THESE ARE THE

BIG LEAGUES

There is simply no other livestock event in Canada quite like Canadian Western Agribition. Known as the "World Series" of Canadian beef cattle shows, Agribition brings together the very best in the business, where excellence is celebrated, reputations are built, and the passion for the cattle industry is on full display.

It is only fitting that an event of this stature plays host to the All Star Angus Sale. This year's lineup truly represents the All Stars of the Angus breed, bringing together an outstanding collection of cattle that reflect the dedication, commitment, and progressive thinking of some of the breed's most respected breeders.

The All Star Angus Sale is an opportunity to find cattle that can make a difference in your program. Whether you are looking to add power, performance, maternal strength, or that extra level of quality and presence, this offering has something to capture the attention of even the most discerning cattlemen. These are cattle backed by generations of breeding decisions, developed with purpose, and presented with confidence.

Agribition provides the perfect stage for an offering of this calibre. With the industry gathered under one roof, the excitement is unmatched, the competition is second to none, and the opportunities are as big as the event itself.

On behalf of the entire team at T Bar C, we welcome you to the All Star Angus Sale and congratulate the breeders and consignors who have made this year's offering possible. It takes vision, dedication, and a commitment to excellence to bring together a set of cattle worthy of the All Star name.

Enjoy the atmosphere, take the time to study the cattle, and seize the opportunities this exceptional offering presents.

Chris Poley

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated calues that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH: All animals in the sale have met all necessary health requirements.

GUARANTEE: Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION: All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY: Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue.

READY FOR REGINA...

Prescription is the bull we've planned on breeding for decades. A standout since birth, this calf exemplifies characteristics we strive for. Incredibly stout on every corner, big solid feet, remarkable hind leg and a haircoat that breeds true. His sire Alpine is noted for constructing cattle with phenotype and maternal instincts with the legend 74A tucked in the pedigree. More importantly is the donor dam behind Prescription. 8105 is the outcross numbered up donor the breed craves. Her past progeny have wrote history and gaining momentum as much as any cow in the breed today. When you combined the look Prescription offers with a modest BW, proud WW and a strong EPD profile, we feel all the benefits the breed offers are answered.

★ **CONSIGNED BY** DOUBLE KL & PILLER SHOW CATTLE ★

This daughter of Montana Blackbird 8105 is the kind that comes along once in a lifetime. From every angle you analyze her, it is hard to find a fault. Powerful, athletic and incredibly complete, she blends elite phenotype with a pedigree backed by one of the hottest donor dams in the breed. 8105 has quickly earned a reputation as a premier producer, generating demand from leading cattlemen across North America. While this female is sired by the $118,000 sensation Alpine, one of the most talked-about young sires in recent memory, his maternal foundation adds another layer of proven quality. Alpine is backed by the renowned Bar-E-L Erica 74A, a household name throughout North America and beyond whose reputation as an elite and highly influential producer speaks for itself.

On the maternal side, this female is a half-sister to the January Natural Law daughter that commanded $132,000 to top 2025 Canadian Western Agribition, while generating tremendous interest in full-sibling embryo packages. The consistency and earning power of the 8105 donor proves her ability to produce at the highest level regardless of mating.

Combining the look, power, structural integrity and maternal excellence that have made these cow families famous, this female represents a rare opportunity to invest in one of the breed's most exciting and proven genetic lines.

ONE OF THE MOST TALKED-ABOUT COWS IN THE BREED TODAY...

8105 has done more in the last year then most cows do in a lifetime. Her outcross pedigree, EPD profile and body mass has made her who she is today , but more importantly is her production record. With progeny sales averaging in excess of $65,000 per head, not including what we feel is her best effort ever in Lot 1A and his sister in Lot 1B. 8105 is making history, and doing it fast. Embryos have been widely accepted North American wide and of course the hard obtain sires included add even more profitably, popularity and demand as any out there. Note the mating to Natural Law would be full sib eggs to the $132,000 CWA '25 high seller to River Valley and the now deceased Primal has semen fetching $6500 per unit. 8105 was the $200,000 valued top seller of fallsview '25 and feel this cow will go down as one of the best this Canadian soil has seen.

★ **CONSIGNED BY** GRYLLS CATTLE CO, PILLER SHOW CATTLE & DOUBLE KL ★

When proven genetics, donor power and elite phenotype come together, the result is a female like GRYLLS PILLER EMPRESS 2616P. This exciting daughter of Conley A1 represents one of the strongest branches of the Empress cow family and offers the kind of pedigree that is built for both the show ring and the donor pen.

