Catalogue:

Ashley Dawn Designs (306) 741-3324
ashdawnndesigns@gmail.com

TERMS: Cash, cheque or etransfer (braunranchltd@gmail.com) payable at par on sale day unless prior arrangements have been made. US funds at current rate of exchange announced sale day. Braun Ranch reserves the right to draw semen, for in herd use, on any of the sale bulls.

ANNOUNCEMENTS: any announcements made from the block take precedence over the catalogue.

GUARANTEE: All animals are purchasers responsibility as soon as sold. All cattle are guaranteed breeders. Please notify us as soon as you suspect a problem. Standard Hereford Assoc guarantee applies.

LIABILITY: Everyone attending the sale does so at their own risk. The owners, sale staff and representatives assume no liability legal or otherwise.

DELIVERY: Free delivery on sale bulls up to 300 miles. Bulls will be delivered in March, after the yearlings have been semen tested. American purchases will be delivered into Montana and North Dakota. There will be an additional fee of \$500 Canadian on all purchases under \$6000.00 Canadian to help cover export testing fees and brokerage costs. There will be a \$500 discount on any two year old bull that is picked up within the week following the sale. There is no delivery on the commercial heifers.

LOCATION: The sale will be held at Craig & Carrie's yard. Half a mile west of Simmie, then one mile south, take the first road to the west. Look for two red barns, south side of the road.

FINANCING: Half payment sale day. The remaining payment can be made later in the year following the sale of your yearlings, calves, etc. For those who would like to take advantage of this option, feel free to contact Crieg prior to the sale.

FRIDAY JANUARY 23 2026

2:00PM | BRAUN RANCH | SIMMIE, SK

WELCOME

Welcome to the 2026 Braun Ranch Ready Bull Sale. We are back again in January this year and hopefully to better weather. We sure haven't been blessed with having good weather when it comes to picking a bull sale date. But you guys, our friends and customers have always shown up in person, online or on the telephone. And it's the folks we meet in this business that keeps us in it. So here's a huge THANK-YOU!!!

Come early to the sale to view the bulls and enjoy a home cooked roast beef dinner from Connie at Country Hills Catering.

Videos will be available online at cattlevideos.ca early January. We try and keep active on facebook with bull pictures, videos and pictures of their dams as well. Feel free to call, text, email or better yet, come for a visit and we can help select a bull for your needs. Coffee is always on.

Craig and Carrie Braun

BULL DEVELOPMENT: Weaning weights were taken Oct. 4 2025 for the yearling bulls. The two year olds were taken October 6 2024. Cattle are on a full vaccine program at birth, branding and preconditioning prior to weaning. The bulls are wintered on free choice hay, greenfeed and are supplemented with brown oats and bull ration. The two year old bulls were on grass from early May until mid October, with no supplemented grain. They still have access to 80 acres of hay ground to graze and get plenty of exercise on. Our bulls have been grown out naturally and have never been pushed.

SEMEN TESTING: Yearlings will be tested in March before delivery. If a yearling doesn't pass we will offer a full refund or another bull of similar value out of the group that will sell as two year olds in 2027.

