z's stature are few and far between and this very well could be the only time we ever open the vault.

Brooking Rose 9076 is an absolutely mouth-watering, dream female—the kind that stops you in your tracks. She is truly rare in her kind, combining world-class femininity, power, and a near-perfect phenotype into one stunning package. Without question, we believe she stands among the very best females to ever carry the Brooking prefix. Her dam, Brooking Rose 201, was one of our all-time favourite cows—a remarkable female we sadly lost too soon. She was a full sister to Rose 1019, and many would argue she was our best female. That influence shines through in 9076, who consistently transmits the same elite quality, style, and presence that made her cow family famous. Every calf she raises is stamped with that unmistakable Brooking look—powerful, balanced, and uniquely special. Big-time matings with the \$270,000 Brooking TW, \$90,000 Brooking Tradition, who was just recently Reserve Grand Champion bull at FarmFair and Blair's External Law.

LOT 168 3 IVF embryos | BNWZ Dignity 8017 x Blair's Rose 619G

The Rose family needs no introduction and is as potent in production as any cow family in any breed. More proof of that lies with our 619G donor who herself is sired by the legendary Casino. With Casino semen bringing \$2,500-\$3,000 per straw, obviously the industry recognizes his quality and maternal value. 619G has been stellar in production, with 3 of her daughters averaging \$24,000 in Quality Control. Her latest accomplishment was the \$37,500 high seller in 2025 to Canadian Donors and Kamlah. The most popular and impressive Angus calf raised at IRCC, that same calf was recently slapped Senior Calf Champion at the Royal, in what was a huge and competitive division. The mating to the modern-day phenom and dominant sire across multiple breeds, Dignity was a no-brainer after our summer tours, as his progeny stood out in pastures and show rings everywhere. This mating will be similar to the 2025 favourite and will offer the proven Rose cow power with cutting-edge genetics from a sire who is on the brink of setting the Canadian Angus industry ablaze.

Embryos are qualified for CAN, USA & MEX

LOT 169 3 IVF embryos | S A V Courage 3003 x Merit Flora 1004J

This is a mating we are extremely excited about! One that you want to keep all to yourself, but... "tis the season!" A highlight donor that we are extremely proud of, 1004J is a direct daughter of the ever famous Flora 6078; with an outcross flare, she offers any program and the breed itself so much. A maternal sibling from our program recently sold through the Brooking Open Book Invitational, commanding \$65,000 for a two-third interest. Direct 1004J progeny, both bulls and females, have recently topped Merit sales as well as our own from the very immediate onset of her production. SAV Courage 3003 is a bull that we have been impressed with since first seeing him as a calf while on tour with Kelly at SAV. His added bone and muscle shape, combined with his extended front third and eye catching look, were all traits we strive to see in our own program and we feel he is just getting started. Our Courage calves have made us proud this fall with each one being impressive and among the very first to show off in Canada! Backed by two industry leading matriarchs Flora 6078 and SAV Blackcap May 4407, these embryos are set to impress. Be among the very first with this pedigree and raise a high performance heifer bull that will knock your socks off, or a female that will be a feature in your donor pen. Better yet, why not both! "So if it wouldn't be too much to ask I'd like to get something for you Clark, something clck, real nice."

LOT 171 3 IVF embryos | Coleman Mendoza 271 x Merit Socialite 1028J

The 2024 Canadian Western Agribition Champion Merit Socialite 1028J has been admired by all who have seen her for the immense volume and capacity in an elegant yet powerful build. Her breeding value has been solidified early by sending her bull calf last year to 66 Ranch for \$47,000 as well as an Amplify heifer highlighting Cattle in the Snow. Her sons will be highlights in our 2026 bull sale! Paired with Coleman Mendoza who offers outcross genetics with tremendous body, muscle shape, and hair in a perfect structured package.

LOT 172 3 embryos | LT Flint 4005 x Six Mile Lassie 217H

This mating gets us fired up! Lassie 217H is a maternal sister to the Reserve Champion Black Angus Female at Agribition 2025 and the dam of the \$80,000 Six Mile Lassie 92K. We have a handful of impressive calves out of 217H on the ground. They are powerful in their design, phenotypically striking and sound. LT Flint was our choice of the notable LT offering in 2025, and in our opinion the best bull we laid eyes on in the 2025 sale season. Get in on the ground floor with these embryos and be some of the first Flint calves in 2027!

LOT 175A 3 IVF embryos | Ellingson Prolific x Whitestone Kem 7188

LOT 175B 3 IVF embryos | Coleman Mendoza 271 x Whitestone Kem 7188

Acquired through the 2024 Ingram Angus production sale where she was the top selling lot that day at \$77,500. Kem 7188 is a model Angus cow with angularity, dimension and udder quality. We love this mating to Mendoza 271 as we feel he is a big time calving ease option with explosive growth and backed by one of the absolute great cows in the world, Donna 5247. Mendoza sired the popular \$95,000 heifer calf for Rusylvia/Shologan in the fall of 2025 amongst many other popular daughters that were exhibited. Ellingson Prolific is also backed by an incredible cow that ranks near the very top of the powerful Ellingson cowherd. He improves feet and stands on a big set of timbers with loads of shape and mass. Ken 7188 has all the credentials to make a huge impact and we suggest getting in on the ground floor of her genetics!

LOT 176C 3 embryos | HF Hi Country 7L x Bar H Rita 110H

Bar-H Rita 110H is one of the most unique females we have ever purchased. She was the \$26,000, 2021 CWA National Angus Show Jr Champion female and our pic of the 50th Anniversary Sale that year. So elegant in her design and makeup shes the type of cow everyone always asks about when they tour. Her daughters are every bit as elegant as she is with her Gable daughter selling to Ter-ron Farms last fall for \$33,000 and her Investmet daughter(full sibs to embryos) selling to Murray Ranches just a few weeks at in the All Star Angus sale at CWA. Three different matings on offer, New Heights - the American sensation bull whose progeny are lighting up the show circuit south of the boarder, HF High Country, the \$185,000 heigh seller in the Hamilton Farms bull sale and finally Merit Investment- who has sired so many great females and bulls and semen recently just sold for \$1000 at public auction!

LOT 178C 4 IVF sexed female embryos | RF Caliber 014G x Montana Rita 7112

Our \$55,000 acquisition from the famed Montana Ranch was Rita 7112 as she was a model Angus cow with big time power and gorgeous femininity coupled with a perfect udder. She is a third generation donor cow that we are very excited to see work here in Canada. We have an exciting array of matings by Rita 7112 that we are excited to offer. We went a little off the record here to the most popular black SIMMENTAL bull in Canada, the great Caliber 014G to create something exciting in the SIMANGUS world. Napoleon has stood the test of time and are dual purpose sires that are so strong in their breeding capabilities siring both bulls and females that are extremely elite. Coleman Mendoza 271 is a bull we are very excited about and feel you will continue to hear a bunch more about with his rising popularity in semen sales. His daughter was a highlight in the fall of 2025 for Rusylvia/Shologan at \$95,000 to Double RN.

