*bull & female sale*

ON THE FARM - MARCH 25, 2026 - DELBURNE, AB

70 YEARLING BULLS & 6 PUREBRED HEIFERS

**SIX GENERATIONS**  
*of cattle operations*

# welcome

Welcome to our 9th annual Red and Black Angus bull sale. Thank you for taking the time to view our catalogue and to those who were able to walk through the bullpens before the sale.

This year's offering is another step forward, we feel, to raise the level of the genetic traits our customers demand. Those being calving ease , performance, darker red color , foot quality, hair , skull shape and maternal dams with properly attached udders and adequate teat placement. We will continue to pay close attention to these traits and others ,as well. We then take the genetics we have made and further develop the bulls. Because of the large pens the bulls are in with the waterers at one end and the feed at the other we have calculated that these bulls walk at least a mile per day for feed and water. We feel this helps the bulls to maintain a higher level of athleticism.

Out of 225 purebred male progeny born here only 70 get catalogued. We keep a high standard for this event and all of these bulls have been parent verified.

We responded to the demands our customers have for heifer bulls and we have catalogued 23 ,3-star calving bulls and 13, 2 star calving bulls. The most we have ever offered. Bulls that still maintain great performance. Refer to the chart in the front of our catalogue to select the bulls that meet your needs for calving ease.

Our top quality heifer offering is also packed full of easy calving genetics to produce top performing progeny. Check 'em out!

Finally, feel free to contact any of us or contact our very capable sales consultants to help in selecting the bull or heifers that would best suit your needs. Here's wishing everyone has a great year full of family , friends and rain! Hope to see you at the sale!

## **WELCOME FROM** *sales management*

Welcome to the Allison Farms Bull & Female Sale. This 2026 year marks one of the most highly anticipated years in the cattle industry following a record high priced fall on all classes of cattle. Now is the time to surround yourself with the highest of quality bull you can source to improve and strengthen your cowherd and if you are reading this, you have come to the right spot. The Allison clan has quickly and diligently built a program around high power cow families that produce. The Allison program is synonymous with Red Angus loyalty and has been a trusted source for herd bulls for many breeding programs across North America. On behalf of the entire Allison family and all of us at BMS, we wish to invite you to this exciting sale!

The Red and Black Bulls produced here at Allison farms are big bodied, heavy duty bulls ready to go to work. They have been designed around elite cows with a heavy emphasis on foot quality and do-ability. They are consistently deep bodied, easy fleshing and heavy haired. The amount of herd bulls produced here and working in many recognizable programs in both Canada and the U.S speaks volumes to the heavy lifting and meticulous work they have done behind the scenes to offer you a super product to use in your operation. Many of the sires represented in this year's offering are past graduates and high sellers from this very sale which again shows just how much confidence is

shown in the bulls produced here. Each year we are impressed with the large crowd of repeat buyers, proving how well the bulls work and how great the folks that stand behind them are to do business with. The open heifers available are right off the top of the replacement pen and are a great way to invest in a new cow family to build around. These females are sisters to the bulls and are a great glimpse into what these powerful bulls have to offer maternally.

We do hope you make plans to join us on the farm near Delburne, AB for this exciting lineup of Angus seedstock. The people, cattle and hospitality are best meant to be enjoyed in person so please mark March 25th on your calendar! We understand it is a busy time of year and that you cannot be in 3 places at once, so if you are unable to attend sale day, be sure to reach out to any of the Allison men to discuss the cattle and your bull needs. If you need assistance, please don't hesitate to contact any of us from BMS for free consultation and for the use of our order buying service! We would be happy to help! We hope to see you for some Allison hospitality!

Best regards,  
*The Bohrson Marketing Team*

28336 TWP RD 320  
MOUNTAIN VIEW COUNTY, AB T4H 4M7  
[www.Bohrson.com](http://www.Bohrson.com)

**SIGHT UNSEEN:** We certainly welcome you to attend our sale but if you are unable to attend or bid online then you can consider our sight unseen purchase program. Let one of the contacts know what type of bull you are looking for and we will fully guarantee satisfaction. Each order will be considered and handled with the utmost integrity.

**DELIVERY:** Free delivery to Alberta, Saskatchewan and central points in Manitoba and BC. USA sold bulls will have the necessary health papers and delivered to the border.

**BREEDER GUARANTEE:** Allison Farms guarantees our bulls to be sound, fertile, and reproductive in accordance with the rules and regulations of the Canadian Angus Association for the first breeding season. Claims must be made by September 1st of year of purchase. If your bull experiences a problem, please contact us immediately and we will provide a suitable replacement if available or a sale credit. This guarantee does not cover death, injury, mismanagement, or the bull unable to freeze semen. Effort has been made to assure our bulls are sound by ourselves and an accredited Veterinarian.

**INSURANCE:** Insurance is a must if you are leaving your bull. Reps will be onsite.

**IN-HERD SEMEN:** Allison Farms reserves the right to draw semen for in herd use at our expense and the buyers convenience on any bull in the sale.

