# BULL RUSH

## Simmental Bull Sale

RIMBEY AGRIM | RIMBEY AB | 1:00PM MST

FEB 26 2026

Welcome

Welcome everyone to the 24th Annual BullRush Simmental Bull Sale. The year of 2025 will go down as a historic one for the cattle industry. With cattle inventories at long time lows and demand for beef being very strong, this combination of circumstances has lead to an exceptional era that we are in. As we enter this New Year of 2026 the fundamentals appear very solid, and projections are for this next calf crop to do extremely well within the markets. With that being said we are all aware that cattle production, especially when it comes to breeding plans, is a longer term ideal. At BullRush you will find many different options to enhance and fulfill your requirements when it comes to your own individual breeding programs, that will set you up for profitability for the years to come. The consignors have worked very hard to supply a great selection of bulls for you to choose from. If you are in the market for some replacement heifers, be sure to take a close look at what we have here at BullRush. They are like the bulls, suited to fit different programs and will definitely capture your attention. If you have any questions on individual animals, be sure to contact the consignor, they will help you out and ensure you are taken care of. I would like to give a heartfelt thank you to everyone that has supported this sale and welcome all to come and enjoy a nice meal, check out the animals on offer, and take in this years sale.

On behalf of the BullRush Group,

*Duane Movald*

## Consignors

### STONE SIMMENTALS

Blair & Sheryl Stone

Cell: (780) 312-4225

Blaine & Susann Stone

Cell: (780) 312-0098

### STOUT BROTHERS SIMMENTALS

Cameron & Mackenzie Stout

Cameron Cell: (403) 963-1034

Mackenzie Cell: (403) 913-9453

### MOVALD RANCHES

Morris & Linda Movald

(780) 696-3419

Duane Movald

Cell: (780) 514-6970

Bulls may be viewed at each consignor's farms prior to Feb 24, and available for viewing at the Rimbey Agrim Center starting Feb 25.

Bring your trailer & take home your bull on sale day and take off \$100.00 from purchase price.

STONE MS ALAJUELA 102T

"Linus" is a bull that comes from one of Caleb's most productive animals, "Cookie." "Cookie", like most of the Epic daughters, is very long-bodied and built with a foot structure made to last, which is why he is second to the famed "Casino" for daughters working on the farm. Pairing her with "Gelinas" was a no-brainer for us and we have "Linus" to show for it. "Linus" carries a long frame, but also has width over the top and certainly has that herdsire look to him that we all are after. He is definitely one you don't want to miss.

6

*Dam* **STONE MISS KASINO 83F**

ANCHOR D HIAWATHA 87S  
STONE MISS KHLOE 167Z  
R-FIVE KANDY

Mr Satchwell is our lone Marquee son in the sale. Marquee adds loads of hair and depth to his progeny as well as Mr. Fix it All (feet, muscle, attitude, bone and improved udders, says Harry). You can also appreciate the dam and what she has to offer, she goes back to our beloved Casino, who walked these pens on solid foot and pure muscle power for over 9 years. Mr Satchwell will be a solid choice when it comes to passing on great solid calves.

8

## STONE CS SORCERER 115N

Polled | Full Fleckvieh | BSSR 115N | 1532475 | Jan 21 '25

BW	WW	YW	CE	BW	WW	YW	MWWT	MCE	MK
102	ACT 810	1270	6.4	5.0	82.4	116.2	76.9	3.7	35.7

	ANCHOR D ZILEY 392Z		STONE CS COOKIE 89F
	HEMR MILEY 7W		STONE MISS. KEHEI 39Y

"Sorcerer" is the polled product of "Sapphire 115J", another one of Caleb's cows. "Sapphire" is more moderate in makeup in comparison to her mother, "Cookie" whose son also sells in this sale. But what she doesn't have in size, she makes up for in quality, laying down this incredible "Abracadabra" son who is royally bred himself, going back to Creed on the top and the great Ziley on the bottom. "Sorcerer" himself is as soggy as his father and is ready to work his magic on your herd. **Polled**

