TERMS & *Conditions*

TERMS: Terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the information in the catalogue. All monies are in Canadian funds.

MAIL, PHONE OR WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

BREEDING INFORMATION: All cattle of breeding age are guaranteed to be breeders. Any export tests will be arranged after the sale, at the seller's expense. The standard guarantee as endorsed by the Canadian Shorthorn Association will apply.

PEDIGREES: The Canadian Shorthorn Association certificate of registration will be furnished with each animal sold, duly transferred to the purchaser after payment has been made. Proper instructions must be provided at the conclusion of the sale. Extensions granted on order bids only. Costs incurred due to incorrect transfer will be borne by the purchaser.

INSURANCE: Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value. Delivery: Every assistance will be given in arranging the shipping and delivery of your purchases. Each animal becomes the risk of the purchaser as soon as sold.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue. Liabilities: R&R Sales Management, the consignors, sale staff and representatives accept no responsibility for any accidents that occur. All persons attend the sale at their own risk.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that R&R Sales Management is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does R&R Sales Management assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. R&R Sales Management assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PIC-A-SPOT LADY ANNE 15F

At the 2024 Agribition Sale, our farm was fortunate enough to be the winning ticket holder on Saskvalley Maxine 109M, generously donated by the Lehmann family. This year, we are proud to pay that generosity forward by donating Lady Anne 10P to the sale.

This sweetheart of a heifer is backed by a cow family we have tremendous faith in. Off a first-calf heifer, 10P's dam did an outstanding job raising her, demonstrating the longevity, fertility, and functionality this line is known for. Lady Anne 2S remained productive until sixteen years of age, while 13Z stayed in the herd until thirteen.

Having made a lasting impact on our herd, we have every confidence Lady Anne 10P will carry on that tradition with a strong maternal foundation and a bright future ahead of her.

Don't miss your chance to own a piece of the Lady Anne legacy! Buy your tickets on Lady Anne 10P and be part of something special.

Style. Balance. Power. 3 great words to describe Six S Perfect Sol 85N! She went Undefeated in the junior heifer calf division all fall of 2025, was named champion female at Canadian Junior Nationals in 2026, champion Shorthorn Female at Josephburg and Barrhead Beef Bash. A heifer that is a true breeding piece, with many accolades under her belt already. With an eye-catching side profile, 85N ties it all together with tons of power, rib and width, and believe this female could be bred in many different directions to add all these features. We are offering the first ever flush on 85N! Flush to be done March-April 2027.

6 guaranteed grade A embryos any embryos after 10 will be split 50/50 with buyer and seller.

We've decided to sell this female right off the very top of our cow herd, it's always a difficult choice to sell your best, but we felt that it was time to offer one of this caliber. Knay Knay 103M has matured into an absolute powerhouse breed matron. She is wide topped, big barrelled, deep ribbed, excellent footed and perfect uddered. She is doing a fantastic job with her bull calf and we feel he has a lot of promise as well. She comes from the Knay Knay cow family which is proven to be one of the very best cow families in the shorthorn breed and is sired by the great female maker Diamond Hendrix 2H. Her full brother FCCC Safe Word 101M has also proven himself, siring low birth, high growth, explosive calves, with both shape and presence. Being bred early to the National and World Champion Gilman's All In 6K, the stars could literally not align any more perfect on this female. Don't miss the chance to add this impressive donor female to your herdbook, chances like this do not happen often.

Al'd to Gilman's All In 6K on April 2nd 2026, no exposure. Preg checked safe and carrying a heifer calf in vet's opinion

Retaining the right to 1 successful flush at buyers convenience and our expense.

This one is certainly hard to part with! Literally from the heart of our heifer pen, KCC Candy Clutch 12N is a true matron in the making. She is a broody JSF Manhattan 194J ET daughter, much like her mother. One must appreciate her mass and femininity. She is beautifully fronted and with an attractive skull. She carries a ton of capacity, and is laying down, what we believe, is a perfect udder.

The quality and functionality of the Candy Clutch cow family is deeply rooted. Daughters have produced high selling bulls and have contributed to our show strings.

