

BULL AND SELECT FEMALE SALE

GRUNERT LIVESTOCK

WITH GUEST **3RD DEGREE ANGUS**

MARCH 4, 2026 || 1:00 PM
AT THE FARM, YORKTON, SK

Welcome to our annual bull and female sale. We would like to invite you to join us on Wednesday, March 4th for our live sale with guests Third Degree Angus. Our family operates a mixed grain and cow-calf operation just four miles west of Yorkton, Saskatchewan. Like many farms, our program has been shaped over time by experience and a clear understanding of what works in real-world conditions.

We calve approximately 250 commercial cows each year, and everything we do starts with the cow herd. We believe great cattle are built over time by selecting females that are fertile, sound, easy fleshing, and built to last. Our breeding philosophy is straightforward: raise cattle that perform in the pasture, not just on paper. We focus on calving ease, fertility, performance, and longevity, while maintaining cattle that are manageable and adaptable. These priorities guide both our natural service and embryo programs, with many of the bulls in this sale tracing back to proven females that have earned their place in our herd. This year's offering includes 1 proven herd bull, 14 yearling bulls, 2 two-year-old bulls, and 6 elite heifer calves, selected to represent the maternal strength behind our program. In addition, we are offering 30–35 commercial replacement heifers from our own herd which is the same kind we keep and develop for long-term productivity.

While our offering may be modest in size, it is built on consistency and cattle that hold up over time. We understand what it takes to breed, calve, and feed cattle efficiently, and our goal is to provide bulls and females that add value without adding extra work.

We invite you to check out the offering, visit the farm or give Jonathan a call. We appreciate your interest and look forward to visiting with you about cattle and how we can support your operation.

Welcome to the Second Annual 4G Grunert Livestock Bull and Female Sale

And the first live sale hosted right at the Grunert farm. We're proud to be a part of this next chapter and excited to welcome you on sale day.

Jonathan Grunert has been immersed in the livestock business his entire life. From an early age, he worked alongside his father, who raised purebred Charolais cattle and built a highly successful annual bull sale. When his father retired, Jonathan shifted his focus to developing a large commercial cow herd, where he quickly established a reputation for producing calves that consistently rise to the top of the market—a standard he continues to meet and exceed today.

Yet, even while excelling on the commercial side, Jonathan never lost his passion for the seedstock business. What began as the purchase of a few embryos and a couple of donor females—simply to strengthen his own bull battery—has grown into something much bigger. Through discipline, vision, and relentless attention to detail, 4G Grunert Livestock has reached a point where the results of those efforts can now be confidently shared with you.

Jonathan has become a true student of Angus genetics, sourcing embryos and donor females from leading programs across North America. His focus has remained unwavering: performance and maternal excellence. As the purebred numbers continue to grow, the quality has only intensified—and the cattle in the pages that follow are proof of that commitment. This is a phenomenal offering of both bulls and females.

Joining the Grunert offering is guest consignor 3rd Degree Angus, the Tomblin family. They share the same dedication to high-quality, proven genetics. Through extensive travel and visits to some of the most respected Angus herds in North America, they have assembled an impressive donor battery and invested heavily in elite embryo genetics. The consistency and depth of their program is evident throughout their offering.

This sale represents as much genetic value in the Angus breed as you will find anywhere in the country. We invite you to study the cattle, visit the program, and join us with confidence—whether in person or online. Hopefully, you are able to see this offering in person but if you cannot join us, please feel free to reach out to any of the T Bar Team as we would be more than happy to assist you in any way possible.

4G Nebraska 51N is a royally bred performance bull, sired by Connelly Craftsman and out of Brooking Beauty 333, a proven, million-dollar-producing cow. He offers tremendous length, a quiet disposition, and solid foot and leg structure. We have two full sisters retained in our replacement pen, and they are standout females which is a strong testament to the maternal power behind this bull. Nebraska 51N combines growth, maternal strength, and structural soundness, making him a bull you can confidently use across a wide range of programs. With his balanced EPD profile and strong milk numbers, this is a bull where you'll want to keep every daughter.

