When you only have 1 roan bull he may as well lead it off, if he was Red he would never leave this place. This calf has been special since he was born out of our most consistent producing cow that always takes them up a notch. Sire by Beat the Heat that I bought semen on years ago from Anwender's cause I thought he had a lot to offer to the breed as a calf when he sold in the CWA sale. 47N is thick topped, big hipped, deep middle and skeletally correct for the groundup. We showed this calf at CWA last fall. 96.9% SHORTHORN
