

NORTHERN LIGHT SIMMENTALS

Bred Heifer 2 Year Old Bull Sale

ANNUAL PRODUCTION SALE

Monday, December 8, 2025
1 PM CST · ROSSBURN HALL, MANITOBA

NORTHERN LIGHT SIMMENTALS

Production Sale

Monday, December 8, 2025 - 1 PM CST - Rossburn, Manitoba
VIDEO SALE AT THE ROSSBURN HALL *join us for lunch and hospitality to follow!*

Welcome to our 6th Annual Female production sale along with 10 two year old bulls. This being our 6th Annual sale at home but we have been in the Simmental business my whole life! The format of the sale will be the same as always with the animals viewed at home and then we go to the Rossburn Community Hall for a video sale.

Our cattle come to you as always in great condition where they have been fed to show their ability but still be fresh and agile to go out and work. The heifers here had all the pre breeding vaccines as well as scour guard. Bulls and females will have a lice treatment just prior to the sale.

Please join us for lunch prior to the sale and we would like to thank you in advance for your interest. We will deliver across the prairie provinces as soon as possible after the sale and will assist with trucking to further distances. Bulls will be delivered as soon as possible after the sale or can be wintered for a fee of \$750 at time of settlement. We encourage you to insure your purchases and will have insurance available at the sale.

Great time to be in the cattle business!

The Carson's

Neil 204-773-6927 • Cody 204-859-0658

Welcome to the Northern Light Simmentals Annual Female & Two Year Old Bull Sale. What a year it has been! We are extremely excited to be consigning two high quality Black Angus Two Year Old Bulls as well as a black angus bred heifer that we are very proud of. Our operation is slowly growing and we are striving to source females with sound structure, eye appeal and top notch udder quality from reputable breeders whose program goals seem to align with ours. We truly have focused on selecting front pasture females and we are looking forward to the years to come as our Angus offering continues to grow. We hope that you get the opportunity to come and evaluate the offering for yourselves on December 8th at the farm just south of Rossburn, MB. If there are any questions at all feel free to give either of us a call. See you Sale Day!

Bobbi-Jo Foster & Cody Carson

TERMS & CONDITIONS

Cattle will sell under the standard terms & conditions put forward from CSA, CAA & BMS. These are available upon request.

CATALOGUE DESIGN

The information printed has been supplied by the seller and believe to be accurate. Updated sheets and announcements from the block will take precedence over any incorrect printed material.

DIRECTIONS TO FARM

Please find us on Google Maps. Type in "Northern Light Simmentals" OR... From Rosburn, go 6 miles south on the 264 Highway to Road 107. 2 miles west to a dead end. 1 mile south.

DELIVERY

We will deliver across the prairie provinces as soon as we can after the sale. We will assist you with trucking to further distances.

BULL WINTERING

Bulls can be wintered for a fee of \$750.00 due at time of settlement and must be insured. Bulls will be delivered by April 1, 2026.

VIDEOS WILL BE AVAILABLE AT WWW.BOHRSON.COM & WWW.DLMS.CA

welcome from BOHRSON MARKETING SERVICES

On behalf of the Carson family of Northern Light Simmentals & New Beginning's Angus, we wish to invite you to join us December 8th, 2025 at the Rosburn Hall for their 6th annual production sale featuring an exciting set of bred cattle, 2-year old bulls and one special flush opportunity. The Carson family is one that we are so proud to work with as they are great people with a quality product and a strong reputation. They have developed a super productive cowherd and annually host one of the real good bull sales we attend each year and this production sale is a chance to purchase sisters to these bulls as well as 10 select 2-year old bulls developed specifically to be marketed as so. Please accept this as your invitation to join us for a must attend event with second to none hospitality.

The bred heifers on offer are a great blend of sires represented from powerful walking bulls at Northern Light as well as by industry leading AI bulls. These females are built and bred with productivity in mind and are the easy doing, soft made kind setting up beautiful, hands off udders. These females carry exciting services to some of the breeds most consistent and proven calving ease sires sure to give you a quick return on your purchase. Whether you are in the market for blacks, reds, fullbloods or Angus, this bred heifer section is loaded with quality. At a time now where our product in the cattle industry is worth more than ever, you must take advantage of the quality set up here before you to replenish or grow your herd. The calves these bred are carrying are likely the most valuable calves you will have ever had up to this point in your lifetime.