9

## STONEZ MR NIXON 69N

Claiborne County is extremely long bodied. Here is our first calf crop from this sire, Claiborne, who was purchased for use on our commercial cows but we soon felt he should be tried out on our purebreds. If you are looking for more weights at the market this is your guy. His daughters have also been exceptional, feminine and foundationally perfect from size to hair to foot. Take this guy home, produce some amazing mama cows, and get top dollar for soggy weaned steers. **Non Dilutor**

"Bregman" comes to you from a female of Caleb's, that goes back to his first show heifer, "Brownie". Bregman's dam is a big-bodied "Gelinas" daughter, "Gelinas" has already got his spotlight for his sons, but his daughters also need their hype. Truffles herself has that cowy look to her and when you combine that with Duran's star studded pedigree, you really can't go wrong. "Bregman" has some great genetics from the very best producers of the industry.

STONE MISS VIENNA 71E

Bobcat is out of Milaya's 4-H heifer, Kavenna an outstanding Reputation female, who was bred to Wildcat our heifer bull. We are currently going through his second calf crop, these are easy calving, and perfectly sized for heifers. Bobcat has calving ease built into him through both the top end and bottom end.

## TERMS & CONDITIONS

**TERMS:** The terms of the sale are cash or cheque payable in Canadian funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

**DELIVERY:** Bulls will be wintered free of cost until April 1, 2026 providing the bulls going back to their farm are insured for all risks from the date of sale until the purchaser obtains possession. After such date there will be a \$7.00 per head per day charge per bull. Assistance with delivery arrangements will be made available at cost.

**FLECKVIEH STATUS:** All bulls are at least 5 generations Fleckvieh are considered Full Fleckvieh. Fleckvieh percentages are determined by each individual consignor to the best of their knowledge. It is recommended if further research is required, to check with the Simmental Association

**CERTIFICATE OF REGISTRY:** After settlement has been made the buyer will be provided with the proper registration papers, duly transferred on the record of the Canadian Simmental Association. Further transfer to the herd books of other countries shall be at the buyers expense.

**BREEDER GUARANTEE:** Standard terms set forth by the Canadian Simmental Association, with the exception where any animal is subject to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of buyers and public, neither the consignors, auctioneer, sales staff or facility assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

**FERTILITY & HEALTH:** All bulls have been under a full herd health program. All bulls will be semen tested prior to the sale, in order to assist our customers better. Should you have any questions please give us a call.

**INSURANCE:** Cattle are the property of the buyer as soon as the auctioneer declares them sold therefore buyers are urged to insure their animals. An insurance salesperson will be in attendance.

Geralt leads our string of bulls and the first set of sons from our newly purchased herd bull Reputation 146L we own with Ten Bar Cattle Co, known around here as Remix. We have been very pleased with his first calf crop as you can see from the sons, stamped with consistency, moderate in their make up with ample length, thickness and hair. Geralt is a result of an incredible flush from one of our top cows Siri. She has been a tremendous producer with a highlight daughter being the Pasture Treasure high seller a few years ago to Red Willow Ranch where she is now in their donor pen. His flushmate sisters stand at the top of the replacement pen and are sure to make some noise next fall. Dark red to the ground, smooth polled, soft sided and big hipped. He will make his own noise on February 26th.

	NCS MS JAHARI 18U		RICOCHET ULANA 80U

Probably the most complete fullblood bull in the pen and has had the look from day one. Moderate 92 pound birth weight with big growth curve to 1360 yearling weight. The largest framed of the Remix sire group out of a larger framed Shooter cow that has an impeccable udder. Length, thickness, softness, hair and scrotal, Metallica ties a lot of top qualities together. Some bulls don't need footnotes, they speak for themselves. Metallica will do just that. It's herd bull time here! **Non Diluter**

Another cookie cutter Remix son and you could use similar footnotes for the whole group. We really appreciate the constancy of his calf crop and are eager to get daughters into production. Zeppelin is a tank of a bull, thick butted and big bellied he is the epitome of the phrase belly dragger. His young dam is now two for two on calves and both her and her flush mate sister have picture perfect udders. If you like them polled, hairy with a ton of substance take note here. These are the easing doing types the feedlots love!

