OBI WELCOME 2026

I welcome you to the 9th Annual Allandale Angus & Guest Bull Sale.

The Third year for Allandale Angus, Waveny Angus Farms Ltd. And Movin' On Farms Bull Sale that we are conducting at Vermilion Livestock Exchange. An event you will not want to miss with all types of Angus bulls to analyze and evaluate. We have included Caterpillar Ranch as well with 2 bulls this year.

These 3 programs have fed their bulls for the ability to breed your cattle for a long time. The repeat customers always are coming back to obtain bulls from these operations. They flat work. Whether it is a calving ease bull or cow bull you desire, this sale has it all for you, Black or Red. The sale has 58 two-year-old bulls and 11 yearlings bull on offer. The uniformity in each of the operations lets you obtain brothers to build your commercial programs around. All the bulls will be at the Auction mart the day before of you choose to come thru them then as well. The facility is top notch to view these bulls. The staff at Vermilion Livestock Exchange is just like the facility.

Please do call me, the consignors themselves or any member of the sale staff and we can help you with any questions regarding the offering. We moved the sale to day to April 10 as well.

Mark Holowaychuk, OBI Livestock Ltd.

Allandale Angus

Welcome to the 9th Annual Angus Bull Sale with guest consignors, Wavney Angus, Movin On Farms and Caterpillar Ranch. This event has become a very good seedstock source for our repeat customers to buy top end bulls from very reputable programs. We had to change sale dates this year to April 10 at 2 PM with lunch at 12:30.

I would like to thank all the participated in my recent Dispersal in December and most of these bulls are from the dams we sold that day. These cows are very productive and will make their new owners very satisfied. One thing I always believed in was my cow herd and that is what you will find in these 2-year-old bulls that are on offer. We have the HF Tony 102K power bulls that have extra length and longevity. The Pedersen Kian 70K bulls are the calving ease bulls with thick tops and extra substance. Our go to Calving ease bull, Bar-E-L Global 26E again has calving ease bulls that are very useful and have been sought after year after year.

This year we didn't do footnotes, instead used a calving ease chart for all to use. The bulls will be at the Auction Mart on Thursday for viewing or come by the farm and see them for yourselves, they are right along the driveway in pen 1.

I would also like to thank all my family, friends and neighbors that have been there with me to help over the past year. You all know who you are.

Give me a call anytime to discuss your needs for a bull and see you April 10 at Vermilion.

Wayne Stetson,
Allandale Angus
(780)853-7523

Allandale Dispersal 2025

Lot 23

Waveny Angus Farms Ltd.

Welcome to our annual bull sale. The Stetson and King families have been a joy to work with on the bull sale and we look forward to this year's sale. With all time high cattle prices and lots of snow to get the sloughs and dugouts full and the green grass growing, it is an excellent time to be in the cattle business.

We have done our best to bring you sound bulls with good dispositions. Our bulls are fed a total mixed ration and fed to be breeding bulls not show bulls. Longevity, easy calving and performance. We calve April to May with the idea of developing bulls for the rancher. We believe in the ability of Angus cattle do their thing, There are some new bloodlines for our past customers.

We would like to thank our past bidders and buyers and encourage anyone who would like to stop by the farm and have a look at the bulls. The coffee is always on!

Mike Chase

Movin' On Farms

Welcome,
On behalf of everyone at Movin on Farms, we would like to invite you to join us for our Bull sale on Friday April 10, 2026 at 2:00pm at Vermillion Livestock Exchange AB.

This past year had a lot of positive for us here at Movin On Farms, with our son Teagan King and his Fiance Mya Thome who bought an acreage and 20 head of purebred red and black angus cows to start the 3rd generation of Angus breeders and 5th generation farmers. The acreage they purchased is right where our legacy started 5 generations ago. This February we were also blessed to have our Grand daughter Bryor join us, starting the next chapter in our lives and the 6th generation of our family. We are so incredibly proud of our daughter Brooke and partner Brix for bringing her into our lives.

We are here again to have a Bull Sale with Allandale Angus, Waveny Angus and new consignor Caterpillar Ranch. We feel this will give our customers a great opportunity to look through a more in- depth group of bulls with a wide variety of options.

