

The background of the entire poster is a photograph of the Aurora Borealis (Northern Lights) in a dark, starry night sky. The aurora displays vibrant green and blue light patterns. In the foreground, the silhouettes of several cows are visible against the dark ground, adding a rural touch to the celestial theme.

RED GOAD SPICE 109'10

We think that Red Goad Spice 246'25 has the potential to have a great impact on the lucky winner's herd. A pedigree with a combination of some of the most maternal bulls we have used with Kujo, Bazinga, and Mystified all stacked up. The cool part of Goad 246N is that this cow family originated from the Northern Select Sale. Dutch Auction Format.

OBI WELCOME

Once again it is my pleasure to invite you to the 47th Annual Northern Select Sale.

Last year's sale was a huge success with having the sale on a Friday night and at the new location at Stettler, Ab. So, the board has decided to continue this venture for the 47th Northern Select Sale. I have many thoughts about this year's offering, it is a transition year with having 10 new consignors which is great to expand our consignors and welcome new folks to this prestigious event. New people, new bloodlines will expand the sale.

Some things will never change with the Northern Select Sale; the hospitality of the consignors and the sale is always cherished by all. The quality of the animals selected from these herds. The cattle that go through this ring simply work for all. This year along with the 60 females are 2 outstanding herdbull candidates.

Again, in my travels it was a pleasure going thru the cow herds of the Northern Consignors and working with them to market their females in this sale. When going to each operation I discuss game plans for this sale and the future of their marketing and promotion and then we sit and negotiate which animals will do that for each program.

The sale cattle will start coming to Stettler on Thursday morning with a meeting of the Northern Club at 11:00 AM on Friday. The supper, that you won't want to miss, will commence at 5:30 PM with the sale being Friday Night at 7:00 PM. We will be on sale site from Thursday until Sale time.

I would like to thank again the club and all the supporters of this event last year; your commitment and loyalty to this sale is second to none. If any member of OBI or Myself or the sale staff can assist you, please feel free to call us. See you in Stettler, November 14th.

Mark Holowaychuk

WAVENY MISTY 6D

Sprucefield Badger 25N will be the first bull calf to sell in Canada from Baldridge Badger. Badger is out of Baldridge Isabel Y69, the donor dam that is one of the best cows in North America siring many top A.I. bulls. (Beast Mode, 38 Special, Bronc, Marksman, Herdsman, Vegas) These offspring when chatting with Mark from OBI are sure leading the operations that he has seen calves. We also agree with his thoughts as our progeny are dam good!! After a lot of discussions, we decided to consign 25N into the very prestigious Northern Select Sale. His dam is a daughter of a female we purchased from the Waveny Angus Farms herd at Vermilion. Jenna 72J has a great udder with exceptional foot under her. A fancy fronted female that did an amazing job this year. This bull calf has so much meat and muscle and walks out easily with pride and conviction. We are very proud of Badger 25N, we will be using him in our program. He is our type of bull, power with extra rib and the size we need in the Angus industry. He will be at Farmfair, so please do come by the stall and see for yourself. Oct 10 Wt: 1230 lbs.

TERMS OF SALE: ½ Down Sale Day and ½ Paid when bull passes semen test to Sprucefield Farms. Sprucefield Farms will take the bull home to develop and winter until semen testing. Sprucefield Farms is Retaining a 1/2 Semen Interest.

 EGGEN FREEDOM 174P 40T
 SILVER KNIGHT SYDNEY 16S

We are excited to offer this young but powerful herd sire prospect in the Northern Sale this year. Robust 21N has been an absolute standout since birth. From day one he has caught the eye of anyone that has seen him with his impressive spring of rib, shape and power. When turning the cows out on pasture on June 7th, we ran him across the scale just for the fun of it, 618 lbs. Wow! He followed that up with an astounding 1052 lb. September 17th weaning weight. His sire, Bar-E-L 0807 Cry Macho was the \$28,000 high selling BC Robust son from the Longshore's in 2022. His calves are moderate in frame but densely packed with muscle and shape, not a hole in them. 21N, ratchets it up a notch further with his dam's pedigree, Eggen Freedom 174P 40T. Freedom was the high selling bull from Double F Cattle Co. back in 2008. At that time, he was a true power bull in every way, with few others like him. 21N's dam, a young 3rd calver is super long bodied, with a great udder, foot and disposition. Stop by the farm prior to the sale at anytime to have a look, you won't be disappointed.

