WELCOME FROM ANL POLLED HEREFORDS

Well, here we are again! Trying to get ready for this sale has been trying with all the rain we have been getting, and as I write this, we are getting pounded on again. It will be an interesting fall to say the least. With that said the grass has been phenomenal this year and hay crops were great also on top of that we are than more that happy with our choice of bulls we are running this year. With seeing the Company Man calves on the ground, it was not hard to decide to use him heavily again this year. All of our breds are mated to Handy Man 40K or TH Sherman 527M. Both of these sires are easy calving sires. We are excited for next years crop!

Corey, Blake, Blayne and Chad are all bringing new genetics from the heart of their herds. Always bringing out their best.

Please feel free to drop by anytime for a preview of the sale offering. Chris and the crew are also available anytime. Just give one of the guys a call.

Looking forward to visiting with you and hope to see you on the 17th

**KARL & KAREN LISCHKA
JEREMY & RACHELLE BROOKS**

TO OUR FOREIGN CUSTOMERS:

Arrangements pertaining to purchases must be made **PRIOR TO THE SALE** with each individual consigner.

this one to the sale... Thanks!*

WELCOME

FROM THE DESK AT T BAR C

It is our pleasure to welcome you to the ANL/Glenlees and Guests Polled Hereford Production Sale, kicking off what promises to be a highly anticipated Saskatchewan Sweepstakes weekend.

Our hosts, ANL Polled Herefords and Glenlees Farm, represent two multi-generational breeding programs that, much like a fine wine, continue to get better with time. Through the years, each generation has built upon the foundation carefully laid before them, incorporating new genetics, new ideas, and a continued commitment to producing cattle that work. The results of that dedication are evident throughout the pages of this catalogue.

These are programs built not simply for a moment, but for the long haul. The consistency, quality, and depth found in their respective cowherds are the product of decades of selection and generations of breeders who understand that the true measure of a program is what it leaves behind for the next generation.

Joining our hosts are two widely known and respected operations, Brooks Farms and McCoy Cattle, both bringing what they believe is their strongest offering to date. Together, these four programs have assembled an exciting and diverse selection of Polled Hereford genetics, with cattle that can fit a variety of operations and breeding goals.

Whether you are part of a multi-generational cattle operation continuing a family tradition, an established breeder looking to add the next great piece to your program, or a young junior looking to purchase your very first Hereford, this is an event you will want to attend.

There is something special about gathering with fellow cattlemen and women, studying good cattle, visiting with breeders, and discussing the future of the breed. We encourage you to take the time to evaluate this offering closely, visit with the consignors, and, most importantly, come prepared to find the cattle that can make a difference in your program.

The groundwork has been laid by generations. Now, it is your opportunity to build upon it. On behalf of T Bar C, we invite you to join us for the ANL/Glenlees and Guests Polled Hereford Production Sale and the beginning of another great Saskatchewan Sweepstakes weekend.

Good luck with your selections, and we look forward to seeing you sale day!

CHRIS POLEY

A very deep and soggy made heifer. Her mother 402E gets it done every year. This heifer has a big time future ahead of her. Her maternal sister sold last year to Sandhills Cattle, Holland MB.

Big hipped and big bodied. This one is tough to let go. Kreed keeps getting it done for us year after year.

Bred to Glenlees J030 Bravo 56M on April 24.

Preg checked safe to this date.

With the theme of offering only our best, we have decided to offer this Fortress sired daughter this fall. Chad is possibly a bit hesitant as 68N is out of one of his favourite up and coming females in the McCoy herd. Her dam, 162J, is not long in the tooth by any means, but has consistently produced progeny, of both sexes, that rank at the top of our calf crop each year. 68N is a striking, short marked, goggle eyed female that will not make take a back seat to any. **Exposed to KCF Bennett Catalyst H472 from May 4 to July 15. Preg checked to calve early March.**

We were more than excited to be able to team up with Big Gully, O'Shea, Oulton, Airriess, and Lilybrook to bring NJW 202C 2912 Ranchware 147M ET back to Canada in the spring of 2025. Our first crop of Ranchware calves were born at McCoy Cattle Co. this spring. We are pretty excited to say the least in terms of what they will offer our breeding program and the Canadian seedstock industry overall.

To mark the significance of this first group of calves hitting the ground in 2026, we decided to offer our top heifer calf in the sale this fall. This sounded like a great idea until we couldn't decide which one was the top one. As a result we have decided to offer the top two and let you choose on October 17. Selling choice of lot 40 & 41.

These two are slightly different in type and kind. Trisha 69P is longer spined, fancier fronted, and more extended through her front end. 69P's maternal brother was the lead off bull in our 2026 spring bull sale. Connie 59P is likely the soggier, stouter made heifer of the two. Both heifers come from cows that are front end, production type brood cows. Both heifers carry breed leading EPD values so sort through which fits your own breeding program.

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Hereford Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Hereford Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE

We strongly recommend that insurance is purchased for full value.

ERRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.
