**“Our Promise to You - Quality Cattle”**

# Welcome to Our 27<sup>th</sup> Annual Sale!

A fantastic sale last February kicked our year off to a great start! Two new grandsons, Brant & Pyper's purchase of a new farm among other things that we can appreciate; and the "love of the game" has continued to pay off with a great return for all cattle people.

The cattle here make our living and we are thrilled with the great reports in their new homes. We maintain our cattle are the moderate and easy keeping kind that adapt easily.

The sale bulls are a strong group throughout including a great set of heifer bulls. Semen tested and delivered.

The bred heifers are uniform and are bringing in calves very comparable to the cows.

We are exceptionally proud of our steer calf crop each year assembled for Balog Auction!

Heifers sell ultra-sound preg checked with Chase and Samantha's great open heifer calves palpated.

Please be our guest on Tuesday, February 10, 2026 for a beef dinner and take in the day or drop in before hand. DLMS bidding and Presale Video will be here. Please call if we can be of any assistance! Sale starts at 2:00 pm (CST) or 1:00 pm (MST).

Sincerely,

## Rob & Joanne Bannerman Family

### GENERAL INFORMATION

**LOCATION:** The Sale will be held at the Farm, Livelong, SK directly south of town. (Watch for signs. See map.)

**TIME:** The Sale starts at 2:00 pm CST (1:00 pm MST) Tuesday, February 10, 2026.

**GUARANTEE:** All bulls semen tested and guaranteed breeders. Females are preg checked safe in calf. Standard Canadian Hereford Association Guarantee applies. We suggest insurance on purchases at full value.

**HEALTH:** All cattle treated with Ivomec. Both herds in a TB and Brucellosis free area and on a full vaccination program.

**DELIVERY:** Central Points free delivery within 300 miles. Commercial heifers are the responsibility of the buyer.

**TERMS:** Full payment Sale day unless prior arrangements have been made with Rob. Animals become the property of the buyer as soon as sold.

**SIGHT UNSEEN PROGRAM:** If you can't make it to the Sale: Please let us know and we will go over the sale cattle together. If you wish to bid we will have a representative do so on your behalf within your price range. Telephone bids welcome. Sale day phone 1-306-845-7790.

**INSURANCE:** Available Sale day. Larry Toner 1-306-834-7652.

**ALL PERSONS:** Who attend the Sale do so at their own risk. Owners and management assume no liability, legal or otherwise for accidents that may occur.

**ACCOMMODATION:** Many excellent motels in Lloydminster or North Battleford – both approximately a 1 hour drive.

**CATALOGUE:** Online at [www.hereford.ca](http://www.hereford.ca)

# When You Buy a Bannerlane Bull...

Our family is in our fourth generation here and have been in the horned hereford business since 1970. It automatically follows that our cattle have been proven to work and return profit for their new owners.

We guarantee our sale cattle to be breeders; any problem we'll make it right. We always have spare bulls through the breeding season. We have many satisfied customers who are great friends - we would like to put you in touch with any of them as a reference.

We deliver our bulls and are accommodating. Bannerlane bulls sell semen tested. Bannerlane bulls come with actual performance numbers, indexes, 205 day adj weights and EPDs. Performance information tells you how the bulls compare to other herds and breeds.

Our only business here is our cattle and we fully support any and all involved. Bannerlane bulls are durable and can be found throughout the prairie provinces, British Columbia and the northern States.

# HYBRID VIGOUR

We know “free” pounds and extra life can be gained in the first and second outcross of any straight bred herd.

The reality is that the old is new.

Hereford bulls are now the new outcross on many cowherds, to produce more uniform calf crops with hair coat and eye appeal, vigour and thickness and the cross will add pounds, not take it away.

Hereford bulls on black cows produce a BWF or BBF.

The point sometimes missed is that the calf is still black.

Only it has more Hybrid Vigour.