TERMS OF SALE: 1/2 Down Sale Day and 1/2 Paid when bull passes semen test to Silver Knight Angus. Silver Knight Angus will take the bull home to develop and winter until semen testing. Silver Knight Angus is Retaining a 1/3 Semen Interest.

EVERBLACK LUCY 85P

Everblack Lucy 105M is a moderate made beauty. She is square hipped, wedge shaped and sound to the ground. A typical Six Mile Showtime 80H daughter, he is doing a nice job siring sound, functional cattle. The dam Lucy 52H came from the Carters at J Lazy A. She was the pick of their heifer calves and has turned into a beautiful cow. Extremely easy fleshing with a great udder. 52H has a top end bull calf that will sell in next springs bull sale. If you're into EPD's, Lucy 105M has an impressive birth to yearling spread. She will make you some progeny with built in calving ease. With a rebuild on the horizon at this stage in the cattle cycle, these offspring will be very valuable. She is carrying an exciting service to the \$30,000 66 Ranch Water 92M bull, our pick of the calving ease bulls at the 66 Ranch Spring Bull Sale.

DAM

SERVICE: EXPOSED APRIL 17 TO JUNE 5 TO 66 RANCH WATER 92M. DUE EARLY FEB.

Everblack Travelling Lucy 47M is a typical Stamina female. She is big barrelled, deep bodied, has loads of hair and is setting down a really nice udder. The dam 201C is one of our top cows in her class. Her first 2 offspring went to Sand Creek Angus. She had a daughter through the 2021 Northern sale to BAR-E-L, two more sons through the bull sale with one being a top seller to Triple J Angus of Whitewood, and a daughter in the herd. She will be on the short list to enter the donor pen next spring. Let's see if the old timers remember 47M's fifth dam.... back in 1991 a cow named Whiskey Jack Travelling Lucy 2Z sold through this very sale. Lucy 2Z was the mother of a highly maternal bull named Everblack Masterplan 007 who sold to Dwajo and Minburn Angus. Goes to show how this sale has stood the test of time and continues to produce productive cattle for generations. 47M is due to calve mid January to McCumber Armour 058. This could be an exciting addition!

BLACK BRED HEIFERS

Babe 02M is a heifer with balanced power and a feminine edge. At the Northern Angus Club Tour on August 23rd she was definitely a highlight, so much so that after a bit of arm twisting we decided to run with the interest she gathered and enter her in the sale. Her sire Merit Investment 1054J has become a much talked about top end sire in the last few years. He was the high seller in Merits bull sale spring of 22. He definitely puts that great genetic legacy stamp on his progeny today and 02M is proof of that. On the dams side Babe 02H adds the little extra punch of performance and power to give this heifer the look that's pretty hard not to admire. Her service sire Avelyn Montana 303M was a home raised bull sired by Brookdale Brutus 390. We believe this mating will be a standout with 02M's style and length and Montana's depth and muscular shape.

Here's another outstanding daughter out of the Babe cow family. These daughters have been bred to work and built to impress with depth power and proven maternal strength. She shares the same maternal lineage as the 02M heifer. She combines impressive width, depth and neck extension with the kind of balance and appeal we strive for in our females. The cow family goes right back to our matriarch Babe 55R which has always been known here at Avelyn as the "easy keeper" line. Her sire Pedersen Hollowpoint 3H worked the pastures for several years leaving us with outstanding females and sons that always hit the top in sales. When the opportunity arose to utilize our high selling bull Mr Macho from our 2025 bull sale we didn't hesitate to jump on it. This coupon she carries is destined to hit the keeper pen.

It isn't very often that we are willing to part with a top end bred heifer with a pedigree we love, bred the way we want and due to calve in early January but here she is! 37M has it all with awesome hair, strong topline, depth, spring of rib, and putting down a correct udder all in a moderate, very attractive package. Her maternal grand dam JES 56C, was purchased at this very sale back in 2016 and is still in production and due to calve by mid-January for her tenth consecutive year. ...strong fertility and longevity traits here folks! Her dam, VAP 12J, is a larger framed, correct, motive daughter just beginning her career as a promising brood cow at CLA. Her sire, SAV Early Arrival 0903, is a true curve bender being in the top 2% for CE, 3% for BW and still stretching to a 115 YW. To top it all off, Miss Essence 37M is carrying early service to Coleman World Wide 2562 who has not disappointed in the progeny we have on the ground. He combines one of the most intriguing low birth weight profiles in the industry with unmatched phenotype. We really feel this Coupon on offer is something special...so don't miss out!

