

13th Annual

Premier Hereford & Angus Bull Sale

February 3rd, 2025

**Northern Livestock Sales
Lloydminster, Sk - 1:00 PM MST**

Lock Farms ~ Ace Herefords ~ Ayrey Hereford Farms

Terms and Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of dispute the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the applicable breed association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the applicable breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

EPDs:

Accurate at time of printing.

Liabilities:

All persons attend the sale at their own risk. The sellers, facility owner, auctioneer and sale manager assume no liability, legal or otherwise, for any accidents that occur.

Delivery:

Every assistance will be given in getting your purchases home. **FREE DELIVERY**. Each animal becomes the risk of the purchaser as soon as sold. Bulls and females will be delivered as soon as possible after the sale. Unless other arrangements have been made.

Internet, Phone, Wire, Mail Bids:

Real-time bidding with live audio and video will be available via the Internet for this sale. Buyers must create an account at least 2 days prior to the sale.

Please visit www.dlms.ca to get started.

Bidders unable to attend the sale may also phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

Agents will be in attendance to insure your purchases. Bulls returning to the consignor's farm must be insured.

Errors:

All announcements at sales time, written or oral, supersede any written material in the catalogue.

Sale Day Draw:

There will be two draws taking place on sale day. One draw for a \$500 Sales Credit that will include all of the buyer numbers obtained at the Northern Livestock Sales in Lloydminster on Feb 3, 2025. The second draw for another \$500 Sales Credit will include all of the registered bidders from DLMS on Feb 3, 2025. These sales credits are to be used only at the 13th Annual Premier Hereford and Angus Bull Sale on any sale lot including the open and bred heifers. Draws will be completed at the beginning of the sale

All Bulls will be semen tested. Free Delivery.

 lockfarms@outlook.com
 www.lockfarms.com

Welcome to our 13th Annual Sale!

We at Lock Farms would like to take this chance to thank you all for your continued support and interest in our offerings.

Our love for the Hereford breed is eclipsed only by the wonderful friends and customers we have met over the years.

This year we are offering once again polled and horned genetics. With feed and feeding costs continuing to be one of the single highest expenses of cattle producers, we are always striving to produce quality, easy feeding, easy doing cattle with the gentle disposition we look for. The Hereford breed has been and will continue to be a leader in these fields.

The sale bulls this year are the first group from BR 213B Standard 141J. He has left us with lots of hair, sound feet and the body mass we like to see. We can't wait to see his daughters calve this spring. The 955G sons are big and strong with lots of colour. They will work in all kinds of conditions as they were raised with lots of room to grow. On offer we also have a few heifer bulls from LBH 6103 Advance 82H. They were all born unassisted with impressive growth afterwards.

Please reach out with any questions about our sale offering. Pen tours are welcome anytime, there is always someone around to talk bulls with.
 Stan

Polled/Horned Inheritance

Unfortunately, one of the biggest misunderstandings regarding the proper fit for Hereford bulls is horned/polled inheritance. When understood, it can provide more flexibility to use horned or heterozygous polled bulls on many commercial cows than might be expected-if avoiding horns is the intention. For this example, heterozygous polled cows might be a set of F1 black baldy females out of Angus and Horned Hereford. Consider homozygous polled cows as a set of long time straightbred Angus.

USING A HORNED BULL.

- Mated to horned cows:
100% of calves are horned
- Mated to heterozygous polled cows:
50% of calves are horned and 50% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

USING A HETEROZYGOUS POLLED BULL. (50% horned, 50% polled)

- Mated to horned cows:
50% of calves are horned, 50% of calves are polled
- Mated to heterozygous polled cows:
25% of calves are horned and 75% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

USING A HOMOZYGOUS POLLED BULL. (100% polled)

- Mated to horned cows:
100% of calves are polled
- Mated to heterozygous polled cows:
100% of calves are polled
- Mated to homozygous polled cows:
100% of calves are polled

We would like to welcome everyone back to the sale barn again this year! We are excited to show you this years line up of bulls and the kind of animals we strive to breed for. We believe this is a very consistent set of bulls this year. They are all very similar in style, shape, pigment and temperament. The bulls were on pasture graze until October 25 when we brought them home. With being able to graze late into the fall again this year our bulls are carrying less condition and more natural muscle. Since they have been home they are being fed barley green feed and are on rolled oats and barley chop. The weaning weights in the foot notes are actual weights taken Nov. 12.

