## **18th Annual Bull & Female Sale**

March 5, 2025

1:00 PM ~ Silver Slate Arena  
Stavely, AB

# Sale Details

**March 5, 2025 ~ 1:00 pm**  
**Silver Slate Arena, Stavely, AB**  
**Complimentary lunch at 11:30 am**

#### DIRECTIONS TO SILVER SLATE ARENA:

(From Stavely) 4 Miles North of Stavely on Highway 2 and ½ mile West on TWP Rd 150

(From Parkland) 2 Miles South of Parkland on Highway 2 and ½ mile West on TWP Rd 150

#### Sales Staff

Auctioneer – Ryan Konynebelt 403-892-6534  
Ringman – Justin Keeley 403-627-6534  
Ringman – Darren Shaw 403-892-4493

#### Sale Day Contacts

Murray Brown 403-601-0860  
Grady Brown 403-489-0277  
David Slingerland 403-359-0508

#### Insurance

Stockmens Insurance  
Cheryl Brown 403-601-3460

#### Online Bidding

Internet Bidding Available

For more information call:  
Mark Shologan 780-699-5082 or Purebred Team 780-991-3025

#### Delivery

We will offer delivery within 200 km of home, after that at cost. Delivery will commence April 1, 2025 unless prior arrangements have been made with the seller.

#### Wintering

Anyone not wanting to take their bulls after the sale can make arrangements with the breeder to keep the bulls at a cost of \$4.00 per day after April 1, 2025. **ALL BULLS RETURNING TO THE BREEDER MUST BE INSURED.** The bulls will be housed at the buyer's risk. The breeders will not be responsible for any type of injury while the bulls are in their care.

#### Semen Test

All bulls will be semen tested before sale day.

#### Simmental Breed Average EPDs

CE: 8.0, BW: 3.5, WW: 77.8, YW: 113, Milk: 25.8, MCE: 4.2, MWWT: 64.6

#### Red Angus Breed Average EPDs

CE: 2.4 BW: 1.3, WW:44, YW: 75, Milk: 24, MCE: 5.2

#### Pictures & Videos

MCG Simmental Pictures & Videos were taken in house Mid December 2024. Videos are available on [cattlevideos.ca](http://cattlevideos.ca) for viewing.

#### Terms & Conditions

**Terms:** The terms of the sale are cash or check. All monies are in Canadian funds. The right of property shall not pass until after settlement has been made. All settlements must be made with the clerk before any cattle will be release.

**Disputes:** Every animal sells to the highest bidder and in the case of disputes, the auctioneer's decision will be final. Announcements from the auction block take precedence over the printed matter in the catalog.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

**Breeder's Guarantee:** All bulls have been registered, unless indicated in the catalog, and papers will be transferred to the new owner. All bulls sold are guaranteed to the standard breed association guarantees. In no event shall the seller be responsible for reimbursing more than the purchase price.

**Liabilities:** All persons attend the sale at their own risk. The sellers and/or sales staff assume no liability, legal or otherwise, for accidents that occur in, on, or about the premises.

**Age Verification:** All cattle at the sale are age verified.

**Trucking:** Cattle can leave that day and please make arrangements to do so. If you are unable to truck any cattle on sale day, please contact the particular breeder and arrangements can be made to load cattle the following day.

**Loading out:** Loading will not be allowed until the conclusion of the sale.

# Welcome

## MCG Simmentals

Once again, we would like to thank you for your interest in our program. We appreciate all those who purchased, bid or just came out to view the bulls in the past several years. We also thank those who have viewed our video's and joined us online through DLMS. Your support of any kind has been very welcome. We look forward to visiting everyone again this year at the sale.