SERVICE: A.I. APRIL 12 TO DEER VALLEY GROWTH FUND. A.I. MAY 3 TO DL RAINMAKER 1879 (SAFE). EXPOSED MAY 6 TO JULY 1 TO RIVERSTONE CHARMER 31M. DUE FEB 10.

When Mark contacted us about putting females in the Northern Select Sale I was so excited to let him select out of a pen of 50 bred heifers. It didn't surprise me when his first pick was 2M. She has been a standout since day 1, and being a daughter of Final Answer made it that much better. On the dam's side she is a paternal grand daughter of SAV Net Worth. 2M is a very stylish long bodied easy moving powerful female. She weaned off at 820 pounds and Sept 24, weighed 1440. She has 2 maternal sisters working our herd. Look up Lakeroad Favourite 2M Sale Day!

SERVICE: EXPOSED MAY 1 TO JULY 1 TO RIVERSTONE CHARMER 31M. OBSERVED BRED MAY 6. DUE FEB 13.

This beautiful female is the result of the mating of Belvin Justification 1402, the lead off bull we purchased in Belvin Angus Bull Sale 2023 and a powerful female bloodlines of Ring Creek Black Angus. HF Tigre 5T and Ring Creek Bardolene. This young female calved in our second calving period April 21, 2024 and gives up nothing to her sisters above her. She's a deep broody female that moves out easily and catches everyone's attention. 21M weaned at 654 lbs and Sept 21 weight of 1270 lbs. She is bred to our new herdsire, Riverstone Chatter 31M, A Bubs Southern Charm son from Riverstone Angus, The Matthews Family.

BLACK BRED HEIFERS

In May 2023 I was fortunate enough to get the use of 872F from the good folks at Avelyn Angus. He stamped his calves with depth of hind quarter and easy doing. 6M is an example of what he did for me. Unfortunately I only got one years use from him. Fortunately for you Mark picked one out for this sale. She is easy doing and thick quartered. To trop it off she is AI'd to the easy calving sire SAV Rainfall 6846.

SERVICE: EXPOSED APRIL 4 TO JULY 1 TO SCHAWN JOURNEYMAN 19M. DUE LATE FEB.

BLACK BRED HEIFERS

I have opened the vault...finally. I have been in the Angus breed for a long time, but this is my first ever offering in the Northern Select sale. A big thank you to Mark Holowaychuk and the Northern Select sale group for the opportunity to offer this pedigree packed, powerful heifer. She is a very feminine, long bodied female with a big hip and volume to match. I am also very thankful to Doug and Kate Reid. I purchased the mother Georgina 40E from the Reid Angus Dispersal sale. After seeing this cow with her calf at side, I couldn't resist the temptation to own her. Her Daughter 10M proves why this investment was a good move. I owe a big thank you to Atlanta Angus for the opportunity to breed this heifer naturally to Duralta 1054 Zulu 140M, a Merit Investment son.

BLACK HEIFER CALVES

Here's a heifer calf that stood out as a crowd favourite as well at the Northern Angus Club Tour in August. This Pride 707N daughter out of the very popular Sterling Pacific sire - a grandson of the renowned Baldridge Isabel Y69. She is a uniquely desirable female that commands attention the moment you step in the pen. She combines elegance, length and depth with a flawless structure and a great set of feet and legs. Her refined look and striking side profile make her one of the most eye catching females we've had the privilege to raise. She patterns closely after her dam and exemplifies the refinement and performance we aim to breed. Junior members take note this sweetheart wants to be a show heifer.

SIRE

Here we have heifer calf from a dam Matt and Kendra purchased out of this very sale a number of years ago. Sired by the RAML Potent 8427, a bull that we used extensively in our herd through AI for a couple of years. He was known to be a highly appealing sire adding that ruggedness, size and length, attributes that we feel are so critical to maintaining the powerful bull makers we need to keep our herd moving forward. This heifer combines that extra thickness and bone quality. These as well are traits that promise a bright future and long life of productivity and performance. We have 27N's full sib at home and can't wait to see how she develops into a cow this winter. Her dam features a beautifully balanced udder and continues to shine in the herd. This is a female that possibly will stamp out quite a legacy for herself in your herd for years to come. Juniors take note this one checks all of the boxes.