The strength of her pedigree begins with her maternal granddam, Premier Hasson Empress 103J, one of the most accomplished females to ever carry the Empress name. A dominant force in the show ring and now an influential donor, 103 was crowned many champions in her show career but most notably National Champion Angus Female in 2023 as well as Top 10 recognition in that same year and has continued to strengthen her legacy through her progeny. Her ability to consistently transmit quality and competitiveness is evident in every generation. The influence of 103 extends far beyond her own achievements, with daughters and granddaughters continuing to find success at some of the most prestigious shows and sales across North America.

2616's dam, GRYLLS EMPRESS 2421M, is carrying that tradition forward. A direct daughter of 103, 2421 exemplifies the same combination of structural integrity, maternal quality and eye appeal that made her dam so influential. As a young female, she has already demonstrated the potential expected from one of the premier cow families in the breed winning her division has a heifer calf at CWA 2024.

On the top side, Conley A1 adds another layer of elite Angus genetics. A1 has quickly earned a reputation for siring cattle with exceptional balance, style, body shape and structural correctness. His progeny are admired for their presence and functionality, making him an ideal complement to the proven maternal excellence of the Empress family.

The result is a female that blends the championship-producing influence of Premier Hasson Empress 103 with the modern phenotype and style of Conley A1. Feminine through her front one-third, bold through her rib, stout in her design and athletic on the move, 2616 is the type of female capable of making an immediate impact while possessing the pedigree to become a cornerstone donor in the future. Opportunities to acquire direct descendants of Premier Hasson Empress 103 are always in demand and 2616P stands ready to continue the winning tradition.

ERICA STRIKES AGAIN!

Erica Strikes again! One of the most exciting genetic opportunities we will offer this fall! 720P is a female that combines some of the breeds most proven, powerful genetics. Her Grand dam 74A, is a female that will go down in history as one of the greatest, most influential cows in the Angus world. 720 is sired by HF High Country 7L, a bull who is breeding true consistency, calving ease and performance. His progeny are sound, big footed, dense boned, long bodied and stout in their design. This Females dam, HLC Erica 383M, is a gorgeous young female with an exceptional udder and near perfect feet. She has entered our donor program and will be a female you will hear a lot more from in the future. The opportunity to own a female of this caliber and breeding potential doesn't come around every day. Be sure to come see her in the stall at CWA.

An opportunity to acquire genetics directly from the factory on the maternal side and fresh new genetics with either Ellingson Progressive or KR Inspiration. The highly touted, world renowned, $600,000 USD valuation donor, Erica 74A continues to demand top prices whenever offered at auction. The maternal strength of this female is unmatched and the opportunity to have Erica 74A make an impact in your herd is available for you today. This decorated female was born in Canada, but her elite status has been widespread, with embryos averaging over $5000 and flushes bringing as much as $72,000. The accolades gathered up by this matriarch are too numerous to list but also never ending! To sum it up, Erica 74A can be described as an absolute machine in terms of popularity, production and capability.

Now let's mate her to the new kid on the block, KR Inspiration ... his pedigree adds to his appeal and backed by the popular donor cow KR Miss Belle 8036, considered by many to be one of the most elite females in the KR cowherd. KR Inspiration 3078 is a low birth weight, high growth combination with fresh new genetics. He became the top selling bull of the 2024 Krebs Ranch Bull Sale after first leading off as the National Western Stock Show Champion Pen of Three. Erica 273P is an absolutely striking individual, with so much presence and eye appeal that flows into a big middled, smooth made, really honestly structured female with impressive muscle shape and an outstanding coat of hair. **Jump in on the first Inspiration progeny to sell at public auction.**

A DONOR IN THE MAKING

Here's an exciting female out of the $90,000 Greenwood Tibbie 78L and the $180,000 Hummel South America. Noble Tibbie 57P has the pedigree to make a future donor in your program. This heifer is a fancy female with power, a female with a very sharp head and neck and with a great eye appeal. She is very attractive on her stand and on the move. Here's a first time offer on this elite female. She comes from a proven successful pedigree and is a splitting image of her dam. We had an extremely successful fall run with Tibbie 78L: she was the Champion Black Angus femawle with bull calf, Noble Standout at side and Supreme Champion female at Stockade Round Up in Lloydminster. At Farm Fair International, she was the Reserve Black Angus Champion Female and she made Top five in the Supreme. At CWA she was Champion two year-old Black Angus Female and she made Top 10 in the CWA Beef Supreme. Noble Tibbie 57P is one you don't want to miss out on!

