• SATURDAY, OCTOBER 17, 2026 • CARGILL AUCTION MARKET •

Welcome to the 79th Bluewater Angus Sale!

Hello everyone,
My name is Kelsey Ribey, and I am honoured to serve as President of the Bluewater Angus Board for 2026.

It is an exciting time to be part of the beef industry. This year's consignments are outstanding. We are incredibly proud and humbled to continue to host the longest running Angus sale in Canada. Being part of such a longstanding tradition means a lot to me, and I'm proud of the dedicated members of our Angus family who continue to make this sale possible year after year.

We have a great selection of Angus genetics in this sale. I hope new breeders join us along with the many familiar faces who continue to support the sale. Thank you to our consignors, buyers, members and everyone who helps make this event such a success.

If you have any questions about the offering please reach out to myself or anyone on the sales committee.

I look forward to seeing you at the 79th Annual Bluewater Angus Sale!
Kelsey Ribey
President Bluewater Angus Association

■ We're once again excited to be a part of the Bluewater Angus Sale and are proud to offer this lot. Lady 603 checks all the boxes! Style, growth, EPD's and is as sweet tempered as they come. Her dam and grandam both have phenomenal udders and we have every expectation that she will too. So, whether you're looking for a show prospect or a future brood cow, have a serious look at this one on sale day.

■ In an industry in search of females who amalgamate function and appeal, Clair Lane Empress 2618 offers just that. A moderate framed compilation of length of spine and depth of body, Empress is set, be it for the show ring, or your group of replacement heifers. This March born calf is packed with hard dense muscle. She is big topped, thick, stout, good bones, and has eye appeal. She is out of an elegantly made female, Premier Empress 213. Her sire, Sitz Resilient has played a part in this powerhouse female, offering his performance and overall muscling ability. Extended in her front one third and competent in her mobility, this heifer is the complete package from top to bottom. On the move or on the stand still, this female should be a productive one for years to come.

dam

PREMIER EMPRESS 213

■ Clair Lane Queen 2606 is a long necked, smooth made, deep middled heifer. She is sired by the calving ease giant, Stevenson Turning Point. Her dam is Hasson Queen 1M, a beautiful direct daughter of Colburn Primo. Clair Lane Queen 2606 will make a nice junior show heifer project. She comes from a very long lineup of champions, including Queen 1R, Queen 1507, Queen 1902, Queen 1M. It's in her blood! This heifer will make a junior kid proud!

■ Clair Lane Queen 2615 is a direct daughter of Clair Lane's matriarch, Clair Lane Queen 1507, the Reserve Grand Champion Intermediate Yearling of the 2015 Royal Agricultural Winter Fair. She is also the maternal sister of the Reserve Grand Champion Junior Angus Heifer Calf of the 2019 Royal Agricultural Winter Fair, Clair Lane Queen 1902; and is a granddaughter of the foundational Hawthorne Queen 1R. This is a heifer that will compete in the showing, then go home and be a cow. We expect big things from this one. Clair Lane Queen 2615 is deep bodied, big topped, and massive in her stifle. She combines the natural bone, muscle mass and maternal look of the Queens before her. And she will undoubtedly continue this for generations to come. Queen 2615 is one we admire for her shape of rump, span of spine, and overall growth. Fertility and milk production are tried and true traits of this family, and this heifer will add nothing less, and much more to your herd. A potential junior show heifer here. Buy with confidence!

Clair Lane Heiress 2616 is a daughter of TLF Heiress 65K, the Champion Junior Yearling Angus Female of the 2023 Royal Agricultural Winter Fair; and Reserve Grand Champion Angus Female of the Masterfeeds National Junior Beef Heifer Show in 2023. Clair Lane Heiress 2616 combines the bones of production orientation with a show backed pedigree.

Not only did 65K prove herself in the show ring, but she has been no slouch out on pasture. She remains a massive bodied, perfectly framed, beautifully uddered, and elegantly fronted Angus female. And following in her dam's footsteps is Heiress 2616, a stout made, uniform, deep and expansively ribbed female. Authoritative in her track and big footed, this is a heifer prepared to prove her worth no matter your intentions for her. Another potential junior show heifer project from Clair Lane.

Sophie 602 is one I can simply describe as a powerhouse. A very calving ease heifer that took no time to catch up to her counterparts, she continues to grow every day. "Lady Mae" as she is known around Stafford Angus stems from the same Sophie family as the females we have sold in the last two editions of this sale. Her grand dam is the female that started Stafford Angus in 2015 and with her dam being 3 we are excited to see her progeny in the upcoming years. Have a look at this female come show day as she will continue to improve and impress from picture day.

CONSIGNED BY WEBER FAMILY ANGUS

The Barbara family started for us 25 years ago with the purchase of 23H. Today you'll find her descendants scattered across the countryside, making contributions to their respective programs. 503 represents five generations of A.I. breeding tracing back to 23H — anchored by breed legends like Net Worth and Resource.

Her dam, Grist Barbara 103L, is a moderate-framed cow we originally purchased from Grist Farm as an ET recipient. After watching how 503 developed — and the job 103L did raising her ET calf this year — we've put 103L back in the breeding program for 2027.

We were among the first to use Connealy Craftsman, and we can tell you this: so far his daughters look to be excellent young cows, and they keep getting better every day. If that trend continues, they should be huge contributors to the Angus gene pool.