NORTHERN SELECT

BLACK HEIFER CALVES

Paternal sister to Lot 1 in this year's Northern Select Sale. Sprucefield Nicki 19N traces back to the LLB Angus herd where we have obtained a lot of females from. Baldrige Badger on the sire side will enhance more power to your herd with extra top, rib and overall capacity. These Baldrige Badger calves will be the talk of the 2025 calf crop. Remember the Baldrige Isabel Y69 Cow, some say the best female in North America. 19N will be a larger female that will sure lay you down top end calves with her mass and depth. She will be at Farmfair on display. Oct 10 Wt: 1025 lbs.

Geis Evera 8N is the image that we see in our heads when we think of the ideal Angus cow that we are trying to build here on our operation. Evera has that look where you just know she'll be a strong herd builder in her future. She has that strong jaw and maternal head to her that we just love the look of. Her dam was one of my first junior projects that I bought from Miller Wilson Angus who, much like her daughter, is possessing the same characteristic to her that is a strong producing Herd Dam. Her sire is one of the best Angus Herdsires in the land, Four Mile Progeny are sure at the top of everyone's lists. She's the one we got talked into putting into the sale that we are happy to see go to another operation because she's the perfect example of what we strive to build a herd of.

SIRE

BLACK HEIFER CALVES

Country Lane Rose 44N is a striking heifer that checks all the boxes for breeders looking to invest in maternal excellence, structural integrity, and long-term value. This moderate-framed, deep-bodied female is built with longevity and productivity in mind, and her pedigree is stacked with proven genetics that consistently deliver results. Her sire, Greenwood Gamenight 74G, has been a game-changer in our program—bringing together the elite maternal influence of Bar E L Natural Law and the powerful cow family behind RRD Tibbie 28Z. On the bottom side, 44N traces back to the legendary Soo Line Rose 1019, a cornerstone of maternal strength, and the widely respected Schiefelbein Showman 338, known for adding performance and eye appeal. Her dam, Country Lane Rose 18L, has truly outdone herself with this first calf. 18L is quickly rising to become one of our foundational females, showing the kind of udder quality, disposition, and maternal instinct that we strive to build our herd around. If you're looking for a female with a future, 44N is it.

Country Lane Annie 70N is a mid-February heifer that has been turning heads since the day she hit the ground. With her elegant front end, sweeping rib shape, and overall balance, she combines eye appeal with the kind of structural integrity that sets cattle apart in both the show ring and the pasture. Sired by Ter-Ron Clipper 131J, a bull known for stamping his calves with consistency, soundness, and excellent foot quality. This is our first year with Clipper daughters in production, and we are thrilled with the udder quality and maternal traits they're bringing to the table. Her dam, Country Lane Annie 32J, is an embryo purchase from Brooking Angus Ranch, and she's lived up to every expectation. Sired by SAV Renovation 6822 and out of the beautiful Brooking Annie 307 (pictured below), 32J is a moderate-framed, deep-bodied cow who is just beginning to show her full potential. She's the kind of female you build around—and 70N is following right in her footsteps. Whether you're looking for a competitive junior project or a future cornerstone female, Country Lane Annie 70N offers the best of both worlds. She's stylish, maternally bred, and backed by a pedigree loaded with proven genetics. This is a heifer with the kind of potential that doesn't come around often—don't miss your chance to add her to your program.

BLACK HEIFER CALVES

Blackcap 12N, another Bar-E-L Cry Macho daughter is clean fronted, smooth through her neck and shoulder with a fancy and classic angus head. A solid and functional heifer that will make a great cow just like her mother.

Erica 31N is a three-quarter sister to the bull calf (Lot 2) we have on offer in the sale today, Robust 21N. She's a deep ribbed, moderate framed female, much like every daughter that her sire makes. Her dam consistently produces quality calves, including a full brother that sold to R&P Ranching Ltd this spring. Erica 31N has all the makings of a great brood cow.