	NCS MS JAHARI 18U		BLUSHROSE FF IMPORT 53X

The youngest of the sire group and a touch more calving ease orientated coming from a low birth weight Gold Digger daughter. Remix also calved very well, so much so he bred 40 head this past spring with a large majority being second calvers. U2 is a bull that we feel would also work well in a second calver scenario with great success. Dark red, single googled with a touch more length, a bull that will sire a tremendous set of females. His steers will be good, but his females will be where he truly shines.

**Non Diluter**

## STBS EVERCLEAR 24N

Polled | Full Fleckvieh | STBS 24N | 1537287 | Jan 03 '25

82	ACT 765	ACT 1135	6.8	4.1	73.1	102.6	68.1	1.4	31.5

Heifer bull time! The lead off bull in the Radon calving ease sire group and rightfully so. Not the biggest bull in the pen but made right at every angle. Going back to our long time heifer bull Gold Digger on the bottom side adds calving ease on both sides of the pedigree. His dam is a moderate made, beautifully constructed cow with an ideal udder. Everclear should mature much the same and give you years of service in the heifer pen. Homo polled, free moving with as much muscling as you would find in a calving ease bull. This one has us excited, time for a little shot of Everclear!

Pearl Jam is the performance bull of the Radon sire group packing a little more jam than his brothers. This solid coloured, homo polled, good footed, masculine herd bull has been picked out by just about everyone walking the bull pen. Once again out of a young Epic cow that produced a full sister last year that looks to be setting up a good udder. Moderate birth weight, good performance and unique colour pattern for a fullblood, Pearl Jam provides a ton of intrigue.  
**Homo Polled Non Diluter**

Another Radon cross Epic combination that works so well around here. We have gone back to this combination time and time again. A high selling son in last year's sale going to Starwest Farms was this same mating and reports from Christel are very positive. A little too much power on the bottom side of the pedigree for the heifer pen but a bull that will work wonders on second calvers or the mature cow herd. Heavy haired, homo polled with a moderate birth weight, Weezer will have his fair share of friend's sale day.

 B BAR C DENAE  
 B BAR C ALBERTA

The youngest calf in our offering and keeping up to the big boys in the pen gaining just over 4 pounds a day on feed. Pretty impressive from a young calving ease bull with a 78 pound birth weight. We have calved out a couple different calf crops of Radon females and we are very pleased with the maternal qualities they possess. Good footed and sound on the move Blur can really cover some ground. We feel he is a very strong candidate for the heifer pen and have very marketable calves come fall.

A little different pedigree for us with Battle Cry on the top side and a young up and coming cow we purchased from Brian Miller. Styx has been a standout from day one and was king of the first calving pen of over 50 heifers. From an early age he displayed an incredible amount of growth and substance. Just an 89 pound birth weight and a very respectable 851 weaning weight, pushing down the scale with that extra length of spine that really adds pounds. Short marked and long as a wet weak, this one will keep birth weights in check and add performance to a calf crop.

**STBS BOBBY SUE 99H**  
 R-FIVE WARNER 80 W  
 STBS MARY-SUE 74C  
 STBS CURLY SUE 44X

Big hipped, hairy, polled bull out of the great Stuey bull here in ZZ Top. He has been on our radar from day one, his dam Bobbi Sue is one of our best cows and out of our top Susie cow family. We bred Bobbi Sue back to the same way after seeing his full sister at a young age. She has matured into the top fullblood in our bred heifer pen and look forward to getting her into production. If you're into cow families this is a bull you will want to own, this cow family flat out works and always gets it done. For dollars invested, ZZ Top could very well be the buy of the sale. Let's see who did their homework!