LOT 179D 5 embryos | Coleman Mendoza 271 x Bar-E-L Bride 28C

Bar-E-L Bride 28C was the \$100,000 high seller at the 10th Annual Brooking Angus Ranch Open Book Invitational to Coleman Angus, Brooking and Canadian Donors. She was a cow we had been following for years at the renowned Bar-E-L program and we knew we needed to own her. The right to flush 28C sold in 2023 for a staggering \$75,000 USD with a daughter recently bringing \$30,000 USD ... her popularity north and south of the border continues to increase with endless potential! The near perfect phenotype that you find in 28C is impeccable with a beautiful head, long and attractive front end, level and broad top with impressive body capacity and overall length while possessing a beautiful idea and good foot quality. Brooking Tradition is the exciting Next Generation son from Brooking that was the 2nd high seller in 2025 at \$90,000 to Rust Mountain View with big time maternal heritage backing him. Hummel South America is the outcross bull that has bred incredibly well, including son, Brooking TW 4022 at \$270,000. Progressive was a sale highlight at the 2023 Ellingson Bull Sale backed by an incredible cow.

LOT 182 3 IVF embryos | Ellingson Progressive x Mohnen Jilt 1412

This pathfinder has progeny BR 9@97, WR 6@111, YR 6@108, IMF 51@105 and REA 51@100. Her Pathfinder, Mohnen Jilt 1655, has progeny WR 5@106 and her Pathfinder granddam, Mohnen Jilt 910, has progeny WR 6@106, YR 5@103, and IMF 143@104. Mohnen Jilt 1412 is the most proven and productive daughter out of Mohnen Jilt 1655, who is one of the most influential females in our entire cowherd. Her great-granddam, Mohnen Jilt 910, needs no introduction to the Mohnen prefix. Mohnen Jilt 910 was in every pedigree in our Champion Carload of Bulls at the 2015 National Western Stock Show. The Jilt cow family is rare in its longevity. Her dam lived to be 18 years of age, with her granddam, Mohnen Jilt 910, living to be 17 years of age. Jilt 1412 and her sister are still going strong at 14 years of age and no doubt will be able to pass up their dam and granddam. Jilt 1412 is super sound, with a gorgeous udder with small teats and excellent udder attachment for 14 years of age. Mohnen Jilt 1412 has 24 daughters retained in our herd. Recently sold a daughter to Glenmary Farms for \$44,000 in 2024 Female Sale. Jilt 1412 has sold 50 sons through our annual bull sales for a total of \$509,000 to average \$10,100. Recently sold a heifer private treaty for \$25,000 valuation that is a full sib to these embryos selling.

LOT 188D 3 IVF embryos | Montana Judgement 1038 x LFE BA Jennifer 29J

Jennifer 29J has accomplished big things in a short period of time. She is best known as the dam to the \$190,000 RF Lit Up 357 herd bull at Duff Cattle Co and raised an exciting daughter that sold through the Angus Collection to Sadler Ranches. 29J is a performance Angus female with a beauty udder. External Law is an Erica 74A son that has bred extremely close to her type and kind on the female side and bold and robust on the bull side. Panther 1906 was a past \$150,000 sale topper at Schaff Angus Valley and he is a bull that has gained popularity with every use. Jennifer is a big time production female still just young at age.

LOT 188B 3 embryos | Brooking Next Generation 1038 x U2 Georgina 478F

U2 Georgina 478F was recently purchased from Hillspride Fall Production Sale and has quickly found herself in a donor role at Mainstream. With her long body, feminine profile, and flawless phenotype, she's one to quickly turn heads on pasture tours. Her mating to the \$220,000 SITZ Eternity is an opportunity to elevate your herd with maternal characteristics without sacrificing performance. If you're looking for style, performance and flawless foot structure, this mating is a no brainer. Our second mating to none other than the high selling Brooking Next Generation creates a unique opportunity to get in on some proven genetics. A Next Generation daughter recently commanded \$110,000 in the Brooking Open Book Invitational. Next Generation is backed by the iconic Soo Line Rose 1019 cow, who is known for producing many notable offspring. The combination of Georgina 478F and Next Generation will produce big time maternal traits, while adding look, mass and power.

A past graduate from the NYR sale when 50% of Conanga 2E was offered for sale. We had seen this female at many stages of her life as she was a selection we made to sell at Power & Perfection as a heifer calf where she was a high seller that day and then was shown as a mature pair a couple falls back where she would make a tonne of fans. Her huge barrel, depth of body, power and mass with great maternal qualities. We can't say enough good about the bulls utilized in the matings to 2E. Brooking TW 4022, the popular bull that commanded \$270,000 in the spring of 2025, is one of the most impressive herd bulls you'll ever lay eyes on backed by a super Firebrand female from the Countess cow family. Coleman Platinum 2622 is backed by the super Chloe cow family and he himself has a sale evaluation of \$340,000.

A full sister to the great Coleman Triumph 9145 is the gorgeous Chloe 167!! Her donor dam, C815, never goes out of style and just recently was a 1/2 interest \$100,000 high seller at nearly 10 years of age! Why not utilize genetics by one of her greatest daughters! 167 is as angular and crisp in her lines and she is deep bodied. Her udder is flawless and she has great Angus Character. Mated to the \$270,000 Brooking TW 4022 is truly exciting as this dude continues to impress with each passing day. He cracked the top 10 at CWA's Beef Supreme as a calf and was commended by all who laid eyes on this stylish, performance driven individual who is soft made, hairy and strong footed. We feel he is going to play a pivotal role going forward to better enhance operations. Coleman Below Zero is the low birth, explosive growth herd bull with a very deep cow family.

Here is a full sibling to the great breeding bull, Brooking Firebrand 6068! Firebrand daughters have really found their way producing highly sought after progeny and his full sister 13H is no exception. Just like their powerful dam, 390, 13H possesses tremendous rib shape and confirmation that is second to none. Udder quality and big strong feet are a given with 13H and her progeny as it is truly bred into these cattle. 13H looks show ready year around and is always ready for a scratch. The cross with Dignity 8017 is one we feel will be very complimentary to both individuals as his unique pedigree, look and outline will be a welcoming addition to 13H. Brooking TW 4022 is a bull we are going all in on as we believe in him so much with his elite phenotype and potent cow family behind him. TW is exclusive and this is a great opportunity to secure some of his genetics.

A unique opportunity we are presenting here with Black Lass 4F and LT Marquee 169L. 4F is an extremely productive and consistent female made for the real world. 4F amplifies an excellent foot and leg structure, long body and excellent udder and teat placement, she is one of the strongest milking females on the place and puts everything into her calves year after year. Her bull calves have topped our scales and prices. Her prodigy are also no strangers to the show ring and collecting banners. 4F's first calf was PF Hendrix 8H and maybe her most exciting bloodline came this spring "PF Black lass 16N", whose story is just getting written but has already been named the 2025 show heifer calf of the year. LT Marquee 169L drew our attention this spring, a new and exciting herd sire in the Angus industry, this cross is sure to make something special.