DAM

BLACK HEIFER CALVES

Marta! A heifer calf with such a nice hip, long spine & beauty of a skull. Her mother, 39C pictured this summer as a 10 year old cow - and yes, with an udder like that. She should make it quite a few more years with that one. 594, looks like she's going to be the same way! Sired by Bounty, a bull with so much breed character & performance. Bounty's look clearly carries through, same as her paternal brother BCC Enforcement 498. You can't help but love her.

32N is another Zara heifer; it is not a coincidence that Mark finds them. 32N is a stout made thick heifer with tons of volume. Her sire Hostile is a Hostage son that we kept part of with Meunier Farms he is one of best footed bulls we have ever raised and passes on the same traits to 32N. The dam has a little different twist with Cassidy and Sureshot. Zara 32N is nice and quiet and easy to work with. Nice Jr. prospect.

BLACK HEIFER CALVES

17N is backed by generations of proven genetics—going back to my old show cow 135Y, Coalition, and the great HF Echo 922. This pedigree is stack on stack on stack. She's the kind of heifer you can't help but notice: feminine, fancy fronted, and exceptionally long bodied. In fact, she's so long, one time we saw her entering the barn and leaving it at the same time. Her dam, 92J, is a powerhouse cow with an ideal udder, extra depth, length of body, and a striking head and extension. On the sire side, 17N is by Hostage, a bull who has stamped countless high-selling bulls and females in our program. With the bull being lost this spring, opportunities for Hostage progeny are now limited—making 17N one of the last heifers of her kind to sell.

SIRE

"When you know, you know." That saying couldn't be truer when it comes to Tippy 13N. From just a few weeks old, she stood out as something special--- one of those heifers you only grow to appreciate more with time. Sired by South Point 8362, 13N is ultra-feminine, with a striking Angus skull, an elegant front third, impressive length, and a sound, solid foot underneath her. She started life at a modest 72 lbs. and weaned off in late September at an impressive 827 lbs.-- a performance that speaks volumes, especially when you consider her maternally loaded pedigree. Her dam, KY 3J, is a direct daughter of Bravo 6313 and brings even more to the table with a picture-perfect udder, excellent feet, and an incredibly gentle disposition. She's already proving her worth as a young, productive female in our herd. We retained a maternal sister to 13N by Baldridge Bronc, and she just calved this spring--her bull calf weaned off at 872 lbs.! The Tippy cow family is as consistent as they come--no-fail, low maintenance females that flat-out work. If you're looking for a "sure-thing," here she is.

BLACK HEIFER CALVES

IKZ 59N is one to stop and take a look at. She was a pasture favorite this summer, and many producers like her on display at the Northern Alberta Angus Tour that we co-hosted with Avelyn Angus. Her dam is a first calf cow with a beautiful udder and maintained her condition while weaning this calf off at 905lbs. The sire on her is Bear Mountain Northstar, and there are only 3 offspring currently registered in Canada. If he puts females like this on the ground there will be more on the way in the future!

PLC 708N is a heifer with a lot of potential in and out of the show ring. She comes from a cow that we appreciate a lot for her production and maternal traits. We love that she has stamped the same qualities into this heifer calf. We admire the foot set beneath her, along with her refined front end. We are confident she will be an asset to anyone's herd whether you are established or just starting out!

BLACK HEIFER CALVES

Wow wow wow!! This girl is big and bold, so much natural depth and weaned off heavy. She's going to make one heck of a cow and is a great junior show prospect to have some fun with, the best of both worlds!! You think she looks good in her picture wait until you see her in person!! We kept back a full sister to this heifer last year and she's doing a great job on her first calf. Nancy 23N is entered in Farmfair and will be with us in the Maine-Anjou breed stalling so look for her there. Emily is the hardest to get heifers from, Mark knows he's been trying for years. We are very proud of the two tremendous heifers she has for sale and know they will be a great asset to anyone's herd.

Take a good look here! This is the heifer we tried to convince Emily to keep, but lucky for you she is focused and in college finance mode and said the best ones go for sale. So here they are. The Favorite cow family has been one of our favorites!!! And our first crop of TJL HENDRIX RLP 8H calves are impressive. This is the first progeny of this cow family to sell and she's a beauty.

