STOCK FARM

14TH ANNUAL SIMMENTAL BULL & FEMALE SALE

FEBRUARY 14, 2025

FRIDAY 1:00PM • AT THE FARM • PARKLAND COUNTY, AB

Welcome

Welcome to our 14th Annual Bull & Female Sale. We would like to take this opportunity to thank everyone for the support over the last year whether you were a bidder or buyer we appreciate your interest and your investment in our program. It is with great anticipation for us each year to see our bulls and females go into your herd and go to work for you and get a return on investment as quickly as you can. Breed improvement and selection is ongoing and working together and seeing your success is rewarding to us. We thrive on improving and selecting genetics for the next year and the year beyond that as it never ends. The cattle industry is as vibrant and exciting as it has ever been and to be involved and to be successful in such a demanding business makes the long hours and hardships very rewarding. As we prepare for the Bull Sale and calving is well on its way, we can honestly say the value we put into those breeding decisions year after year really do compound into a uniform and consistent bull pen. 2025 sale bulls are just that- an even, balanced group of bulls with great dispositions. We have a solid selection of Red & Black Simmental performance and calving ease bulls for your appraisal. We value the production capabilities of our cow herd and those weaning weights are right off the cow with no other inputs besides milk and grass. We have developed our bulls on free choice hay, greenfeed and we pair feed the 14% Bullsseye pellet at 8-10 lbs/day. We expect these bulls to excel as they develop & mature and settle into their new homes with little adjustment.

We welcome once again Daniel Ziehr of Circle Z Simmentals with a super set of bulls out of a cross section of sires. He has invested in some of our genetics over the years and these females have had a ROI for him no doubt.

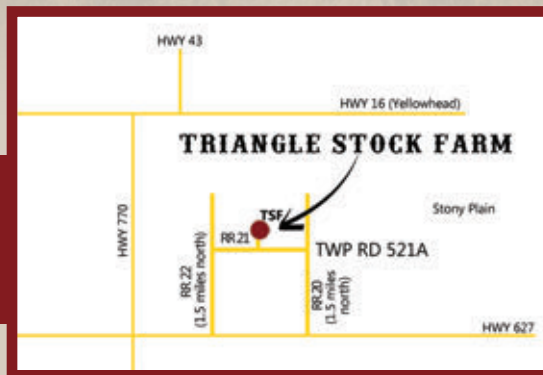

It is with heavy hearts that we have a donation heifer to auction off for the tragic passing of Kyle Hoefels. Kyle purchased bulls from us and we would like to help his family out with this heifer. All proceeds from this Red Purebred Simmental Heifer will go to Kristina and family and we hope in a small way this will ease the pain and grief and will help in any way to move forward. Look to Lot 35 for the opportunity to purchase this heifer and support the Hoefels family.

The sale is a Live/On Farm Video sale hosted by DLMS. The bulls and heifer will be on display for your appraisal and the sale will be held in our heated barn. We welcome you to view the offering prior to the sale and if you are unable to attend sale day, please feel free to contact anyone of us or our sale staff for assistance. Videos of the sale cattle can be viewed through cattlevids closer to sale date.

The coffee is always on!

Hello and Welcome back to the 14th annual Triangle Stock Farm Bull and Heifer sale. I am very honoured to be a part of this sale for the 3rd year. I would like to say thank you to Vance and Michele for their continuous belief and support of my program.

This year I am offering a strong group of red and black simmentals bulls, varying from calving ease bulls suitable for heifers to lengthy power bulls for adding pounds onto the calves coming fall. I hope there is a bull in my offering that catches your eye.

I would like to thank all of the buyers and the bidders from past sales for their continued support. Without all of you, sales like this simply could not happen.

The bulls are available for viewing at any time before sale day at the farm. If you have any questions about the bulls or my breeding program, please feel free to reach out. I am looking forward to seeing you on February 14th.

A stand-out No Limits son off one big barreled High Roller cow who knows how to push the scales down when it comes to production. Motown was our heaviest bull at weaning and this was all done with milk and grass! He ranks top 1% in WWT and YWT and once you see him it is easy to see why. He's all business with his added length, dimension and depth. There is no limit to where this bull can take you with his packed pedigree.

Flashy homo black & polled Caliber son. His Top Tier half sister sold this past fall to Scherger Ranching. 5M has super feet, lots of chrome, eye appeal and off 48D who is so consistent with bulls sold to Branden Ranches and Next Level Organic Farm. A cow family worth investing in as they are as sound and functional as they come. Caliber definitely stamps his offspring and these sons will be a great addition to any herd.

Motive has been a standout from birth and has not missed a beat off one of our favorite cows who is faultless with her type, foot and udder structure. 117L will definitely have friends' sale day. Loaded with hair, style, width and natural muscling this fella's calves will be in demand in the market place. Soft & sound in his makeup and one who combines power & performance. A bull with a great disposition and he is way more bull than this picture depicts!

Style and presence make up Maverick! Length, depth, width in a moderate frame. Black feet, lots of testicular development and maturity on a bull we feel has a great future. His dam 44F has been a standout – big ribbed, great foot structure, feminine matron who knows how to milk and produce. Maverick will be used here at TSF through AI as he has some traits to offer.