LOT 194C 3 IVF sexed female embryos | S A V Density 4336 x Chels Lux 37K

Here are some very unique and promising embryos. CHELS Lux 37K is a female that will stop you in your tracks when you see her. She was a past highlight in the Evolution sale and One that has been picture perfect her whole life. Awesome udder, great feet and awesome bodied with an awesome look. She had a very successful show career with making lots of friends when she was shown as a bred and then coming back out as a pair the following year. Her first progeny hit it out of the park being a \$24,000 highlight in our 2025 bull sale and following it back up with having another bull calf in the pen for our 2026 bull sale. You can't go wrong with any of these matings with having the \$70,000 Coleman Mendoza 271 mating which will be very exciting with seeing how the Mendoza offspring have been dominating the sale and show ring with offspring topping sales at \$95,000 already we think the homework is done on this mating. Or with the \$280,000 half interest high seller UDE New Heights something that is new and outcross and very exciting and paired with 37K we think a whole lot of this mating. Probably the most proven and highest quality mating would be the sexed female SAV Density who needs no introduction to the cattle industry. If your looking to make some big time angus females that will be productive and pasture front females than this is the mating you need. With this young donor just starting to blaze her own path and these matings this is a rare opportunity to get on ground floor with some of the best angus genetics.

TW is a special individual and is arguably the most popular bull ever produced at the Brooking Angus Ranch. He is the only Angus Bull Calf in Agribition history to crack to the coveted top 10. He was the \$270,000 powerhouse from the spring 2025 bull sale season where he was commended for his remarkable blend of power, rib, dimension, muscle, mass and looks all while remaining so sound, this lethal combination really draws you in and to see him today you can see he hasn't slowed down and looks the best now today as he ever has. His donor dam, Countess 9026, is a visually impressive female that can flat out produce. She was along side her dam, 7077, when they completed the FarmFair and Agribition Supreme sweep in 2019 and are still referred to as one of the best pairs to be shown in recent memory. TW is sired by the outcross South America sire adding flexibility to the utilization of TW while keeping the guess work in check as SA continues to impress with multiple high sellers graduating from programs across North America. TW is poised to become a household name and we feel this incredible, once in a lifetime sires has large potential.

LOT 200E-F 10 doses | 5 dose packages of semen on TOPP Standout 1072

Topp Standout 1072 is a bull we tried to buy in the spring of 2022 after he rose to the top of literally hundreds—if not thousands—of sale videos we had watched. We came up short on owning the bull, but secured all the Canadian-qualified semen. We sampled him on some heifers and a couple donors with high hopes, but even those expectations were surpassed. It is rare to find an outcross sire from a high-quality mother cow that offers this combination of calving ease and growth. His calves come small, then develop into stout, heavy-weight cattle with power and performance. Although we have not had a huge volume of calves, Standout has proven he can work on almost anything. His first seven sons we had the privilege of marketing were led off by the \$220,000 Greenwood Revenue 175M, and the group averaged over \$66,000. The daughters are every bit as impressive and are developing near-ideal udders. This is an exclusive opportunity that is guaranteed to leave you with high-quality, outcross cattle with strong feet, great hair, impressive phenotype, and excellent docility.

LOT 202A-J 50 doses | 5 dose packages of semen on Cowtrax Milwaukee 153L

The first offering on the Angus herdbull that lit up the show road this fall! Milwaukee has been revered as the Beef bull that is right for today's landscape. Explosive muscle shape, stout construction, and smooth design in an athletic build. His first crop of calves highlight the pen at Merit. Milwaukee blends a vision Colt Kornfeld had when solidifying his cowherd as one that is built around maternal heritage and real-world performance. Backed by the "Pick of Hamilton's", HF Echo 314F cow, that has cranked it out of the park while consistently putting progeny in the very top cut of bulls and heifers. Along with HF Mastermind 98H, Dave Longshore and Colt's pick of Hamilton's in 21, that stems from the infamous HF Tibbie 100M. All the guesswork has been taken out as his lineage is littered with decisions made by some of the Canadian seedstock industry's greatest stockmen/women. The 2025 Canadian Western Agribition Champion will continue to make a true impact in the Angus breed for years to come.

Semen is stored at Alta Genetics
Semen is qualified for CAN & USA

LOT 207A-J 100 doses | 10 dose packages of semen on Brooking Tradition 4064

Brooking Tradition 4064 was the second-top-selling bull in Brookings bull sale at \$95,000 to Rust Mountain View Ranch. Brooking Tradition 4064 has been admired his entire life for the type to bring power to the Angus breed. Tradition is a muscular, big-boned, full-hipped, masculine, docile, and a great-looking herdsire. He has that uncanny combination of power and type. He stands on excellent feet and boasts claw and angle EPDs to match. He also is in the top 3% for WW, YW REA, Teat, and udder EPDs. His dam, Greenwood Tibbie JJP 82H, is very similar in ways to Tradition, being massive-made, extra bone, easy fleshing, super quiet, good-haired, good-uddered, good-footed, and among the favourites of visitors to the ranch. Tradition was one of the heaviest-used sires at Brooking this past spring and is excited for the future of this promising sire.

This is one special individual. Lit Up was truly the talk of the 2024 bull sale season and was a man amongst boys right from an early stage of life. His undeniable herd bull presence, look, skull and crest tie up high from the point of his shoulder and come down on an absolute ripped top line with muscle and substance to spare. Lit Up is a power herd bull with ample body shape, great feet and just a real intriguing look. He is an own son of the great Brooking Emerald 9179 who has been blazing a trail of his own siring high sellers and show ring division champions across North America. Lit Up's donor dam is a past high seller out of the Angus Collection that is from one of Lewis Farms most cherished cow families. 29J is a big bodied, sound structured female with a big time udder and very strong feet. Lit Up was admired by all that seen him in 2024 and after he sold for a record \$190,000 to Duff Power Plus, everyone was clawing to get some semen on him which has remained extremely exclusive. The first calf reports have been very encouraging and the sons available for 2026 are going to be worth the look. This is a big time herd sire with worlds of potential, get in on the ground floor of Lit Up 357!!

Semen is qualified for CAN

LOT 209A-F 30 doses | 5 dose packages of semen on BAR-E-L Stamina 11F

Stamina has proven himself as an exceptional breeding bull. Not often is a sire able to have both sons and daughters that are extremely valuable and he has done just that. To date we have sold 92 offspring for an average of \$12,400, with male and female averaging close to the same. With 319 calves on the ground to date, we are confident in his ability to sire cattle that are sound and easy fleshing and still have enough performance. His daughters have udders that are a pasture calving dream; they are tight, level, with a nice teat size. Birth weights are consistent, his calves have great hair, and the center body mass in his offspring is unmatched from any sire we have used recently. The maternal strength behind him is exceptional with the Beauty, Rose, and Echo cow families in the pedigree. There will never be a day when we decide that we have too many Stamina offspring in the herd.

