A close-up photograph of a brown and white cow with a nose ring, being held by a person in a red jacket. The cow is looking directly at the camera. The background is a blurred indoor setting, possibly a barn or stable. The image is framed by a vertical orange bar on the left and a vertical yellow bar on the right. There are several bright, starburst light effects scattered across the image.

Brookhill Farms

1st Annual Sale
DLMS Farmgate
March 21-22, 2026
with guest: Just Acre Farms

Welcome!

Tim and I are excited to have our first offering of bulls and semen for sale through DLMS Farmgate. While we may seem 'new' to the industry, our roots run deep in the cattle/agriculture industry. For four generations our family has raised Hereford and Hereford influence cattle on the farm at Blaine Lake, SK.

We pride ourselves in raising cattle that work for the commercial and purebred cattle producers. We like the longevity and versatility of a good bull in our herd, that works with our F1 cows and our purebred cows.

All our cattle are vaccinated and dewormed in accordance with our herd health protocol. We have a great team of veterinarians at Norsask Veterinary Group that help keep our herd in tip-top health.

It is an exciting time to be in the cattle industry and we would be honored to have our genetics in your herd. While this is our first sale, it will not be the last. We are already looking at the yearlings we are keeping back and the newborn calves and making plans!

Brookhill's History: The first Purebred Herefords was purchased in the 1960's. John & Christine Serhienko took over the family farm with their daughter, Lorraine in the early 1980's. While purebred Herefords were always a part of the herd, the attraction of the F1 crosses started a larger commercial operation. In 2019, Tim Wood joined Lorraine and plans were soon in motion for the expansion of the purebred side. Tim's three children immediately took to the cattle and joined 4-H and never turned back. Lorraine and Tim were married in 2022, at the farm.

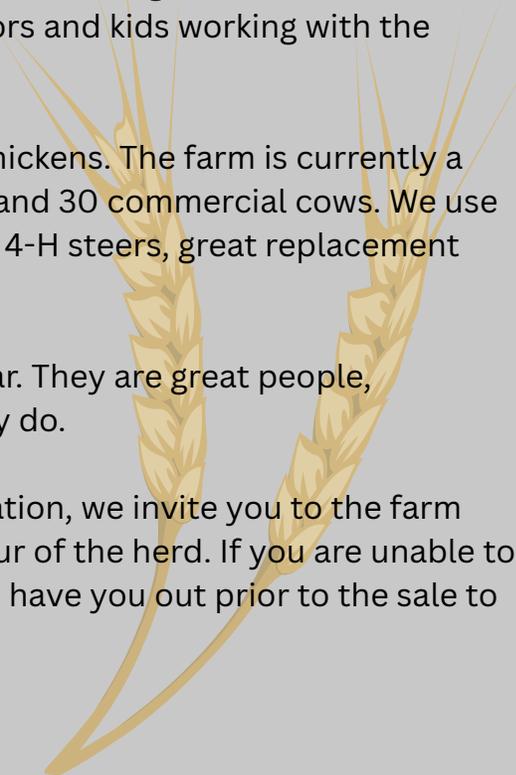

The cow herd is a place of peace for all of us and its common to see any of us walking through the herd, scratching the 'pets' and sitting on bunks/fences just watching the cattle. We do have a behaviour policy on our farm, since we now have both seniors and kids working with the cattle.

Over the decades, we have had raised beef, dairy, pigs, and chickens. The farm is currently a 2500-acre grain farm, with approximately 20 purebred cows and 30 commercial cows. We use our commercial cows to feed our purebred habit, make some 4-H steers, great replacement heifers and to have a few recipient cows for embryos.

We welcome Just Acre Farms as our guest consigners this year. They are great people, dedicated to the livestock industry and really enjoy what they do.

If you're interested in our sale or just curious about our operation, we invite you to the farm during the sale weekend. We would be happy to give you a tour of the herd. If you are unable to join us sale weekend, please reach out, we would be happy to have you out prior to the sale to view the cattle.

