20th Annual Bull Gale

*Presented
by*

Silver Smith Farms

**MARCH 1, 2025 - 4PM
AT THE FARM, BYEMOOR AB**

Welcome to the 20th Annual Mappin Simmentals /Silver Smith Farms Bull sale. A lot has changed over the past 20 years, yet much remains the same. The cattle market is as strong as it's ever been, and for this we are thankful. As always, thank you to our previous buyers, we value your trust and your support. Same format as last year, we are having a live sale on the farm and broadcasting via DLMS for online bidding.

We strongly encourage you to visit the farm in the weeks prior to the sale to analyse the offering, along with the dams, sires and sisters of the sale bulls. We would be happy to recommend bulls to you that will suit your needs and work in your unique cowherd. We are proud to offer diverse pedigrees that can't be found everywhere and are a true outcross to many herds. We have had several visitors comment on how dark red and hairy the pen is this year. We feel strongly that part of our job as a seedstock producer is to offer exceptional reproduction genetics. As such, we utilize a VERY short 42 day breeding season. We continue to believe this means you get a bull with the best reproductive potential possible, a trait that is vitally important to all cattlemen.

All bulls will have passed a semen evaluation and will be ready to work as of sale day. Every bull in the sale is a registered Purebred and will come with an included transfer of paper. Sale weights will be available just prior to the sale day. Actual BW, WW and YW are shown on the paper and yes – we do own a calf scale and use it. For our customers use, we will be frame scoring again this year, and will be posting this data with the sale weight for your reference.

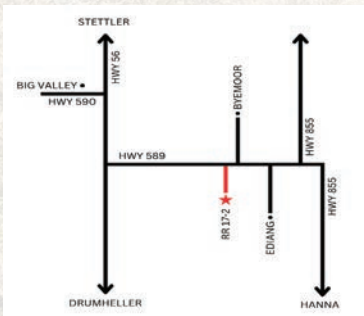

The bulls were weaned a little later than average in mid September, and are being fed a TMR, consisting of barley silage, cut hay, pea straw, super oats, a few split peas, and rolled barley along with a custom mineral pack. We work closely with Delta Animal Solutions, Jack Fisher, to ensure the bulls are developed on a balanced ration, high in forage and nutritional value. They have again been an extremely healthy group with lots of energy, so expect to see fresh, well developed, free moving bulls ready to work on sale day.

For the 2nd year in a row, we are offering a group of 25, Non Registered replacement heifers. These beautiful ladies will be sorted and sold in groups of 3-4 head. These females are straight out of our “keeper” replacement pen and will be outstanding mother cows. This is a great opportunity to augment your own replacement pen with some very proven genetics. More details are listed in the inside back cover under lot 63.

March 1st is coming quickly. Please give us a call to discuss any of our bulls on offer or make plans to come to the farm in the weeks prior to the sale OR during the sale day viewing from 2-4 pm. We look forward to seeing you. Maureen & Eric

LACOMBE VETERINARY CENTRE
 Mappin Simmentals/Silver Smith Farms implements a comprehensive herd health program developed with Lacombe Veterinary Centre. The cows and bulls are all SelectVac GOLD+ verified. The bulls are fully vaccinated with a modified live respiratory and 8way clostridial vaccines and receive an internal/external parasite control program. A breeding soundness evaluation, including semen testing, is performed on all the bulls.

Superman is a bull who was intriguing to me on paper, but was a must have when we saw him at Anchor D in 2023. Cherry red, blaze faced with a beautiful foot, Superman's progeny are very similar in type. He is a very aggressive breeder and his calves are born very easily, but with plenty of grow and stoutness. If you are an EPD person, Superman has got quite a set.

Mothered by the high selling cow at the WLB dispersal, who is also Top Tiers mother, this moderate framed, blaze faced cow's influence runs deep, as progeny of Superman definitely take after his mother. Superman's sire, Tycoon, needs no introduction, as he has been widely used for his cherry red color and excellent foot quality.

Like all of the Superman calves, Everybody's Irish continues to impress me throughout the winter as he develops into a great herd bull prospect. Dark red with a big hip and middle that ties together in a smooth package, he will add a ton of value to his calves both male and female. I love his skull shape and overall look.