LOT 214A-J 100 doses | 10 dose packages of semen on Greenwood Four Mile 47J

Greenwood Four Mile 47J is engraving his name as a proven calving-ease specialist who gives up nothing in terms of power, and his progeny are speaking for themselves. His pedigree is stacked with exceptional maternal strength, backed by generations of elite cows, most notably RRD 28Z who is quickly becoming recognized as a truly prepotent female. Most recently, a direct son of Four Mile enjoyed a dominant fall show run for Murray Farms, while a maternal sister was named the 2025 CWA Grand Champion Female much like himself when Four Mile was the 2023 Agribition champion. Four Mile is proven, predictable, heifer-safe, and maternally oriented; an elite combination. Semen has been kept extremely limited and held at a high valuation privately, and this will be the first and only semen offered for the 2026 breeding season.

LOT 215A-F 30 doses | 5 dose packages of sexed female semen on KT Commander 4680

KT Commander 4680 is an up and coming herd sire to be desired on many levels; his herd bull characteristics, massive dimension, fleshing ability, ease of movement and massive scrotal. Arguably the most exciting thing about Commander 4680 is the cow families that back him up; they are some of the most recognized cow families in the Angus breed. His dam KT Chloe 1021 is the next up and coming donor at KT Ranches and already has proven herself by producing the high selling bull in their 2024 Sale. Chloe 1021 is a direct daughter of non-other than Lawsons Chloe C815, one of the most potent breeding pieces in the world. Add in the all-time high income producing cow at Coleman Angus Ranch, the \$290,000 valued Coleman Donna 714. On the top side of the pedigree, you will find the remarkable Brooking Beauty 6051 who is an ideal Angus female with a truly impressive production record. Along with the SAV Madame Pride 0151 being a direct daughter of the SAV Madame Pride 0075 who has generated \$5.4 million in progeny sales. KT Commander 4680 has the ability to propel any program forward with his overall look and potent cow families backing him. Sexed female semen from a bull with this kind of maternal backing is as sound of an investment as you can do. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

LOT 216A-F 30 doses | 5 dose packages of sexed female semen on Brooking Radville 2208

Brooking Radville 2208 has delivered everything we expected and then he exceeded it. He is the rare kind of herd bull that checks every box with true calving ease, real performance, elite maternal strength and the attractive herd-bull look that Brooking cattle are known for. Radville does it all, and then some. His first calf crop only strengthened our belief in him, highlighted by a \$70,000 heifer selling to a group of Mexican breeders, a testament to his marketability worldwide. His progeny are stamped with that signature Brooking quality that are deep, well balanced, structurally correct cattle with a one of a kind look and presence. Radville is backed by Brooking's #1 income-producing female, Beauty 333. She is the epitome of class, production and literal beauty. Her influence runs deep across the industry and her daughters continue to cause a huge stir and be in high demand every time they are offered, which isn't often. The strong maternal backing Radville solidified our decision to make sexed female semen to offer up for sale. This is the best way to stack predictable maternal quality, Radville 2208 is a bull that brings long-term value to any operation. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

SAV Maternal Gold 4081 embodies all the maternal components and phenotypic qualities to be one of the truly great breeding bulls to come from the Schaff Angus Valley program. He is super-fronted, long bodied and soft made with superior soundness with majestic herdbull presence. He anchored one of the most popular flushes to ever sell a SAV and his flush sister is the favourite of the entire SAV replacement pen. Maternal Gold comes from the maternally inspired mating of Renovation to the legendary 12 year old pathfinder, SAV Madame Pride 3145, who is the current top income producing cow at SAV. His dam records a weaning ratio 107 on 9 calves and has 48 direct daughters employed in the SAV cow herd while 77 progeny have tallied \$2.3 million in past sales, including SAV Anthem, SAV Glory Days, SAV Riptide and SAV Circuit Breaker. SAV Madame Pride 3145 will be the most influential cow of the 2026 Schaff Angus Valley sale with 63 progeny selling. Maternal Gold 4081 will have a lasting maternal foundation and leave beautiful, productive females to fill your front pasture.

PICK OF THE RED ANGUS COW HERD

W Sunrise :: Lundbreck, AB :: 403-741-5075

Pick to be made by September 1, 2026

One of the most recognizable cow herds in the Red Angus circles across North America is the renowned W Sunrise program in Southern Alberta. This star studded cowherd is anchored by some of the phenotypically stunning cows you will find with a lifetime of production backing them. They are responsible for one of the strongest bull sales each and every spring where commercial and purebred cattlemen annually attend to purchase a piece of the W Sunrise cowherd. The influence through those bulls to transmit their strong maternal heritage into customers operation has been elevating and it's always exciting to hear about W Sunrise sired females topping commercial heifer sales across the province. The W Sunrise cowherd has been impactful in the entire beef industry, no matter how you look at it. Their focus on real world traits without sacrificing look and eye appeal is what comes to mind when you think of a W Sunrise female. Their red cattle always have added look and flash and are bred with a large emphasis on foot quality, udder strength and overall do-ability. The W Sunrise cows always put fourth one of the most viewed and toured pens of bulls and the odd year when they allow a female to be sold through consignment, they are always in high demand. Tanner, Megan and Family have also assembled some of the most exciting herd bulls to utilize in their progressive operation as well as exclusive semen packages, giving you the chance to select a cow that represents new and hard to obtain sire groups. The W Sunrise females hail from some of the most productive and sought after families in the breed and productive they are with many high selling sons. The chance to step into a cowherd of this magnitude and pick the female of your choice is truly exciting and something that doesn't just happen every day. Take advantage of the hard work and program the Walgenbach's have built and select the female that best suits your needs and program. A once in a lifetime opportunity in a special lot from W Sunrise.

LOT 220F 4 IVF embryos | Red Allison Prestige 114M x Red Six Mile Shawnee 388H

388H came to us via the good Six Mile program. She is an absolute rocket when you lay eyes on her. Very attractive, angular, deep ribbed coupled with a very desirable udder attachment. She ranks right at the top with some of our very favourite donors on the place of all breeds and is always noticed by guests touring around. Her mating's to the powerhouse, Pistol Pete, have us very excited. Pistol is a Clash son out of a big time brood cow from South View. We feel Pistol Pete is what the red breed has been asking for in a bull that packs a little extra punch while still not sacrificing eye appeal and maternal. U2Q Double Down 4514M was our 2025 selection with Ter-Ron as the \$135,000 high seller where he was commended for his immense capacity, foot quality and muscle shape. Red Allison Prestige 114M is a dark red calving ease bull that caused a huge stir in 2025 when he was fought over by breeders from all over. His \$97,500 price tag reflects his quality and the void he will fill as a calving ease bull that still has ample shape and power with awesome feet and awesome dark hair. Exciting set of matings here from our leading red lady. *Calved on December 16, 2025 and will coordinate to flush at BVG, DRI or Abbotsford after pending on buyers choice.*

LOT 224 3 or 5 IVF embryos | Red SSS Good Time Charlie 364J x Red Wheel Annie Oakley 57J

Annie Oakley 57J is a next generation donor in our program and for Blairs.Ag Cattle Co. She was the stand out daughter of an extremely successful flush that produced 5 impeccable full sisters. She was campaigned extremely successfully by our son Tate as a bred heifer and finished her show career as Senior Division Yearling Champion at Agribition. That fall Kevin Blair acquired an interest in her privately. Annie Oakley 8B has been one of the most successful Red Angus donors in North America and has produced as many notable sons and daughters as any female. We have campaigned several sons and daughters with great success and topped many sales. We feel that Annie Oakley 57J will write her own story in her families history and that she will compliment Good Time Charlie perfectly.