When 90G has twins of course you keep both as this cow is flawless in her makeup and has been a big time producer. These Killswitch sons are outstanding bulls with tonnes of middle, rib, softness, maturity, and just complete individuals. Add either one or double down on these two as they will add pay weight to the pen and the heifers will be stellar between the Twinkles cow family and Killswitch. Twinkles can be found in the pedigrees of Lots 7, 28 and the heifer Lot 35.

On December 1, 2024, Kyle tragically passed away in a farming accident near Rich Valley, AB at the age of 33 years old leaving behind his loving wife, Kristina and their three young children - Tanner, Harper and Sawyer. Kyle was loved very much by his family, friends and all who knew him and he will be forever present in their hearts. Kyle's memory will live on in the stories, laughter and love he brought into this world. He was truly one of a kind, always one to lend a hand to anyone who needed it and always going above and beyond for everyone in the community. His good nature made him easy to talk to about everything from farming to the Oilers, and he had an incredible knack to build or fix absolutely anything. His family farm was not just an achievement, but his passion in life, and brought him so much joy. He was a heck of a ball player, the center of connection amongst his friend group and a remarkable husband and father to his family.

A stylish 183D grand-daughter who has a great look to her. Smooth made, wide topped, loads of hair and eye appeal and will have an outstanding udder like the whole cow family. Top Tier definitely shines through on this female and we are wishful that she will add to someone's cowherd and the proceeds will in some way help the Hoefels family. **Homo Polled / Non-Dilutor**

Last Call is a dark red, long spined bull with good calving ease on the sire side. He should add those much needed pounds you want at weaning. Last Calls dam TSF 32K, is a stand out young female in my program. She carries a medium sized neat udder and near perfect feet.

CZS 1M has earned the name Macho Man from a young age. This bull is packed with character and a performance pedigree. These Epic sons never fail to disappoint. Macho Man weaned off his mom weighing 1050lbs on September 7th. He has a great overall build with a long frame, lots of middle with a nice hair coat. His grand dam, TSF 18B, is one of the best producing females in my program. Her progeny is what you want to add to your program.

In my opinion, Matador 4M is the best option for your next heifer bull. 4M is smooth made with a small head and narrow shoulders. The best part about this bull is his stacked pedigree. RF Caliber and Springcreek Liner 56U on the dams side sired by the sought after State of War. Half sibs to the dam have sold for an average of \$16,250 upon purchasing her as an open heifer. If you want a heifer bull that produces easy doing black calves, look no further.

This is the "Main Event" of the evening! A tremendous Rancher son here with a beautiful dark red coat. When you look across the industry you can see Rancher and his progeny being used in masses and there is one reason why, he flat out produces performance cattle with ease. Main Event is a well balanced bull with all the traits of a herd sire and the EPDs to match. Great opportunity here to take your program to the next level.

Major is the first No Limits son I have raised. I'm very happy with the result of this breeding. Many of Major's attributes come from his dam. TSF 18B is a big powerhouse of a female who produces top quality calves year after year. She carries a big foot, a long frame with lots of rib and a great dark hair coat. My hope is she will keep producing for many more years to come.

This bull is a stand out in the pen. Very soggy made with smooth shoulders but enough frame to really pack on the pounds. One thing these Wheatland 111H sons never lack is performance. TSF 30G is a great milker who is very maternal. She produced a gorgeous Right Hand Man heifer calf this calving season that's sitting at the top of the pen. These High Roller daughters are impressive.

CZS 10M is a moderate power bull out of a really well put together stout Bentley daughter. Qualities like feet, udder, and composition are just a few things I look for when buying a female. TSF 15H checked all those boxes in the fall of 2023 when I purchased her. Seeing she was bred to Wheatland 111H, Triangle Stock Farm's walking herd sire, I knew it would be a great pairing. CZS 10M is the result I was hoping for.

Here is a bull who is flat out built right. If you're looking for a moderate birth weight bull to put on your smaller cows or second calvers, this is the bull for you. He has the look that grabs your attention as soon as you enter the pen. With Epic on the dams side and sired by the great Red Whiskey, this combination is sure to produce results that will not disappoint.

Midnight is the youngest bull on offer. Another moderate birth weight bull which would be great on smaller cows or second calvers. He's built right with a nice shiny black coat. His dam was bred on pasture to one of our Purebred herd sires who we use on our commercial second calvers. Last summer we gave Cent Jericho 17J a pasture to himself to see what he could do. The result was 1/4 of our commercial replacement pen are daughters of his. I predict Midnight will produce the same results.

2024 IN REVIEW

TERMS The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING Each animal will sell to the highest bidder... no by-bidding will be permitted.

DISPUTES Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

EXCEPTION GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

GUARANTEE Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian

Simmental Association, with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

CERTIFICATE OF REGISTRATION Each animal will carry papers issued by the Canadian Simmental Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

LIABILITIES All persons attend the sale at their own risk. The seller and facility owner assume no liability, legal or otherwise, for any accidents that occur. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS All announcements at sale time, written or oral, supercede any written material in the catalogue.