Calving Ease: ***

4G Nipawin is a true calving ease bull with added substance and middle. Moderate framed, good haired, and extremely quiet, he is the kind that fits commercial and purebred programs alike. A flush brother to 52N, he traces back to the legendary Coleman Donna 439, one of the most influential Pathfinder donor cows in the Angus breed. Donna 439 is widely regarded as one of the most productive maternal females in the breed, having generated over one million dollars in offspring sales. This bull combines trusted maternal power, predictable calving ease, and a disposition you'll appreciate every day. Power in the blood, consistency in the pasture.

Calving Ease: **

4G Motor 53M is a medium framed, stout made two-year-old with a big top, plenty of depth, and lots of eye appeal. He's the kind of bull that looks the part while staying functional and easy doing. With a solid 84-lb birth weight, Motor 53M offers a practical balance of calving ease and performance. He comes from a moderate-framed, easy-fleshing Rainfall daughter purchased out of the Johnson dispersal which is a cow that exemplifies efficiency and maternal strength. Motor was used successfully in our commercial herd last year, proving his ability to work in real-world conditions and produce calves that get up and grow.

Calving Ease: **

4G Comet 24K is a proven herd sire prospect backed by an elite Angus cow family. Sired by Brooking Mercury and out of the legendary PM Tibbie 216-15, this bull brings together power, predictability, and maternal excellence. He is long-bodied, deep-ribbed, easy fleshing, and extremely sound with excellent feet and strong scrotal development. Comet sires calves that fit the real-world market, offering performance without sacrificing structure or functionality. One of his greatest strengths is the quality of the females he produces — productive, efficient, and built to last. He is also a full brother to our working herd sire, 4G Heavy Metal 22K, adding confidence and consistency to his genetic package.

DAM - PM TIBBIE 216'15

Heifers

4G Ballot 508 is a moderate-framed, easy-fleshing heifers first calf. Her dam, a Peak Dot Trust daughter, is a tremendously thick, well-balanced female with great hair, a small tidy head, smooth shoulder, and a picture-perfect udder. She gets out and moves extremely well which is just the kind of cow you like to build a program around. She is a producer as she has another good heifer calf at side again.

4G Sterling 509N is a long-bodied, powerful, deep-made young female backed by one of our best young cows in the herd. She carries the kind of natural depth and capacity that translates into pounds. Her dam is a full sibling to 4G Comet, selling in this year's sale, and to our working herd sire 4G Heavy Metal, adding tremendous confidence and consistency to this pedigree. Her mother also features a beautiful udder, reinforcing the maternal strength behind Sterling. This is a female built for efficiency, structure, and long-term production which is the kind you want to keep or build a program around.

4G Grace 510N is a true sale feature and a standout Heavy Metal daughter that checks all the boxes. She is as complete as you can make one being easy doing, functional, and built with balance from the ground up. Grace is attractive fronted with a neat, feminine head, big body capacity, a beautiful hair coat, and an excellent foot. She carries herself with the kind of natural efficiency and structural correctness that translates into longevity and productivity. Her dam has a proven production record, having raised a herd bull purchased last year by Elmer and Tammy Litzenberger of Melville, further validating the strength of this cow family. This is the type of female that fits any progressive program and will leave her mark for years to come.

4G Lady 515N is a very elegant, eye-catching heifer with a clean, refined front end and tremendous depth of body. She is well balanced, feminine, and attractive, yet still carries the capacity and structure needed for long-term productivity. Her dam, JL Lady, is a proven, consistent producer that always brings in a good calf. She is a cow you can rely on year after year. This maternal strength, combined with Lady 515N's natural style and balance, makes her a very solid addition to any progressive program.

Commercial Replacement Heifers

Selling 30–35 home-raised black, black white-face, and red white-face open replacement heifers, offered in groups of two and three. These females are out of our 250-head commercial cow herd and were born late April through early May. They are sired by proven 4G herd bulls, including 4G Comet 24K, 4G Heavy Hitter 22K, 4G Conquest 27K, 4G Successor 33L, 4G Resurgence 31L, and 4G Renaissance 34L. All of these herd bulls are embryo calves out of fancy, reputable females with proven production records, adding consistency, maternal strength, and reliability to this offering. Selected for disposition, fertility, performance, and easy-doing ability, these heifers feature nice udders, great hair coats, and the kind of functionality that works in real-world commercial programs. Built to be productive, efficient, and trouble-free additions to any herd.