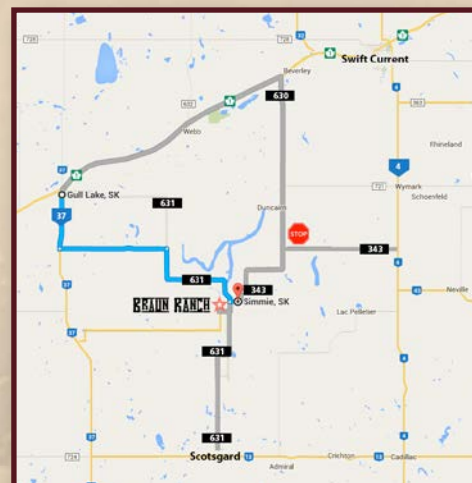

EPD'S AND CULLING: We cull our cows and bulls hard. First calvers are given a little leeway. We don't put a whole lot of emphasis on EPD's. We print them in the catalog so buyers can compare, if they like. We feel the breed organizations push them, but don't do a good job of explaining how to use them. Some producers use EPD's to promote cattle as being in the top 10% of the breed for a certain trait. That's fine. However, for example, let's look at milk numbers. More often than not, a cow with a really high milk number will require more feed to maintain herself, her calf, along with her ability to rebreed. We're more focused on raising cattle that thrive in ranch conditions. Let's look at ww and yw EPD's. Sure, we all want to sell more pounds. However, at the end of the day, we can't wean a 1000lb calf off a 1200lb ranch cow. It's also been our experience that a really high yw EPD can lead to a larger cow. BW EPD's are the most applicable in our opinion, if an actual scale weight is recorded and submitted. All our calves, both purebred and commercial, are weighed with a scale. We've found the tape is not accurate. You'll find our EPD's will be around breed average. However, we feel our cows are anything but average. Our cows sure aren't perfect, but we're getting closer to where we want to be every year.

SALE DAY DIRECTIONS

Swift Current: take highway #4 south, 18 miles. Head west on highway #343. At the stop sign, head south, remaining on #343. Turn west into the "town" of Simmie. On the west side of town, at the T intersection, turn south on 631 grid. Go 1 mile south, then turn west onto TWP road 114. The sale barn is the first yard on the south side.

Gull Lake: Follow highway 37, 5 miles south of Gull Lake, turn east on the Ears Grid. Follow for 10 miles, then turn south on 631 grid. Follow 631 to TWP road 114, turn west. Sale barn is the first yard on the south side on the road. Look for a big red barn.

Shaunavon/Cadillac: Take highway #13 to Scotsgard, then turn north on grid 631. In 15 miles, turn west on TWP road 114. Sale barn is the first yard on the south side.

In Memory of LORRAINE BRAUN

March 11, 1943 - March 16, 2024

Lorraine always enjoyed visiting with the kids that spent time around Braun Ranch. In her honor

we are once again, giving away a heifer to a deserving youth between the ages of 8 & 21. To qualify for the draw, send a letter to braunranchltd@gmail.com. Let us know a little about yourself and how 197N could benefit you. We will make a short list from the best applicants and have a random draw at the start of the sale.

We try and select a heifer that could be shown as a junior project but more importantly could start a cow family for a young producer. The 128Z cow, affectionately known as "Fancy Pants" on both the top and bottom of 197N's pedigree was a heifer we showed and sold to Brost's & Peter Herefords through the agribition sale, years ago. Fancy Pants went on the produce ten natural calves for them. Our 197N donation heifer matches her potential.

Let Navigator direct you to the pay window. Maternally his pedigree is stacked.

His full sister, 168C has raised 4 lead off, high selling bulls in our sale. His dam 179Y, has three bulls in this sale alone. Then look at the top side of his pedigree, old Extra Deep 15Z. 15Z left his mark at both Hill 70 and here. He's a trait leader in relative feed efficiency, ribeye area, carcass and sustained cow fertility. I'm not a big EPD guy but the amount of 15Z daughters we still have in herd might sway me on sustained fertility anyway.

Short marked heifer bull prospect with the power to breed your cows too. Combining the Lady, Starlet and Miss Hart cow families. You'll like his daughters.

Name Of
The Game
48N shows
how we
believe in
what we do.

BW	95
WW	898
205	811

We don't
chase fads, single traits or
banners by breeding to the
next best thing. We like
our old proven genetics.
48N is an ET son out of
our 179Y donor cow and 15Z.
We've combined a 15 year old cow
with a bull with raised 14 years
ago to raise our heaviest weaning
weight calf in 2025. Old and
proven might not be cool but it will
pay the bills. 48N is a maternal
brother to to both 11N and 15N.

**Retaining a 1/4 in herd semen
interest.**

When Forty Creek was a calf we made the decision he would stay here to replace his sire 213B. However, the good folks at YV talked us out of half interest. Forty Creek's dam 153C, is a near perfect cow. She has tremendous depth of rib, great udder structure and perfect feet with ample heel.
