Bull Sale *information*

Insurance

We insist all bulls be insured while at Blairswest Land & Cattle. All bulls become the risk of the buyer once sold. Blairswest Land & Cattle will provide the best care for your animals while on the farm.

Semen Collection

Blairswest Land & Cattle reserves the right to collect semen on any bull sold through this sale. The semen collection will be at Blairswest Land & Cattle's expense and the buyer's convenience. Any semen collected will be for in-herd use only.

Guarantee

At Blairswest Land & Cattle we stand behind our bulls and will ensure customers are handled in a professional manner. If an incident occurs, please contact us immediately if there is an issue with your bull purchase. Under no circumstances shall the seller be responsible for more than the purchase price paid for said animal.

Sight Unseen Purchase

We understand that life is busy, therefore, if you are unable to view the bulls prior to the sale and need assistance, please call one of us at Blairswest Land and Cattle. Our sight unseen purchase program lets you buy with confidence. We can discuss your needs and our team will provide you with the information necessary to help you make your selection.

Liability

All persons that visit the farm do so at their own risk. The seller and facility assume no liability or otherwise for accidents that occur.

Delivery Options

We offer free delivery to central points in Western Canada. We will work with you to make arrangements to get your purchase close to you at a convenient location and in most cases right to your location. Delivery will be at our convenience beginning on March 20th, pickup is always an option. Delivery will take place between March 20th - April 20th. Free feed up until delivery.

Supplementary Information

All supplementary info will be available on sale day, which will include weights, scrotals and any other updated information.

Purchase Incentive

\$100 taken off of the purchase price if bulls are picked up within a week after sale day. With the purchase of two bulls, 4% discount. 3 bulls, 5% discount.

Herd Health

bulls will receive 2 doses of Fusoguard vaccine and will be poured with silence now and before delivery.

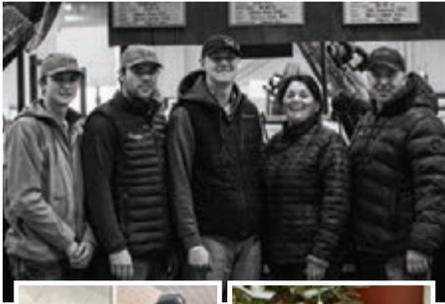

Vaccine Protocol

Other Bull Info

Blairswest bulls are all parent verified as well as age verified. Blairswest has been enrolled in VBP for over two decades.

WELCOME FROM Blairswest Land & Cattle

On behalf of the Blair family, we would like to formally welcome you to the 2nd Annual Blairswest Live Bull Sale, taking place March 19th at the ranch, 7 miles west of Drake. Looking back, last year's inaugural sale will always be a memorable milestone for our family and program. The support from our bidders, buyers, and everyone who attended made it a truly special day. We are sincerely grateful for the confidence placed in our cattle and our operation – it's something we do not take lightly.

This year, it's pretty easy to get fired up. We are excited to welcome the W2 program to join us, offering a strong set of Charolais and Simmental bulls alongside our Angus division. Don, Maston, Trevor, and their families are great friends, valued customers, and dedicated cattlemen who pour their hearts into agriculture. We couldn't be happier to have them partner with us for what we believe will be an exciting and high-quality event. It's with great excitement that we once again welcome Copper Kettle Cattle Co. back as a

calving-ease bulls built for heifer pens, and several that we consider dual-purpose sires – offering the rare ability to calve easy while still injecting shape, growth and pay weight. Most importantly, these bulls are backed by some of the most elite and proven cow families in the breed. Having sold commercial females for over 40 years, we firmly believe everything starts with maternal strength. Fertility, udder quality, longevity, and fleshing ability are not optional traits – they are foundational. When we stepped into the purebred sector, we made a conscious decision to start with the very best cow families we could access, and that maternal focus continues to drive every breeding decision we make today. As many know, operations like this don't run without great help. We're incredibly grateful that we get to do this every day as a family, but we also recognize there are people behind the scenes who make it all possible. First, Colin deserves a tremendous amount of credit. He's here year-round and is involved in everything from cattle to grain and all the jobs in between. His work ethic, dependability, and willingness to do whatever needs to be done does not go unnoticed. We truly can't thank him enough for all he contributes to our operation. There are many other names we could mention, and we apologize if we've missed anyone individually, but you know who you are. Please know that your help, encouragement, and support, especially through the busy seasons, do not go unnoticed. Agriculture is never a one-person effort. It takes a team, a community, and people willing to step in when things get hectic. We are incredibly thankful to everyone who lends a hand, offers support, and stands behind our program year after year.