Thank you,
Lorraine Serhienko & Tim Wood

SALE INFORMATION

Lorraine Serhienko 306-260-2321
Tim Wood 306-812-6176

Just Acre Farm

Jillian Just 306-620-8583
Kristin Just 306-621-9874

Open House

Please join us at the farm March 21 or 22 from 10am until dark to view the bulls and our herd. We would be happy to tour you. You can stay to visit, as we will have food and beverages available. If you are unable to make it sale weekend, please contact us for viewing.

Wintering/Delivery

Bulls will continue to be developed free of charge and delivery dates will be determined. All bulls must be delivered or picked up by May 30th, unless other arrangements are made. Free delivery within 500km of our farm. For bulls going to the US, we will cover the export testing.

CHA Registration

Each purebred animal is registered with the Canadian Hereford Association. The registry certificate will be transferred to the buyer after payment has been made. All semen lots are in the domestic non-certificate program. The semen is stored at Bovigen. Semen will be released to the buyer after payment has been made.

Breeding Soundness

All bulls in the sale will be Bull Breeding Soundness Evaluated (semen test). If a bull is a deferred decision it will be re-tested prior to delivery.

Payment

Each animal becomes the risk of the purchaser at the time of sale. Insurance is recommended but not required. We will be invoicing each purchaser and payment can be made by cash, cheque or e-transfer. Live lots and semen will be released upon payment.

Brookhill Moonshine 4M

'Moonie' has been a tank since birth. We wished we could have repeated him, but sadly his dam passed away from a respiratory illness in pasture when he was a calf. Despite being weaned early, he continued to flourish.

We have shown him since a calf, and used him on a few cows in 2025, and the calves look awesome. Halterbroke. Retaining the right to collect in-herd (own-use) semen prior to his depature.

'Chilly' is one we will be sad to see leave. He's dark colored, pigmented and has the combination of power and calving ease. He has done well at shows, and shows interest when there's females in heat.

We would like to retain a semen interest in this bull.

Halterbroke.

PCL 25Z Miss Viva 69G

Maverick is a long sided bull, built for calving ease. He was shown in 2025. This bull shows drive to breed when females are in heat! Like his sire, he will likely produce calves better than him. Halterbroke.

At the time his photos and videos were taken, he had only been on full feed for 10 days, prior to that he was in our wintering pasture.

Lumen came to us in-dam from the PCL Dispersal. We had no idea he would turn out to be a great bull and such a character. Two of his sons, 21N and 22N, are in this sale. A 4-H steer sired by him has also been retained. He's a bull that works great on both our purebred and commercial females. Lumen adds power and still has calving ease. We have a group 2026 calves from him.

101K was purchased from McCoy's in 2023, and has been working since the day he arrived. He has worked great in both our purebred and commercial herds. We have sold groups of his daughters to a producer in Alberta, and the F1 steers do great at the yards. All Achieve's calves are growthy and have a quiet demeanor. We have shown offspring from the commercials and purebreds as well. He's a sire to a few of the bulls in this sale. This bull's calves out-produce him, and we think his sons will do the same! Achieve remains on the farm to breed a group of females in 2026.

30 straws to be sold in packages of 10.

Donation LOT

Bouquet of Flowers & Tractor Stools

Brookhill Farm is home to three generations of 4-H members. Our kiddos are part of the Crown Hill 4-H Beef Club and when we offered the club the chance to add a lot as a fundraiser, the members immediately jumped on it!