BLACK HEIFER CALVES

OAV First Class 2N is a standout female we're proud to offer in this our first year consigning. She exemplifies structural correctness with an angular build, smooth shoulder, and impressive spring of rib and depth. Her sire, LFE Best Answer 800H, continues to build a strong reputation for producing calves with exceptional calving ease and explosive growth. This is clearly reflected in 2N, who posted a modest 67 lb birthweight and weaned off at an impressive 726 lbs. This heifer is out of a first-calver, OAV Classy 17L, who has truly outdone herself—though not unexpectedly, given her lineage. 17L is a direct daughter of OAV Classy 4Z ("Oprah"), a cornerstone of the OAV program and a student favorite, whose influence has been perpetuated through strategic flushing. 17L is a powerful female with massive body capacity and carries the hallmark udder quality of the Classy cow family—traits we fully expect 2N to carry forward. With a calm disposition and strong maternal lineage, OAV First Class 2N would make an ideal junior project or a valuable addition to any progressive herd.

Brooke Annie K 3N is a very eye appealing female with a long line of reputable show bloodlines. Out of a herdbull we obtained from the good folks at Pedersen Livestock that traces back to the Executive Decision female maker. Fantastic conformation and a reputation for calving ease will make this heifer an excellent addition to your pasture or show string.

BLACK HEIFER CALVES

When Mark Called and said he wanted to come up and select heifers I was both excited and disappointed. I knew which heifers he was going to select and didn't want to let any go, but we were in a horrible drought and feed was scarce. We couldn't keep all the heifers. Brady Fraser and I purchased 3N's mother from the 2023 Collection sale. She has Alcatraz, Tiger, Renovation, Final Answer, and Density. We thought adding Mercury would solidify the maternal strength we value. The first calf born in my new barn at 86 lbs and Weaned off Sept 1 at 770lbs. She is super deep, has tremendous length and is a stylish heifer that we are very proud of.

Tibbie 10N is a heifer that I was super excited about. She will be the first heifer offered out of our Miller Wilson herdsire, DMM Rollin' On 38L. He goes back to their Rolling Stone 10G bull and is backed by the famous Miss Essence cow family. I chose this mating because DLW 10N's mother has been a consistent producing cow for us no matter what we bred her to. She has great feet and excellent temperament. These Rollin On calves absolutely shocked all of us on there vigour at birth. These calves were up within minutes and looking for milk. DLW 10N is stamped like her siblings in the pen at home. They stand up on correct feet and legs, they are deep bodied, and wide across the top. Her mother is bred back the same way in hopes that I get another heifer for myself.

SIRE

BLACK HEIFER CALVES

Very stout powerful soggy made daughter of our show bull Lawless. Her dam is becoming a very top producing cow as she raised our Northern heifer we showed last year selling to Grant Farms. (DTA Baranda 5M) We think very highly of this heifer she is entered for Stockade, Farmfair and Agribition.

BLACK HEIFER CALVES

Classified is one of Lexi's proudest accomplishments!! She is very complete right from the ground up with a correct foot and strong bone. Throughout the summer, she has displayed a docile and kind personality-perfect for any junior member. Classified combines muscle and feminine style effortlessly, with great hair coat stemming from both sides of her pedigree. Her sire is a direct son out of our highly regarded Firefly 111E donor who has done so much for us, producing offspring with power, sound structure, strong maternal traits and great udder quality. A black hide with a taste of red. I'm truly excited about this female's future!! Sire verified.

Red Sprucefield Lucy 17N is sure to catch your eye this fall, no matter what sale or breed it is. A female that could attend many fall sales and be a lead off type heifer calf. We have had huge success with our Dwajo Angus purchases over the years and Lucy 53F leads the way. She is the ideal brood cow we are trying to make for our herd. 2 maternal sisters in herd and 2 bulls sold commercially. 53F doesn't miss. We like to build powerful females and 17N shows you all what we are doing here at Sprucefield Farms. She will be at Farmfair on display for all to see before the sale. Oct 10 Wt: 945 lbs.

RED HEIFER CALVES

Consistent, productive cow families are so important in our Angus breed and the Firefly cow family has been stellar at Redrich. 174H has produced a daughter that sold to Mexico, a top notch son in our bull sale, an outstanding bred heifer in our keeper pen and now this tremendous young maiden. She is dark cherry red, long spined, with lots of eye appeal and muscle shape in a very complete and correct package. Her sire Anthem gave us a very uniform, powerful, high quality set of calves in his first year and this young lady is off the top end of that group. Sire verified

Great haired, stout, deep ribbed, and a very attractive female. First Lady has a sweetheart personality and would be a great project for any junior. Her dam is excellent footed, beautiful uddered cow that has been very productive, raising the herd sire, Red Redrich Milwaukee 302M that was our second high seller in last year's bull sale to RSL Red Angus. We also used the bull ourselves. She is parent verified.