Our family continues to grow each year, Cam, Paige, and Sophie were excited to welcome baby boy Baker Blair on September 16th. It's been a special addition to the family, and Sophie absolutely loves her role as big sister. On November 30th, Nolan and Courtney welcomed their first child, Bretlyn, to the family. It's been a joy watching them step into this new chapter, and we sure love seeing the family continue to grow. Christmas was definitely a little louder this year—that's for sure but we wouldn't have it any other way. Grandpa and Grandma certainly enjoy the visits to the shop, and the little ones have a way of putting a smile on our faces no matter what kind of day it's been. These moments remind us of what it's all about. We encourage you to stop by the farm anytime to tour the bull pen and join us for a coffee or a cold refreshment. We're extremely proud of the set we've assembled this year and believe it represents the strongest and most consistent offering we've put together. With the cattle market at historic highs, it's far better to have a spare bull than a pasture full of open cows. We would welcome the opportunity to earn your business and help supply your bull needs with confidence.

We also want to extend a sincere thank you to the T Bar C crew. They've been through the bull pen multiple times, and their professionalism, insight, and marketing expertise are second to none. We truly believe they are the best team in the business, and we're grateful for their continued support.

If you have any questions, please don't hesitate to reach out to any member of the Blairswest crew or the team at T Bar C. We'd be more than happy to visit and help in any way we can.

We look forward to seeing you March 19th at the farm and wish everyone a safe and healthy 2026 calving season.

~The Blair Family

guest consignor to this year's sale. Allison is not only a great family friend, but also a progressive breeder who is constantly searching for outcross breeding pieces to keep her program moving forward. Her dedication to quality and genetic advancement is evident in the cattle she brings, and we're proud to have her program represented alongside ours. Beyond the cattle, Allison is always just a phone call away and has been a tremendous asset behind the scenes. She's been a great addition to the sale, helping keep things organized and ensuring everything comes together smoothly. We're grateful for her continued support and partnership. We're also excited to welcome Twin Creek Stock Farms (Cade Bartel) as a consignor to this year's sale, as he will have a bull on offer as well. We're certainly glad to have him involved. Cade is the kind of guy willing to do just about anything – whether it's running the combine, clipping bulls, or helping Calla tackle the many odds and ends that pop up (which can be interesting at times). He's a man of many talents and never short on energy. And if you get the chance to visit with Cade, be prepared – he may not give you much of an opportunity to get a word in. We're glad to have his enthusiasm, work ethic, and cattle represented in this year's lineup.

Aside from the great people who help make this event what it is, the main reason we're here is the bulls. We truly believe this is the largest and most consistent set of bulls we've offered to date, and we stand firmly behind that statement. The depth, uniformity, and quality throughout the lineup gives us a great deal of confidence heading into sale day. No matter your operation, we feel there are options that fit. There are true power bulls designed to add pounds and performance, dedicated

WELCOME FROM W2 Farms

When given the opportunity to be part of the Blairswest sale, it was an easy decision. The chance to work with such a like minded, well-respected family, and an opportunity to bring our bull sale closer to home! On behalf of the Williams families, we want to thank the crew at Blairwest, and welcome you to the 2026 Blairswest bull sale.

With a goal of creating better, more efficient, higher yielding beef, we need all the beef breeds to work together to achieve this. The only way to keep up with demand is going to be bigger carcasses. Take the marbling traits of the angus, maternal power and milk of the simmental, cross with the yields of charolais. This is

going to take us in the direction needed to meet the demand for beef!

Our commercial cow herd is mainly red and black simmentals. We breed a select group back to simmental to keep our replacement heifers from. We then run the replacements with Blairwest angus bulls and the remaining herd gets the Charolais for their terminal traits.

We are very proud of our bull pen this year, and having them at home where we can manage and watch them develop is very rewarding. Seeing all the hard work and decisions come to fruition. Being able to see a product through from start to finish, you gain a larger understanding of what works and what doesn't. There isn't a bull in here that we wouldn't use on our own commercial herd. This is the second year we have ultrasounded both our replacement heifers and every bull we are offering, which adds another tool to the selection toolbox. Come sale day a large majority of the bull offering will have 100K genotyped giving more accurate EPD data.

In closing I want to thank everyone that has helped out to keep things rolling day to day on the farm, our families and everyone at T Bar C and Blairwest. All the best in 2026!

~Maston Williams

WELCOME FROM Copper Kettle Cattle Co.

