INSURANCE

BLYTHMAN AGENCIES LTD. - Keith Schmidt, C.I.P.
306-662-2604

Every bull remaining and being fed at the ranch after the sale must be insured, Keith will be at the sale to take care of insurance needs.

TERMS AND CONDITIONS

Payment Terms:

The terms of the sale are cash or cheque, payable at par at the sale location upon completion of the sale.

Liability:

Heartland Livestock Auction is acting as agents only and assume no responsibility for representations made by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

Accidents:

Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

Calving Ease Score:

Evaluate each bull for calving ease determined by bone size, birthweight, genetics and profile.

- ★★★ Recommended for use on first calf heifers
- ★★ Recommended for use on cows or large framed first calf heifers
- ★ Recommend for use on cows

COW PROGRAM

- Our cow herd starts calving at home around Feb. 1st. We pride ourselves in hands off calving, problem free udders and low maintenance cows.
- The cows get moved out mid April for grazing and sorted into breeding groups.
- Bulls get turned out early May and we rely 100% on natural breeding so we end up with quite a few different breeding fields.
- All calves get DNA tested to make sure we don't have any mistakes as bulls get moved around in June for clean-up and rotational grazing.
- We try and wean calves September/October dependent on weather, we bring the calves home where they are weighed, and processed and fed for the winter at the Ranch.
- The cows are left to graze in their pastures after weaning, eventually being turned out onto the stubble, where they stay until the weather turns. They are then gathered up and chased 12-14 miles home in November/December.

BULL PROGRAM

- Bulls have not been groomed, clipped, or trimmed at all through out the year or before the sale.
- The calves are raised solely on their mommas milk, and grass through out the summer, no creep feeding is done.
- All the bulls in the sale have gone through a strict culling process that starts the day they are born.
- All bulls in the sale have been born unassisted, and were strong, vigorous calves.
- All calves get Inforce 3 nasal spray at birth, and then double vaccinated later in spring and again at weaning in the fall.
- In the fall, bulls also receive Safe Guard, Ivomec, and Boss pour on Insecticide.
- Bulls are fed with longevity in mind and will be ready to work.
- This year the bulls were weaned Sept 27th.

RANCH/SALE LOCATION

Ranch is located 14 Miles SE of Swift Current

STOP BY ANY TIME!

Welcome

We would like to welcome everyone to our 10th annual bull sale! And a huge thanks to all our past bidders, buyers and every one who has shown interest in our program over the years. The support we receive from each one of you is encouraging and very much appreciated.

WLPPI is projecting some strong prices for the fall run and the cull market is strong, after many challenging years, one can't help but feel excited with the direction things are going. And as a family we are grateful we get to be a part of this

industry and look forward to the year ahead.

I do admit that we often take this way of life for granted and get caught up in the busyness of it all. Taking a moment to pause and get ready for the bull sale, helps us remember how lucky we are to raise our family while doing something we all love. Its rewarding to see the kids each grow up in this environment and explore their own interests within the industry. If you come for a tour you can't help but notice a few white cows mixed in the herd plus all the different coloured ear tags in the red and black cows. The kids all seem to have a passion for a different breed/colour so while the herd may seem a little more colourful then it used to, watching the kids get involved, and find something for themselves has been fun to watch.

There are no footnotes in the catalog again this year but we would be happy to provide additional details or photos. We are proud of the quality of bulls we have available this year, as well as the cow herd they come from. We invite you to reach out at any time, whether by phone or in person for more info. We are approaching 20 years in the cattle business, and we are thankful of the progress we have made. It hasn't been without its challenges but often we learn the most through the hard times.

Hope to see you on sale day

Josh, Steph, Sawyer, Gus, Daisy & Wrenley Rempel

LOT A **RED FLYING K GRAVITY 80K**

RED DVO CENTRE OF GRAVITY F163
RED FLYING K GRAVITY 80K
RED FLYING K ANGELA 159E

Red Flying K 80K is one of the new sire groups for us for 2025! It was time to add some more meat and muscle back in to the sire pen and this guy sure does that! He also stamps his calves with some presence and style. Check out lots 39, 122, 167 and 193 and come tour the heifer pen to check out some future females.

LOT B **RED RUNNING JR STEALTH 177J**

RED SIX MILE STEALTH 269F
RED RUNNING JR STEALTH 177J
RED RUNNING JR RAWHIDE 88E

Stealth breeding has worked very good for us. He's left us with a strong set of females and even a few different herd bulls like 177J. This years offering of Stealth bull calves come from 3 different sires, 177J, 178J and the original 269F himself. These bulls are athletic, sound, dark footed and are proven female makers.

LOT C **RED RUNNING JR DUKE 136K**

RED FLYING K DUKE 232H
RED RUNNING JR DUKE 136K
RED RUNNING JR RAWHIDE 97F

Red Running JR Duke 136K was sold to Flying K Ranch in 2023. A excellent calving ease option with a very good foot under him. We were thankful for the opportunity to sample him on a few heifers before he left.

LOT D **RED RUNNING JR THUNDER 103K**

RED FLYING K THUNDER 205F
RED RUNNING JR THUNDER 103K
RED RUNNING JR WARCRAFT 66D

Thunder breeding has been some of our top calving ease genetics over the past few years. Starting with the original 205F from Flying K Ranch, we liked the consistency in birth weight along with the excellent growth curve. We are starting to see them mature into very productive females as well. 103K is unique bull purchased by our neighbours, Spring Valley. He combines the Thunder calving ease with an excellent uttered, deep bodied warcraft cow. Check out his sons along with some from the original Thunder 205F.
