17th Annual Simmental Bull Sale

Monday, February 17, 2025
Sale at 2:00 PM
Vermilion Livestock Exchange
Vermilion, AB

Ken Gilbert
Ph (780) 593-2103
Cell (780) 581-4135
 Westgold Farms
 Minburn, Alberta

Welcome to my 17th annual Simmental Bull Sale. Always stressing the importance of moderate framed, thick, good uddered cows with a good disposition and stout high performance bulls. The offering has grown to front end quality red black and fullblood bulls. Many red and black bulls are homo polled, all are the right kind. Each group definitely has true breeder bulls and top end commercial bulls.

Call or drop in anytime prior to the sale to evaluate the bulls for yourself, it will be well worth your time!

New sale location: sale will be at VLE in Vermilion.

Best regards,
 Ken

**Last year
 85% of my bulls
 sold to
 repeat customers**

**No bulls are
 ever sold prior
 to the sale**

Visitors welcome to view cattle at any time.
 Directions to Farm from Minburn: 5 km north to "T" corner, then 1 km east to RGE RD 101,
 then 5 km north, farm on east side.

View catalogue online at: www.dlms.ca

Guarantee: All bulls are guaranteed to be satisfactory breeders in accordance with the Canadian Simmental Association guidelines. Should a problem occur, barring physical injury or mismanagement, a bull of equal value or a credit will be issued towards the purchase of another bull.

Delivery: Free delivery to central points in AB and SK as well as to the MB border. Delivery will begin at about APRIL 1st at the seller's and buyer's convenience. Take your bull home sale day and save \$200 per bull. Bulls returning to seller's farm should be insured. Any bulls left after April 15th, there will be a \$5/day charge and to be picked up by the purchaser.

Semen Reserve: We reserve the right to draw semen for in herd use on any bull in this catalogue. Semen will be drawn at our expense and the buyer's convenience.

Health: All bulls will be vet checked, scrotal measured, weighed and semen tested. All bulls are treated with Noromectin Ultrabac 7/somnicgen, Pyramid 4/response and double vaccinated with fusoguard.

Terms and Conditions: All bulls sell under the standard terms and conditions as set forth by the Canadian Simmental Association unless otherwise stated here.

Announcements: Announcements at the sale by the auctioneer, owners or sales management will take precedence over the information provided in the catalogue.

Sight Unseen Purchases: If you have interest in one or more bulls but are unable to attend the sale, contact the seller of the bull(s) of your choice to discuss the bulls with you and then forward you on to one of our professional and confidential sales staff members.

GRASSY FLAT RANCH

Dusty Garnier (780) 870-8874

Email: grassy@mcsnet.ca

 Facebook: [Grassy Flat Ranch](#)

Welcome from Grassy Flat Ranch.

Erin, Mia, Avery and I would like to welcome you to our second annual bull sale. It's a great time to be in the cattle business seeing record prices last fall. Mia & Avery continue to grow up in front of our eyes and are becoming more and more helpful around the farm everyday. They keep Erin busy traveling to hockey, ball, and 4H among other things, Erin is also very busy with her Kindergarten class. No better time than now to say a huge thank you to Mom and Dad for all their dedication to the farm. Dad is always up for hauling cattle to pasture or the market, never says no to parts runs, and hauls bales off the field faster than we can make them. Mom continues to keep track of all the cattle records, has made every round bale we have, and is with me day and night with the cattle. She knows and loves cattle.

We are extremely proud in the quality of our offering. The bulls are a very solid and functional set. They came off pasture for weaning and have been on a silage based TMR with a Bullseye bull developer pellet ever since. We want the bulls to be in good flesh, but not over conditioned to give them the best chance of a long future in front of them. We are both a purebred breeder and commercial cattlemen and feel bulls can't just work in the showing but must produce in their true environment. We will stand behind our bulls, and we hope your purchases make you nothing but profitable.

Lastly, we would like to thank Ken for allowing us to partner in the sale again this year. He has not only been a strong believer in our program but continues to support our girls in their rural lifestyle. He has been there to see their growth and achievements in 4H and recently gifted them a bred heifer to start their own herd.

If you have any questions about our program or the bulls on offer, don't hesitate to reach out. As always, we would love to have you come to the farm for a coffee and to appraise the bull pen. Looking forward to seeing you at the sale.

Dusty, Erin, Mia & Avery

Mack is a bull that makes me stop in my tracks when I'm choring, just to take a longer look. He is the product of a complete system. You will see many bulls on Ken's side of the catalogue sired by Jax 39J, and for good reason. Mack was the highest performing fullblood bull in the offering. He is a meat wagon of natural muscling, all while keeping a balanced look. Large is all faucets and a true punch of power with those perfect double goggles. The kind of bull that could be used by seed stock producers and commercial cattleman alike.

I've been waiting all year to make this footnote, and I could fill a page. We are extremely proud of this bull. Born mid February but still hanging right at the top of the pen with the older fullblood bulls. We tested the waters with our walking herd sire from WJS and needless to say, he knocked it out of the park. Montana is deep, soft sided and soggy made. He is big nutedted with tons of dark red hair, and unbelievably quiet which made it tough to score the perfect shot on picture day. The kind of bull I would retain myself if I didn't pull 250 straws from his sire to have on-hand. He's the real deal.

Here is a bull that can do a program a world of good. A real man's man! Monarch displays exceptional muscle pattern and will stamp his progeny the same. He is off a cow I sure hold in high regard coming from the lead off group at Little Willow Creek, so count this guy in for retaining females as well. I couldn't have asked for more from this AI choice. Well balanced, stout, red to the hoof, and he's a quiet bugger too!