When people talk about farmers and ranchers being some of the hardest working, most resilient kind of people, I didn't know how much that would resonate with me in the past year. It was a challenging year, to say the least, filled with the highest of highs and the lowest of lows. With record high prices and so much optimism in the cattle industry, one would think it would have been one to mark down as one of the best in history, but

I have some of the best people in my corner. I am happy to put the past year behind me, but as I reflect back on the year, I also recognize that it has probably been one of the most rewarding. Funny how that works! While the Copper Kettle offering may be small in numbers, it makes up for it in terms of quality. I would like to welcome W2 Farms to the sale with top quality Charolais bulls and a select group of Simmental bulls. This will be a great addition to the sale and a nice complement to the Simmental offering. As always, the people at Blairswest are a pleasure to work with... and when I mentioned earlier that I have some of the best people in my corner... next to my own family, the Blair family is at the top of the list. If you would like to view the bulls prior to sale day, or would like to discuss the offering, please feel free to call me anytime. See you on sale day!

it tested me in ways I never thought possible. Having said that, a lot of the ability to persevere in tough times is not just about your own ability, but also those who you surround yourself with... and I must say,

FROM THE DESK AT T Bar C

T Bar C is proud to welcome you to the Blairs West Bull Sale.

Our hosts at Blairs West have a long and storied history in both the purebred and commercial beef sectors. The Blair family has long been recognized as a premier source for top-quality commercial replacement heifers, and their program has captured the high-selling pen at Canadian Western Agribition on numerous occasions. Their reputation for producing functional, profitable cattle is firmly established.

In recent years, Blairs West has become an undeniable force in the seedstock industry. Exhibiting multiple champions at major shows across Canada, they have

demonstrated that their cattle not only perform in the pasture but compete at the highest levels. They are also a cornerstone partner in the Opportunity Knocks Female Sale each December, consistently presenting elite genetics to progressive breeders. Today, Blairs West is a trusted supplier of herd bulls—both Red and Black—backed by a powerful cow herd. Through strategic embryo transplant work, they have assembled a donor battery built around some of the most proven and influential females in the breed. The 2026 offering will represent one of the largest and most impressive sire groups influenced by the great Erica 74A, a cow family that continues

to leave its mark across the industry.

Once again, Copper Kettle Simmentals joins the sale, bringing a strong set of Simmental bulls that complement the Angus offering and add another dimension of performance and hybrid vigor to the lineup.

New to this year's event is the exciting addition of W2 Farms. The Williams family, much like the Blair family, operates a large, diversified family farming enterprise in the region. Alongside a sizeable grain operation, they manage a commercial cow herd approaching 1,000 head and often retain ownership of their calves through to finish. Their hands-on experience with calving cows and feeding cattle to perform on the grid has directly shaped the direction of their purebred program.

W2 Farms has invested heavily in elite donor females and exclusive sires within the Charolais and Simmental breeds. Many of the bulls in this offering are the result of their embryo program—stacked with proven, performance-driven genetics designed for real-world profitability. An added feature this year is a select group of open replacement purebred Charolais females, offering breeders an opportunity to tie directly into the heart of their program.

This sale truly is a one-stop shopping destination. Here you can source bulls from three of the most popular and complementary breeds in the industry—Angus, Simmental, and Charolais—each adding value and flexibility to any crossbreeding program.

The depth, diversity, and quality assembled here provide options for every segment of the beef business. We encourage you to study the offering and join us for what promises to be an outstanding event. If we at T Bar C maybe of any assistance sale day or prior to please do not hesitate to call any member of the team.

The time has come to introduce two big-time herd sire prospects in Conservative Law and Newtons Law —a pair that immediately command attention in the pen and demand a serious look from progressive cattlemen.

- Both offer exceptional rib shape and sweeping dimension through their middle, combined with genuine stoutness and herd bull mass, all while standing on elite foot and leg structure and carrying the ideal Angus skull and true breed character you demand in seedstock cattle.
- These two were key contributors to our Champion Pen of Black Angus Bulls at Canadian Western Agribition, further validating their quality, structural integrity, and herd bull presence on a national stage.
- This is a proven genetic package, supported by multiple full siblings currently in production across both Canada and the United States—adding real-world validation and confidence to the strength and consistency of the pedigree.
- Notable full siblings include Blairs External Law working at Griswold's, Blairs Erica 265F at Golden Oak, and Blairswest Erica 6K at Blair's.Ag—further proof that the homework has been done, the pedigree is validated, and the results are already speaking for themselves in leading programs.
- Erica 74A strikes again, bringing her total to eight sons to sell—further solidifying her status as one of the most influential, consistent, and program-defining donor females in our lineup.
- **Conservative Law and Newton's Law are two bulls we intend to stay closely tied to, retaining a 1/3 semen interest in each—an indication of the confidence we have in their long-term influence, marketability, and herd sire impact within the breed.**

7	-0.1	69	122	27	11	78 lbs.	741 lbs.