3RD DEGREE ANGUS

Lyndon Tomblin 306-554-7220

Jacquie Tomblin 306-560-7979

email : tomblin.farms@gmail.com

3rd Degree Angus is a family-run operation located east of Wynyard, Saskatchewan, where the Tomblin family—Lyndon, Jacquie, Maggie, Macey, and Abigale—continues a five-generation farming legacy. Our program is built on the belief that great cattle start with strong cow families, disciplined breeding practices, and a commitment to producing Angus genetics that perform in real-world conditions.

We focus on breeding high-quality Angus cattle that emphasize functionality, structural soundness, and long-term productivity. Every animal is selected with performance and profitability in mind, prioritizing strong maternal traits, efficiency, and durability. While phenotype is important, our priority is cattle that are built to work, adapt, and add value in both commercial and purebred operations.

Our embryo program plays a key role in developing our foundation cow herd. We invest in embryos from some of the most prominent and proven cow families to strengthen our program and accelerate genetic progress. The bulls offered in this sale are products of that embryo program, selected from females we believe represent the future of our cow herd. This approach allows us to build consistency, reliability, and maternal strength across our cattle.

Through partnerships with like-minded breeders, we continue to refine and strengthen our genetics to ensure our cattle meet the highest standards of functionality and remain competitive within the breed. Our goal is simple: to provide dependable, productive Angus genetics that enhance herd performance and contribute to the long-term success of our customers.

At 3rd Degree Angus, we stand behind the cattle we raise and the values we believe in—honest breeding, strong cow families, and functional genetics—generation after generation.

Third Degree Maximus 3N is a powerful, performance-driven son of DMM Maximus 18G, backed by the proven maternal strength of EF Primrose 925. This bull combines muscle, structure, and eye appeal with a pedigree built for growth, carcass merit, and maternal reliability. Expect Maximus 3N to sire calves with performance, marketability, and long-term productivity in both commercial and purebred programs.

Third Degree Maximus 2N is a practical, efficient-framed son of DMM Maximus 18G, backed by the proven maternal strength of EF Primrose 925. He offers sound structure, muscle, and eye appeal, with a pedigree built for growth and maternal reliability. Maximus 2N is designed to sire functional, marketable calves with long-term productivity in both commercial and purebred programs.

Third Degree Hi-Range 35N is the result of a flush on HF Tibbie 205F purchased from Hamilton Farms, where we selected Ellingson Hi-Range as the sire for this mating. 35N is a thick, deep-sided bull with added muscle, shape, and a balanced, functional build. We retained a full brother last year and successfully used him on our heifers, and have also retained two full sisters to establish our Tibbie cow family. Backed by a proven cow line known for longevity, udder quality, and consistent production, 35N represents the kind of maternal-driven genetics we are building our program around.

Third Degree Atlantis 10N is a Square B Atlantis 8060 son backed by an outstanding maternal foundation. His dam, Montana Erica 9074, is a long-spined, strong-topped, high-capacity female, daughter of Density produced from a dam originating in the world-renowned Tres Marias Program in Argentina. We proudly own half interest with Montana Ranch. 10N offers the kind of maternal strength, depth, and durability needed to build powerful, productive cow families.

Third Degree Triumph 22M is a quiet, docile son of Coleman Triumph 9145, offering a smooth, balanced design with added length of body and depth of rib. He is sound structured, clean made, and correct on his feet and legs, with an attractive, functional look that will work in any program. He was used as a yearling in our herd and is a proven herd bull in our breeding program, with his first calves hitting the ground now. Backed by Brooking Beauty 8062 and the proven Beauty cow family, this pedigree combines eye appeal, maternal strength, and performance.

Third Degree Rock 7N is a heifer-safe son of Coleman Rock 7200 out of JVC Donna 625D, which was purchased at the 2023 Coleman Angus Your Maternal Source Fall Sale. He offers muscle, structure, and balance in a functional package, backed by elite Coleman maternal genetics. Rock 7N is built to sire easy-calving, marketable calves with maternal strength and long-term performance, while being a balanced, functional bull that will earn his keep in any herd.

HE WILL BE A CALVING EASE BULL

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING: Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes – Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS: All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE: Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

EXCEPTION GUARANTEE: In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS: Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY: We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supercede any written material in the catalogue.