We knew in the first few days of age that we had a ringer when Milwaukee hit the ground. Deep red, deep bodied, big top, natural muscle, and big nuts.... Check marks in every category. His mother is a no-fault 1st calver that I just love to show off and I can see a flush date in her future. Milwaukee has long been a pen favorite, and one Cody Coupland picked out as his choice while touring this summer. We are confident this guy will advance a program.

Another herd sire prospect that is easy to spot in a deep pen of bulls. His mother is an absolute gem from SAJ, thus we already own a son off of her that's working in our heifer pen. Marvel is built correct with a good foot, nice head, and the color we strive for. Performance with a moderate birthweight, what more can you ask for.

Monty has always been a personal favorite of mine, and he's got the pedigree to back it up. He is extremely thick butted, wide topped and marked to perfection. His 205 day weight was that of 65% of his mother. I loved touring the pasture watching him suck while his mother tried to look over his rump to see me. Monty stands tall and proud, has a great disposition, and will sire awesome males and females that won't leave the keeper pen.

Heifer bull alert! Mader has done everything we have asked him to do and more. He is a standout calving ease bull. Coming off a very tidy and neat first calf heifer with an udder to admire, and Battle Cry 4F himself that needs no introduction. He is built right with that sloped front end, travels freely, and is as quiet as they come. Mader, with his deep red color and excellent attitude, will find lots of friends on sale day!

Here is another calving ease option that will let you sleep a little easier. Marlin is sired by our Rio heifer bull that we didn't pull a single calf from last year. Not only does he have a modest 85lb birthweight, but his angular build screams easy calving. He has a nicely shaped head, beautiful neck extension and an added bonus, he's very easy to handle.

Mason is a bull that sits at the top 15% for calving ease and 10% for birthweight, he's a shoe-in for trouble free calving. A dark red quiet fullblood that stands proud and has a lot of good qualities. He was unfortunately laid up a bit prior to weaning, but he has battled back and continues to gain ground everyday.

A true testament to what we are trying to accomplish here at GFRL and an absolute herd bull in the making. We knew Momentum was something special at a young age. He has never taken a step back cashing in a top weaning weight among all purebreds and continuing to excel on feed ever since. He has been a favorite among many astute cattlemen that have visited the bull pen. A great disposition, an excellent foot and that next level degree of stoutness that must really be seen. He rounds it all out with a bold spring of rib and has a thick blood red haircoat much like his beautiful dam. Momentum certainly checks all the boxes, and I challenge you to find a hiccup with this one. We intend to retain semen for in herd use and he will sell with 50 straws for his new owner.

I believe Machine will be a real female maker. Just take a look at his mother that made the cover of Kens female sale magazine a few years back. He is soft made with lots of rib shape. Low set, deep bodied and wide topped describes him best. He is very similar to the Lot 22 bull in his moderate yet remarkably stout design.

A true heifer bull candidate and I would bet the farm on it. This easy-to-handle fella stacks in the top 20% in calving ease while still portraying traits I admire. A wicked haircoat, a good solid foot, lots of middle, and junk in the trunk to spare.

Much like the Lot 10 bull but in the purebred model, Midland has a little more frame that will maximize those feeder steers come sale day. We finally sent his 13yr old dam down the road this summer, so he was forced to figure life out on his own at an early age. With that baldy face, you are destined to get a little chrome on his offspring and his calves should fetch you a quick ROI.

I feel Matlock sometimes gets overlooked in a deep pen of bulls. Here is a good sound bull when he's set in motion and has a good balanced set of EPD's to boot! The type you could use on 2nd calvers or cows and still get some sleep at night. He is fault free in his make-up, travels well, and will know exactly what to do the day you turn him out.

Absolute power here. When I took on some share cows of Ken's, I told him "No Blacks", then I set my eyes on Magnum's mother 69K. It was the pick of the bred heifer pen and I'm sure glad I did. Magnum has led the entire pen in adjusted weaning weight and average daily gain. He is just a flat-out performer all the way and a great disposition to go with it. Mark my words, this guy will turn into a very impressive herd bull. I can't wait to see what he will do for his new owner whether it be a purebred breeder or commercial cattleman.

Marshall is a real head turner. He wasn't the most cooperative bull on picture day but one that can sure be appreciated in real life. I truly see Marshall could be used in a variety of ways with his moderate birthweight. He is soft made with a crazy amount of middle, and a good solid hind 1/4. Use him on grass calvers, use him on 2nd calvers, use him to cross your angus cows... Just use him!

Working with Grassy Flat Ranch on their bull's nutrition program has been great. Dusty and his family want their bull pen developed correctly and safely without cutting corners. They are very keen seedstock producers with a great eye for cattle and I hope that you can make it in person to see this set of bulls.

The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR feed along with a complete feed pellet. The TMR is forage-based and is designed to promote lean muscle growth, allowing the bulls to express their genetic potential. Rumen health is of utmost importance, which is why a probiotic, suitable protein sources, and proper starch levels are fed to the bulls. Organic minerals are used both on the cow herd and sale bulls to ensure proper immune function and overall health.

Grassy Flat Ranch uses a total nutrition program on their entire operation, ensuring optimal performance and health of their cattle. If you have any questions about the nutrition of the sale bulls, please feel free to call. *Best of luck on sale day!*