• Endowment 8N truly turns up the heat in terms of quality, with the added advantage of being suitable to run confidently in the heifer pen. He is super long-spined, deep-bodied, and carries an attractive herd bull presence, all tied together with a very correct Angus skull and strong breed character throughout.

• We are extremely excited about our first calf crop by Spring Cove Grant 200K, and Endowment 8N is a standout example of what Grant is delivering. Grant 200K will represent the largest sire group in our calf crop this spring, and the consistency, look, and structural integrity across that group has us very optimistic about his long-term influence within the program.

• Blairswest Erica 44F continues to add to an already impressive production record with yet another highlight bull calf this year. In 2023, she sold a heifer calf through the Bohson Marketing Family Matters Sale for \$22,000 to LT Ranch, SD. Her bull calf last year went on to command \$25,000, selling to Jauer Dependable Genetics in Iowa—further reinforcing her consistency and market appeal.

• Badlands 28N is a bull that continues to rise to the top and command attention with every evaluation. He is stoutly constructed from the ground up, carrying added width, muscle expression, and three-dimensional mass, while still maintaining an attractive, balanced, and phenotypically correct profile.

• His sweeping rib shape and natural depth of body give him a powerful, high-capacity look that speaks to longevity and performance. What truly sets him apart is the herd bull presence he carries—bold in his design, confident in his stride, and built with the kind of structural integrity, base width, and style that elevates him to true standout status.

• 74A is a female that truly needs no introduction—arguably one of the hottest and most influential dams in North America today. Her production record, along with the consistency and quality she stamps into her progeny, has established her as a cornerstone donor that continues to generate elite cattle year after year.

• A full sibling to 28N further validates the strength and reliability of this cow family. That same mating commanded \$43,000 in our female sale last fall, selling to Wheeler Stock Farms—reinforcing the market demand, confidence, and real-world value backing this powerhouse donor.

-4	3.7	59	104	23	2.8	85 lbs.	741 lbs.

- Purple Diesel 40N stands on a tremendously big square foot, reinforcing his durability, soundness, and true herd bull foundation.
- All while being clean and ideal through his neck and shoulder, maintaining balance and smoothness to complement his power.
- We have a great deal of confidence in Purple Diesel 40N and plan to utilize him heavily within our own program, underscoring the trust we place in his genetics.

• 368C is one of the most powerful and complete cows in the breed, featuring exceptional bone, foot size, fleshing ability, and unmatched maternal strength.

• Her sons have headlined the Water Valley Ranch Bull Sale for five consecutive years, while her daughters are emerging as elite, modern reflections of Lady with lasting industry impact.

Dam - Lady 368C

Recommended for Heifers or Cows

• When in doubt, fall back on Coleman Charla and you won't be disappointed. This calf truly checks a remarkable number of boxes, offering structural integrity, balance, and genuine power all wrapped into a practical, real-world package.

• Coleman Angus is a program we have invested in and follow very closely, and we feel 72N fits the mold of exactly what we look for - tying phenotype, structure, and usefulness together in a true calving-ease package without giving anything up.

• Donna 023 is a flush sister to Coleman Glacier, the top-selling bull of 2022, and to Donna 046, who commanded \$120,000 for a half interest to Ingram Angus. She is big-bodied, stout-made, and equipped with a beautiful, high-quality udder-backed by a cow family that consistently commands attention and value.

CE	BW	WW	YW	MM	MCE	BWT	ADJ WW
6	1.1	67	116	22	10	81 lbs.	693 lbs.

• This bull calf is backed by the calving ease and maternal strength of Spring Cove Grant 200K, while offering a presence that is difficult to overlook. He is big-boned, long-bodied, and elevated through his front third with added extension and style—combining substance and eye appeal to project a true herd bull look, even at a young age.

• His added length and skeletal quality indicate he will mature into a powerful, high-capacity herd sire—combining structural correctness, base width, and performance-driven substance to add measurable value in any progressive program

• Blairswest Erica 1G has earned her way into our donor pen through the consistent track record she continues to build. She offers tremendous bone, authentic foot quality, and the kind of structural integrity we demand, all backed by the ideal Erica udder that this cow family has become known and trusted for.

10	-1.2	82	141	31	10	70 lbs.	778 lbs.