We showed 3 head at the Alberta Hereford Showcase this fall in Red Deer. We had a great show bringing home banners and ribbons with junior horned heifer calf champion, reserve junior horned bull calf champion and in the ultrasound carcass competition our yearling bull won 2 out of the four classes with largest ribeye per 100Lbs and the leanest meat yeild. Our daughter Kaydee showed a heifer again this year in the Junior show and had a lot of fun and made great memories to bring home with her ribbon.

As we do every year, the bulls have been semen tested, they are tie broke and have been clipped to get them looking sharp for pictures. As always we will bring them home sale day and deliver them to our buyers or make arrangements for delivery. Please feel free to call or text anytime as we are always willing to accommodate if you would like to come look at our animals and breeding program.

Thank you, Brady & Chantel

This May 1st born bull could be the most complete bull I have built. He is dark red right to the ground with both red eyes. He is broad topped with extra thick quarter that carries down into his stifle. He is extremely long bodied as well. His mother is as good as there is with extra pigment, great feet and near perfect udder. Now for show success, he was shown at the Alberta Hereford Showcase in 2023 where he was named the Horned Junior Bull Calf Champion at 800 lbs. We took him back again this fall where he won two out of the four classes in the ultra sound carcass competition. He won the largest ribeye measuring 19.81" per 100 pounds which was over 2.5 square inches the second-place bull. He also won the lean meat yield bull by a large margin as well. He was admired for his natural thickness and muscle shape. His show weight 1664 with scrotal measurement of 41.5. Terms to be announced sale day.

W: ayregherefords.com E: bwayrey@hotmail.ca

Welcome to the Premier Sale! This year we were grateful to have good crops and a warm fall to get extra jobs done! We attended the Hereford Showcase in Red Deer again this year. It is always nice to talk with other cattle producers and long time friends. The kids also made their way into the show ring and it was the highlight of the event!

Cattle prices have been strong and are continuing to trend upward. It is a great time to be in the cattle business whether you are expanding your herd with some replacement females or adding a top caliber bull to your breeding stock. We always appreciate our loyal customers for standing behind us and believing in our program. It is truly the reason we continue to produce top genetic and long lasting cattle. We stand behind each of our sale animals 100% so we hope that gives you a sense of comfort when bidding and purchasing. If something were to go wrong, please let us know and we will do our best to assist!

Calves are weaned without any creep feed and yearlings have been pastured on grass through the summer and fall. Our cattle have not been pushed because we believe that in order to sustain longevity, they need to be developed at a natural rate. Our cattle perform well under these natural conditions and therefore will smoothly transition into their new environment after they are sold.

We are excited for this years offerings and feel that they will make an impact on the breed. We have listed actual weaning and yearling weights on our sale cattle. We believe that these weights are a more accurate representation than an adjusted weight that also factors the cows age into the equation. Weaning weights were taken October 12, 2023 and yearling weights were taken April 24, 2024. All sale bulls have already passed their semen checks. Delivery is free in the Western provinces. Sale videos can be found on our website: ayregherefords.com

Feel free to come for a tour of the sale cattle anytime!

Contact us if you would like any additional videos or photos of the sale cattle.

Replacement Heifers

Selling 50 top purebred Horned Hereford replacement heifer calves. All replacement heifers are on the Pyramid Gold Program & have been given Ivomec. Heifer calves are born in March & April. All heifers have had their horns removed and were banded if they still had some. Most heifers can be registered at the buyers expense. Heifers will mainly be sold in groups of 5.

Videos of the heifers can be found on our website: ayreherefords.com

lockfarmsangus@gmail.com

Welcome to the 13th annual Premier Hereford and Angus Bull Sale. This year seen a lot of change around our place. Our son, Jameson turned two and is full of adventure and loves his animals especially his cows. In September we added another piece to our family with the arrival of our daughter, Saige. Everyone fell in love with her quickly at the farm, especially her big brother! The other big change that happened this year is that we have moved to the main farm. Stan is still there ever day, its just his turn to drive to the farm in the mornings now. The coffee pot is still on and the visits are still the same.