**HEALTH:** All bulls are on the BovaShield Gold program and treated with Ivamec and Cylynce.

**TERMS & CONDITIONS:** Cattle will sell under the standard terms & conditions put forward from the breed association. These are available upon request.

**ACCIDENTS:** Although every precaution will be taken, neither sales management nor Allison Farms assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accident or loss of property.

Red Allison Abyss 58L takes the crown for the most consistent herdsire! Owned by Cockburn Red Angus, Abyss is powerful, dark red, with extra body. Boasting a top 1% WW and YW, Abyss calves have averaged 85.5lbs at birth, an exception growth curve. The sons offered are stamped exactly like Abyss. Big bodied, extra length, and explosive muscle capacity! Allison Lottie 33G is a moderate, excellent uddered, beautiful angus cow that we all appreciate. His sire, Red Allison Elysium 80J, has made a splash in the red angus breed by placing a dark red color, extra heel, a square foot, and performance without sacrificing birth weight. The Abyss daughters are nothing short of exceptional with excellent teat placement and angus character.

Red Allison Void 29N has checked every box in our books. An astounding herdbull presence, incredible body mass, and thicker than John Deere 4440 oil on a cold day. Void moves like an athletic cat with front extension and a powerful, bold muscle capacity. Ranking in the top 1% for WW and top 1% for YW with a moderated birthweight makes void a true performance herdsire with an incredible future ahead! His foot quality, skull shape, and testicle shape are highly desired here at Allison Farms. Red Allison Carlee 112G is a cow that all visitors point out. Her body condition always stays with extra flesh, dark red, and a highly productive cow!

A prolific combination of two prominent cow families at Allison Farms, the Lottie's and the Spring Roses. Blaklader's pedigree has consistently produced high end progeny with 6 donor cows and leading herdsires with proof of quality production. He stands on excellent feet, big scrotal, dark red, huge top, and extra ribs! Red Allison Spring Rose 51G has sold progeny to Mexico for \$43,000, a \$27,000 bred heifer to T-K, the \$36,000 Red Allison Clash 13K to Canadian Sires and W Sunrise, and retained donor females in our herd. Spring Rose is also the maternal sister to the \$115,000 Red Allison Paradigm 74L herdsire walking the pastures at South View Ranch! Blakladers package holds consistency and proof of excellence.

Pastrana landed on the scale after 205days of being born with a massive 783lb weigh. No creep feed, just genetics for performance and proper growth curve. He is made with masculinity and calving ease mixed together. Pastrana is smooth through the shoulder, with an explosive rib cage and massive muscle capacity! A future herd bull ready to cover cows in tough conditions, raise females, and add performance to a calf crop! His dam has produced some of the most sought after genetics with progeny being placed from Mexico, multiple states, and across Canada.

Valdez is an incredibly dark red performance bull with growth and extra performance! He has a proud herdbull presence with ample extension and incredible muscle capacity. A sale feature bull that we are really excited about! A pedigree loaded with consistency and the ability to produce feminine females and masculine bulls! Valdez starts at the ground with excellent feet, sound moving, and massive capacity! His sire, Abyss, is placing females and bulls in the sale at a 90% rate, we expect him to produce replacement females at that rate!

 RED RMJ REDMAN IT  
 RED BAR-E-L SPRING ROSE 22W

An outstanding herdsire that has been appreciated throughout the Red Angus industry! Semen fetching a staggering \$1200 per straw! South View Ranch landed Paradigm in our 2024 sale for \$115,000. Everything about Paradigm hits the mark; smooth made, dark red, incredible foot quality, and the females to back him up! A calving ease herdsire showing length of body, ideal skull shape, smooth made, and muscle capacity. The sons from Paradigm will go on to produce incredible females in terms of size, udder quality, and maternal instinct. Rased by the most prolific cow, Red Bar E-L Spring Rose 74B, and maternal sibling to Red Allison Spring Rose 51G who has raised exceptional progeny spread across North America!

BamBam is one of the pen favorites this year. Carrying the torch Paradigm passed him. His front end is clean, has great neck extension, and carries his ideal head proudly. He steps on his incredible feet with effortless ability. BamBam's dam, Red Allison Ms. Stretch 46H, has a beautiful udder, she is designated elite, and all progeny have been retained! The maternal sisters to BamBam are moderate in size, excellent teat placement, and beautiful headed. A paternal sister was sold for \$20,000 to CS Ranching out of the Canadian Red Round Up sale last fall. BamBam has an exciting future ahead!

A big powerful herd bull sired by the Elite herdsire Paradigm! Dark red with a beautiful skull shape make this stud a must see! Built with calving ease and performance. Paradigm 207N is sired by the \$115,000 high selling bull from 2024! His dam will raise big calves every year.

When we set out to find a new herd sire for our program in 2024, a stop at W-Sunrise Angus to see Tanner and Megan's bull pen made up our minds. Charlie 358L checked everything off on our grocery list. He's sound footed, moves like a puma, chock full of hair and muscle with a quiet demeanor. Behind him maternally is Red Brown Creek Soapy 137C, and true to her name is an incredibly clean made cow. Beautifully uddered, easy-keeping and dark red. 358L's progeny will impress you with large square black feet with plenty of heel, big testicles, in a properly structured package with more hair than Scotty's clippers know what to do with. We couldn't ask for a better first year in both the bull and replacement pen!