LOT 226B 3 or 5 IVF embryos | WFL Mountain View 4J x Red Six Mile Ms Frado 344J

We set out to grow our SimAngus program, and when we found Frado 344J—"Baby Shark"—we knew we had to own her. She's proven herself in the show ring with wins including 2023 Canadian Western Agribition Red Angus Champion Female. But banners don't make bank—production does—and every mating we've tried with her has simply worked. In just a short time, she's generated multiple champions, including the Summer Synergy Supreme Champion Commercial Female and Farm Fair's Reserve Champion Percentage Bull. Our son Chick showed a Frado 344J x Loyalty heifer that stood out for her maternal look, and her full brothers will be featured bulls in the Harvie Crest sale this spring. If we didn't already have so many top-quality full siblings, these embryos wouldn't be available. Baby Shark has moved our program forward in a big way, and these embryo combinations will do the same for any herd.

LOT 227 5 embryos | Red W Sunrise Charlie 358L x Red Allison Lassie 10K

A huge opportunity to implant some of the most exciting embryos in the red angus breed this spring! Full siblings to this breeding are at the top of the bull pen and will be leading off the Allison Farms 2026 Bull sale! The sisters are some of the best females ever raised here. They are made with extra bone, hairy, and massive in body! Expect 85-90lbs at birth with explosive performance ranking in the top 1% for WW, YW, and milk! Lassie 10K is the full sister to the high selling heifer for \$28,000 at the Wheelers female sale! She has an incredible udder, excellent feet, and excels in pasture production! Red W Sunrise Charlie 358L was purchased for \$100,000 from W Sunrise and has produced powerful maternal females, the type in high demand in the red angus breed! These embryos are a low risk opportunity! Reach out or stop by to view the full siblings. This will be the only opportunity to obtain embryos from Allison Farms this spring!

LOT 228 3 embryos | *Red Allison Elysium 80J* x *Red Six Mile Lakota 340G*

What an intriguing opportunity to get in on the ground floor of one of the most appreciated matings in the Red Angus breed. These full sib embryos to one of the breeds elite up-and-coming young donors (the \$32,000 Lakota 2379) are sired by the \$22,000 Red Allison Elysium 80J who is revolutionizing the breed for mass, power and dimension. His sons have led the way across Canada the last 2 years in many operations with 22 of them commanding over \$20,000 including the \$115,000 phenom Paradigm 74L to South View. The females are beautiful uddered and raising big time calves that will be the future of many programs. Foot quality, udder structure, color and mass will be the characteristics that are bred in spades with this unique mating and you'll build around these genetics for generations.

LOT 229A-C 6 doses | 2 dose packages of semen on Red SSS Moon Pie 680K

Moon Pie 680K started out as a \$95,000 high seller to Cockburn Red Angus and Rohrich's Cutting Edge Ranch in the 2023 SSS bull sale. Since then he has been on fire siring high seller after high seller and with semen demanding up to \$4200 USD a dose. He stamps his calves with superior foot quality, dimension, growth and a style and presence that sets them apart. Daughters have sold for \$47,000 USD and \$45,000. His first sons topped the SSS, Cockburn and Rohrich bull sales this past spring at \$85,000 \$54,000 and \$27,000 USD. A son Bugatti 5008 was the Grand Champion Red Angus bull in Brandon and the lead bull in the Grand Champion pen of Red Angus bulls at Agribition along a paternal brother. With Moon Pie deceased and very limited semen ever released don't miss out on this opportunity. It may be one of the last.

LOT 230A-H 40 doses | 5 dose packages of sexed female semen on Red U2Q Double Down 4515M

The lead-off and \$135,000 high-seller at the 2025 U2Q Bull Sale has commanded attention at every stage of his development and represents all the necessary qualities of an ideal breeding bull. He is immense in his dimension, volume and capacity while having an abundance of natural thickness and substance of bone and stands on a large foot. His birth to yearling spread is impressive with a 78lbs BW and exploding to a 1512 adj. YW to ratio 126. His EPD tabulation is a strength where he is above average in 18 of 20 traits. But what might just be the most exciting thing about Double Down 4515M are the females that are backing him up on both sides of the pedigree with the likes of Rosebud 157C, Roberta 147C and Misty 350C. His dam, 350C, simply does not miss, putting countless sons into top purebred and commercial herds as well as having over 20 daughters in production at U2Q. Double Down 4515M is one of most well-rounded Red Angus bulls we have come across and excels at the fundamentals that make great cattle! Take advantage here on some exciting sexed female semen from a bull surrounded by some of the very best Red cows in the breed! ***Semen will be ready late - January 2026. This is the only sexed female semen that will be offered for the 2026 breeding season.***

LOT 231A-H 40 doses | 5 dose packages of sexed female semen on Red Allison Prestige 114M

Here is the dark red, hairy, calving ease Red Angus bull the industry has been craving. A bull that still has growth and performance with added look and presence, Prestige 114M is an ideal heifer bull with strong maternal upswing. He was a \$97,500 high seller and has been held exclusive until now. At just 68lbs at birth and grown up to over 800lbs at weaning, we think Prestige is one of the real true curve benders the breed has ever seen. We all know just how much demand there is in the industry for hairy, dark, low birth, high performing cattle and Prestige is poised to make a large impact through his daughters. ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

LOT 232A-H 40 doses | 5 dose packages of sexed female semen on Red SVR Pistol Pete 4M

The \$90,000 lead-off and high selling bull from the South View Ranch's 25th Annual Bull Sale. Pistol Pete 4M is full of red meat and muscle while still maintaining great eye appeal in a sound structured package. This guy is powerful and stout from any angle you view him, stands on a big square foot and is that ideal dark red color. His actual data is impressive with a great spread from birth to yearling and big scrotal. He was exhibited alongside his incredible 9-year-old dam where they were selected Reserve Champion Female at Agribition and Champion Senior Female at FarmFair. To analyze his gorgeous mother is to love her, and that made the decision to make sexed female semen on Pistol Pete a no brainer. It is easy to see why the Kaufmann family considers Red SVR Pistol Pete 4M the best bull to own the SVR prefix and call Ceylon home. An incredible bull backed up by an impressive cow that we think has a big future ahead of him! ***This is the only sexed female semen that will be offered for the 2026 breeding season.***

Red Allison Paradigm 74L is the \$115,000 phenomenon that created quite a stir in the 2024 spring bull sale season. He is one of the most complete, unique bulls that checks all the boxes that we have seen in the red angus breed to date. He is a high quality phenotypically correct made bull that is stout made and stands on a perfect foot. Paradigm is long bodied with eye appeal and an ideal skull shape. He is a nice combination of calving ease and performance. His first calf crop has sure made a mark. His bulls are built like him with power and look and will be the top of our bull pen in the 2026 spring bull sale. His daughters are stand outs in the replacement pen, they are deep bodied and stout made. His first calf crop has more than exceeded our expectations. Only chance at acquiring Paradigm semen for the 2026 breeding season.