MATERNAL BROTHER

RED HEIFER CALVES

Dark cherry red heifer from Red Reds Blue Print H001. I heard about Blue Print when he sold as a yearling and he peaked by interest at a young age with this combination of old genetics in Glacier Chateau and combining the Primrose cow family. I knew that I wanted to try him out and have been very happy with the results that we have used him two years in a row now. He sired a strong set of female and bull calves at our place, that are moderate framed, big middled, soggy made, and good footed. 361N combines a very unique maternal pedigree, with the combination of Chateau, Seneca, Renown, Reverence, and a double shot of the very popular U2 Reckoning. If you look at cow families that she combines in this pedigree it's a no brainer that 361N will be a power cow in that making.

I think every year that Mark comes to tour now, he's never surprised to see some calves from different sires that he might not see at a lot of other places. We sampled a few doses of Red KCC Pinnacle 949-109, and to say we have been absolutely floored by these calves from birth would be an understatement. 411M might have a little bit earlier birthdate than some others in the sale, she was born at a short gestation and just continued to grow and perform all year long on her first calving dam. The Dana cow family has been a top cow family for us and we believe that 411N will be a great start to a new cow family for her new owner.

RED HEIFER CALVES

Everyone knows how much we love Red Ter-Ron Diamond Mist 13G, and that we let very few of her females leave the farm. Well, here is another chance to get your hands on an offspring from her! This calf is deep, bold, eye-catching, and junior showman safe. We have loved her since birth and continue to feel she is just plain good. She would fit into any herd and has a great disposition. Her maternal sister (Red Airam Diamond Mist 32L) was sold to Redrich Farms in Round Up 2024 for \$12,250. Angus GS. Parent Verified.

DAM

RED HEIFER CALVES

Sired by the powerfully designed Red Six Mile Mr. Wick 11K and backed by the maternal strength of Red Mar Mac Trooper 17G, this young female is built to rise to the top in and out of the ring. She's the kind of heifer that offers the eye appeal and balance juniors look for, while carrying the brood cow presence to make a lasting impact in production. Deep-bodied, soft-made, and attractive through her front one-third, EKA 539N is a female that checks all the boxes for longevity, function, and future cow power. A heifer that will show with style today and go home to build a cow family tomorrow.

If you're hunting for one to run hard in the show ring and then write her own chapter in the donor pen, LXE 505N is built for the big stage. Sired by the high-octane Red Lwnbrg Adrenaline 28J and backed by the rock-solid Red Elf Chloe 127J, this heifer blends cow family consistency with the kind of look that grabs banners. She's bold in her rib, wide-based, and square-hipped, yet still ultra-feminine through her front end and dead level down her top. The balance, hair, and presence she carries will make her a force on the halter – just like her full sister LXE 403M who's already turned heads, and her maternal sister LXE 306L that carries the same undeniable look. 505N isn't just good – she's the kind you build a program around.

DAM

FULL SIB

RED HEIFER CALVES

A dark red female that's very attractive in her overall make. Marty is a real elegant fronted heifer that's long bodied. The Marty cow family adds tons is mass with high weaning weights while still being functional. 5N is the first female that goes back to the \$45,000 Red U2Q Demand 464J, Demand has been putting perfect feet and udders on his females along with calving ease. Her Grand dam is in the donor pen so count on this Marty cross Demand daughter to pay the bills!

SIRE

A real stout made female that's straight in her topline and smooth on the move. These Centerfold daughters are big ribbed, good uddered, and overall functional hard-working females. 18N is backed by a proven cow and has a maternal brother that sold to Torpe Farms. This is one to stay in your herd for years to come.