This year we are excited to offer a great group of angus bulls featuring a large group of calving ease bulls off our newest herd sire. The final group of sons off of our Climate Change bull, along with our first Red Angus bull. In addition to the bulls we also have an outstanding group of true F1 Hereford cross Angus heifers and straight Hereford heifers. The black baldie heifers aren't called the princess of the prairies for nothing, I truly believe they are the best females you can make.

The bulls might look a little different in their pictures this year compared to past. The bull pen was brought into the yard in the middle of October, which is about a month later then what they typically are. When Saige decided to make her presence in the world during the middle of harvest, it caused a few things to get shuffled around. We are thankful for how well the pastures did this year now that we got some rain in our area.

This year sires consist of final calf crop of our old reliable herd sire Bushs Climate Change 837. Climate Change sired a group of daughters that are standing the test of time around here, beautiful udders, sound feet and plenty of body. Look for his sons to continue to do that at your place as well. If replacement quality females are what you're looking for, his sons are what you need. You won't be disappointed with the calves in either their sons or daughters. When we found Climate Change at the Denver stock show years ago, we knew we needed to add him to our program. His dam could very well be the best angus cow I've ever seen and I'll stand by that. This year will mark the first calf crop of our newest herd sire, Belvin Jigsaw 69J. This young sire was brought in to add to the calving ease part of the herd and boy did he do that. In two calf crop he's sons have an average birthweight of 76 pounds and have plenty of jam afterwards. If you're looking for calving ease, find his sons sale day they will make calving season a dream for you. The big first for us here is the first Red Angus bull to be offer up for sale and boy is he good. The strength of this bull is coming via his sire, a staple in the red breed Red ACC Nozeka 81G. we got the opportunity to add some cows from the legendary WRAZ red angus herd from Wawota and wow is all I can say. The Nozeka daughter we got off those cows are some of the best I've seen. I Expect the red bull on offer to sire daughter that will be the envy of the neighbours for years to come.

When it comes to purchasing a Lock bull, our main goal is to ensure your cows are covered. If a bull goes down prior to or mid breeding season, make sure we are your first call. We can work with you to get another semen tested bull to your yard to cover your cows.

Like previous years, we brought in Shane Castle and Mark Forsyth with Castlerock Marketing to assist with any questions about the bulls or heifers we have on offer. Both have toured the cow herd and are very knowledgeable about what we have on offer both with the Angus and Herefords.

We deliver all bulls free of charge and will do our best to get them to their new homes as soon as possible. Videos of sale bulls are available at www.lockfarms.com.

Be sure to stop in for a tour of the bull pen and their dams prior to sale day! The Coffee is always on!

Long made power bull backed by a 14-year-old cow. 95Y has been the poster girl around here for many years. 14 years never missed a year and still has a picture-perfect udder. She added 4 daughters to our herd and produced back-to-back Lloydminster Bull Sale champions and high sellers for us. This guy will add daughter to the replacement pen that will get the job done for years to come.

This guy was a twin to a heifer out of a standout cow. Thick made in a moderate package this guy will be a front runner to top up the replacement female pen at your farm. 13B was a cow that everyone asks about on pasture tours. Long and deep bodied she the kind of angus cow we try to make and want more of.

SALE FEATURE BULL. I could write a book about this guy, heavy muscled big top and middle there isn't a lot of faults to be found in a bull like this. Good from ever direction and as thick as they come. His dam was a cow we bought from our friends the wards in Saskatoon. 9E has never disappointed. Excellent udder and big topped. The cross with "bush" was a good one I expect big thing out of this bull. If there was a bull, we would keep for our purebred herd it would be this guy.

The first red bull on offer from us and boy is a good one. A few years back we got the chance to grab a handful of select cows from the great WRASZ herd in southern Saskatchewan and this is one of the coupons we collected out of it. Thick made and big ribbed this big guy will produce thick calves that pound the scale down. For the first red bull on offer I felt he deserved a name fitting to being the first. Named after the legionary Daryle Lamonica, the first quarterback in raider history.