LOT 236A-D 20 doses | 5 dose packages of sexed female semen on Red Wilbar Hennessy 3K

Red Wilbar Hennessy 3K is one of the most unique sires to ever come out of the Wilbar program. Aside from his dominating show career, Hennessy is a Grand Champion in the breeding field. His progeny is dominant amongst their contemporaries. Moderate birth, explosive growth to weaning and the ability to convert feed into pounds like no other bull out there. He consistently sires dark cherry red color, extra bone mass, great feet with added heel and thick, deep bodied cattle. His first daughters will calve this coming spring and look very similar to Hennessy's gorgeous dam. His progeny highlighted the spring bull sale season with a son commanding \$75,000. Look for daughters highlighting multiple sales this fall. Red Angus sires like Hennessy are hard to come by so jump at your chance to incorporate his genetics into your program. This is the very first of a limited amount of sexed female semen to ever sell on Red Wilbar Hennessy 3K.

LOT 237A-J 50 doses | 5 dose packages of semen on Red SHAG Rage 115

The influence of Rage 115 extends far beyond his own achievements, as his sons have been successfully marketed and integrated into herds throughout the United States and Canada. Breeders consistently report exceptional results, with Rage 115 progeny exhibiting desirable traits that translate into real-world value—deep-bodied builds, heavy muscling, and reliable performance. These sons are sought after not only for their show ring potential but also for their ability to thrive in commercial environments. His daughters continue to impress us for their easy keeping and strong maternal traits. The competitive edge of Rage 115 genetics was powerfully demonstrated at the 2025 President's Classic, where RED T-K 115 BATTLE CRY 10N was crowned Champion Red Angus Bull. Do not miss the opportunity to incorporate some great out cross genetics into your herd.

LOT 238C-D 10 doses | 5 dose packages of semen on Red SSS Guru 359M

The exclusive offering on one of the highlights of spring 2025, Red SSS Guru was THE dark red, high performance, quality packed Red Angus bull of the spring and he fetched \$85,000 to Oberle Circle 7. His sire, SSS Moon Pie has been an incredible breeding bull that is only gaining popularity with the recent success of his progeny (including the \$235,000 Wilbar heifer calf we will all be talking about for a while), and here is the next step in those genetics and out of another strong cow. Guru is an impressive specimen in the pasture for a dark red hided sire that has added frame, bone, and muscle and a really strong hoof underneath him. Guru is a performance oriented bull to power up and darken up these Red Angus cattle. Guru's dam is a cow that has done it year after year, maintaining a consistent calving interval and registering a calf every single year. The only semen sold has been one single large package to Moose Creek so here is the first and exclusive opportunity to use him. With Moon Pie semen a rare commodity, take advantage of his best son and advance your program with Guru.

LOT 242B 3 IVF embryos | RBM Keystone H41 x SOS Kardashian PLD 798K

With SOS Kardashian (Kim) coming off such a banner year in the show ring this fall we saw it fitting to offer these elite mating out of her. Kim started the fall shows off with bang, being crowned Supreme Champion Female at the Interior Provincial Exhibition in Armstrong, BC with her heifer baby Pinnacle/SOS Miss North 798N at side. They then went on to be selected as Grand Champion Female at the Stockade Round Up in Lloydminster, Reserve Grand Champion Female at Farmfair International, and Champion Mature Female at Canadian Western Agribition. Kim is a third-generation donor cow for the Springside program and is quickly making a mark on the breed herself. She is an extremely powerful female; big bodied, big ribbed, huge topped, but still carries some femininity about her. These matings out of notable sires such as SVY Historic, and RBM Keystone, the sire of the most recently crowned CWA Supreme Champion bull - Kay-R Tremor, will certainly make a very quick return on investment.

LOT 245B 3 IVF embryos | Elder's Monument 448M x SOS Bootylicious PLD 144J

With a name like Bootylicious, you would likely imagine a big bodied, robust female with a wide pin set, deep quarter and tonnes of power and you would be right when it comes to 144J. She never has a bad day and can be seen tick full 365 days a year. A true brood cow and a great representation of what a Charolais cow exemplifies. Power, performance and eye appeal wrapped up into one big white package here. Her matings to the great SVY Historic 241K, backed by the incredible Germaine cow, are very exciting as he is a sire that annually transmits his extra style and presence with Charolais performance built in with his stoutness and muscle. Elder's Monument 448M was one of the most highly anticipated Charolais bulls to sell the spring of 2025. He was the \$60,000 high seller and lead off in Elder's bull sale. Coming from the extremely popular, Sparrows Pascal 239K, sire group where 15 sons averaged \$21,633. Monument 448M is one well balanced individual, heavy haired, big testicles and a hard to fault foot structure.

LOT 246C 4 IVF embryos | Elder's Monument 448M x SOS Mademoiselle 169J

Typical of the Apex cattle, here's a big boned, big footed power female with loads of eye appeal and muscle expression. She stands wide based and true at the ground and gets out and trucks around with the utmost amount of ease. A safe bet, easy to work with female that is built to last a lifetime. Embryos by Monument are very exciting and are a perfect blend here of power and performance with high maternal as Monuments dam is a big bodied, strong footed female with an awesome udder. LAE Troubadour 231K was a past high seller purchased by McLeod Livestock and his first calf crop just sold in 2025 and was very well received. His progeny have great hair coats, awesome dispositions and exercise his top 1% of the breed for WW and YW.

LOT 247A-J 100 doses | 10 dose packages of semen on Kay-R Tremor 7015L

Here's the first opportunity to acquire semen on KAY-R Tremor 7015L the Supreme Champion Bull from Canadian Western Agribition. What makes Tremor special is his ability to combine an elite phenotype and look with real world attributes that the industry needs. He has a big set of feet and legs that work absolutely perfectly. When you analyze him from the side he has a presence that demands your attention. The amount of true dimension and shape he has in his center body and hip is truly unmatched. His Donor dam KAY-R Lainey 502C has an absolutely stacked track record for producing cattle that can win on the biggest stage and most importantly breed and work as consistently as anything. Embryos on Lainey are averaging 3,250 an embryo. The icing on the cake is his unbelievable EPD profile. KAY-R Tremor 7015L has everything a bull needs to truly leave an impact. We have no doubt Tremor will elevate our program for years to come and we believe he can do the same for you.