RED BRED HEIFERS

4M is a heifer that goes back to my first ever Red Angus cow from Boyd at Brox Stock Farm. I am grateful to Boyd Monea and Shelley and Dennis Ericson for getting me started in this breed. It has turned into an addiction. We are grateful to the committee for inviting us to this sale. Steve and I have made it our mission to continually improve our herd. We have done this by buying some amazing animals, both cows and bulls, as well as using semen from quality bulls. 4M is a product of this. She is a powerful heifer that will catch your eye. She has lots of hip and depth. Her sire is my Cowboy herdsire that goes back to Cowboy Cut. Her mother consistently produces a great calf and I expect she will be the same. Bred to Red Dwajo Sundance 18M, the bull we purchased for \$20,000 at the On Target Bull sale this spring.

SERVICE: EXPOSED APRIL 14 TO JULY 1 TO RED DWAJO SUNDANCE 18M. OBSERVED BRED MAY 6. DUE FEB 13.

12M is a heifer that goes back to my second ever Angus cow from Boyd Monea at Brox Stock Farm. This heifer is cherry red, moderate framed and deep. Her mother has good feet and a great udder. These traits have carried through going back to her great grandmother who produced great offspring until she was 16. Longevity, good feet and udders are the stamp of this line and will add to anyone's program. Her sire is a Razor son out of a great cow. Bred the same way at the above lot to Red Dwajo Sundance 18M, who is sired by the Alta Genetics and Topham Red Angus herdsire, Red Dwajo Sundance 114A. Angus GS Parent Verified

SERVICE: EXPOSED APRIL 14 TO JULY 1 TO RED DWAJO SUNDANCE 18M. DUE LATE FEB/EARLY MARCH.

RED BRED HEIFERS

This is a female that screams momma cow. She's a nice dark red with lots of body to her. Her dam has produced exceptional females for us, and she's the last one born from that momma cow. We are sad to see her go, but know she will be a great addition to someone's herd. Sired by Red Airam Red Box 07K (direct son out of Red Mann Red Box 55C). This is a female that is sure to add some power and dark red to her offspring. Angus GS Parent Verified

NORTHERN ALBERTA ANGUS CLUB TOUR 2025

Rob Holowaychuk Memorial Fund

In 2018 the Northern Club decided to create this fund in memory of Rob Holowaychuk. Rob believed in the future of the Angus industry and no better way than giving back to the Juniors that support the Northern Sale. 3 awards per year will be drawn to the Juniors that purchased an animal at the previous Northern Select Sale and the value will be \$1000 per award and to be used for the 2025 Sale. This is open to all Junior Members who purchase an animal at the 2025 Northern Select Sale. The winners will be notified by OBI Livestock Ltd. The sales credit will be awarded over and above any Junior incentives that the winners may be eligible to receive.

2019 Winners – Lane Fulks, Sarah Hodgetts, Tyler Schmidt

2020 Winners – Nash Hodgetts, Brookelyn Holt, Kaleigh Clark

2021 Winners – Ethan Yaremko, Jackie Schmidt, Neils Van Loon

2022 Winners – Brooke King, Vander Linden, Luke Brooke

2023 Winners - Quinn Pedersen, Maria Taschuk, Emily Hodgetts

2024 Winners – Erika Mathon, Bristol Sailer, Jake Tremmel

2025 Winners – Dallis Sailer, Luke Henderson, Katelyn Kehler

SELLING 3 EMBRYOS, GUARANTEEING 1 PREGNANCY IF INPLANTED BY A CERTIFIED TECHICIAN

FOB: BOVA TECH

A great donation by Allandale Angus for the 2025 Rob Holowaychuk Memorial Fund. History time. Dad bought Merit Pride 7136 at the Prairie Lillies Sale in 2008. She came to Everblack Angus and after a lot of discussions that Rob and Wayne had, her new residence was Allandale Angus. Dad had a tenancy to do that to some people. Well Wayne was sure glad she did as she became a Donor Cow at the farm. She raised 5 daughters in the herd and sold 6 commercial bulls out of her. The sire of the embryos is the \$80,000 phenom HF Showtime 78H that we partnered with Double F Cattle Co. He has been a standout sire group for us over the past 4 years. I felt this was a fitting mating for this year's Northern Sale and sadly the last year for Allandale Angus as well as he is dispersing his herd later this fall. Thanks, Wayne, for your support and friendship to the Northern Select Sale over the years. Wayne donated the heifer calf to start the Rob Holowaychuk Memorial Fund and now as you can see 21 kids have received \$1000 to a purchase to start their own herd.