 STBS LOLA 79F  
 STBS LUCY 2B

A larger framed smooth polled Duramax son out of a good producing Viper daughter. She hasn't missed in her production career. Fay has put two bulls through the sale ring selling to the McDonaghs and Ten Bar Cattle as well as a top end daughter retained in herd. When we bred her to Duramax we were hoping for a heifer to add to this cow family as the Duramax females we have seen are tremendous females. R.E.M isn't the prettiest bull in the pen but is very sound in his make up and has many positive attributes. If you're looking for a maternal bull to add some replacements into your herd take a long look at R.E.M. The females will be rockstars. **Non Diluter**

If we could make all polled fullbloods like this fella we would. Soggy and thick as you can make one and backed by our leading donor cow we own with Beechiner Land and Livestock, Deloris. We flushed her to the calving ease homo polled Hendrix looking for a little more jam in a polled package and boy did we get it. Maybe a touch more birthweight here being an IVF embryo but a bull that should calve very easily on a mature cow herd. Jimi is a top end bull backed by a top end cow. Mark him high on your list.

	FSCI AWA B408		WFL RED SAGE 1003Y
	CNS BLACK STAR T702		3D MISS SAGE 140W

The stud of the pen and in our opinion the most complete bull we have on offer. Krampus was in dam from a pregnant recip we purchased from Canadian donors. He is an own son of the legendary Sage 506c who has had as big an impact on the breed as any cow in the Simmental industry. At 11 years old her genetics are still high in demand. This past December she sold for a whopping \$92 000 as a mature cow. Krampus himself has a masculine presence with his heavy crest, big hip and his overall herdbull presence while remaining sound in his make up. A very usable 100 pound birth weight and weaning off at just over 900 pounds at the end of August. This is a big-time bull, with big-time performance with a big-time future!

Switchfoot is a calving ease prospect we score very high. Heavy haired, sound footed with ample thickness and a big ol tool set. We have used his AI sire for several years on our heifers and have been very pleased with the calf quality. They come easy with great vigour and perform well. His dam Mary Jane has been a good producer being 3 for 3 in her young career. Ranking near the top of the breed in both CE and BW EPDS, Switchfoot provides a ton of versatility. Whether you're looking for a heifer bull with some performance or a calving ease option for the cow herd, Switchfoot should be at your forefront.

SKORS RED FORTUNE 176Y

A dark blood red, soggy individual here. Foo Fighter is the lone bull off a new AI sire we have been using Tillman. In a small sample size, we have been very pleased with the performance, colour, and foot quality of these Tillman calves and will continue to utilize his genetics for his added performance. Foo Fighter was born a twin, lowering his weaning weight slightly but has performed well since hitting the feed bunk. A set of steers or replacement heifers of his colour and quality will have the buyers standing in their seats. A very solid bull worth a second look!

SWANTEWITT VERA 57U

A more traditional coloured purebred here and the first red catalyst bull we have offered. As with previous years these Catalyst calves have some punch. Larger framed thick cattle that really perform. We have calved out two sets of daughters now and they are proving to be terrific mothers with tight udders, heavy milking and that added frame we are trying to incorporate in both the commercial and purebred herd. Cream's full sister produced a bull in the black section on her first try and just laid down and had another ripper of a heifer calf. If you're looking for a red performance bull to add some jam, frame and some colour to your calf crop, mark Cream high on your list!

