

7th Annual

BULL & FEMALE SALE

Thursday **MARCH 20** 2025

1 pm • North Central Livestock Exchange • Clyde • Alberta

Online Bidding DLMS.ca

WESTERN PRIME *Welcome to the Sale*

It is hard to believe that we have reached the 7th year of the Western Prime Shorthorn Bull and Female Sale. Our dedicated consignors have pulled out all the stops and brought top notch genetics once again to the sale. This year, we have purebred heifers on offer as well. Shorthorn influence open heifers will be at the sale. All heifers will be palpated and ready for your breeding season.

This is our second year at North Central Livestock at Clyde, Alberta. We would like to thank all the staff at NCL for the great sale last year and we look forward to many more sales with the crew. DLMS will be available to help with our online presence again this year. The consignors to the Western Prime Sale look forward to seeing everyone on sale day!

Sincerely

The Western Prime Sale Group

 Livestock Exchange
 Clyde, Alberta, Canada

General Information.

TERMS OF SALE: Are cash or cheques at par, payable to the clerks of the Sale on sale day. US funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. Full payment shall constitute a final sale and then registration papers will be transferred.

HEALTH: All Sale cattle meet Canadian Health standards. Foreign buyers are responsible for knowing the current Health standards of their country.

GUARANTEE: All Sale cattle are guaranteed under the terms and conditions of Sale as recommended by the Canadian Shorthorn Association.

PHONE BIDS: If you are unable to attend the Sale, but wish to make a purchase, please feel free to contact any of the sale staff or consignors and your order will be handled in a professional manner.

INSURANCE: Ownership commences to the purchaser as soon as the animal is sold. Insurance agents will be present sale day to look after your insurance requirements.

Although every precaution will be taken to protect the safety and comfort of the buyers neither NCL nor the consignors assume any responsibility in these matters and disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Here for your consideration is a flashy beef machine. His dam has hit it out of the park 2 for 2, raising our highest selling bull calf from last year (her first) and another superstar in 2024. This prospect herd sire is fleshy and flashy and is sure to catch attention sale day. 26M goes back to Saskvalley Yesterday a sire that excelled in calving ease traits. An 84 pound BW, here's a heifer or cow prospect sire, and with impressive growth performance, let this moneymaker work for you.

As always, we are excited to be a part of the Western Prime Bull and Female Sale. This year we have again selected a group of bulls we feel will work with purebred or commercial herds alike.

Our bulls are grown on free choice hay and a grain ration. The bulls will all be semen tested prior to the sale day with a satisfactory rating. All of our cattle are vaccinated yearly on a program designed by our veterinarian Dr. Collin Lawrence of the Westlock Veterinary Center. We use Bovi-Shield products and Vision 8 way. Ivomec pour on is used in the fall.

Our bulls have genomic enhanced EPDs which gives our buyers a clear picture of the genetic potential of the bulls.

If you have any questions regarding our bulls or our program, please feel free to call.

Tom & Shari Barto & Family

Shari, Tom, Amber, Eric & Evan

4	4.3	57	80	22	51	-1	15	11.73	118.71	49.44

An eye catcher from day one! This bull has shown tremendous growth all summer. He boasts a square hip, round barrel and length of spine. The heaviest weaning weight off a first calf heifer dam belongs to this guy. With growth like this, his potential as a herd sire to make marketable calves is high.

13	0.3	40	54	20	40	6	18	46.18	116.24	42.78	

This bull really excites us! He is the first offering off of ST King 5K. King has been proven to have calving ease and be heifer safe. The dam of 34M is a young cow purchased from Bender Shorthorns. She has an excellent udder, quiet temperament and larger frame, all aspects we look for in a herd sire's dam. With this combination of genetics, this bull could leave a tremendous impact on any herd.

4	4.7	61	94	24	54	3	15	8.54	124.1	52.07	

The dam of 72M is a cherished cow here at Sharom. Sharom Dana 72D has produced herd sires and female progeny that have been retained in our herd. She is a large framed, big footed cow with a nice udder. Her mating with Sharom Harrison 36H has created a "masterpiece". 72M has the potential to add pounds to your calves putting money in your pocket.

8	2.9	51	75	19	45	6	19	26.68	119.8	47.37	

This bull's dam proves the value of larger framed cows. 079M is a twin, his brother being retained for a 2 year old prospect. Both calves had mid 80 pound birth weights and weaned over 700 pounds respectfully. Add it all up, that is 1500 pounds of weaned calf and she is bred to calve on time again this year. This bull prospect stands out in the bull pen with his correct confirmation and style. Take a good look at this one on sale day.

A big growthy meat machine. This solid red tank would be ideal to use on large framed cows. Two of his half brothers have sold previously for service in commercial herds with good results. If you are looking for a pound maker, this is the one for you.

