"Keepin it Simple"

WITH GUEST CONSIGNORS
ONLINE SIMMENTAL FEMALE SALE

Bred Heifers ~ Heifer Calves ~ Semen ~ Embryos

OCTOBER 24-25, 2025
online at www.farmgatetimedauctions.ca

Welcome

Welcome to the 3rd "Keepin It Simple" female Simmental sale! Thank you for all the support last year as the bidders and buyers made it such a success and we are so pleased that these females have contributed in building and adding to your herd. To be in the cattle business today is paying dividends as this past year we have seen strong cattle prices and the wave looks to be staying steady.

Our females have rewarded us year after year and we are happy to tap into them and offer a select group. Bred heifers, open heifer calves, embryos and semen will be on offer this year! Cow families who are proven, consistent and productive are the type we as breeders would like to offer. Simmental females are hard to beat in the purebred and commercial industry as they stand-out in the pasture, at the feedlots, and in the bull pen. Investing in Simmental genetics will no doubt add value.

We would like to extend a special thank you to three families that have made our lives much more "simple" with the use of their pastures for summer grazing. Thank you to Robert & Elaine Moelhoff (10yrs), Steve, Edna, Wade & Barb Borynec (9yrs) and Stephen & Monika Jettkant (1yr). Your friendship and summer care for the females is much appreciated and we look forward to future cattle grazing!

We have a great group of consignors that are offering some females and genetics that are right for the times and have pedigrees that will add value to any program. We all feel "Keepin It Simple" is beneficial not only to the breeder but to the buyer so these females will be in their everyday clothes and will adjust into their new homes and go on about business without missing a beat.

An exciting offering of embryos this year off one of our high selling bred females from last year that Rentz Livestock purchased. This mating to our new herd sire Ranger will be one to definitely take a look at as the combination will be so intriguing to have a piece of. As well we are offering some semen lots on Ranger and Right Hand Man to start your breeding decisions for 2026!

Our thoughts have always been to "Keep it Simple" and to have females that are the most efficient and productive in the most cost-effective way. At the end of the day these females simply need to work and we value that. If we can be of assistance, please call one of us or any of the consignors, Darryl from Bohrsen Marketing Services or Mark from DLMS/Farm Gate. We all welcome you to visit our farms and look at the sale cattle before the sale or join us at the open house here at TSF.

Look forward to meeting and visiting with new and old friends.

Sale opens, October 24 @ 9AM * Sale closes, October 25 @ 7PM

how to participate in the **DLMS FARM GATE TIMED AUCTION**

1. Visit <https://farmgatetimeductions.ca>, then click on the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your user name and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.

2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.

3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding for 5 minute if a bid is placed on any lot in the sale. Any bid received after 7 PM will extend the sale by 5 minutes from the time of that bid. When no bidding occurs for 5 min the computer will declare the sale finished.

5. Within 24 hours of the sale close DLMS will contact winning bidders via email with an invoice payable to Triangle Stock Farm or consignor of Lot. Transfer of papers and delivery will be arranged with Triangle Stock Farm or consignor upon sale completion.

If you require assistance with using the new DLMS Farm Gate web site, if you don't understand how to create a favorites list, if you can't figure out the proxy bid or you just plain want to bid via phone, please talk to any of the DLMS team or Sale Consignors.

What is racehorse style sale close? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will extended bidding work? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

OPEN HOUSE

Join us on
October 25, 2025
from 10am to 4pm to view all
the sale females at Triangle
Stock Farm.

Refreshments & Snacks
will be available.

HEALTH — TSF SPRING OF 2025

- Bred Heifers – Express 10, Vision 8S

A Little History...

WHO: The name Triangle Stock Farm originated by a Simmental breeder from Turner Valley, AB. Porter Ranches Ltd bought the cow herd in the mid 1980's and the name came with the cows. The name reappeared with the tattoo TSF when Vance & I decided to have our own little herd in 2007. I am the 4th generation farmer/rancher in our family and have been in the Simmental cattle business my entire life. Back in the day we bred 500 Purebred Simmental females & 500 Commercial Simmental X females and eventually had to relocate due to a coal mine plant. Our children are the 5th generation and are active in our operation.

WHAT: We started with a small number of Red & Black Purebred Simmentals and over the past 18 years we have grown our herd. The original females have now all been retired but we have built our herd around these cow families and we are proud to offer some of those genetics. We will be hosting our 15th Annual Bull & Female sale February 20, 2026 with 45 bulls on offer. Some of these females we are offering here are half siblings to the bulls that we will be offering and one will see the uniformity and consistency in these genetics.