SEVEN-M BONITA 24D  
SEVEN-M LADY BONITA 17B

We start the black section with another big framed Catalyst son and the heavy weaning weight bull at mere 934 pounds at the end of August. This is no accident as his full brother two years ago led the heavy weight division throughout his development. He went onto be a high seller to Calvin Danielson. For a performance sire we are pleased with the calving ease that Catalyst transmits and have used him on second calvers without issues. Look to Soundgarden to transmit these same traits and that added performance. If you have a set of British based cows that you're looking to ramp up.. here's your bull. **Homo Polled Homo Black**

A real complete black bull here and one that we are very high on. A very intriguing package of calving ease and performance in a moderate package. Sired by The National and out of our number 1 ranked heifer in our 2023 calf crop. She hit it out of the park with her first calf and as phenotypically correct as any cow on the place and could possibly be the first black cow to make our donor pen in the future. Blink 182 possesses an incredible EPD profile across the board along with real world attributes. A moderate birth weight and just shy of an 800 pound weaning from a first calver. Blink 182 will work in just about any scenario you ask of him, he's the right kind! **Homo Polled Hetro Black**

 RPP TRINITY 709T

A different twist in pedigree for black genetics being out of Red Summit and a Shadow cow on the bottom side. Not the first black bull noticed in the pen but a very solid individual. When Seger stepped on the scale at weaning we were quite surprised with his 893 pound weight. Another bull with a nice balance of calving ease and performance EPDs and the actual numbers to back it up. To further indorse, we are anxiously awaiting his full sister to calve which looks to be setting up a very tidy udder and stands near the top of the bred heifer pen. Seger will sire a great set of steers and heifers that will be a great addition to any herd. **Homo Polled Hetro Black**

 SWANTEWITT YASMINE 205Y

The first of two Captain Blaze sons and out of a full sister to 102N a few lotts ahead. We continue to use Captain Blaze in our AI program on both heifers and cows due to his short gestation, curve bending performance and overall quality of offspring. Thirty Eight- Special carries these characteristics, being born early with a 78 pound birth weight and not looking back, weaning just shy of 800 pounds off his first calving mother. Finer boned, short gestation and low birth weight, this is one that should work quite well in the heifer pen or a sleep easy cow bull. Whatever you decide, Thirty Eight-Special will be a very solid investment. **Homo Polled Hetro black**

## STBS MATCHBOX 20 44N

Polled | Purebred Simmental | STBS 44N | 1537368 | Jan 07 '25

78	ACT 780	ACT 1310	12.1	1.4	80.7	120.7	65.6	9.3	25.2

Another early gestation Captain Blaze son with short gestation on both sides of the pedigree. His full brother was the Bull Rush high seller in 2023 to Kenton and Katie Daneilson. Matchbox 20 is a little more calving ease then his brother but is impressive in his own right. I liked him at weaning but love him now. Good hair coat, beautiful blaze, solid feet and mothered by a shadow cow that can really milk. Looking for a black baldy heifer bull that doesn't sacrifice growth? Matchbox 20! **Homo Polled Hetro Black**

-------------	---	------------	--

The lone angus bull in the offering as we ran very heavy on heifers last year. Ozzie is sired by our high selling bull a few years ago to BNK Cattle Company. We purchased a semen package back and have been using him on a few cows to add extra performance. Out of a solid Glesbar cow that is getting up there in age but still brings in the goods every year. Moderate and thick, Ozzie carries himself on a very good foot and correct structure. Whether you're looking for an angus bull to throw on some simmi cows for some hybrid vigour or a herd of angus, Ozzie will perform in spades.

## MOVALD RANCHES

*Movald Ranches*

From all of us at Movald Ranches, welcome to the 2026 edition of BullRush. To everyone that shows interest and supports our program a huge thank you! It is great to meet and chat with the many people that we do over the course of a year, and also make new acquaintances along the way. This year with our contributions to BullRush you will find some select sons of Adair Ranch 518H whose offspring are excelling within our herd. Several sons of Mr Sr Highlife G1609 and they are some truly great and functional cattle. Check out the Otis Y43 sons, they will catch your eye, and a traditional Polled Full Fleckvieh Sunny Valley Freedom son that checks off all the boxes. You will find a variety to peruse from when it comes to the different strains of Simmental from Fullblood to Reds and Blacks, we have selected our very best to showcase at this sale. If you have any questions about the bulls and how they may fit into your program just give us a call, text or email. Always happy to chat. Thanks for taking some time to look through the catalog and we look forward to seeing you at the sale.