Sean & Michelle Thompson | Cremona, AB

Phone: 403-681-8316 | seancthompson811@gmail.com | poplarcreekfarm.ca

The Thompson Family

We're happy to consign two herd sire prospects to this year's Western Prime Shorthorn Bull Sale. Both are sons from JT Houston 6H, and both are full brothers to bulls that have sold through this sale in previous years. This year our bulls were developed at Olds College and participated in a feed efficiency study measuring individual animal intake. Their ration was silage-based but moderate in energy content, aiming for 3 lbs/day in average daily gain. This feeding approach is similar to how we develop bulls at home, not pushing bulls for performance but at the same time, not risking them being over-conditioned when it's time to get to work in the spring.

The Poplar Creek herd emphasizes functionality, performance, and sound feet and legs. Ultimately, this will all lead to longevity while remaining productive, something you will see a lot of when touring through our herd. Our bulls were ultrasounded in early February (with results to be available soon), have been 100K tested, and are free of myostatin variants and defects.

Sean & Michelle Thompson

Major 21M is another great bull prospect out of JT Houston 6H, coming to you in an attractive red-shoulder roan colour. His pedigree is filled with longevity and performance, going back to Betsy 81T, Saskvalley Transport and Goldwin Burwash on the dam's side. While on test at Olds College he gained 3.64 lbs/d with a negative (more efficient) feed efficiency value when compared across the pen. A full brother, almost identical to Major 21M, sold to Circle M Shorthorns in the 2023 Western Prime Sale.

The dam of Marshal 22M never seems to miss! Her last two calves have sold through the Western Prime Sale as solid herd bull prospects, and Marshal 22M is no different. She has a perfect udder that has been shown to pass on to her daughters, something that Marshal 22M will certainly pass on to his offspring. He's a bull that combines growth and calving ease, much like his sire Houston 6H, for use on either heifers or cows. Like the others on test at Olds College, he's been developed on a moderate ration to avoid burnout, while still allowing bulls to develop at a target rate of gain of 3 lbs/d.

Another Grissom son who looked good from day 1. Out of a Glenford Prince daughter. Prince left a lot of really functional, easy doing cows. Having a double shot of Transport in the pedigree will also add a boost of performance. He gained 3.86 lbs/day while on a moderate ration during the feeding test at Olds College.

Melanie Barkley & Family

We are very excited to be part of the Western Prime Bull and Female Sale once again. This year we are offering top notch bulls, and are excited to be offering some females from our top maternal lines. Janell Shorthorns are proud and honoured to be continuing with the tradition of quality Shorthorns our grandfather Jerry Bignell started 50+ years ago. We raise our cattle for longevity and reliability.

Thank you again to all the buyers over the last 6 years. We are looking forward to another great year of cattle.

Melanie Barkley - Michelle Duncan

SHAROM SHORTHORNS

TOM 780-307-4043
THORHILD, AB

Offering a set of straight Shorthorn and Shorthorn/Simmental open heifers. They are February/March born. At birth they are given Bovilis Nasalgen 3-PMH. At spring turnout and weaning in the fall they are vaccinated with Bovishield Gold One Shot and Vision with Somnugen. They will be palpated and vaccinated with Bovishield Gold FP and Covexin Plus prior to sale day. These heifers are set and ready to get to work! If you have any questions regarding our program, please give us a call.

SCHRYVER FARMS

JOHN or REGINA 780-349-9788
JARVIE, AB

This fall at weaning, these heifers received Bova Shield One Shot, Vision 8 with Somnus, Safeguard drench and Ivomec pour on. Since weaning, they have been fed barely silage, red clover silage and second cut hay. Palpation will be done prior to the sale.

Bull Breeding Guarantee

All guarantees are between the buyer and the seller.

All bulls offered and sold, except calves at side, are guaranteed breeders irrespective of age. All bulls after reaching the age of 15 months must be capable of settling 7 head or 75% of the eligible normal healthy breeding age females he is running with for a 90 day period, whichever is the lesser.

No guarantee regarding the freezing ability of a bull's semen is made or implied in the sale of a bull unless covered specifically in a written contract.

In the case of a complaint regarding a bull's breeding guarantee the buyer wishes to enforce the provisions of the Code shall report the same in writing to the seller enclosing a report prepared by a licensed veterinarian within 6 months of purchase or the time the bull reaches the age of 15 months whichever occurs later. The bull shall be returned to the seller at the buyer's expense. The seller may replace the bull with a bull of equal quality or refund the purchaser's price of the bull or he may attempt to prove the bull a breeder under the terms of this clause within 6 months. If the bull is proven to be a breeder within the 6 months provided he shall be returned by the seller to the buyer and the buyer's expense. If he is not proven to be a breeder then replacement or at the option of a seller a refund is mandatory. Under no circumstances will a seller be liable for more than the purchase price of the animal sold.