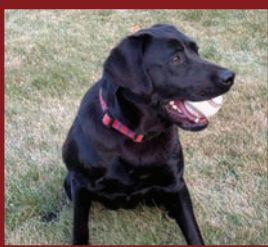

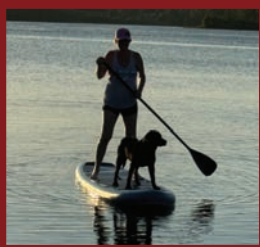

WHERE: We are west of Edmonton 30 minutes with Stony Plain being our closest town. Triangle Stock Farm is located in the rolling hills of Parkland County.

WHEN: We are active Simmental enthusiasts 24/7. Vance works full time at Edmonton Kenworth and fills in his other time with TSF.

Our children: Cheyenne works full time for DLMS and has her business degree in marketing. She is an integral part of Triangle Stock Farm especially during calving and breeding season. The horse division is growing and we have a solid set of young barrel horses on the horizon. This fall will be exciting getting back in the saddle and competing with her upcoming futurity horse Kix.

Colbey has finished his MBA from NDSU and just finished up playing in the IBL for the Brantford Red Sox. September brought some exciting news with his engagement to Viviana. Congratulations we are excited for the two of you!

WHY: There is nothing better than raising your family on a farm and pursuing your passion. Simmental cattle are simply the breed we have come to love and we will continue to try "Keepin It Simple".

Approval daughters are impressive and this female is moderate in her type, structurally sound and broody. Pedigree is solid and bred early to Can-Am. An Estate sister to 103L sells as Lot 6. Both of these females off the High Roller 111J female will set sail for generations to come as the 488T cow who you will find as their great grand-dam was a picture-perfect female. Grand-dam 71H is a definite herd builder with three daughters kept back now.

Welcome

FROM CIRCLE Z SIMMENTALS

DANIEL ZIEHR

51131 Range Road 22

Parkland County, AB T7Y 2H7

C: 780-863-9447

Welcome to the third annual "Keepin it Simple" female Simmental sale. I want to thank Vance and Michele for inviting me back to take part in such an impressive sale. Year after year I am impressed by the quality of animals up for offer. This year on offer, I have brought some of my best bloodlines to the sale ring. I am very pleased with these 3 females, they have a strong promise to produce quality calves for years to come. Each of these 3 have been picked not only because of their breeding but because of the cow family behind them.

The females are vaccinated with Vista Once, Vision 8 with spur and Ivomec. Preg checking and palpating was done on September 6, 2025. Please feel free to give me a call with any questions you may have on my vaccination, feeding, or breeding program. I welcome you to stop by anytime to see the females up for offer or take a look through my herd. Thank you to all bidders and buyers, your support is greatly appreciated!

I'm always on the hunt for new bloodlines to enrich my herd. Last year, during the 2024 breeding season I chose Right Hand Man, a strong Rancher son out of the well-known Sage 506C donor. I bred him to a solid Caliber daughter with a great pedigree of her own, and the result is 12N. CZS Nirvana 12N is a deep-bodied heifer with a rich red coat that stands out. Her dam has a nice udder and good feet, so you know she's built to last. With her strong genetics and solid build, 12N is a great pick for any program, whether you're focused on purebreds or crossbreeding. She's definitely worth the look!

BLACK TAMALE 103K

Welcome FROM TANDEM T FARMS

THOMAS & TORI PONICH
Box 136, Smoky Lake, AB T0A 3C0
Thomas: 780-656-8836
Tori: 780-603-8292

Welcome to the third annual "Keepin' it Simple" sale. We are once again honored to be a part of this sale, and we would like to extend a huge thank you to the Klepper Family for giving us this great opportunity.

It truly is an exciting time to be part of the cattle industry. Demand for high quality beef has never been stronger. Our passion for cattle led us to select and specialize in raising Purebred Simmentals. We are committed to breeding performance cattle with calving ease in mind and with a focus on letting genetics do the work. We sincerely invite you to stop by at any time to have a look and tour our program.

We are excited to showcase and offer four bred females and two open female calves. All bred females had pregnancy ultrasounds, as well as both open heifers were palpated for reproductive soundness by Dr. Collin Lawrence at the Westlock Veterinary Center. Our herd health protocol starts with First Defense and Inforce 3 at birth. Then in April all the calves are given Bovi-shield Gold One Shot and Visions 8 Somnus, and once again at time of weaning.

THOMAS, TORI AND TATE PONICH

Ms Miami 6M is a stylish heifer that combines femininity with brood cow potential. She carries the kind of balance and structural soundness that make her an easy one to appreciate. Her sire was well used in our herd and has many bulls out working in our neighborhood. Her half sister sold last year to Ashworth's Farm and Ranch.