Out of our Stella line of cows comes this mild-mannered son sired by KKH Killswitch 276J a bull that we purchased from Tri K Cattle just a few years back. This young fella saunters around like an alley cat and is backed by the 171G Hotshot dam that has a ton of capacity. He is very long bodied and the Stella cows are known for their longer skulls that help facilitate additional calving ease. This line is known for their frame to enable those extra pounds to be added that you really notice at weaning. A good young bull. **Homo Polled**

## MVRN POL BLK HI-LIFE 116N

Homo Polled | Purebred Simmental | RT 116N | 1525626 | Feb 2 '25

BW	WW	JAN 5 YW	CE	BW	WW	YW	MWWT	MCE	MK

	MISS SR D1609	MVRN POL BLACK HALO 256C
	MISS SR Y1102	MVRN POL BLACK HAZE 320Y

Long bodied, black with a blaze face and a great haircoat are the first things that come to mind when looking at RT 116N. We chose the Highlife sire to utilize in our AI program for his extra frame, growth and highly sought after maternal traits that we want to instill in each generation of cattle that we breed. Another bonus of getting offspring from the Highlife bull is the stayability factor as the offspring are ranked in the 1st percentile in the breed. Momma cows that stay in your herd longer minimize heifer replacement and development costs and that simply adds to your bottom line. **Homo Polled**

## MVRN POL BLK HI-LIFE 119N

Polled | Purebred Simmental | RT 119N | 1525627 | Feb 2 '25

BW	WW	JAN 5 YW	CE	BW	WW	YW	MWWT	MCE	MK

	MISS SR D1609	MVRN POL GERDI 23D
	MISS SR Y1102	MVRN GERDI 45R

Another Highlife son with some chrome. He will add that touch of color that many are looking for. Blazed faced heifers bring a premium and these Highlife sons are geared to produce just that! With the pedigree on this rascal going back to High Roller as well as the Fleckvieh bloodlines on the bottom side, it simply strengthens the female producing traits you will need to maximize your bottom line. He is a mid frame plus sized animal that will impress you so be sure to look at him closely.

## MVRN POL RED CASH 131N

Homo Polled | Purebred Simmental | RT 131N | 1525630 | Jan 29 '25

BW	WW	JAN 5 YW	CE	BW	WW	YW	MWWT	MCE	MK

	CIRCLE G DEB 968G	MVRN POL RED SANDEE 75D
	D BAR C DEB 8118U	MVRN POL RED SANFRAN 91U

This is the first son out of one of our newest herdbulls Circle G Landmark 48L. Landmark has tremendous length, excellent breeding ability and a quiet disposition. We ended up getting a high percentage of females from him the initial go around, and his first calf crop were born easily and had good get up and go. Landmine has a really good thick quarter, wide back and has had that young bull look to him since he started filling out before a month of age.

**Non Diluter**

## MVRN POL PLAYBOY 151N

Homo Polled | Purebred Simmental | RT 151N | 1525632 | Jan 19 '25

BW	WW	JAN 5 YW	CE	BW	WW	YW	MWWT	MCE	MK
84	ACT 920	ACT 1195	7.3	3.9	86.3	126	62.3	4.4	19.1

	MRL MISS 4335B	MVRN POL RED FARA 184E
	REMINGTON WISE GIRL 235U	MVRN POL FARA 190Z

Out of our Fara line that we started from the old Bar None Finesse 189C dam. She was a deep bodied daughter of Bar None Shareholder that we had in our embryo transplant program as a donor. Many of those traits still show in this modern version. Another deep bodied more recent addition to those cows was the sire Oh Kay Dynasty 28D who is the sire of this bulls dam. Some folks follow bloodlines closely, others not so much, however when you get those cattle with exceptional capacity all can agree that it is beneficial to suit commercial cattle production. **Homo Polled**