Here at Movin On Farms, we are building our program around our females to bring you the most complete bulls possible. Our two-year-old bulls walk on a 10 acre paddock all winter long as we believe Athleticism is a big part of their breeding capabilities. We also have a select group of yearling bulls on offer as we know that some of our buyers still prefer to buy yearling bulls. Last March we purchased a Red Angus bull from Wilbar Cattle Co. named Stranglehold 814M. We can't wait to see his pedigree hit the ground this spring. He will be a huge boost to our red program. We have a great selection of calving ease bulls and cow bulls.

We run our cow herd on a strict no free pass rule. We have tightened our breeding up to build the most fertile females we can. Our Heifers are on a 30-day breeding cycle and the cows run for 45 days. If they aren't producing, then they go. We have really been focusing on feet and udders and have noticed a huge change in our program now. Any bulls that were used last year will be tricked tested when we semen tested

We will be working with Mark Holowaychuk and his team from OBI as our sales consultants. We have also asked Harvey Trach and Carter Sidoryk to be a part of our sales team this year. If you have any questions, please don't hesitate to reach out to any of us. Make sure you come on down to look at some bull and have lunch at Noon.

We would also like to take the time to thank all our bidders and buyers from last year. Also, a big thank you to our family, friends and neighbors. We surely do appreciate everyone that believes in our program.

Jim, Jodi, and Family
Movin' On Farms
RR#2 Kitscoty, Ab. T0B 2P0
Jim's Cell (780)205-7311

Additional Sales Staff for Movin' On Farms to call
Harvey Trach 780-645-5172
Carter Sidoryk 780-808-1762

- will work well on heifers and cows
- lots of depth and hip on this fella, it's definitely not hard to find this guy in the pen
- his dam is a big, framed cow and first time calver
- Has a really good pedigree
- Was used in our herd last summer to breed our heifers

DREAM. GROW. THRIVE.

It is a pleasure working with Jim King and the crew at Movin On Farms on their nutrition program. I hope you are able to make the sale to see this impressive group.

The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a forage-based ration. The ration is designed to promote lean muscle growth, allowing the bulls to express their genetic potential. The energy source used in the bull ration is a 14% protein pellet. Multiple protein sources are used that provide a blend of rumen degradable and rumen undegradable protein. Rumen health is of utmost importance, which is why suitable protein sources and proper starch levels are fed to the bulls.

The overall nutritional health of the bulls is of major importance to the King family. These bulls are developed with longevity in mind, as their ration remains at the same energy level throughout the whole winter developing phase. If you have any questions about the nutrition program, feel free to reach out.

Best of luck on sale day!

Caterpillar Ranch

On behalf of my family, I want to thank everyone in advance for your interest in the first of what we intend to be our annual bull offering. Our program continues to grow from our early beginnings with grassers and a few commercial cows, shifting our focus a few years ago to pure-bred females to feed Ben and Jake's involvement in 4-H. Our main goal with the change was to build a herd that we would be proud of, that focuses on quality and long-term performance.

We have continually invested in top quality females from great breeders such as Country Lane Angus, Pederson Livestock and Allendale Angus. Our breeding program relies heavily on artificial insemination to concentrate on genetics that improve structure, calving ease, and disposition; knowing these traits will carry through to add value to any program. Our calves continue to form the foundation of our herd, raised with a hands-on approach so you can be confident the bulls are calm, quiet, and easy to handle.

I want to especially thank Jim King from Movin-On Farms and Mark Holwaychuk from OBI Livestock for your support and the invitation to join this exciting sale. I look forward to the opportunity to meeting potential buyers and build relationships so our program can help yours. Feel free to reach out any time if you have questions about the bulls or just want to talk about cows.

Warm Regards,
Frank, Patti, Ben & Jake,

6N is the second bull calf out of a bred heifer we purchased at the Macnab Angus dispersal in 2023. We like 6N so much that we bred his dam back to Peak Dot Boost 137H again in 2025 and she gave us a set of healthy heifer twins earlier this January all on her own. 6N will be safe to use on heifers and cows without a doubt. His half-brother sold to Pleasant View Farms in 2025.

8N is the first calf out of a replacement heifer we bought from Pedersen Livestock at the 2023 Northern Select Sale. If you've been in the pen with him, there's no doubt he has his Dam's docile personality. Combine that with her calving ease and his Sire's gains and you'll see the benefits at weaning in the fall. 8N will be safe to use with large frame heifers and cows without any trouble.