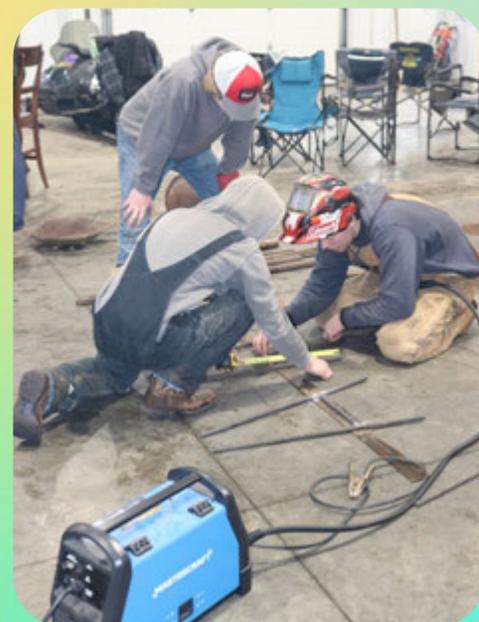

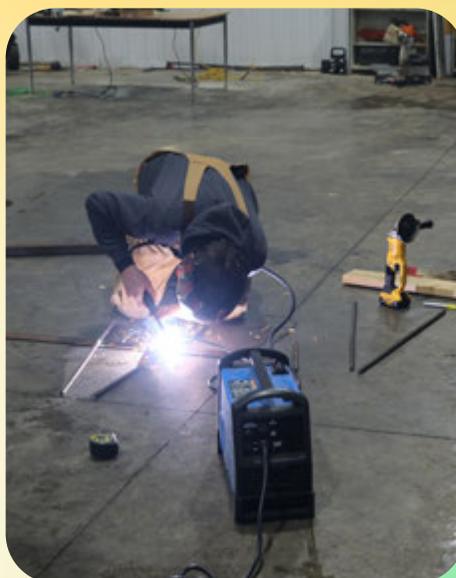

All proceeds from this lot go back to the club and their activities. There are currently 12 members in the club, with projects in beef and sheep. They plan to use the money to continue to support learning, opportunities, club activities and prizes for Achievement Day.

The 4-H members worked together to hand-make this project.

Stools can be painted the color of the buyer's choice or taken as is.

4-H
BEEF CLUB

Just Acre Farms

Just Acre Farms is a mixed grain and cattle operation located west of Yorkton, Saskatchewan.

Our cattle herd consists of commercial Hereford, Charolais, and Angus cows, as well as a small herd of purebred Herefords. We strive to raise functional cattle with sound feet, good udders, and strong maternal traits.

Our Hereford cattle are exhibited at several fall shows each year, including Harvest Showdown, Manitoba Ag Ex, and Canadian Western Agribition. We sell bulls and commercial females by private treaty off the farm each year.

We would like to thank Brookhill Farms for the opportunity to consign in their bull sale. Feel free to reach out to Jillian or Kristina with any questions.

DLMS Farmgate Auction Information

How to Participate in the DLMS Farm Gate Timed Auction with Extended Bidding:

- Visit www.dlms.ca, scroll down sale list to find the sale you are interested in bidding on. Click on the sale listing and you will be taken to the Farm Gate Timed Auction Sale page.
- After you are at the Farm Gate Timed auction site - farmgatetimeductions.ca, click the LOGIN/REGISTRATION button.

First time Farm Gate users:

- First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the Farm Gate Time Auction Site requires a new separate account from your DLMS Live sale site)
- After you create your Farm Gate account you will receive a text message with a pin code to verify your account.
- On your first login to Farm Gate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning Farm Gate users:

- If you have used Farm Gate Timed auctions in the past simply enter your username and password to continue. After you have logged in you are able to browse the timed auctions on DLMS Farm Gate Timed Auctions.

How to Bid:

- Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.
- Place Next Bid – to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.
- Max Bid Amount – to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.
- Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

Watch List Feature:

- If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list, you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

Sale Ending / Closeout:

- Most Farm Gate Timed Auction sales close racehorse style with extended bidding.

What is Racehorse Style Close?

- Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will Extended Bidding works?

- When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

Bidding Close & Follow-up

- After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidder you can contact the sale consignor / sale manager to confirm payment instructions.
- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale Manager and/or Sale Consignor.
- For more information and assistance with bidding contact: DLMS Farm Gate Timed Auctions ~ Mark Shologan Ph: 780-699-5082