It wasn't a tough decision to decide who to match up with Lassie 10K. A deep, moderate, feminine female bred with Charlie is sure to put a feature bull in the sale, and here he is. Roczen stands with a proud look on top notch feet. Take a lap around him to recognize his width, structure, skull shape, and dark color. This boy's ready to cover some cows. As for the Lassies, both his dam and granddam have been flushed to produce the hard-working and refined kind of females we like around here. Throw your hat up in the heifer pen and it's sure to land on a Lassie.

Don't ask Benny about the Scarlet cow family if you have somewhere to be. 281N exhibits why he holds the Scarlet's in such high esteem: productivity, longevity, and sound characteristics. A true working class bull that's gonna cover cows as soon as the trailer gate swings open.

Jetty was our lead -off Jetstream bull in our 2024 sale commanding \$35000 to SSS Red Angus. We used some in herd semen to carry on the superior traits that Jetty possesses. His skull shape, length, smooth muscle pattern all contribute to easy calving and top end growth while standing on a black foot with lots of heal. The three sons selling possess the same style and patterns.

Our Drac daughters are so versatile in their production. We ask them for heifer bulls with performance and it happens so often. Alpinestar is a 3 star heifer bull that could work on cows, as well. Not only smooth made and performance minded Alpinestar stands on superior feet!

Keener was our pick of Ter-Ron's 2023 bull sale. We brought him home and he's become one of our favorite walking bulls to hit the farm. Loaded with dark cherry red hair, easy-keeping, and walks fluidly on a solid black foot. His dam, Red Ter-Ron Rachel 27H is a soft made feminine cow, with a beautiful udder that added confidence to our decision to add Keener to our program. His daughters are now in production and are the kind of cows that will be around for years, with tight udders, solid feet and excellent mothering and docility.

An absolute performance son from Keener right here! Pro Circuit has caught our eye in the pastures to weaning and he keeps checking off the boxes on his way to becoming a stand-out herdsire. He's quickly becoming a bull tour favorite too, as a result of his dark red hair, thick muscle, black foot, and overall herdbull presence. Backed by the Dream Girl cow family, rest assured there are generations of quality udders and feet that keep this cow family thriving on our farm.

Jet 257N boasts a -1.9 BW EPD. Jump in on this elite calving ease bull featuring a dam that has produced a \$21,000 in last years sale going to Rooke Farms picked out by Alice! Twin.

Red Allison Hush Money 3K is our elite calving ease sire! Hush throws consistent moderate birth weights with excellent growth and replacements into our herd. In our 2025 bull sale, Hush Money sire group was the highest averaging group with the lead off bull going to Canadian Sires and Wheelers Stock Farm for \$97,500. Owned by Pieper Red Angus in Nebraska, Hush Money semen continues to be one of the most valuable in our semen tank. His dam, 115G is a maternal sister to 74B, who has produced bulls such as the \$115,000 Paradigm and the \$56,000 Smack. This is an Elite cow family. The six bulls in the sale from Hush Money all have fantastic foot structure and foot quality. The breeding of the bulls have been carefully selected to produce top heifer bulls for the industry to utilize. Any of the six bulls will all work well for easy calving on heifers while maintaining great performance at weaning time in the fall. Take your pick out of this group! We have to build this great Canadian herd and it all starts with getting heifers bred!

30N is a rip of a bull. He has a deep mid section with a great hairy coat. If you look at this bull from behind, he has great width and a nice flat top that you could eat your morning breakfast on. His dam, 14K, is an easy keeping cow on the farm, she is moderate with a solid foot and fantastic udder. Use this dude on cows or heifers.

Here is a one-of-a-kind bull in the pen. This is the only purple bull out of the great Paradigm. Phantom carries great performance and will make some excellent cows in your future. His dam, 35G is an eye catcher in the herd. She hits all the boxes from great feet and udder to excellent body shape and structure.

A Spring Rose female! Sired by Keener. The Keener females are very attractive and have incredible udders! Dark red and great feet!

# Allison Family

2025

The bull feeding program is built to maximize forage utilization, gut health and as a result quality sperm production. Nutritional status of a bull, particularly from the previous 60-days can affect the semen quality being ejaculated today. Sperm production is a continuous process and proper nutrition is critical to maintain peak fertility and longevity of bulls. Bull calves are generally developed on grass with their mom's on a quality mineral program.

Once bull calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. This is important for consistency of maturation and puberty of bull calves. Sampling and analyzing

forages are important for properly balancing the overall ration. Forage quality and digestibility are important for maximizing ruminal health. Matching suitable protein sources with proper starch with the available forage sources is key to promoting lean muscle growth. The addition of organic minerals are used to ensure proper immune function and overall health of bulls. All of these factors contribute to semen quality and conception within a herd.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program.

*Best of luck on sale day!*