If you follow EPDs, 503 backs up the eye test — she ranks in the top 3% for Marbling (+1.20), the top 7% for the Canadian Balanced Index (+347 CBI), and the top 10% for Weaning Weight (+72) — a rare blend of carcass, balance and growth in one young female. When we analyze 503 phenotypically, she is a massive-bodied female with tremendous length — she may be the broodiest-looking Craftsman I've seen at this age. Her January 2027 calf by SAV Courage 3003 should be tremendous.

AI BRED TO SAV COURAGE 3003 ON APRIL 12, 2026.

Due to calve January 20, 2027.

■ "Annie" is a moderate female with a strong foundation at the ground and carries it into a wide and solid top. We wanted to continue to sell a bred heifer in this sale as we have had success and very happy customers from doing so. 1N is tough to part with but unfortunately we do not have enough room to keep everything and the way breeding dates lined up this year, our loss will be your gain. Bred to PVF Marvel 9185 we were hoping to hit a home run right out of the gate with this female. Adding an Annie K into your herd with this service is a decision you wont regret.

AI BRED FEMALE SEXED PVF MARVEL 9185 ON MAY 15. Confirmed safe in calf with heifer via Vet Ultrasound July 23.

Blackcap May COW FAMILY

Double L Blackcap May 504M is sired by SAV Territory 7225, one of my personal favourite Angus bulls. She is out of North Perth Blackcap May 500C, a Connealy Final Product daughter we purchased from Meadow Bridge Angus. We really like this bred heifer. She is long-made, has good feet, and is developing a square, well-shaped udder. Her dam has been on our list of cows to flush for a long time, and we hope to achieve that next year. This heifer's pedigree is as good as it gets!

Blackcap May COW FAMILY

■ Norfolk BlackcapMay 42H was purchased through AAC from the great folks at Norfolk Cattle. Sired by SAV America 8018, she has done nothing but great things for our program. We have retained beautiful daughters by Bismarck and Territory, but her best may be the Ellingson Prolific daughter standing beside her this year. We like that heifer so much that we bred 42H back the exact same way. NOR 42H is fertile and a real pet to be around. If you are serious about adding a cow that will enhance your program and are looking for top genetics, fertility, and disposition, BlackcapMay 42H should be at the top of your list! This is one we find very difficult to part with.

■ Here's a Rockerfeller Daughter with a ton of potential. With Rockerfeller semen no longer available here is a great opportunity to get one and in production. She is not the biggest cow but she is structurally sound. Lana has a thick body, big spring of rib, long neck and true angus head and with lots of milk so she can feed a calf. Her early January heifer calf weaned off at 712 lbs. We think enough of her heifer calf that we have her in the show pen. Lana is very fertile. She had her first calf in March 2025 and calved this year in January. She is bred back to Red U2 Genesis 103G for a January baby. If calving ease and milk is your thing check out Lana's EPDs.

AI BRED TO RED U2 GENESIS 103G ON APRIL 20.

Service Sire **RED U2 GENESIS 103G**

■ Sierra is one of those we shouldn't part with. She is a very unique breeding peace. When you look at her pedigree it's all black genetics and she is red and they say as long as you breed her red, she will have a red calf. Her first calf was selected by Andrew Hodges. She has a son working for Jeff Guthrie of New Brunswick. She raised another good bull calf this year weaning off at 842 lbs.

BRED TO RED COCKBURN PREMIUM 3059 ON APRIL 10.

Premium is the maternal brother to the \$320,000, Red Cockburn Bugatti 5008.

Service Sire **RED COCKBURN PREMIUM**

■ Here is a power cow from the highly productive Lena cow family, that originated at the legendary Ronan herd in Alberta. Lena 32P was my pick of the large Ronan herd. The Summit 11E bull sold to Z Bar Ranch in Saskatchewan and is the sire of one of our current herd bulls Glen Islay Tenderline 3K. Note that the 2025 heifer calf from this Lena 2H lot was the top selling calf in this sale last year, selling to Booneco Angus in Alberta, and her 2026 heifer calf is a definite keeper for us.

BRED TO GLEN ISLAY JACKPOT 13N ON MAY 24.

■ This Bar Doll 1K cow is moderate frame and very attractive, with a very interesting pedigree. Headline 24H is a tremendous breeding bull for Martin Farms on Manitoulin Island. His sire Headliner 12E was the first of 4 bulls sold to Fleury Ranch in Saskatchewan, and was a great improver in that very good herd. Lena 16E was a donor for us before selling to Z Bar Ranch. Bar Doll 2G was an excellent daughter of Camilla Chance 37T [Canadian Colossal] but was struck by lightning when this 1K female was just 4 months old.

BRED TO GLEN ISLAY BARDOLIER 10C ON MARCH 25.

Very long bodied, big topped cow. Maggie 32K is out of one of our all time high producing cows, Maggie 76A. A daughter of 76A sold to Brian Frank in Montana in 2023. Two maternal brothers to this lot are used in our herd as well as serving for Orr farms in Ontario, and Fleury ranch in Saskatchewan. We are retaining an outstanding maternal sister and the very promising 2026 heifer calf from 32K.

BRED TO GLEN ISLAY TENDERLINE 3K ON APRIL 17.

This is a great opportunity to acquire a cow with a proven track record. Jennifer 5R 8F has produced 2 daughters that were sold through previous Bluewater sales. We also have 2 daughters in our herd today that have produced bull calves this year that made the cut for our bull pen. 8F also produced a herd sire for Henk DeJong. This cow has a beautiful tight udder for her age with a good foot underneath. The icing on the cake is that she is bred to Baldrige Badger who is a household word here in Canada. Apparently there is no more semen available on this bull.

AI BRED TO BALDRIDGE BADGER ON JUNE 10, 2026. Preg checked safe on July 28/26. No exposure.