This year we have an extremely strong set of bulls. We have a couple of new herdsires with their first set of bulls in this year's sale. One new sire is IPU 1G POTENT 17K which is a bull that is HOMO Polled that we purchased from the Labbatt program. This bull has been a huge asset to our program. Although we got a high percentage of heifer calves off him, the bull calves we did get that are on offer here today our outstanding. He calved extremely easy, and the calves had explosive growth. The 2nd new sire is a Homo Polled Full Fleckvieh we introduced to our herd to cover our small herd of Fleck cows, as well as to increase the milk EPD's on some red cow's daughters, as well as to try for some more blaze faced calves. ULTRA FREEDOM 88K is a super footed easy to get along with kind of bull. Along with these new sires, we have a big offering of stout bulls off our IPU 116G TOP TIER 26J sire, who pretty much gave us all bull calves. He is a HOMO Polled & HETRO Black bull. He is a calving ease sire producing super wide more moderate framed calves. This year is the last year we will have any bulls off DEEG/CD MR 7H. Look for lots of length coming in those sons.

The bulls are fed responsibly and not pushed. We feel that over feeding just reduces the longevity of the bulls. They were not creep fed at all and are on a textured bull ration from Trouw Nutrition, an alfalfa grass hay mix and liquid feed. The bulls are also on a full herd health program that we collaborate with Dr. Jordan Holt (Easter Slopes Veterinary Services) on.

The bulls can come back home with us free of charge after the sale until April 1st. After that time, we will be delivering the bulls at our convenience.

We would like to thank Tempest Red Angus for being an integral part of the sale. We also would like to thank our sales staff, for their support and professionalism. Please feel free to stop in and view the bulls anytime prior to the sale date.

*- Murray, Cheryl & Grady Brown*

## Tempest Red Angus

Welcome to the MCG Simmental and Tempest red angus bull sale. We'd like to extend a huge thank you to all the buyers from previous years and look forward to meeting new ones at the sale. To say it's exciting times in the cattle business would be an understatement! Extremely strong demands for all classes of feeder cattle and breeding stock. I'm proud to present a set of bulls that can contribute to all aspects whether you're needing to breed some heifers, or looking for strong maternal genetics to add to the cow herd.

Bulls are summered with mothers on dry native pasture without creep, from weaning on they're fed a high roughage cereal silage ration. They will be at the sale in working condition without being pushed. All bulls on a full herd health program including footrot vaccine. Semen tested prior to sale and sold with full guarantee. Bulls can return home with us until May 1st and be delivered free of charge, however they must be insured. We take \$150/ bull off of purchase price for any bulls taken home day of sale.

I've scored them on a calving score again this year to assist with buying decisions.

- CE 1: recommended for cows only.
- CE 2 : could be used on larger framed well developed heifers
- CE 3: high calving ease, safe on heifers.

Call or text with any questions about the bulls or to come have a look at them anytime prior to sale.

*- Dave, GERALYNN, Ellen and Douglas Slingerland*

This bull has caught the attention of several that have toured our bull pen, and for very good reasons. He has a ton of length, capacity and wide topped. He is a bull that really patterns very much like his sire. With Perks Potent being his grand sire, you can't go wrong. The Perks Potent sired progeny has been very well received and sought after.

This bull is as long as they get. He is a free moving individual with a solid foot under him. This bull has a half sister in our herd as well as we sold a half brother to him to Art Scott last year. His mother is a really nice cow that does a great job raising her calves, no matter how we breed her. Look for this bull to raise you some really nice females.

This bull is super docile and as a calf he was always looking for attention. He is a super long bull with a huge spring of rib. He has a half brother working for Glenn Bokvist. He is sired by one of our newest herd sires, IPU 17K, which we purchased from Labatt Simmentals in 2023. 17K has been a very consistent calving bull with lots of calving ease and then explosive growth.

This bull's first calf mother did an amazing job with this bull. He started out at just 68 lbs and had an Aug 21st ww of 791. His mother is out of one of our favorite dark red cows. We can't say enough about his sire IPU 26J, who is a real meat machine. He is not too tall, but he is super wide. He calves easy and sired 90% bull calves in the 2024 crop of calves.

This bull is an exciting individual and won't be hard to find on sale day. He has so many good things I can say about him. He is long, thick, deep, smooth, and has a great disposition. He is solid cherry red out of a solid black cow. His Grand dam was Grady's very successful 4-H and show cow for several years. He has past half brothers that have gone on to Gary Meadow's and Drew Ellice's.