14A 2 PACKS OF 3 FULL SIBLING EMBRYOS NEW HEIGHTS X BLACKCAP MAY

PE	CE -1.5	BW 3	WW 73	YW 121	MM 19

25P is the calf off the cow we are showing this year and she is the feature of the pair. She has that presence about her that just says hey look at me, so proud and attractive with an extra shot of shape. Another bonus she possesses is that she is an absolute pet, if a young junior needs a project this is the one. When we were selecting her mother, we were actually watching the production record of 25P's grandmother, the 1604 cow. The first set of calves out of 1604 was 17 registered progeny, 10 bulls selling in KT's bull sale, a feature high sell-ing heifer in the Angus Collection Sale, and 4 daughters in their fall production sale. When we are sourcing a lead off cow for our program we look for an attractive, super sound fe-male with added power and a track record of production behind them that is as good as or better than themselves. JT Blackcap May 25P has this cow family behind her, a phenomenal sire, super sound, and an awesome udder structure with great spread and teet size. Come check her out.

Lot 14A features 2 packages of 3 embryos that would be full siblings to lot 14.
Guaranteed one (1) pregnancy per package if implanted by a certified technician.
EMBRYOS STORED AT BOW VALLEY GENETICS.

Ravenworth Ruby 49P comes from a long line of very maternal females. Her Grandam - Ravenworth Ruby 6B is part of our flush program and has over 20 progeny in the herd book. Her dam is a Stiz Stellar daughter with a beautiful udder. The Stellar daughters in our herd always contribute a large number of bulls to our sale, they are productive. 49P is sired by the high selling bull at the 2025 Duralta sale - Duralta Wanted 110M and he stems from a great cow family. With huge maternal power on both sides here is a female who will produce in your herd.

Definitely a female that has earned her spot in the CWA All Star sale. When analyzing this heifer we find that she's not the typical show kind we have come known to produce, but in no way does that mean she isn't capable of being a highly competitive show heifer, instead we find that she's got more of the brood cow look one that is a sure shot to produce those kind when paired with a variety of higher phenotyped sire matings. Her dam 37H is a female that has been a top contributor for us here at Elldem Cattle and our partners at ASM, combining 2 bull sale features aswell as back in the 2024 edition of the All Star sale a maternal sister was selected by the great folks of Steppler Farms where she became the junior division show project and since turned into a beautiful function female. This is a great opportunity to aquire one of the first daughters to sell by Sitz Eternity, definitely one with a endless future opportunity.

A daughter of PVF Marvel 9185, this January-born female offers an attractive blend of length, capacity, and femininity. Long-spined and big-bellied, she is complemented by ample bone, a smooth front end, and excellent neck extension. Sound on the move and proud in her presence, she possesses the style and ring presence to make her mark.

Her dam, U2 Georgina 478F, a recent acquisition from Ranch Covey Hill, has quickly earned her place as a donor in our program. With outstanding mass, body length, and maternal strength, 478F represents the kind of female we are committed to building around. A promising young female backed by a donor dam, with the phenotype and maternal foundation to add value to a progressive Angus program.

This is one we're really proud to put on offer. She's very feminine, deep bodied, with tons of eye appeal. She's one that's been a favourite all summer and was very hard to let go. This heifer is one that can do it all, be competitive in the show ring with a strong future to be a very functional, high producing cow. Out of a no miss dam, and her sire knocked it out of the park with his first group of calves which this heifer showcases very well. This is one to get really excited for!

Simply put — this one gets me fired up. As geek necked as you can make one, soft bellied, good uddered, and big pinned all while motoring on big yet flexible running gear. 639's silhouette from the side is truly unique. We purchased her donor dam, Lady 2X 1620, from Duffs in 2023 who has since supplied us with an arsenal of both sale feature and replacement daughters, and this may be her most impressive one yet. Combining some of the most notable names in the breed like Red Box, Firestorm, and Lady 2X — this March born show pony is going to be incredibly fun to show and even more intriguing to breed around.

Double B Angus retains the right to two successful flushes (miniumum of six transferable eggs per flush) at the buyer's convenience and the seller's expense.

★ CONSIGNED BY DOUBLE B ANGUS ★

The Alice cow family has positioned itself as one of the most impactful bloodlines in our entire program, generating multiple of our donors and sale features over the years. 606's dam started her production record off early with a bang. We sold her first daughter to the highly respected Carlos Ojea Rullàn of Argentina, who was successfully campaigned last fall as the First Lady Classic Champion Red Angus and 5th Overall Female before coming home and raising an absolute stud of a bull calf. We think 606 has all the intangibles to follow in, and even exceed, her sister's footsteps. She's good looking, incredible in her build, and awesome in her body shape and pin width while being as dark cherry red as you can make one. Proven lineages on either side of her pedigree with a hard to fault phenotype — we've been high on this one from the get go.

Double B Angus retains the right to two successful flushes (miniumum of six transferable eggs per flush) at the buyer's convenience and the seller's expense.

DEEP-BODIED. FEMININE. EYE CATCHING.