A standout MADER Night Shift daughter from one of our very best young cows, SVS Lillian 2H. Her dam is a model of functionality with excellent feet and beautiful udder. With this kind of maternal strength behind her, this female is built to make a cornerstone cow. The combination with Night Shift 63K makes for an amazing contribution in growth and performance.

Midnight 27L is puppy dog quiet and as deep sided as they come, making her a favorite. She's a true pen standout-hard to miss with her volume and style. She carries the kind of balance and functionality that will make her a front-pasture female for years to come. Her grand dam is TSF 56H, who is the dam to Tandem T Northern Girl 27N. Feet and udder are top notch on this female. **HOMO POLLED - HETERO BLACK**

This heifer is an absolute tank! From an early age she impressed us with her sheer dimension, depth and kind of hip and structure that set her apart. Sound made and broody in design, it was an easy decision to keep her in the replacement pen. She has the potential to go out there and raise the right type of calves.

Here she is- one of the very first Right Hand Man 14L daughters to sell, and she's an absolute feature! A true standout with style and presence you'd expect, backed by a dam that is as good as they come. Excellent feet, beautiful udder and a track record of production you can build a herd around. The maternal line runs deep, making this combination one of the most exciting to walk through our pen this year. A female that has the makings of a foundation cow.

We are once again excited to share a genetic opportunity of Rusylva/SC RIGHT HAND MAN 14L, an exceptional herd sire. From the moment the hammer fell, we knew we had secured a truly special bull and watching his first calf crop develop this summer has now sealed the deal.

RHM has provided us with consistency, quality and performance in our calf crop that we were looking for. His pedigree is stacked, combining the proven genetics of SVS Rancher with the maternal strength of WFL Sage 506C. The result is a bull with exceptional phenotype, flawless feet, tremendous hair, and the performance-driven look that cattle industry demands.

Qualified for Canada, US and Australia. Semen stored at Alta Genetics.

Buyer is responsible for all shipping costs.

HOMOZYGOUS POLLED/NON DILUTOR

Introducing Ranger is pretty exciting as we searched all spring for a Mountain View son and when we found this fella it seemed all the pieces fell into place as he is out of a flawless cow. Ranger is a soggy, big middled bull with tremendous muscle expression, length of spine, hair and eye appeal. A stout bull with soundness, great disposition, presence and style. 2026 calving season is going to be filled with anticipation to see his progeny and we look forward to watching this bull make an impact.

Offering semen lots in packs of 10 and 5 will give you an opportunity no matter how big or small your breeding herd is and we look forward to working with you. Ranger is stamped with predictability as you study his pedigree and numbers.

Semen Canadian Qualified- stored at Alta Genetics. Buyer is responsible for all shipping costs

Welcome to the 2025 edition of the Keepin' It Simple sale, and thank you to the Klepper family for inviting us to be a part of it with our frozen genetic lot. The Klepper's have been very supportive of our endeavour into the purebred Simmental business, and we look forward to working with them in the years to come.

While a fairly new addition to our herd, TSF Lemon Drop has quickly become one of our favorites, and one we believe could be a foundation female for us at Rentz Livestock. We think she speaks for herself, but if you have any questions please give us a call; we look forward to visiting with you at the Open House, October 25.

Lemon Drop caught our attention last fall when we bought her out of this very sale, with her large rib shape, depth and power. We had been hearing great things about Rancher daughters once they hit production and wanted one for ourselves. Lemon Drop has proven she can raise a calf, with her Red Heat heifer that has been a standout since birth. Lemon Drop dropped a solid udder, has a great disposition, and the length all cattlemen want to get those extra pounds on their calves.

When Michelle offered us semen on their new herdsire Twin Springs BGS Ranger 6M, we jumped at the opportunity the genetic combination of SVS Rancher, WFL Mountain View and Mader Darlin' is guaranteed to produce progeny with maternal strength, power, performance and style. We have become very fond of this cow and are excited to share the results of this mating with you.

THANK YOU CHESTER RANCHES

We would like to say "THANK-YOU" Chester Ranches – Wade, Jaycee, Hailey and Carter Chester from Fort Macleod for the purchase of a group of Red & Black purebred Simmental cows. An opportunity for both of us as we wanted to downsize and they wanted to add to their registered herd. We sold them a female last year from our "Keepin it Simple" sale which they are extremely happy with and followed that up with a selection of a bull from our February bull sale. We are excited to watch their purebred division grow with this group of females who are bred to some great Simmental AI bulls. All the best with these females and we could not be happier for them to be going to such a great home.

- The Klepper's