Mothered by a moderated framed, big middled Roar daughter who is good footed and very functional. She has a daughter working in our herd and is the mother of lot 7, as well as a son working in Louis Hermus' herd.

Bruce was our pick of Adair Ranch's offering in 2023-with a big, square, black foot, deep ribbed with plenty of muscle and a different pedigree. His first breeding season he bred cows and heifers, and with his great calving ease history, we turned him into the heifer pen in 2024. Bulls and heifer calves alike are stout, hairy, with depth and thickness. All were born unassisted.

Mothered by a Red Summit cow who belongs to one of Ken's favourite cow families. As good as the Bruce son's are, I am most excited about the heifers coming up as they look to be outstanding. A bull with a great set of EPD's.

N V Abull is a Bruce son that is easy to find in the pen, he is a big, soggy dude. Deep middled with a thick top, good quarter and a free moving stride, he will have friends on sale day looking for that power and performance. Weaning off at over 900 lbs., his steers will have plenty of pay weight. A pen favorite.

Mothered by a larger framed coming 13 year old black cow who always weans off a big calf. Sometimes these older cows put a bit more placenta punch in their calves and birth weights are steamier, however she always pops them out and gets them up and going quickly. An excellent footed, good uddered cow who could pass for half her age.

The final of the 4 Top Shelf sons, with a lot to offer-length, thickness, and that heavy hair coat. Likely the darkest red of the brothers, born unassisted like all of the bulls in the sale, he was a bit larger at birth, but continued on that growth curve, weaning off at over 900 lbs. in September. Although this bull will offer exceptional growth and pay-weight to his calves, his true strength may be in the fantastic females he should sire.

Mothered by a front pasture type Chief daughter, 91F is always picked out by visitors for her deep red color, pear shape, and tidy square udder structure. Chief cows are unassuming, very useful cows who just work.

Purchased from Robb Farms as one of their high sellers in 2022, 'Clifford' is massive framed, huge black footed and cherry red. Clifford sires those big framed, with good bone, growthy bulls and heifers our breed is needing, but in very sound, very useful packages. Deep chested and deep middled, calves are born very long and very vigorous. We are calving the 1st daughters this spring and are very pleased with what we are seeing to date-tidy udders with great maternal value.

Mothered by a cherry red, bald-faced Blaze daughter, Clifford passes on his mother's blaze face very frequently which is a real added bonus. We really like Clifford's calves but I think we are really going to love his daughters.

MOES BACKFIRE 430F
MOES BLACKFIRE RANCH 22H
MOES BLACKRANCH 202E

Bloodhound is a favorite in the pen, and not just for his purple/red color. Long spined, thick topped with great muscle shape and a big black foot. Moderate at birth, with excellent growth, he will add a pile of substance and value to his offspring. If you are hunting that elusive deep purple color, he will likely do the job. A maternal brother sold to Ryan King, SK in last year's sale.

Mothered by a good young black cow who is a Backfire daughter-her grandmother is another foundation cow, Blackranch 201Z, and her mother is the dam of lot 25. Longevity, and excellent udder structure.

Johnny on the Spot is another dark red Accomplice son who will add top, rear quarter, length and pounds. Another one of those moderate birthwt bulls who grew well over the summer and continued to flourish on feed this winter. This pen of Accomplice bulls are very uniform in type, color and what they will contribute to your breeding program.

Mothered by a good producing Dirty Hairy daughter who has sent several sons through the sale, including to Bob Campbell, Tateson Ranch, and Randy Campbell. She also spent a few years in our recipient pen as she is fertile, highly maternal, and a good milker.

Fallback Fred has been another one of those bulls who has really developed over the winter—great hip structure and muscling, combined with length and thickness, he will add a ton of value to a pen of feed steers and replacement females. When you see his mother, you will want to keep all of his daughters.

Mothered by a moderate good young Chief cow who is excellent uddered, good colored, and very feminine fronted. She has several sisters working in our herd, and a full brother was a herd bull for KD/SIBL Simmentals. Great cow family as her mother keeps cranking out these fantastic matrons.