LOT 248A-E 50 doses | 10 dose packages of semen on DMC McCord Redeemed 4M

LOT 248F-I 20 doses | 5 dose packages of sexed female semen on DMC McCord Redeemed 4M

DMC Redeemed 4M is a bull that has created a lot of chatter ever since he was shown alongside his dam in 2024 where they had an amazing show year capped with being in the Top 10 in the Supreme show at Agribition. The story actually started earlier than that, as his dam was Champion Charolais female in 2023 at the Royal Winter Fair. Watching him develop as a calf, we knew we had something pretty special. He is built right from the ground up, moves like a dream, is put together in a smooth amazing haired package, and he still packs a punch! Being slapped Supreme Champion Bull at the 2025 Royal Winter Fair was one that topped it off. Not only does this guy impress you in person but also on paper with him being PA free and heifer safe. This will be the only semen on offer for the 2026 breeding season. He is getting drawn at DMV Genetics this winter and semen will be available for mid March. If you want to bring your herd up the next level and join the momentum, Redeemed is the bull to do just that.

LOT 250A-E 25 doses | 5 dose packages of semen on WDZ Chivas 3033

Homo polled & PAF. WDZ Chivas the performance and carcass standout is touted as possibly the best ever produced by the WDZ operation. WDZ Chivas 3033 is sired by the outcross, senior herd sire WDZ Paradise 894, who is also the sire of the \$60,000 WDZ Aerosmith 1109 PLD. We feel confident that WDZ Chivas can add value to any operation no matter your end goal. From a performance standpoint note his 833 lb. ADJ WW and 115 WW Ratio. If your operation is trending more towards carcass merit you should appreciate his breed leading REA & MARB EPD's. Finally, if your goal is to simply make good cattle, we feel that WDZ Chivas the lead bull in the 2024 National Western Grand Champion Pen of Three can easily check that box. In today's day and age high caliber herd sires have to check every box, in our opinion Chivas checks all the boxes.

Semen is qualified for CAN & USA

LOT 251A-E 25 doses | 5 dose packages of semen on WR Relief J4606

WR Relief J4606 is the popular and influential herd sire for Thomas Ranch and Boyert Show Cattle south of the border. Limited semen availability early in his career has only heightened demand; he is continuously being used in flush programs across the most popular breeders across the US. Relief is backed by the proven and tenured donor dam WR Dutchess Z610 of Wagonhammer Ranches, adding depth and reliability to his pedigree. His first calf crop has made an immediate and lasting impact. Six daughters at Boyert-Core averaged nearly \$18,000, while two additional daughters led Rosebud sales at \$62,500 and \$32,500. A Relief daughter exhibited by the Weisinger Family was crowned Grand Champion Bred & Owned Female at the 2025 Charolais Junior Nationals and went on to earn Supreme Bred & Owned honors at the Iowa State Fair. Relief is also the sire of the \$430,000-valued White Snake sold through last year's Embryos on Snow at the National Western Stock Show. After a long wait, CSS semen is finally available on Relief. His influence is proven, his momentum is building, and his story is just beginning—now is the time to get in.

This mating has produced the best female we have raised to date at The Cliffs Farm. The 401M female was our high selling female in 2024 and has had a great show career being Champion Senior Heifer calf at Agribition in 2024 and Reserve Grand Champion Female at Lloyd Stockade in 2025. TCF 305A Good Luck Girl 709E has never missed. As good footed cow as you'll find with the extra bone and shape that makes her stand out. Great udder, perfectly marked and stout. She makes them right and they work. We have daughters in the herd leading the next generation of young cows, sons walking at purebred operations with great results and consistency, plus sons at commercial operations that are making our customers money. Fresh Prince is the Cattlemen's Congress sensation that has proven himself in the business producing quality offspring. We plan to continue building around this cow family, cow families matter the most to us as we strive to make our Hereford Cattle better.

LOT 259B 3 IVF embryos | NJW 73S D287 Daybreak 163K ET x Blair's AXA Nellie 20E

We can't say enough good things about this female. She is a powerful female with tones of volume and capacity, very bold sprung but feminine in her appearance. She is one of the most easy doing females we have ever had. She has completely out done herself in her first few years of production, raising a high end Truman daughter that sold to Haroldson's and First Class and in 2020 raising one of the best All In bull calves to date, RSK SCK 7165 Double Down 30H. He went on to be our high seller in the 2021 RSK Farms Elite Genetics Bull Sale at \$39000 for 1/2 to Wooden Shoe and 4 Taylors. This also made him the Canadian all time high selling spring bull. The first mating to Oshoto is extremally cool. Oshoto is a Power Bull that's flawless in his build, soft, flexible, free moving and balanced. He catches you with his body mass, bone and foot shape, and further appeases with his pigment, red cape and hooded eye. He profiles like a champ; long spined with a big square hip, and shape from every angle. An easy doing, masculine bull that's extra docile. The first female that we campaigned was RSK SCK 316 Ms Nellie ET 69N. She was the high seller in the 2025 RSK RAF Online Sale at \$41000 to Emily Knutson. She was also name the 2025 Reserve Champion Female at AG Ex and Champion Hereford Heifer Calf in the 2025 Junior Beef Extreme. The Second mating is a sure thing to Daybreak 163K. This mating will have tremendous numbers and the genetics potential to be great. They will be cherry red and with pigment, super stout with lots of shape. Look for RSK 163K Panama ET 51N to headline the 2025 RSK RAF Bull Sale in March.

LOT 260C 3 embryos | Wulfs Hyannis 4785H x Greenwood PLD Zoom Bloom

Zoom Bloom has stood the test of time and proven her worth and breeding potential through her sons and daughters, with well over \$200,000 in progeny sales. She is a cow that excelled both in the show ring and in production, with an impressive udder, strong feet, and a sound skeletal build that has allowed her to thrive to an advanced age. The list of her high-selling progeny and sons used in AI is too long to fit here, but rest assured the risk-to-reward on these genetics is a no brainer. Sexed Rooster semen brought over \$500 per dose in last year's sale, and these embryos guarantee you the opportunity to build your own Zoom Bloom family, along with a couple of other strong outcross options stemming from one of the great Limousin cows in recent memory.

LOT 261 3 IVF sexed female embryos | Greenwood Rooster 84L x Greenwood Zoom Bloom 16L

Greenwood Zoom Bloom 16L burst onto the scene here after being selected at the 2024 Western Select Sale, and will be making an impact on our herd moving forward. A loaded pedigree – Electric Impact x Greenwood Zoom Bloom 42G has produced a female, that is phenotypically hard to beat - sound on the move, her sheer dimension, overall mass and middle third is very impressive. She is mated with the popular Greenwood Rooster 84L, whose service is highly valued, as he is just beginning to make his mark in the industry. While he adds performance and power, he is also backed by strong maternal lines that make this mating very desirable. This mating is already proven, as Zoom Bloom 16L and Greenwood Rooster, have combined on our 2025 herdsire prospect - Posthaven Next Energy. He was competitive in our show string all year, coming in third in a competitive class at the 2025 Royal Winter Fair. He too, exemplifies the performance and overall mass that this mating will most certainly produce. Since being moved to the donor pen, Zoom Bloom 16L has had excellent production – and only adds to the expectation that these IVF heifer embryos will produce very impressive, high quality females that will make their mark across the breed for years to come.