Times Square, Pioneer, Clutch and ND Orange Blossom 26X3 have produced one powerful female that you can build a cow family around. 12N has an early service to our exciting new Junior Herdsire, JSF White Suit 242N - a paternal grandson of the great JSF Kendra 268G, maternal grandson of Byland Flash 9U100, tossed in with some McCoy and Tradition. Breeding excellence.

Selling full interest, retaining the right to one successful flush with a minimum of 6 Grade 1 embryos at buyer's convenience and seller's expense.

Preg tested safe for an early January calf. No exposure.

Veronica is a deep-bodied, clean-fronted heifer with a strong show presence and pedigree. Her dam is a $\frac{3}{4}$ sister to Tribute, sire is an Ag Ex Supreme Champion, and SHE'S CARRYING A CSF EVOLUTION CALF!

An exceptional opportunity to add a stylish, proven cow family and elite genetics to your program, offered proudly by Head For The Hills Shorthorns.

You will need to make a lot of miles to find a heifer calf that has the eye appeal and power that Valentine does. She was recently named Senior Heifer Calf Champion at the Olds Fall Classic where she received a lot of attention from Shorthorn and non Shorthorn breeders alike, and she is certain to hit the winners circle again.

Valentine also has greatness in her genes. Four "Val" heifer calves rung the bell at the 2026 Shadybrook sale averaging just shy of \$25,000, and Valentines full brother was Grand Champion Bull at Farmfair, Reserve Grand in Olds and the National Show at Agribition for Double Arrow Stock Farm in 2025. Lets also not forget the stir her two maternal sisters created during the fall of 2023 selling for \$50,000 and \$27,000. Valentine 4P may be the best of them, so don't miss your opportunity to own her on November 26th!

Retaining two flushes (IVF or conventional) with a minimum of six grade 1 embryos each at our expense and the buyers convenience.

This silver roan is a culmination of two great cow families. On the Stockmaster side, Princess Charlotte. A female that has written breed history with several of her sons being herd sires across the country.

On the bottom side are the Jenna's. Remember the old 85A cow, who is still in production at Bell M Farms, is the dam of the highly productive Shadybrook Juanita 97C. Just out of a first calf heifer, this is a high quality female that has production and longevity built in.

Here's your chance to purchase top quality proven genetics. 900P is the epitome of balance and eye appeal. She's a heifer you can look at from any angle and not find a hole. Correct on either ends of her skeleton, and put together with the kind of proportion that makes every piece of her work with the next. Her mother, Millbrook Maria FB 6J gained many admirers in the show ring. She's a two-time top 10 finalist at Agribition Supreme while also claiming the Shorthorn world champion title twice. Her sire, Dream Weaver is not stranger to the show ring— earning top in his division at the 2022 NAILE. We can't wait to see what the future holds for on this one. Don't miss out on this one-time opportunity!

What a terrific opportunity to acquire some elite genetics from the the 2025 Canadian National Junior Show Supreme Female, as well as being named the Reserve Grand Female at the 2025 RAWF.

Hill Haven Breathtaker Ally 4M has been a dominant show female from the moment we purchased her from Hill Haven Shorthorns. Ally is our go-to female moving forward for our program here at Diamond Future Cattle Co. We are offering choice of 3 embryos from each of these matings to these breed-leading sires.

We feel the mating to Gilmans All In 6K could be a fresh new breed changing combination of the Breathtaker cow family. As for the second choice, we wanted to go with a proven sire, so we choose Free K-Kim Hot Commodity. This combo will truly be a hit, as there is limited Hot Commodity semen available and his daughters have been elite in many herds.

Take your pick of which mating works for you, as this will likely be the only opportunity to get embryos out of Breathtaker Ally.

DIAMOND GUMMYBEAR CANDY 39G

ACC CANDY'S AMBROSIA 41A

39G was a past high selling female that we were fortunate enough to acquire a few flushes on. She is the ideal phenotype cow that exhibits both raw power and elegance. She is huge ribbed, long bodied, wide topped, but still has a very feminine front end and head as well as a picture perfect udder. She has proven herself to be a very useful asset for TGN Shorthorns and will remain a top donor for them for years to come. This is a very unique opportunity to acquire some of the best genetics in the breed. The embryos are sired by none other than the World Champion Gilman's All In 6K. Bid and buy with confidence on this proven mating.