- Offers an exceptional amount of red meat and natural muscle expression, combined with an impressive sweeping rib cage that adds genuine capacity, depth, and herd-sire power.

- Structurally correct and built from the ground up, with a very sound hind leg and solid foot quality—designed for longevity, durability, and real-world functionality in any program.

- 4N commands attention both phenotypically and on paper, ranking in the top 4% of the breed for WW, YW, BW, and Milk. With a Calving Ease of +10—placing him in the top 7% of the breed—and a light, unassisted 70 pound birth weight, he further reinforces his credibility as a true calving-ease herd sire prospect without sacrificing performance.

- His dam, Sadler 1113, was selected from the Sadler program in Oklahoma and is backed by a stacked pedigree loaded with proven, high-performing cow families. 1113 is continuing that tradition, with her bull calf last year being extremely well received and going on to work for Troy Sundquist.

• A lighter red Metric son that brings a different look to the sire group while maintaining the same quality. He offers plenty of spring of rib and depth of body, is stout made through his top and quarter, and carries the kind of bone and structural integrity that supports long-term durability. 57H is a daughter of Red Blairs Ambush 57E and is, quite simply, an absolute powerhouse of a cow. Massive bodied, bold sprung, and easy fleshing, she brings an overwhelming amount of volume and dimension to the table. talk about foot quality and leg structure I feel this cow perfects those traits with ease She has already proven her value in production, having raised our highselling Red Angus female in Opportunity Knocks 5.0, commanding \$18,500 to Cockburn Red Angus.

- A long-bodied Metric son that offers the kind of extension and balance we strive for in our program. He's clean and attractive through his skull, carries adequate bone, and stands on the correct foot structure
- And as many know, we're not typically in the business of promoting docile barn cats-but this one is flat-out kitten quiet. His disposition only adds to the overall package, making him a bull that combines quality, structure, and temperament in a very usable way.
- 586J is the result of an embryo that we purchased from the U2 dispersal and her dam 218Z was a donor cow that was suppose to sell but came up sore prior to sale. Cole Unger talks very highly of the cow and if you see progeny you'd know why.
- We think this cow can do lots of interesting and neat things for the breed in terms of foot quality and udder structure

Take a close look here at these 3 ET brothers - a lot of quality in these bulls, all with a little something different to bring to table.

I don't think you'll find a bull more complete than 35N - he is big barreled, thick, and sound when he gets out and moves.

63N with the added money stripe offers a little more frame than his brothers. He is very complete.

23N is the smaller of the 3 with some added calving ease and some stronger carcass EPDs. Here's your chance to get a red carrier RF Caliber son.

Copper Kettle Lucky Dog 253N was an in-dam purchase from Erixon Simmentals out of the 2024 Border City Sale. His dam, Erixon Ivory 10L, is a moderate framed female with a picture perfect udder. His sire, KWA Shamrock 151H has an impressive EPD profile, ranking in the top 1% for both CE and BW. 253N is broad topped, square hiped, and big ribbed with a tremendous amount of muscle shape. He was lucky enough to be part of the 2025 show string, and has the temperament of a puppy dog!

Homo Polled

For those of you who don't know, I grew up at Kinistino, SK on a purebred Simmental operation, under the name Porter Simmentals. When I decided to venture out on my own, I wanted to incorporate the GFP tattoo into my program and selected two females from my parents herd. Copper Kettle Structure 259N is out of one of those cows. He is hairy, square hipped, long-spined and smooth in his front end. Sired by NGDB Structure 34D, who is in the top 1% for WW and the top 2% for YW, it's no surprise that 259N has an exceptional growth curve. If you are looking for a bull that will add pounds to your calves in the fall, this guy will do just that.

A SINCERE THANK YOU

We extend our sincere appreciation to all bidders and buyers who supported the Blairs & Associates Bred Female Sale last fall, as well as Opportunity Knocks 6.0. These events would not be possible without the dedication and involvement of everyone who participates.

We would like to thank all our friends and family who help at Blairswest - we appreciate you!

WE APPRECIATE ALL YOU DO FOR BLAIRSWEST - THANK YOU KATIE!

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING: Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS: All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE: All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

EXCEPTION GUARANTEE: In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association, Canadian Simmental Association or Canadian Charolais Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

INSURANCE: Will be available sale day. We strongly recommend that insurance is purchased for full value.

RIGHTS & OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS: Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY: We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

Errors: All announcements at sale time, written or oral, supercede any written material in the catalogue.

IN-HERD SEMEN: We reserve the right to collect on any bull sold through the sale. The semen collection will be at the seller's expense and buyer's convenience. Any semen collected will be for in herd use only.