Bloom Miss Essence 524N has been an all star from the day she was born.

This Four Mile daughter checks all the boxes in a big way. Her pedigree reads like a collection of cornerstone females — with Erelite 109Z and Tibbie 28Z anchoring her sire's maternal heritage, and the legendary Miss Essence line; 22E and 61W standing behind her dam. Then there's her service to HF Hi-Country 7L. Backed by the incomparable Tibbie 21J, this mating brings together generations of females that have been foundational, productive and influential in their respective programs.

All that is what makes 524N so exciting. Maternal greatness; stacked on maternal greatness; then bred back to more maternal greatness. She is a bittersweet one for us to part with but we knew our first Black Angus consignment needed to be worthy of the occasion. After looking at the pedigree, the phenotype, and the calf she is carrying, nothing seems more fitting than sending her to the All Star Sale.

A special female - A powerful maternal pedigree - And a calf with the STARS aligned.

AI'd to HF Hi-Country 7L May-05-2026; Ultrasound Due Feb-11-2027.

We're giving our best here. Boasting an 8.16 IMF with a 61.4 lean meat yield! The numbers line up on this female, leaving breeding options wide open. Bred to the $40,000 Southland Chicago 108N, purchased this spring by Edgar Bros. Angus in Rockham, SD, the ROI potential is unlimited. The reason we are able to part with a female of this magnitude is that we did an IVF flush on her to which she froze 11 grade 1 embryos. Another reason is that we have many full and maternal sisters to her. Her dam, the original Mary KT, is still in production at the youthful age of 12 years. A full brother was an Agribition class winner in 2025, as well as a member of our class winning pen of bulls at the Medicine Hat Pen Show. Her dam, Black Meadows Mary KT 506C was the lead off and high selling cow at the Black Meadows Dispersal. Her flawless feet and udder are the reasons for her longevity. Going back to Southland Dr. Feelgood 194S and Southland Free Ride 68R is one of the many reasons we selected 506C.

Bred AI on March 26 to Southland Chicago 108N. Exposed April 20 to June 1 to Border Butte Hitman 466K. Preg checked safe to AI date.

A RARE OPPORTUNITY TO FLUSH FLORA 1004J!

Coming from the top of our donor pen is this beautiful direct daughter of 6078. 1004 is flawless in structure with body mass to no end. Gorgeous headed and starting a novel of production records amongst the best in the breed. One of her best accomplishments was producing the Merit Cool 3028L bull owned by 66 Ranch who sired the top selling bull at Merit this spring to Flying Pig Ranch who will be on the show road this fall. In short, we love this female. We currently have offspring at the top of our replacement pen and bull pen that are as good as we have.

1004J is currently open and ready for immediate aspiration and can be shipped to any embryologist. Guaranteeing six (6) grade A embryos with an open top.

Cool opportunity to get in on the ground floor of a very special female that is starting to write her own history book. KT Countess 5106 is a female that combines both power and a look that we are striving for at Parkview Farms & Sholagan Cattle. 5106 is backed by generations of power house productive females and show winners like Countess 9026, Countess 7077 and her Dam Countess 3342. A list of females that back the bottom side of the pedigree that scream production then you add the outcross Colman Mendoza to the mix Countess 5106 has a pedigree with a rock-solid foundation. The mating to BOYD CINCH 4031 offers a power packed genetic combination of rare blend of calving ease, performance, and elite economic value. His data profile is highlighted by a negative Birth Weight EPD of –2 with a strong Calving Ease Direct of 15, making him an excellent option for use on heifers while still maintaining tremendous growth potential. We think this combination of Power with a calving ease kick could be an explosive combination for the future.

The Canadian Junior Angus Association is something near and dear to the hearts of everyone at Wilbar Cattle Co. Since its inception, the CJAA has helped mold and grow future leaders in the Angus business. Our family has been a part of the CJAA as board members and Showdown attendees across the country. We are honoured to donate this year's fundraising heifer. When selecting the donation heifer we wanted a female that depicted our core values we strive for in our own cow herd – udder structure, foot quality, fertility, a proven cow family and overall balanced trait genetics. Wilbar Jennifer 569P was the heifer that came to mind. She is stacked in maternal greats within Angus circles. Lady Barbara 227, Forever Lady 12F and Evening Tinge 38C are a few of the famous dams close in her pedigree. The Jennifer cow family has been a productive one – ideal udder structure and foot quality along with longevity are the hallmarks of these cows. Musgrave Dexterity is our senior herd sire. His first daughters in production have some of the nicest udders in our cow herd. They are deep bodied and attractive. Jennifer 569P is very gentle natured and would no doubt make an excellent junior show heifer. We're excited to see who the lucky winner is!