	SUNNY VALLEY TRINITY 53Z		GRA-TAN SAGE 423F
	SUNNY VALLEY TRINITY 70T		GRA-TAN SAGE 177B

Big butted and wide backed is a good description of MVRN Pol Freeway 161N. A more traditional coloring on this guy and a polled head will leave some awesome offspring for either a commercial or a purebred program. Imagine crossing this bull with some dandy red Simmys and getting a boatload of blaze faced heifers to market, that would be money in the bank. It is hard to beat the milkability of the fullblood Simmentals so if that is something you wish to either bring into your herd or continue to strengthen then 161N would be a great option.

62

## MVRN POL RED CASHFLOW 169N

Homo Polled | Purebred Simmental | RT 169N | 1525634 | Jan 14 '25

BW	WW	JAN 5 YW	CE	BW	WW	YW	MWWT	MCE	MK
100	ACT 1135	ACT 1343	9.9	1.7	80.9	123.6	65.8	5	25.3

	MISS SR D1609		MVRN POL BLACK TERRIE 207Y
	MISS SR Y1102		ROLLING JN TERRIE 80T

Out of a young Proclamation daughter comes this beef machine designed to give you those mid framed calves and whether they are males or females will be the keeper types. If you follow API index numbers you will notice that 251N is sitting at 141 which is one of the highest you will find within the breed. His dam traces back to some Rolling JN genetics that we added into our black program. Jack and Shirley were breeding those good black Simmentals long before they are as popular as they are today. There is longevity here as we just sold the RT 207Y Maternal Grand dam this past fall. **Homo Polled**

## MVRN POL PHENOM 263N

MVRN LIONHEART LADY 91L

When describing this young bull, the first word that comes to mind is quiet. He has a laid back attitude and calm demeanor. Along with that comes a nice deeper red full hair coat and some longevity in production as his dam is 14 years of age and bred to calve near the end of January once again. These ones will make you money! A truly good honest bull here that deserves a real hard look.

## STOUT COMMERCIAL HEIFERS PEN OF 3 (LOT 71 & 72)

Once again, we are offering 2 lots of 3 heifers right out of the keeper pen. A bit different then in the past we decided to bring a group of black heifers back to town. These blacks are all Simmi X British heifers out of good uddered young cows that we are very high on. The fullblood group are all paternal sisters out of our Radon heifer bull. You can expect great udders and highly maternal females that raise the big ones!

## JENKINS COMMERCIAL HEIFERS PEN OF 3 (LOT 73 & 74)

Nick and Camile have been selling heifers with us for a number of years now and have garnered quite a reputation on the quality of their heifers they bring to town. This year they are consigning 2 lots and have upped the ante once again with these dark red baldys. The Jenkins invest a lot of money in their herdbull battery selecting top end bulls. Rest assured these females will flat out work!

**Nick Jenkins- 403-323-2555**

## PLETZ COMMERCIAL HEIFERS PEN OF 3

Another first-time consignor to the heifer section, Tyler and Karen Pletz. Tyler has a keen eye for cattle and has selected bulls from the Bull Rush sale for many years. Tyler opened his entire pen to pick from and we selected these three beautiful red blaze heifers. Born at the end of February these heifers have performed very well. Backed by great momma cows with tight udders, this trio is sure to hit a homerun!

**Tyler Pletz- 403-783-1565**

## DANIELSON COMMERCIAL HEIFERS PEN OF 3

We would like to welcome the Danielson crew as first time heifer consignors to the sale. They are bringing a set of fancy black blaze simmi cross heifers right off the top cut of their herd. They too spare no expense when it comes to herd bull shopping, buying top bulls year in and year out. Complementing an already powerful cow herd. Every year these heifers are sought after from buyers when they come on the market. Here is your chance to dig in and get their very best.

**Kenton Danielson- 403-844-5845**
