Elmhirst genetics add value!

Welcome

The 2026 Source for Quality Bull and female sale will offer a multitude of options in 3 breeds, both sexes and various ages to catapult your commercial or purebred program forward to capitalize on this sizzling cattle market. Our perseverance as a multi generational family in Indian River for the last 207 years, devoted to breeding and raising elite seedstock to enhance local commercial cattlemen and purebred breeders from around the globe has finally been met with record prices for all classes of livestock. Our fall female sales were incredible as our valued customers allowed us to achieve new highs in all 3 breeds, while our stocker steers also pushed the bar higher and in many cases topped the market in their weight class. Similarly our past bull customers reported glowing reports of their own personal new records and sale toppers which solidifies how truly connected and focused we are on producing genetics that can excel in all facets of this now thriving beef business. Thank you and congrats to all those customers on those success stories with Elmhirst genetics, it gives us purpose and fires us up to make the next generation even better.

With that said, we are charging on big time at Elm-Lodge/IRCC. We christened the new calving barn with last years bull sale and with both Owen and Katie home (most of the time) we've ramped up the cow numbers some more and now at 250 mother cows can say we are one of eastern Canada's biggest seedstock producers and outlets. You will note the small % of bulls we carefully select to develop and offer as we recognize that a herd sire is half the herd and must meet crucial requirements to add value, reduce inputs and most importantly create a ROI. The bulls are raised on a high forage diet and will be presented in what we feel is optimum condition to go out and cover cows and yet still be growthy and mature enough to reach their full potential. All we know and all we do is cows, it's our passion and livelihood, we strive to raise the best we can, use competition to prove that and offer our bulls and females to help our customers generate more \$\$\$. The bulls offer everything from bomb proof calving ease to scale busting whoppers while the young females will make great replacement herdbuilders with a few that can hunt for glory. We are pleased to welcome the Fallis Family and the gang from Nova Scotia at Double Trouble as consignors this year and they both bring past Royal Champion Banner winners to highlight the Angus division. This cattle business is having a heck of a ride, jump on board with both feet and add great genetics as the ride is just beginning.

If we can assist you with any of your plans to participate in Source for Quality on March 14, feel free to contact any of the Elmhirst family.

ONLINE BIDDING

Online bidding has become a large part of the auction industry and if you need assistance contact Emily or ourselves to get you set up. To bid online, please sign up before the sale.

- Well balanced, moderate
- Dam stems from the famous at Hennings in Wisconsin
- Sire is the Argentine influence full brother to the \$200000 Brooking TW
- Nice resilient cow prospect, that was chilly at birth and fought off pinkeye last summer
- Very interesting genetics

ANGUS

- Fallborn meat wagon
- Full brother sold to Colin Little
- Great footed, uddered 12 year old dam raising our best heifer calf this year
- Powerful with calving ease
- Royal Reserve is our go to for the heifers with extra quality