This bull is an amazing and exciting individual. I really am looking forward to see what this bull does in the future. He was our highest actual weaning weighted bull with a weight of 868 on August 21st. When we decided to purchase a Full Fleckvieh bull to put on our small group of Full Fleck cows, we never would have imagined that we would be so impressed. We also used 88K on a few red cows and heifers with the hopes of getting back some more blaze faces or google eyes. 88K is a Homo Polled bull with excellent feet and a super disposition. 43M's mother was a polled Full Fleck cow we purchased as a yearling from Swantewitt Simmentals several years ago. Unfortunately, she put so much into this bull, she came up open in the fall.

You never really know if you should keep Twins or not, but this bull is no slouch. He and his brother were raised together on their hard-working dam, a cow we purchased from Brian Miller several years ago. She has raised 3 other, top of the pack bulls in the past that have all gone on to customers. The 2 bulls had actual weaning weights of 738 lbs and 670 lbs on Aug 21st, so their mother basically weaned off her own body weight in calves, but came up open, working extra hard raising 2. Don't overlook this bull's potential.

13.5	0.1	58.9	77.6	31.7	9

This is a bull with a smaller frame size but makes up for it in his thickness and wide topped. He is extremely docile, just like his mother. He is dark red with goggles. We purchased his mother from Virginia Ranch as a yearling. He is sired by the AI Sire of SVS Gambler 33H. We were lucky enough to purchase one of the few packages of semen that Double Bar D Simmentals sold after they purchased him for \$18,000. If you are looking for a calving ease heifer bull, this could be a great option.

This bull is a wow factor type of bull. He is so long, deep, thick and wide topped with a big spring of rib. He is free moving and has great feet. He is a real eye catcher you won't miss sale day. He also has a pretty cool pedigree. His mother has mostly raised daughters, all of which were retained in herd. She raised 1 bull that was sold to Murray Bokvist in last year's sale.

This is a bull with a huge square quarter, deep body and smoothness. He is a bull with a bit higher birthweight, but he will have some calving ease genetics built in from his sire, so don't let this type of quality pass you by. His mother is one of our favourite cows. She has raised 5 other bulls, all going on to work for several customers over the years.

If there is one cow in the herd that just continues to produce amazing calves, this bull's dam is her. He is a black chromed up bull that is super attractive and has a quiet temperament. He has a lot of substance and will be easy to pick out on sale day. Sired by our Top Tier son, and matched up with his dam MCG 59E, the results of this bull's calves should be really interesting. His dam has raised bulls that have went on to Darren Hansma's, Ditch Bank Farms, Tongue Creek ranch, and has 2 daughters that were retained in our herd.

# RED ANGUS BULLS

Presented by Tempest Red Angus, here is a small selection of easy fleshing bulls that are a mix of both heifer-safe and high performance. For ease of evaluation, Tempest has implemented a calving ease ranking from 1 to 3 based on the bull structure, genetic expectations and family history.

- 1) Calving score: recommended for cows only
- 2) Could be used on larger framed well developed heifers
- 3) High calving ease good on heifers

From an 80lb start to his masculine herd bull presence, Mastermind is exactly what I was hoping for when purchasing his dam as a bred cow out of the Mavv Farms red angus dispersal. A direct son of the \$130,000 U2 Township from a spry looking 14 year old Mulberry daughter the genetic potential is endless. If you're looking to breed heifers or retain and improve heifer calves I'd start here.

Dually is a true calving ease outcross herd sire I selected for his deep bodied muscular build and angus character. Comes from a hard working moderate framed young cow with perfect feet and udder who's a favorite at Leeuwenburghs. Top 5% of the breed in birthweight and calving ease, his calves are born easy with extreme vigour; he's everything I look for in a heifer bull and can't wait to get daughters into production.

Kent is a big framed long sided, high performance calving ease sire I selected from the great Redrich herd. His calves are stamped with the same stretch and profile with extra pounds to boot. Going back to Scenic route he's tried and true old genetics that work no matter which herd they are incorporated into.

Calving ease bull with frame and growth from my top cow family. Would be safe on some large frame heifers. Maternal grandam 70Y due with her 13th calf this spring and everyone is a keeper. Replacement female maker here

CALVING EASE SCORE: 2