Selling 3 embryos with a guarantee of 1 90 day pregnancy if implanted by a certified technician. Embryos stored at Bow Valley Genetics

Canadian and USA qualified.

Look Ahead 2306 was the record high seller at the Great Shorthorn Revival. After a successful show career, he is proving himself an outstanding sire. Breeders from Maine to California and Texas to North Dakota are putting him to work, with goals ranging from performance to the show ring. He is siring calves with clean, stylish front ends and serious power and thickness behind, with remarkable consistency. Now it's Canada's turn, with the first opportunity to use him here. Homozygous polled, defect free, myostatin free.

Canadian qualified semen stored at Northland Sires Inc., North Dakota. Use on cows 90.4% or higher for registerable daughters.

We have decided to open the tanks one more time and offer for sale semen on the legendary Gilman's All In 6K. All In needs no introduction; in 2024, he was named the Farmfair and Agribition Grand Champion bull, as well as being crowned World Champion. His calves are consistent and have been stamped with his style. The offspring he has had over the partner herds and First Class Shorthorns is proving All In to be a genuine breed changer, and more importantly, a herd enhancer. This semen has not and will not be offered regularly, so if you hesitate to jump on this chance, you very well could miss your opportunity to add this powerhouse to your program.

Semen stored at Bow Valley Genetics.

Rolls Royce R10 was the top-selling bull at Australia's 2022 National Shorthorn Show and Sale in Dubbo. He is an outcross performance sire who put up impressive numbers, all on grass: a 71 lb birth weight, an 842 lb adjusted weaning weight, and a 7.1% IMF scan at 13 months. He is extremely long-sided, big-footed and powerfully built. A daughter was the 2025 Royal Queensland Grand Champion Female. His maternal pedigree has North American roots: his dam traces back to Nelco Wild Lily L 4, a Montana cow born in the 1970s whose offspring were physically exported to Australia. Homozygous polled, defect and myostatin free.

Semen qualified for Canada and USA. Stored at Alta Genetics in Canada.

After a couple of calf crops Bell M Farms and Saskvalley Shorthorns have decided Stockmaster has more purpose and potential for the Shorthorn breed than just breeding our herds. Not another flavour of the month bull, Stockmaster adds predictability with nearly over 100 performance recorded progeny. Comments from those who saw him last summer during the Shorthorn World Tour was that they were in awe of his capacity and length of body in a moderate frame, but still able to move around like a cat. One of the active sire leaders of \$BMI in North America and a genetic profile designed to put dollars in your pocket. Homo-polled, solid red, heifer safe and defect free, he can compete with any bull, of any breed. This will be the first time the semen will be offered.

We've had an overwhelming amount of interest in this unique breeding piece. From fellow Shorthorn and prominent Limousin breeders to commercial producers and every breed in between, the feedback has been unanimous: "That bull is a breed changer!" He is not only right for the times, but a bull that will remain timeless in the breed. His foot structure is impeccable, his scrotal size is large and correct, and he remains flexible, mobile, and athletic through his joints.

With his first calf crop on the ground, use Memphis Blues with confidence to stamp masculinity, mass, muscle, ideal shoulder angle, and correct foot and leg structure into your herd. This is the ONLY semen being sold on the open market for 2026.

The more progeny we see South and North of the 49th, the more convinced we are that Manhattan will make them right, whether they are Red, White, or Roan. Check out our Manhattan daughter, Lot # 3. He did a remarkable job on this female!

Phenotypically, Manhattan transfers adequate bone coupled with good feet and leg structure. He is leaving progeny that are bold in the rib, deep bodied, strong topped, fuller rumped and level from the hooks to pins. The males measure well, mature and crest quickly and display an early interest in their female contemporaries. The females possess eye appeal, femininity, and neat and tidy udders. With nearing three hundred progeny registered in Canada and the US, it is evident that Manhattan's phenotype and genotype are making an impact in the breed.

Don't miss out on this opportunity!