MOES BOSS LADY 504D

Border Patrol is a really great blend of some of our herdsires over the years-Cowboss, Steakhouse, King Ranch, and of course, Accomplice. All of these herdsires were super deep red and contributed to Border Patrol's rich red color, thickness and overall mass. He will add a ton of rib and muscle shape to his calves, as well as that rich color and heavy hair.

Mothered by a beautiful Steakhouse daughter who is a medium size cow with a great udder, plenty of depth of rib, and do ability. She has an excellent daughter working in our herd and a bright future of production.

Double Stuff is a medium framed, red blaze face bull with a smooth look and lots of length. He should calve very easily and may be a really good fit to use on 2nd calvers. His blaze face should be very dominants as there are many generations of money stripes in his pedigree.

Mothered by a 1st calver of Tulsa's who is a black blaze faced cow, and a daughter of lot 33's mother. She is a moderate framed, tidy uddered young matron with a very calm demeanor.

lot 63

COMMERICAL REPLACEMENT HEIFERS

A unique opportunity to access females who are pure Simmental, without papers. This group of red and black heifers were sorted out of our replacement pen, and come with full herd health (SelectVac Gold and 8 way clostridial). These ladies will be palpated before sale day, and sorted into groups of 3-4.

These females will go on to produce those big heavy calves that top the markets every fall.

An opportunity to improve your cowherd quickly with proven cow making genetics.

THANK YOU

Thank you to Annabel O'Dea for joining our team in May 2024, and bringing with her enthusiasm, excellent work ethic and humor, all the way from South Australia. Annabel also created this year's catalog and designed our new logo. We truly appreciate her jumping in with both feet.

And thank you to Clayton Bunney for working with us the last 8 winters, being our feedwagon man and jack of all trades during the winter months. Clayton is a super handy fellow to have on our team, and we appreciate his contributions.

TERMS AND CONDITIONS

Terms: The terms of this sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. Payment due in Canadian Dollars.

Bid: Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

Disputes: In some cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

Purchaser's risk: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

Announcements: Announcements from the auction block will take precedence over the printed matter in the catalogue. Bidders are therefore cautioned to pay attention to any such announcements.

Certificate of registry: The proper registration or recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

Breeders Guarantee: Should any bull fifteen months of age or older fail to prove a natural breeder after being used on cows known to be breeders and free of any venereal disease, the buyer shall report in writing to the seller and provide a report of a complete examination by a qualified veterinarian. This notification shall be provided to the seller no later than four (4) months following the date of purchase or six (6) months after the bull has reached fifteen (15) months of age, whichever is later. The buyer shall return the bull to the seller at the buyer's expense. The seller shall have the opportunity to have the bull examined by the veterinarian of his choice. In the instance of a fertility re-test by the seller the bull must weigh the same or more than his posted adjusted 365-day weight. If the bull falls short of his weight then he must be

reconditioned to meet the weight and then re-tested. The seller will then have 45 days to prove this bull a breeder. If this bull proves to be a satisfactory breeder, the bull shall be returned to the buyer. In the event the seller fails to prove the bull a satisfactory breeder the buyer has the option to either accept a replacement F.O.B. the seller's ranch or a credit equal in value to the actual purchase price. No incidental expenses such as feed, vet charges, interest, etc. will be charged by either party. In no event shall the seller be responsible for reimbursing more than the purchase price. All warranty and responsibility is limited to replacement of the bull in question and is acknowledged by the buyer as a condition of sale.

No guarantee is given that the semen collected from the bull will be suitable for freezing and/or artificial insemination. Once the bull is in buyer's possession, the seller provides no guarantee to cover health issues which may include but are not limited to: illness, disease, malnutrition, injury or death.

Exception to guarantee: In cases where the animal is subject to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

Heifers will be palpated and guaranteed open and breeding ready. Silver Smith Farms Ltd. does NOT guarantee pregnancy or live calf.

Bull Semen retention: Mappin Simmentals reserve the right to collect semen on any bull sold for in herd use. This semen will be collected at the buyer's convenience and at the seller's expense.

Accidents: Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, Auctioneer, or Sellers assume any responsibility in this manner and disclaims any liability legal or otherwise in the event of the accident or loss of property.

Rights and obligations: The above terms and conditions shall constitute a contract between the buyer and the seller and equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