LOT 264A-D 20 doses | 5 dose packages of sexed female semen on Greenwood Rooster 84L

LOT 264E-I 50 doses | 10 dose packages of semen on Greenwood Rooster 84L

Rooster represents the next step in genetic advancement that we are proud to offer to the Limousin breed. He is out of a remarkable first-calf daughter of the influential donor Ally 702A, and his dam, 701J, exemplifies the maternal quality we strive to build around—massive center body, excellent fleshing ability, and a nearly perfect udder. Rooster blends these maternal strengths with an impressive set of his own. He is a calving-ease option with a heavy hair coat, soft middle, stout hip, added bone, and unmistakable style. His first calf crop has surpassed our expectations and his ability to cover cows and hold condition excites us about his future. He reads exceptionally well on paper with a pedigree twist. Rooster is 89% purebred. When mated to any purebred female in the CLA herd book, the resulting progeny will qualify as purebred. If you want to move your program forward with fresh, functional, and highly marketable genetics, Rooster is the kind of sire that can do it.

LOT 265A-E 50 doses | 10 dose packages of semen on **AHL GW Living The Dream**

LTD is a stallion who has made many friends at the fall cattle shows thanks to his ideal phenotype and impressive presence. We admire his overall build and the structural soundness he possesses. He has huge, square feet, an ideal color and hair coat, and is calving-ease friendly, coming from a strong, proven cow family. This summer, he covered a group of cows in the river hills without missing a beat or losing a pound, before returning to the fall show circuit. He is a two-time Farm Fair champion Limousin bull, a top-five Supreme finalist, and the Oklahoma City Cattlemen's Congress champion Limousin bull. LTD is a multi-purpose bull suitable for use on both heifers and cows, and one we feel has a great deal to offer the Limousin breed.

LOT 267 3 or 5 heifer plus embryos | Greenwood Coal Train 84J x Landry of P.A.R. 50Z

Greenwood Coal Train 84J - Homozygous Polled. Homozygous Black, Myostatin Carrier.

Landry of P.A.R. 50Z - Homozygous Polled. Homozygous Black, Myostatin Non-carrier.

The peak of perfection! In our opinion, 50Z is one of the best females in our arsenal, appreciated for her powerful design, overall eye appeal, impressive udder and foot quality. The mating to Coal Train could not get us more excited! Coal Train needs no introduction, being one of the most well-known bulls in modern Speckle Park circles and for good reason. The 2023 Triple Crown Champion - winning Grand Champion Speckle Park bull at Stockade Roundup, Farmfair International, and Canadian Western Agribition, Coal Train walked into CWA Beef Supreme as a 4-time qualifier and earned a top 10 placing among the most prestigious of lineups. His daughters are consistently stamped with his winning phenotype, flexible structure, stoutness, and softness. Take advantage of this opportunity to secure a mating on two of the best animals in the breed! With the added bonus of the embryos being heifer plus, further increasing the chance of female pregnancies.

Semen is qualified for CAN, USA & AUS

LOT 268A-B 10 doses | 5 dose packages of semen on Greenwood Coal Country 502N

Many have referred to Coal Country as the best bull calf we have raised to date and we would agree with that statement. A unique individual that can be appreciated from every angle as he combines the flawless phenotype, stout hip, smooth shoulder, early maturity, masculinity, and impressive scrotal we strive to produce. Coal Country ties it all together in a calving ease package while possessing the curve bending performance with a 908lbs weaning weight. His show season started by winning King of the Ring Speckle Park Bull, Grand Champion Bull, and a top 4 placing in the Supreme Show at Stockade Roundup 2025. Following that he found success at Farmfair International as he was the Ultimate Legend - Speckle Park Champion Bull and Reserve Grand Champion Bull in the breed show. Phenotype and banners only mean so much, luckily genotype is Coal Country's greatest strength as he combines two of the best animals in our program. His dam, Lavender is one of the most complete Speckle Park females we have laid eyes on with her beautiful silhouette, flawless foot quality, and picture perfect udder. We can't say enough good and look forward to making Coal Country the next household name in the Speckle Park world, don't miss out on the only semen to sell for 2026!

BOYERT **BETTY WHITE**

STANDOUT X HORN 0419

Canadian Sires + Donors :: Olds, AB :: 403-370-3010

Embryos are stored at Bow Valley Genetics

Embryos are qualified for CAN & USA

LOT 269A 3 IVF embryos | Red U2Q Double Down 4515M x Betty White

LOT 269B 3 IVF embryos | Red U2Q Double Down 4515M x Betty White

Betty White is a super tanky, hairy and super stout white female that hails from a deep, rich pedigree top and bottom for raising quality show stock south of the border. Her dam has produced many champions and is herself apart of a royal flush of many state fair champions. Betty White is a super dual purpose female that we think can raise very competitive show steers and attractive, good looking females that will make cows. Double Down is a big time Red Angus bull that we think can really compliment Betty White. He is a real attractive individual that is sound made with an awesome look. He cuts a near perfect silhouette and his real world performance may be just the ticket to raise some high quality show steers mated with Betty White and based on his deep, rich maternal heritage, the female side should be bang on as well.

IN GOD WE TRUST X VICKLANDS FIREWATER (MAN AMONG BOYS X 8547)

Canadian Sires + Donors :: Olds, AB :: 403-370-3010

Embryos are stored at Davis Rairdan (A) Bow Valley (B&C)

Embryos are qualified for CAN & USA

LOT 270A 2 embryos | Mader Walk The Line 92J x BMS Gloria

LOT 270B 3 IVF embryos | Red U2Q Double Down 4515M x BMS Gloria

LOT 270C 3 IVF embryos | Red U2Q Double Down 4515M x BMS Gloria

The day Scott Bohrsen stumbled across Gloria's sale video on SC sales from the well known RJ Show Cattle Program in South Dakota, he seemed to keep it on a revolving repeat for days before he got her bought. If you ask him, he will claim he bought her for the kids, but deep down we all know he has a huge soft spot for Gloria and for good reason. She is one unique creature. Colour pattern alone, she absolutely stands out but when you factor in her huge stop, stout muscle shape and undeniable, up headed look and presence, she really catches your eye. We think these matings are very exciting and could result in something incredible. Walk The Line is a Simmental breeding sensation whose sons and daughters alike have a little extra bone substance with big square hips. They are wide and level topped with extra length and sharp front ends. The Red Angus bull, Double Down, is a big time phenotype standout with awesome feet and loads of softness and muscle shape. He is a cocky fronted stud that travels soundly with his head held high at all times. We feel these are very exciting matings that have potential for greatness.