The 10 select 2-year old bulls on offer are a great opportunity to select your herd bulls before the busy rush of the spring sale season. These bulls come at you more mature with more age and the ability to get more cows serviced for you. You cannot afford to have open cows these days and the best way to insure they are bred is to turn out lots of bull power and what better way to do so then to purchase a 2-year old Simmental or Angus. Whichever breed or colour preference you have, the opportunity is yours here on December 8th.

The special Lot 1 flush is truly one of the most exciting opportunities of the 2025 season. The 313L female has been admired by all and was just recently crowned Supreme Champion female at the large Manitoba Ag-Ex. She is the epitome of style, power and presence and has an udder that can be put up to compare with the best of them. Her beautiful heifer calf baby is just the proof in the pudding of her production capabilities and for those paying attention, is a WBC Ease 6L daughter (who lots of the red breeds are serviced to). The 313L female is a model Walk The Line daughter and we feel the opportunity to flush this female to the bull of your choosing is truly unique and feel you could mate her 100 different ways and be very happy with each result.

Be sure to make plans to be with us in Rosburn, Manitoba for this great event on the 2025 sale calendar. We encourage you to visit with Neil and Cody about the offering and setting up a time to tour the cattle. They will not disappoint. If our experienced sales team can assist in your sight unseen purchases and consultation, feel free to reach out anytime as we would be happy to help, but we do hope to see you sitting there on sale day!

Best Regards, *The Bohrsens Marketing Team*

canadian simmental association epds

Here's an opportunity that many have been waiting for. Lainey is quite possibly one of, if not the best red female to walk our pastures. She is bold middled, big hipped, tidy fronted, sound footed and when it comes to udder connection and teat placement she is absolutely fault free. We can't say enough good about this female - this year she has her first natural calf at foot which has only confirmed her ability to produce, as her WBC Ease calf looks to be a carbon copy of Lainey herself. We've always thought very highly of this female exhibiting her at many shows the last couple of years receiving various different ribbons and banners. The latest being Supreme Champion Female at Manitoba's Ag Ex - her largest achievement thus far! Buy with confidence here, no matter the mating you chose it's a certainty that the quality will overwhelm! The decision to offer this flush has been something we've been kicking around since the day we purchased Lainey. We've had various different breeders express interest in this female and we feel this is the best way we can offer a genetic opportunity in this high quality female without giving up our ownership. Once again we can't say enough about the quality in this elite breeding piece! This will be the only flush available for the 2026 breeding season!

HOMOZYGOUS POLLED

A red blazed heifer that came in dam from a purchase we made at the Pembia Tri-angle sale from the Perkins. The dam is a beautiful black blazed female with a nice udder. 401M is owned with Rocking Z (Zach) that works for us. Bred to Mankota, our new red calving ease sire.

OBSERVED BRED TO PLCC MANKOTA 506M ON MAY 23, 2025. Preg tested safe. Exposed to PLCC Mankota 506M from May 31 to July 10.

A female that has tremendous length of body and impressive structure, she really catches your eye with her eye appeal and style! I bought her dam as a bred heifer from the Black Meadows dispersal. I have been very happy with how she has turned out, beautiful udder and is extremely structurally sound. Here is a female that will retain females in any herd! Bred to our high selling Angus bull last spring, bought by Kinley Land & Livestock. A mating to be excited for!

OBSERVED BRED TO FOS FINAL ANSWER 6M ON MAY 29, 2025. Preg tested safe. Exposed to FOS Final Answer from May 10 to June 14.

This guy screams calving ease! His dam is a beautiful first calver that goes back to a cow I purchased from HBH Angus. She is a favourite around here! She is big framed and has a tremendous udder. 11M is sound in his make, big hipped, bold middled with a smooth shoulder and he has that "look at me" presence.

Here is a bull that is perfect for use on those second and third calvers. He is going to add the pounds and put performance into his calves, but should also help to moderate birthweights. As his dam is an extremely calving ease oriented female. She is the kind that can have them small and still produce that heavy payweight come weaning time. 3M is deep ribbed, long spined and attractive built throughout his front third.
